Figure 3. Explanatory for bathroom changes.

Why is this restroom all-gender?

Because it is important that all members of our community feel safe and included.

All-gender restrooms provide access to safe bathrooms and changing areas for people of any gender identity and expression. They benefit all people, including transgender and gender diverse individuals, people who require the assistance of a caregiver of a different gender, and parents with children of different genders.

This Restroom Contains:

Previously “Men’s” Restrooms

OR

Previously “Women’s” Restrooms

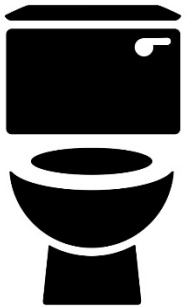

Table 1. Current All-Gender & "Unisex" Bathrooms Available to Public (N=4)

Building			Bathroom type		Condition & Concerns
Building Name	**Location in building**	**Signs**	**#**	**Type**	
Student Services Center	3rd floor		1	single-stall	No signs located on first floor that direct to all-gender restrooms. Students would need to go through closed glass doors to access third floor (gives impression that the 3rd floor is not intended for students). Current all-gender directional sign is outdated and binary. When walking down the hallway toward the all-gender restrooms, the first bathrooms are gender-segregated. There needs to be additional signs that direct toward the all-gender bathrooms.
Health Services	Back of office		1	single-stall	No signs outside the building or inside the lobby to indicate the presence of an all-gender bathroom. Students would need to ask to use the bathroom. Only available during office hours.
CORE Performance Center	1st floor		2	single-stall	Current all-gender directional, wall and door signs are outdated and binary. No additional signage exists in the building that directs toward the all-gender restrooms.
