IV. SUPERINTENDENT’S REPORT

• Management Association Update: SMC Management Association President Erica LeBlanc reported that bond construction program team were the winners of the “Applause Award” for February. The Community Builder Award, given twice a year, was awarded in February to KCRW General Manager Ruth Seymour, who retired February 26th.

• Spring Semester – Opening Week Logistics: SMC had a smooth first week of the spring semester, with a traffic plan that was fine tuned and worked well, so much so that the college received no complaints from neighbors; the opening of the Bookstore the first Saturday, from 9 a.m. to 3 p.m.; the addition of a student photo identification station; and reports that ridership on the Big Blue Bus is up.

• Board of Trustees Study Session: The Board of Trustees’ study session Feb. 27 focused on beginning an exploration of ways to preserve existing college programs of instruction that carry out the college’s mission of excellence and maintain and enhance access by generating additional revenues. Ideas include student housing, expansion of contract education for non-resident students, development of on-site baccalaureate and graduate degree programs, and development of for-credit extension programming. The District Planning and Advisory Council will undertake a discussion of these issues beginning at its next meeting. Academic Senate President Eric Oifer has been asked to form an ad hoc Academic Senate Joint Committee to advise the college as it works to develop the proposals.

• State Budget: The state is taking measures to try to improve its credit rating, but the action could defer payments to all community colleges, creating complications and the possible need to borrow funds. The Legislative Analyst’s Office is recommending a student fee increase next fall from the current $26 to $40 a unit. That would generate $150 million statewide to support community colleges.

• Accreditation Visit: The 11-member accreditation team will visit SMC March 9-11.

• SMC’s Institutional Flex Day on March 18 will focus on basic skills, global citizenship and career and technical education, as well as student success with the screening of videos of students called “A Day in the Life.”

• Recognition:
  – The Board presented a certificate of recognition to adjunct communications professor Martin Goldstein for recently being named Part-time Faculty Member of the Year by the statewide Faculty Association of California Community Colleges.
  – The Board also acknowledged Trustee Nancy Greenstein for being named “Woman of the Year” in Julia Brownley’s State Assembly District (she will be honored March 8 in Sacramento) and for her winning the 2009 national Jeanne Clery Campus Safety Award for her work as the director of police community services at UCLA.

SUBJECT: SANTA MONICA COLLEGE AND SANTA MONICA-MALIBU UNIFIED SCHOOL DISTRICT COLLABORATIONS

SUBMITTED BY: Superintendent/President

SUMMARY:
The Santa Monica-Malibu Educational Collaborative was developed in 2007. The collaborative meets monthly to provide SMC and SMMUSD administrators and staff an opportunity to develop partnerships, work together on sharing resources, as well as execute the objectives of the Memorandum of Understanding (MOU) which the two districts entered into in May 2007.

Following are the key elements of the MOU:

1. The establishment of a Pre-K-14 Collaborative to ensure curricular articulation in English Language Arts and Mathematics and future collaboration in other disciplines.
2. The offering of college curriculum and courses at both the college and high school campuses based on identified individual school site needs in both core and elective programs;
3. The provision of summer program for high school students through concurrent and dual enrollment;
4. The shared use of facilities that benefits both district in terms of classroom and athletic spaces;
5. The collaboration and articulation of career and technical educational programs between the school district and the college district;
6. The development and anticipated implementation of the High School Transfer Academy (a middle college model) which provides the high school 11th and subsequently 12th grade students the opportunity to participate in the collegiate curriculum which will enable students to complete high school curriculum to meet graduation requirements as well as the transfer curriculum at Santa Monica College; and the Early College High School Program to be offered to the SMMUSD students from grades 9 through 12.

Along with collaborating on the objectives of the MOU, the group works to enhance existing programs, create new opportunities for students, as well as offer professional development opportunities for the counselors and staff through various CTE grants.

Dual Enrollment and SMMUSD
The Dual Enrollment Program offers high school students an opportunity to take college-level courses at their high schools. The project manager works with SMMUSD high schools to ensure that the program supports their needs. The program provides outreach material, enrollment services and a program orientation to all participating students in addition to supporting SMC instructors who teach at these high schools. Currently the program is offering four courses at Santa Monica High School and two courses at Malibu High School. These specific courses are outlined on the next page.
Fall 2009
- Santa Monica High School: Music 78- Jazz Ensemble, Music 84A- Guitar I, Music 84B- Guitar II, Dance 27- Brazilian Dance
- Malibu High School: Music 59- Chamber Choir, Music 78- Jazz Ensemble

Spring 2010
- Santa Monica High School: Music 78- Jazz Ensemble, Music 84B- Guitar II (2 sections), Counseling 1- Developing Learning Skills
- Malibu High School: Music 59- Chamber Choir, Music 78- Jazz Ensemble

SMMUSD Young Collegians Program

The Young Collegians Program, initially called the High School Transfer Academy, is the product of collaboration between SMC and SMMUSD. The goal of the program is to offer Santa Monica and Malibu high school students the opportunity to obtain a high school diploma and accrue college units simultaneously. The targeted population is comprised of students who have traditionally been underrepresented in postsecondary education, students who have not had access to the academic preparation needed to meet college readiness standards, students for whom the cost of college is prohibitive, students of color, English Language Learners, and first generation college attendees.

As a cohort, the Young Collegians participate in concurrent enrollment classes at SMC during the summer and are given the opportunity to individually take additional classes in the fall and spring semesters. The aim of the program is for a Young Collegian to successfully complete at least 14 SMC college units by the time they graduate from high school. The summer courses that the Young Collegians participate in are:

Year 1 - Speech 5 - Interpersonal Communication and Counseling 1- Developing Learning Skills
Year 2 - Music 36- History of Rock Music and Library 1- Library Research Methods
Year 3 - CIS 4- Introduction to Computers, Business Applications and Communication 1- Survey of Mass Media Communications

Along with the SMC summer classes, the Young Collegians are also expected to attend student success workshops, which provide career exploration, presentations from inspirational speakers, tutoring opportunities, team building exercises, in addition to computer workshops.

During the school year the group is brought together once a month for additional student success workshops which are designed to provide additional skills that reinforce their high school curriculum. These workshops support the techniques that the Young Collegians learn during the summer and continue to provide them with career exploration exercises, college readiness discussions and strategies, study skills tools, team building skills, college tours and one-on-one goal setting conferences.

The first cohort of students has remained intact and currently has 17 students participating. The group initially started with twenty three students in the summer of 2008. However, one student moved out of the area, another student transferred to Olympic High School, two students needed to make up high school credits during the summer of 2009, one students decided to take a summer job and not participate in the program and one was disenrolled due to very poor performance and participation during summer 2009.
The second cohort has twenty three students who started the program in summer 2009. The group started with twenty six students, one transferred to a private school and two have been disenrolled due to very poor performance and participation.

The coordinators of the program are working on establishing the third cohort who will start the program in summer 2010.

Career Technical Education and SMMUSD

Workforce and Economic Development through its Career Technical Education (CTE) grant is one of the sponsors of the 2010 SMC Latina/o Youth Conference. The conference is set for March 20, 2010, with a Career Technical Education emphasis, inviting junior/senior SAMOHI students to attend.

A collaboration between CTE, Tech Prep and BSI is presenting a Professional Development Day entitled Pedagogical Strategies for Urban Schools – from Theory to Practice presented by Dr. Jeff Duncan-Andrade, Associate Professor at San Francisco State University and Co-Director of the Cesar Chavez Institute. The presentation will bring together SMC and SMMUSD teachers, counselors and administrators, Santa Monica nonprofits working with the SMMUSD and SMC student population, and Long Beach City College and LAUSD faculty, counselors and administrators.

Dr. Duncan-Andrade will talk about the support mechanisms needed to support basic skills students in career pathway choices and technical skills required for the 21st century. Goals for the workshop will include:

• Enable practitioners to engage in analysis and problem-solving grounded in the implementation of the student learning assessment cycle;
• Disseminate examples of effective student success efforts, how assessment findings can be used to continually refine pedagogy and practice to enhance student success, and how a culture of inquiry can be nurtured;
• Catalyze cross-conversations among communities of practice on building institutional effectiveness for student learning; and
• Provide new information about key issues that shape student learning, student success, and assessment efforts in the California community college and K-12 system.

The presentation will take place on Friday, March 19, 2010, 10 a.m.-noon, Main Stage at SMC.

The CTE Pathway orientation day for Santa Monica middle schools “Connect for Success” – a transition program to high school – took place on July 8, 15, and 22, 2009. The days consisted of three hours of activities involving the introduction of the technical careers available at SMC. There was a tour of the SMC technical departments and the SMC Sustainable House that took place for 180 students.

A professional development session with the principals of the Santa Monica/Malibu Unified School regarding CTE was held on October 20, 2009. The agenda covered an in depth look at CTE and what career pathways were underway at SMC. The SMC CTE department chairpersons gave brief overviews of their programs.

A professional development day entitled the Fall Counselor Day took place on November 5, 2009 with SMC, SMMUSD and LAUSD counselors. The agenda covered an in depth look at CTE, introduction of SMC’s CTE department chairpersons and brief overview of their programs, and a panel of “Hot Careers in the 21st Century” from industry professionals. Over 65 counselors attended with much interest and enthusiasm with plenty of time for Q and A, and networking time.
The Tech Prep grant facilitated the articulation agreement between SMC and SMMUSD for the Regional Occupation Program (ROP) Careers in Teaching Course. Students who take and successfully complete the exit exam for this high school course will receive credit for the SMC Education 1 course. This will allow the student avoid repetition of courses. The Tech Prep program is also working on articulating the SMC Photography 1 course with the ROP photography class at the high schools.

The Copernicus Project and SMMUSD

The Copernicus Project was a grant that integrated SMC with its community partners as part of the SMC and Santa Monica/Malibu Unified School District (SMMUSD)’s Education Collaborative. It is in these monthly meetings that discussions were held about collaborations and the idea of the independent study science class for Spring 2009 was born.

The concept of the independent study science class became an internship experience in which SMC/Copernicus Alumni were recruited to participate in a practical classroom experience at Will Rogers Learning Community. The collaboration between SMC faculty and SMMUSD teachers enhanced student learning at SMC and the local elementary school. In such a brief encounter, the SMC students helped organize the elementary school’s science expo and participated in hands-on projects the evening of Earth Day, April 22, 2009. A field trip to the SMC Planetarium was organized and took place on May 27, 2009. A former SMC student now attending Cal State LA and in the process of attaining his B.S. in Science and a teaching credential, is still engaged as he is an intern at JPL in Pasadena. From his JPL connections, he has continued to provide education curriculum, books and equipment for the Title 1 elementary school.

As a result of this collaboration, doors have been opened for SMC to assist Will Rogers with the STEM process, established contacts for Will Rogers with JPL, and most importantly, SMC has continued to recommend SMC students who want to continue their learning through the field work experience to Will Rogers.

The Copernicus Project was involved in the SMC Latina/o Youth Conference that took place on March 21, 2009. There was a science/engineering workshop conducted by Eric Lara and Luis Nuñez-Uribe, a Future Teachers presentation made, and participation in the career fair.

Santa Monica College- Malibu Program

The SMMUSD school staff and district staff have worked in a partnership to establish this program very quickly. All the logistical issues were discussed, problems solved and changes implemented very smoothly with a minimum of complication.

Classes start February 16, 2010 through June 6, 2010 at Webster School, 3602 Winter Canyon Road. There are portable rooms at the east end of the Webster campus used for the SMC classes. The following credit classes will be offered at the Malibu site:

- Art 10A, Design
- Art 20A, Drawing
- Engl 1, Reading and Composition
- Geog 1, Intro to the Environment
- Psych 1, Intro to Psychology
- Photo 1, Intro to Photography

Every section filled as soon as seats were opened. Seating was opened in increments of 10, 5, 5, and 5 over three weeks. Very quick enrollment.
The following Student Services were initiated in Malibu

- English Placement Testing was offered at the Malibu site on February 3 and 9, 2010. Admissions assistance was also provided.
- Bookstore purchasing and/or delivery were scheduled to reduce trips to the main campus.
- Individual calls were made to each student to ensure that students were aware of the location of classes. In addition, the faculty emailed enrolled students about Malibu issues.

Community Response

Individuals became aware of the program through various activities at Webster School and a Marketing Department ad campaign. Comments were very positive. Interested individuals were excited to see SMC in Malibu and were anxious to see what the offerings would be in the future.

One male student dropped in to apply and wants two classes to try things out. Another has been waiting to take college classes for a while and “this is going to be s-o-o-o-o convenient.” School staff and instructors seem curious to see how the program will work for themselves and parents. “I might take an art class after school,” was one comment from an instructor.
INFORMATION ITEM H

SUBJECT: INSTITUTIONAL COMMUNICATIONS AND GOVERNMENT RELATIONS

SUBMITTED BY: Superintendent/President

SUMMARY: The District’s institutional communications and government relations efforts are a component of District strategies to achieve institutional improvements.

Some District strategies have been at the State level (free flow, funding formula, equalization, stabilization). Institutional communication is the local component of these strategies (growth, recovery).

Other District strategies have been at the local level (fundraising, bond measures, local government grants). Institutional communications assist in the outcome (achieving campaign fundraising goals, voter approval of ballot measures, community support of government action).

Still other District strategies have been at the individual level (nonresidents, students, general public, private users). Institutional communications assist with enrollment, utilization of facilities and services, attendance, and facility rentals.

Current District strategies are evolving (value pricing, resource management, partnerships).

Assembly Bill 2297 (Brownley) is a current bill to amend Section 76140 of the Education Code, relating to community colleges. This section addresses nonresident fees. Existing law provides a formula for setting the fee that results in a reduction of the fee during times of State financial stress. Existing law provides a remedy for the University of California and for the California State Universities. This amendment would provide a remedy for California Community Colleges. Additionally, existing law requires the Board of Trustees to consider nonresident tuition fees of public community colleges in other states when adopting a tuition fee for nonresident students. AB 2297 would authorize the Board to adopt a fee that is no greater than the average of the nonresident tuition fees of public community colleges of no less than 12 states with comparable cost of living.

RECOMMENDATION NO. 1

SUBJECT: APPOINTMENT OF PERSONNEL COMMISSIONER

SUBMITTED BY: Chair, Board of Trustees

REQUESTED ACTION: It is recommended that the Board of Trustees confirm the appointment Barbara Greenstein to the SMC Personnel Commission to fill the vacancy left by Karen Bancroft. This appointment completes Karen Bancroft’s term through November 30, 2011.

SUMMARY: The process of filling a position on the Personnel Commission requires that two members be appointed by Board of Trustees; two members be appointed by the classified employees of the District; and the fifth member is appointed by the four appointed commissioners. The resignation of Karen Bancroft provided the opportunity for CSEA Chapter 36 to appoint Barbara Greenstein to the Personnel Commission.

Comment: The Adopted Budget needs to be amended to reflect the totals of the departmental budgets. The current system of the Los Angeles County Office of Education requires Board approvals each month for budget adjustments. Only the net amount of the transfers in or out of the object codes is shown. In addition to the budget adjustments, transfers result from requests by managers to adjust budgets to meet changing needs during the course of the year.
