RECOMMENDATION NO. 22 DESTRUCTION OF CLASS 3 RECORDS

It is recommended that the Board of Trustees approve the destruction of class 3 records stored for admissions and records, financial aids, and business services.

Comment: This is an annual recommendation for class 3 records which are disposable records that have been maintained for at least three years. This classification includes such items as enrollment cards, add-drop cards, purchase orders, periodic reports, and attendance records. All data from these source documents has been recorded on a higher classification record that is stored.

RECOMMENDATION NO. 23 GANN LIMIT, 1999-2000

It is recommended that the Board of Trustees adopt the 1999-2000 Gann Limit for the Santa Monica Community College District as $73,878,348 and the 1999-2000 Appropriation Subject to Limitation as $59,501,696.

Comment: The Gann Limit figures are based on the prior year limit amended by a State formula. The Appropriation Subject to Limitation is based on estimates presented in the Tentative budget for 1999-2000.

The Gann Limit is the maximum amount of tax driven revenues that may be budgeted by law. The Appropriation Subject to Limitation is the amount of tax driven revenues that are expected to be available for budget purposes. These tax revenues include state and local levied taxes. Because Santa Monica College has historically been a low revenue district, and because community colleges have not been funded at a rate which would keep pace with the growth and price inflator factors found in the Gann Limit, the appropriation amount is significantly below the Gann Limit.

-
RECOMMENDATION NO. 24 AUTHORIZATION TO TRANSFER FUNDS FOR 1999-2000

It is recommended that the Board of Trustees authorize Thomas J. Donner, Vice President, Business and Administration, to make cash loans between district funds whenever such transfers are needed to cover cash flow and to permit payment of obligations. The amount of any individual transfer to any fund shall not exceed $3,000,000.

These authorized transfers are temporary in nature, to be accounted for as loans between funds, and are not to be treated as income or as a contribution from one fund to another.

Any transfers made during the year shall be repaid by no later than fiscal year end. Any transfers within 120 days of year-end may be repaid next year, provided any such intended carry-over is reported to the Board.

A report of transfers made each month is to be provided to the Board in the following month or earlier. Transfers are to be in accordance with legal requirements.

This action and written authorization by the person herein designated may be used by the County Office of Education to permit transfers and repays.

BUDGET NARRATIVE

1998-99 BUDGET

In the 1998-99 Adopted Budget we projected apportionment revenue based on the Chancellor’s Office prediction that there would be funds available to those districts that had grown over their cap. This funding never materialized in the final calculation of growth funding as more districts actually met their cap than the Chancellor’s Office had originally predicted. This resulted in actual receipts from apportionment for 1998-99 being approximately $1 million dollars less than anticipated.

Even with the deficit in apportionment revenue our projections show that we will finish the year with an ending balance of $4,734,089 which is approximately 5.3% of the General Fund Budget.

The expenditure projections for 1998-99 do not reflect any increase to faculty salaries except for step and group increases. Classified salary increases covered by the current CSEA contract have been included in the 1998-99 fiscal year projections.
1999-2000 BUDGET

Revenue projections for the 1999-2000 Tentative Budget do not reflect any funding for growth over cap even though the Chancellor’s Office is again predicting that there will be growth over cap funding available and we would be eligible for it. We feel this is a more conservative way to budget revenues and if growth over cap funding is received in February 2000 we will bring an augmentation of the budget to the Board of Trustees at that time. The Tentative Budget revenue projections include a 1.41% cost of living adjustment and the $1. decrease in student tuition fees that are proposed in the Governor’s May revise to the 1999-2000 State Budget.

The revenue projections also include the on going Partnership for Excellence and Instructional Equipment/ Library Materials funds but does not include any new or one time only funding of either of these categories. Block Grant funding for 1999-2000 is also not included in our projections.

The expenditure projections reflect the hiring of 37 new faculty, full staffing for classified employees and appropriate step, column and longevity increases. The other areas of expenditures reflect actual expenditures for 1998-99 carried over to the 1999-2000 fiscal year with minor cost of living adjustments in such areas as insurance and utilities.

The Restricted General Fund only reflects those grants that are on-going or those that the Board of Trustees have already accepted for 1999-2000. This budget will be increased as new grants are received and accepted.

The other Funds reflect current year projections carried forward into fiscal year 1999-2000. Minor modifications have been made to reflect the information already received about these funding sources and we anticipated making more modifications as the funding for these special areas becomes clearer throughout the year.

MAJOR ITEMS OF BUSINESS

RECOMMENDATION NO. 46 RESOLUTION IN SUPPORT OF SCA 1

It is recommended that the Board of Trustees approve the following resolution in support of SCA 1 that would ask the voters to reduce the vote threshold to a simple majority for local school construction bonds.

WHEREAS, the capital outlay demands of the state’s 106 community colleges in 71 districts far exceeds the available state resources to address them; and

WHEREAS, a tidal wave of more than 370,000 new students will enter the community college system by the year 2005, a 30% increase over current enrollments; and

WHEREAS, over half of the buildings on our community college campuses are over 30 years old; and

WHEREAS, the California Postsecondary Education Commission estimates that $375 million per year is needed to maintain our existing community college campuses through 2005-06; and

WHEREAS, the California Postsecondary Education Commission estimates that $125 million per year is needed for the construction of new buildings and campuses through 2005-06; and

WHEREAS, the 1998 Bond Act will only provide $186 million a year for four years, but $500 million per year is needed for construction, maintenance, and renovation of our community college campuses; and
WHEREAS, approval of local school bonds by a simple majority of the voters would give communities greater flexibility in funding their facility needs, thus decreasing their reliance on scarce state bond funds;

THEREFORE, BE IT RESOLVED, the Santa Monica Community College District supports the passage of SCA 1 to place a majority vote proposal on the statewide ballot.

Comment: Senator Jack O’Connell has requested community college districts to support SCA 1.
