APPLICATION FOR FELLOWSHIP
Academic Year 2017-2018
Deadline to submit: April 27, 2017 at 4 PM

The Sabbaticals, Fellowships & Awards Committee will consider your application anonymously. Only the committee chair and vice-chair will know the names of applicants.

Please respond to each item thoroughly, but limit your response to a reasonable amount of wording. Question 2 may be addressed in a matrix format as provided on page 4. Be sure that all necessary signatures specified on the final Acknowledgment page are secured when you submit your application. All applications must be typed and submitted and sent electronically as an email attachment to Kimberly James (james_kimberly@smc.edu). In addition, please note that the signature page must be submitted in paper form to Kimberly James (FV103) or left in Kimberly James’ mailbox in the English department which is located in Drescher 311 and must contain original signatures from you and your department chair.

1. Write a concise statement describing your fellowship project. Include your proposed objectives and activities.

I propose to complete an affordable Music Fundamentals workbook to be used in my Music 1 classes. The proposed workbook would include 16 chapters, containing exercises to help students master the areas in the course SLOs, to include: notes in treble and bass clefs, accidentals, major scales, key signatures, minor scales, modes and other scales, transposition, intervals, triads, seventh chords, inversions, musical analysis, cadences, and counting in simple and compound meters. I would aim to write one chapter per week in the fall 2017 semester, and to revise it during the spring 2018 semester. It would be ready for use in fall 2018.

2. In what ways will the outcomes of this project benefit your students and the college?

Learning how to read and write music, similar to mastering a foreign language, requires a diligent and persistent work ethic. This workbook would be used in every class session, giving students several pages of drills and exercises designed to practice and expand upon the lecture material. By completing exercises in class or as assigned homework, this workbook would help keep students engaged in class and prepare those who wish to continue their studies in Music 2. As many of our students cannot afford (and thus do not purchase) the suggested textbook for Music 1, which exceeds $88, this workbook would be a practical and reasonably-priced alternative. Ideally, it would be made available at our bookstore for under $20.

3. How might you share the benefits of your fellowship with the SMC community?

I would plan to share this workbook with my colleagues in the Music department, and it would be available to any who wish to implement it in their classes. As there are currently 10 sections of Music 1 offered at SMC—taught by 8 faculty members—the proposed workbook would have the potential to aid up to 300 students each semester. Also, I would plan to explore the possibilities of creating a Music 1 online course (which is not yet offered at SMC) using my workbook as a source of exercises.

4. How will you document your proposed fellowship activities?

Examples of documentation may include: detailed written report, research or scholarly paper, documented curriculum revisions, creative project, multimedia lessons/presentations, videos.

The final workbook would serve as my documentation for completing the fellowship. It would consist of approximately 80 pages. In addition, I hope to complete an “answer guide” to the workbook, though I do not plan to make this available to the students at this time.
You may address Question 2 of the Application in the format below. You may connect your proposed activities to each objective. You may copy and paste the table below on a separate page for each of your objectives.
