APPENDIX A: 2011-2012 Quarterly Budget Report/311Q

SUPPLEMENT TO THE AGENDA: Institutional Effectiveness Data
Accountability Reporting for Community Colleges (ARCC) Report
IV. SUPERINTENDENT’S REPORT

- Management Association Report: Management Association President Judy Neveau reported that Deyna Hearn, Katharine Muller and Lisa Rose have been appointed to represent the Management Association on the newly formed SMC Strategic Planning Task Force.

- Updates:
  - Student Success Task Force: The newly formed Student Success Task Force co-chaired by Executive Vice-President Randy Lawson and Academic Senate President Janet Harclerode is off to a strong start. The task force was formed in response to a report issued in late September by the California Community Colleges Task Force on Student Success that outlines draft recommendations for a plan to significantly improve the success rates of students. The SMC task force plans to have a completed response to each of the draft recommendations, which the State Chancellor’s Office calls “sweeping in their scope,” by the beginning of December.

  - Athletics Program Review: Just three years after SMC Athletics was marked by internal conflict and the football team was put on probation for residency violations, the department has made a dramatic – and what the Western States Conference calls an “extremely successful” – turnaround. Athletics Project Manager Joe Cascio reported that WSC officials, who recently conducted a program review, were impressed with the changes made in Athletics over the past two years. In other Athletics news, SMC will begin offering a men’s soccer program in fall 2012 and the football team not only is undefeated in conference play, but could host a postseason bowl game. The eligibility issues have been resolved by moving eligibility processing from Athletics to Admissions and Records.

  - Emergency Preparation: The SMC Police Department has been coordinating earthquake and other emergency preparedness drills on campus and has conducted classes in which more than 200 individuals have been trained in emergency preparedness.

V. ACADEMIC SENATE REPORT – Janet Harclerode, President
RECOMMENDATION NO. 1

Total: $1,192,468

SUMMARY: In a huge boost to getting more underrepresented students into the fields of science, technology, engineering and math, Santa Monica College has been awarded a $5.8 million federal grant with UCLA to recruit such students, educate them and give them guidance and support.
The five-year Science, Technology, Engineering, and Mathematics (STEM) Grant was awarded by the U.S. Department of Education. The SMC-UCLA grant was one of 34 such awards to California community colleges, all Hispanic-Serving institutions, totaling $37 million statewide.

The grant is considered particularly important as the U.S. strives to be globally competitive in the science-related professions and as it seeks to improve the percentages of underrepresented minorities – in this case, Latinos, African Americans, Native Americans and women – in these fields.

Studies show that underrepresented minorities account for only about 18 percent of the science and engineering baccalaureates awarded and represent only about 28 percent of those in science and engineering occupations.

Funds will be used for a wide variety of strategies and activities to get students interested in science-related degrees and careers and guide them toward baccalaureate and graduate degrees. They include recruiting students, providing counseling and workshops, introducing students to formal research principles and practices, updating equipment and instruments, and offering summer bridge programs.

Santa Monica College will develop a STEM Scholars Program that will enroll 100 students per year to serve as the focal point for those interested in the sciences.

Studies have shown that organizing students into such groups, or cohorts, greatly increases the chances of success for them.

INFORMATION ITEM G

SUBJECT: MASTER PLAN FOR EDUCATION, 2011-2012

SUBMITTED BY: Superintendent/President

SUMMARY: In 1997, the College adopted its first formal Master Plan for Education, and the plan has been reviewed and updated in each subsequent year. In accordance with the College’s planning process, the document is extensively revised every five years as part of the long-term strategic planning process. This includes a review of the College’s Vision, Mission, and Goals statements as well as the identification of long-term strategic initiatives to inform the annual identification of institutional objectives. In Fall 2011, the College will again engage in the long-term strategic planning process, and the results will be reflected in the 2012-2013 Master Plan for Education Update.

A review of the College’s Vision, Mission, and Goals statements during the last strategic planning effort (which began in 2006) resulted in a substantive revision through which the four Institutional Learning Outcomes have become the central focus of institutional goals. Additionally, four strategic initiatives—Basic Skills, Global Citizenship, Sustainable Campus, and Career Technical (Vocational) Education—were identified.

This 2011-2012 update incorporates all of the efforts initiated over the last two years to more clearly document linkages within the overall institutional planning process—mapping each institutional objective to one or more of the Institutional Learning Outcomes Supporting Goals in an effort to make planning and decision-making more transparent and to communicate the connection between the mission statement and specific actions; including, as appropriate for each objective, references to strategic initiatives and action plans, program review recommendations, Board of Trustees Priorities, Academic Senate Objectives, accreditation recommendations and self-identified plans, and other planning documents; identifying an estimated cost and funding source (with a descriptive budget narrative) for each institutional objective; and describing methods to accomplish each specific objective and anticipated outcomes.

This update includes documentation of DPAC’s evaluation of the responses to the 2010-2011 institutional objectives, categorizing each as Completed, Substantially Completed, Addressed, or Not Addressed. (78.5% of the fourteen 2010-2011 institutional objectives were judged to be either Completed [57.1%] or Substantially Completed [21.4%], and the remaining three objectives were categorized as Addressed.) Finally, in an effort to make this planning document more complete and a more useful reference, a number of related planning documents are being included as references:

- Strategic Initiatives and Action Plans
- Program Review Annual Report
- Board of Trustees Priorities
- Accreditation 2010 Recommendations
- Accreditation 2010 Self-Study Planning Agenda
- Academic Senate Objectives
- DPAC Annual Report Summary
- Master Plan for Technology Annual Update
- Master Plan for Facilities Executive Summary
In preparation for formulating institutional objectives for 2011-2012, the District Planning and Advisory Council reviewed the major planning documents referenced above and developed numerous draft institutional objectives from the recommendations in these documents. The college vice presidents consulted with appropriate faculty and staff within their divisions prior to preparing a draft of objectives to be reviewed by the District Planning and Advisory Council (DPAC). All constituent groups represented on DPAC were also asked to submit proposed objectives for consideration, and DPAC’s discussion of the draft document resulted in a refinement of the combined list, with a particular emphasis upon limiting the number of objectives to those that are truly institutional in scope, measurable, and focused upon specific outcomes.

This final document was reviewed by the District Planning and Advisory Council and recommended to the Superintendent/President.

INFORMATION ITEM H

SUBJECT: INSTITUTIONAL EFFECTIVENESS DATA AND ARCC REPORT

SUBMITTED BY: Superintendent/President

SUMMARY: Institutional Effectiveness (IE) is the systematic and continuous process of measuring the extent to which a college achieves its mission, as expressed through the goals developed in a strategic or educational master plan. The current report provides longitudinal data for the set of performance indicators identified as appropriate measures of institutional effectiveness for Santa Monica College (SMC) in 2010-2011. Last year’s report on institutional effectiveness focused on the inventory of performance indicators to track and report institutional effectiveness that were readily available. The current document describes a more refined set of performance indicators, a result of the extensive dialogue that took place around the data with user groups, the Institutional Effectiveness Committee, and campus leaders in the last year. The performance indicators described in this document will be used to develop a report of institutional effectiveness that assesses the college's progress toward target goals that are being established. Future reports will aim to monitor progress towards the target goals and document the work that occurs to address gaps in performance.

The ultimate purpose of the institutional effectiveness process is to build and sustain college effectiveness. Institutional effectiveness identifies and prioritizes the college areas that need critical attention and improvement. Institutional effectiveness supports the process of collaborative inquiry among campus constituents by prompting questions and sparking robust discussion around college performance; it aims to drive evidence-based college planning and decision-making processes. Institutional effectiveness involves the work and commitment of campus groups; therefore, the dialogue of key participatory groups and campus leadership drive the process of identifying the appropriate indicators and target goals. Through this process, a total of 32 performance indicators were developed to assess the major areas of the college.

The data of the performance indicators can be found in the Supplement to the agenda. The discussions related to setting targets for each indicator are currently underway. Once targets are established and vetted through the various campus bodies, a final report will be produced later this academic year. The report should serve as a point from which to conduct further analyses of performance indicators and engage the college community in further inquiry to identify ways to improve institutional effectiveness.

ARCC
Accountability Reporting in the Community Colleges (ARCC) contains seven measures of student progress and achievement as they relate to the broad mission of the California Community Colleges to support transfer, degree and certificate completion, and basic skills. The measures developed for ARCC reflect a refinement of some of the measures from previous accountability initiatives, such as the Partnership for Excellence (PFE), as well as an expansive consultation process with education scholars and community college practitioners from the field. The legislation for Accountability Reporting in the Community Colleges (ARCC) requires that a college’s local Board of Trustees annually review the college’s ARCC report. No action is required by the Board; review of the narrative, and the selection of material contained in Supplement to the agenda fulfills this legislative requirement.

Teresita Rodriguez, Vice President of Enrollment Development and Hannah Alford, Director of Institutional Research, will present the Institutional Effectiveness data, as well as an overview of the Accountability Reporting for Community Colleges (ARCC).
RECOMMENDATION NO. 2

SUBJECT: APPOINTMENT OF PERSONNEL COMMISSIONER

REQUESTED ACTION: It is recommended that the Board of Trustees affirm the reappointment of Barbara Greenstein to the SMC Personnel Commission for a three-year term that commences December 1, 2011 and expires November 30, 2014.

SUMMARY: The process of filling a position on the Personnel Commission requires that two members be appointed by Board of Trustees; two members be appointed by the classified employees of the District; and the fifth member is appointed by the four appointed commissioners. The vacancy now created by the expiration of term provided the opportunity for CSEA Chapter 36 to reappoint Barbara Greenstein to the Personnel Commission.

RECOMMENDATION NO. 5  REDUCTION IN 2011-2012 PERKINS IV, TITLE I-C ALLOCATION

Requested Action: Approval/Ratification
Requested by: Patricia G. Ramos, Dean, Workforce & Economic Development
Approved by: Jeff Shimizu, Vice-President, Academic Affairs

Title of Grant: Perkins IV, Title I-C

Granting Agency: California Community Colleges Chancellor’s Office

Reduction in funding: $7,231

Matching Funds: $0

Performance Period: July 1, 2011 – June 30, 2012

Summary: On October 17, 2011, the District received notification that there would be a state mandated reduction in Perkins funding. This reduction to the 2011-2012 fiscal year funding is due to a continuing resolution recently passed by Congress, which includes a reduction of 1.3% to the current year’s Perkins funds. The reduction to the statewide grant allocation total amount is $643,274. District allocations are to be reduced by 1.27% from the Final Allocations released in May, 2011. Thus, SMC’s Perkins allocation will be reduced by $7,231.

The Chancellor’s Office will apply the reduction to the allocations and the second quarter budgets.

RECOMMENDATION NO. 9   HEALTH REIMBURSEMENT ARRANGEMENT (HRA) ADOPTION AGREEMENT

Requested Action: Approval/Ratification
Approved by: Marcia Wade, Vice-President, Human Resources

Establish a Health Reimbursement Arrangement (HRA) Adoption Agreement for SMCCD Classified Employees represented by California School Employees Association, Chapter 36 (“CSEA”). This Health Reimbursement Arrangement Adoption Agreement with Keenan and Associates will include classified employees as an additional class of employees. This class is listed as “Class C” (Classified) and is effective January 1, 2012.

The negotiated Agreement between the District and CSEA was ratified by the Board of Trustees at its October 4, 2011 meeting and by CSEA membership on October 12, 2011. Article 12 of this Agreement contains a provision which adds classified employees as an employment category eligible for a Health Reimbursement Arrangement which meets the requirements of Section 105 of the Internal Revenue Service Code of 1986, as amended.

The District presently has a service agreement contract with Keenan and Associates and with MidAmerica Administrative Solutions, Inc. (“MidAmerica”) which will add the classified employees category to its Health Reimbursement Adoption Agreement for inclusion of classified employees represented by CSEA, Local 36. An additional 451 classified employees will be offered the HRA. There will be a one-time deposit of $641,225.00 made by the District for the additional HRAs. The funds will be held in a group annuity contract. The one-time breakdown of the HRA options are for classified employees with the following health benefits plans as of December 31, 2011:

| Health Maintenance Organization: | $1,000.00 |
| PersChoice: | $1,000.00 |
| PersCare (single person) | $2,000.00 |
| PersCare (two-party): | $3,000.00 |
| PersCare (Family – 3 and above): | $4,000.00 |

The District will pay to the provider, each quarter, $7.00 per active participant.

Part time employees shall receive pro-rated payment of the applicable benefit equal to the percentage of the part-time employees full time equivalency.

Comment: The scope of the project has changed during the planning process which has resulted in additional work for the architect. Most of the effort has been to redesign underutilized space in the existing Gymnasium building for part of the program instead of adding more expensive new construction. The resulting design changes have increased the amount of usable space available to the programs in the building without increasing the overall construction cost. Additions to the project also include new landscaping between Parking Structure 3 and HSS as well as between the Gym and the Library.

13-D AMENDMENT TO AGREEMENT FOR PROJECT CONSULTING SERVICES – MALIBU CAMPUS

Amend the agreement approved by the Board of Trustees on October 4, 2011 with MASOUD MAHMOUD to m2 STRATEGIC, in an amount not to exceed $50,000 plus reimbursable expenses.

Funding Source: Measure S

Comment: The consultant requested that the contract be in the name of the business. All the other terms of the agreement are the same.

Comment: The Adopted Budget needs to be amended to reflect the totals of the departmental budgets. The current system of the Los Angeles County Office of Education requires Board approvals each month for budget adjustments. Only the net amount of the transfers in or out of the object codes is shown. In addition to the budget adjustments, transfers result from requests by managers to adjust budgets to meet changing needs during the course of the year.

**Highlights of Bond Construction Projects**

- The design approval process for the Student Services project experienced significant delay in the Los Angeles Office of the Department of the State Architect (DSA). The entire project has now been transferred to the San Diego Office where they have a better understanding of the project. It is hoped that DSA approval will be granted by February or March 2012 and construction will begin by Summer 2012.

- AET Campus: DSA approval of the parking structure is expected this week, and the District will be going to bid immediately for construction to start in January 2012.

- Performing Arts Center East Wing (Measure AA): The planning process is close to completion and construction will begin in 2012.

- Information Technology Relocation: The design phase is close to completion, the project will go to DSA for approval, and construction will begin in 2012.

- Math/Science Building (Measure AA): 40 percent of this project was to be funded by the State. However, the State is not preparing a construction priority list for next year’s budget. Therefore, the District will need to look other ways to fund this project and/or restructure the prioritization of bond construction projects within the confines of the bond language. The history of bonds is that funds run out, projects are reprioritized, and/or nothing happens for awhile. The District can shift funds from project to project, but not necessarily from bond to bond. The information from the state was just received four days ago, and it will take awhile to reprioritize the projects. The financial calculations on the Math/Science project will need to be redone since the initial estimates were made when construction costs were very high and have since decreased. All constituencies will need to be consulted. The planning process will take up to two years.
Financial Report

- The Bond Sales/Expenses report includes the 2010-2011 final report and first quarter 2011-2012 report. At this time, most construction projects are in the planning stage. Expenses will increase when construction projects begin.

- Tax-exempt bonds are issued as the need is projected and unspent funds are held by L.A. County and earn interest. Interest earned on funds not spent within three years may be subject to arbitrage calculations. In general, arbitrage is earned when the gross proceeds of an issue earn an investment yield that is materially higher than the yield on the bonds of the issue. In order to keep the bonds tax-exempt status a rebate of the excess interest income may be required to be made to the U.S. Department of the Treasury.

- The audit reports will be presented to the CBOC at the January 2012 meeting.

Articles on Los Angeles Community College District Bond Construction Program
The Los Angeles Times published another article on problems experienced by Los Angeles Community College District Bond Construction Program. There are various investigations taking place, and an audit released by the State Controller is critical of certain procedures by the LACCD. In addition, several of their major construction contracts are being cancelled.

There are numerous differences on how the SMCCD approaches its bond projects, compared to LACCD. Staff reported on the District’s practices that result in a successful, positive and transparent bond construction program.
