IV. Agenda:

A. Budget Scenarios For Academic Year 2011-12
Fiscal Services distributed the budget scenarios for 2011-12 that were first presented at the Board of Trustee Study Session held February 15, 2011. Scenario A assumed a $5.537 million state reduction. Scenario B assumed a $9.737 million state reduction. In addition, certain budget goals were also discussed. One goal was to achieve a balanced budget, addressing both the state funding deficit as well as the current operating deficit. Both scenarios A and B attempted to fully close the operating deficit by 2013-14. Another goal was to maintain a 7.5% fund balance during each of the next three years. Certain committee members felt this level of reserve was arbitrary, unachievable as well as undesirable during this period. Other committee members felt this level of reserve enabled the District to meet any unforeseen changes while being able to build and grow in later years, once this current funding cycle ends.

In its discussion of the budget outlook for the upcoming fiscal year, the Budget Committee made the following request of Fiscal Services: “The Budget Committee requests that Fiscal Services review all college programs and operations to seek areas of savings.”
This request received the unanimous support of the Committee and was passed by general consent. Fiscal Services agreed to perform this task. The Committee will agendize a review of this effort once completed.

B. Review Of Strategic Budget Plan Elements (February 15, 2011)
Following the Board Study Session held February 15, 2011, the Board of Trustee asked for the Budget Committee to review and provide input and feedback on the latest revision to the Board’s Strategic Plan Element’s Objectives and Principles dated February 15, 2011. The Committee reviewed both the Objectives and the Principles. After much discussion, the following motions were offered:
