APPENDICES

A  Report: The Minority Male Community College Collaborative (M2C3)
B  Report: Counseling Services
C  Information: Community and Academic Relations
IV. SUPERINTENDENT’S REPORT

V. SUPERINTENDENT’S REPORT

• Recognition
  – The Corsair Wins 6 Awards in California College Media Association (CCMA) Competition and 11 Awards in California Competition sponsored by the Journalism Association of Community Colleges (JACC)
  – SMC Debate Team Wins First Place in the inter-college and university LMU California Cup Tournament
  – SMC Extension Program Wins the 2016 Excellence in Community Education Award from the statewide Association of Community and Continuing Education (ACCE)
  – SMC Wins Award for Stewardship of the Natural Environment from the City of Santa Monica, Santa Monica Chamber of Commerce and Sustainable Works
  – SMC alum and author Robert Wells presented his book *Voices from the Bottom of the South China Sea* to the Superintendent for the college library

• Updates
  – Enrollment: Growth is projected at 65 FTES, leaving 360 unfunded FTES representing $1.6 million in lost apportionment revenue. The budget will need to be adjusted to reflect the deficit. Enrollment is flat statewide due to the demographics of high school graduates.
  – City of Malibu 25th Anniversary Celebration: Kathryn Jeffery, Don Girard and Louise Jaffe attended the celebration in acknowledgement of Malibu’s 25th anniversary.
  – Superintendent’s Activities:
    o Dr. Jeffery has been invited to be part of a Leadership in Action panel at the College of the Canyons. She will be participating with presidents of 12 community colleges in the area.
    o There are a number of events being planned to introduce the Superintendent to the college and the external community. These will include events on the main campus and at the satellite campuses, during the day and in the evening.
    o Dr. Jeffery will be dancing in the Sand and Sea Ball on May 22nd with other community leaders. This is a fundraiser to benefit the Santa Monica-Malibu Education Foundation.

RECOMMENDATION NO. 1

SUBJECT: RESOLUTION FOR COMMUNITY COLLEGE MONTH

SUBMITTED BY: Superintendent/President

REQUESTED ACTION: It is recommended that the Board of Trustees adopt the following resolution in recognition of Community College month.

WHEREAS, the month of April has been proclaimed National Community College Month in recognition of the vital role the nation's community colleges play in providing broad access to higher education, serving nearly half of the nation's college students; and

WHEREAS, Santa Monica College serves students with a broad array of educational services including transfer education, associate and certificate degree programs, a bachelor of science degree in Interaction Design, career preparation, basic skills education, continuing education and lifelong learning in a variety of delivery methods including on-line education; and

WHEREAS, Santa Monica College, as an institution of higher education, provides for the understanding and learning needed to foster a livable and sustainable world; and

WHEREAS, Santa Monica College provides for the formation of global citizenship through knowledge of people, customs, and cultures in regions of the world beyond one’s own; and

WHEREAS, Santa Monica College supports the diversity of its students, faculty and staff; and

WHEREAS, Santa Monica College enjoys a special partnership with business, industry and government that benefits the regional economy by providing educational opportunities for new and current employees; and

WHEREAS, Santa Monica College is devoted to positive community relations and is a rich resource for the community including cultural programming, educational and career counseling and special events; and

WHEREAS, Santa Monica College has demonstrated that daily it fulfills its vision based upon “Changing Lives in the Global Community through Excellence in Education;” and

WHEREAS, Santa Monica College realizes its success in providing educational and cultural opportunities to the college community because of the excellence of its faculty and staff, and

WHEREAS, Santa Monica College has been a proud part of this tradition since 1929, being recognized locally and internationally as an outstanding institution of higher education; and

THEREFORE BE IT RESOLVED that the Santa Monica Community College District observe and celebrate National Community College Month during the month of April, 2016.

INFORMATION ITEM 2

SUBJECT: THE MINORITY MALE COMMUNITY COLLEGE COLLABORATIVE (M2C3)

SUBMITTED BY: Vice-President, Academic Affairs

SUMMARY: The Minority Male Community College Collaborative (M2C3) is a project of San Diego State University's (SDSU) Interwork Institute. The goal of the project is to partner with community colleges across the United States to enhance access, achievement, and success among minority male community college students. M2C3’s research and practice agenda prioritizes men who have been traditionally underrepresented and underserved in postsecondary education. In addition, the project supports community colleges in building the institutional capacity necessary to serve men of color effectively. M2C3 is co-directed by Drs. Frank Harris III and J. Luke Wood, associate professors at SDSU and scholars who are actively involved in research on community college student success, college men and masculinity, and research and evaluation methods.

M2C3 developed its “flagship” tool, the Community College Survey of Men (CCSM) which is an institutional-level needs assessment instrument designed specifically for measuring factors that influence student success for men, particularly men of color. The CCSM is typically used for establishing student outcome benchmarks, monitoring student performance, and identifying issues in need of enhanced attention. The implementation of this survey as well as focus groups with students, students in mathematics, and mathematics faculty members were included in Santa Monica College’s (SMC) Student Equity Plan. The following activities and objectives were implemented or are currently underway as part of the plan in partnership with M2C3.

- Administered the CCSM to conduct a comprehensive needs assessment of male students at SMC
- Conducted student focus groups with a representative sample of men of color at SMC
- Conducted focus groups with purposefully selected faculty and staff to obtain insights about their experiences in working with men of color at SMC
- Presentation and professional development workshops of findings to key stakeholders at SMC on an ongoing basis. Outcomes included development of strategies to prioritize reducing the equity gap in educational outcomes in all recruitment and hiring.

See Appendix A for complete report.
INFORMATION ITEM 3

SUBJECT: REPORT: COUNSELING SERVICES

SUBMITTED BY: Vice-President, Student Affairs

SUMMARY: Santa Monica College continues to provide strong and vibrant counseling services that extend across twenty-three special counseling programs and/or service locations. Thanks to the support of the District as well as specialized categorical funding sources that include SSSP, Equity, BSI, Title V, and more, the Counseling Department currently employs 181 counselors who provide academic counseling, psychological counseling, lead counseling-related student success workshops and/or teach counseling-related courses (Coun 1 - Study Skills; Couns 11 - Orientation to Higher Education; Couns 12 - Career Planning; Couns 15 – Job Search Skills; Couns 16 – Job Success Skills; Couns 17 – Orientation; Couns 20 - Student Success Seminar; and a series of specialized DSPS counseling courses).

Due to the infusion of new SSSP and Equity funding, Counseling and Special Programs have been able to pilot many new initiatives and projects.

These include:

- Collaboration with John Adams Middle School
- Brother-to-Brother and Sister-to-Sister Mentoring Program
- Adelante and the Latino Center-Noche de Familia (Family Night)
- Special Monthly Programs for Black Collegians and Adelante Students
- Counseling with an Equity Focus in STEM
- New Completion Initiative: MyEdPlan Online Counseling Review and Intervention
- New Completion Initiative: Transfer Completion Counselor Efforts
- Equity and Completion: New Efforts to Serve Undecided Students

See Appendix B for complete report.

RECOMMENDATION NO. 4

SUBJECT: CONTRACT FOR AUDITING SERVICES

SUBMITTED BY: Vice-President, Student Affairs

REQUESTED ACTION: It is recommended that the Board of Trustees approve the following contract for auditing services.

Provider: Vavrinek, Trine, Day & Co., LLP
Amount: $120,500 Year 1 – 2015-16
         $122,500 Year 2 – 2016-17
         $124,500 Year 3 – 2017-18
         $126,000 Year 4 Optional – 2018-19
         $126,000 Year 5 Optional – 2019-20

Term of Contract: 3 Years fiscal year 2015-16 – fiscal year 2017-18 with two one-year options

FUNDING SOURCE General Fund and KCRW Donations

SERVICES PROVIDED: This agreement is to provide auditing services for the following required audits: Annual Audit of the District Financial Statements (including general operations, grants, compliance and financial aid), Proposition 39 Financial and Performance Audits of the General Obligation Bonds and audit of KCRW Radio Station operations as required by the Corporation for Public Broadcasting.

SUMMARY: Four respondent proposals were received in response to the SMC’s Request for Proposal (RFP). An Evaluation Committee reviewed and scored the proposals based on the following criteria: Qualifications, Project Approach, Value Added Services, Technical Capability and Pricing. The committee interviewed three firms and selected the firm of Vavrinek, Trine, Day & Co., LLP (VTD) as the most responsive, responsible respondent.

VTD has been providing auditing services to California community colleges for more than 20 years and currently audits 28 community college districts. The firm has frequently collaborated with the California Community College Chancellor’s Office, Los Angeles County Office of Education, and the Association of College Business Officials on trainings and presentations. Their office is located in Rancho Cucamonga, California.

INFORMATION ITEM 6

SUBJECT: REPORT: COMMUNITY AND ACADEMIC RELATIONS

SUBMITTED BY: Senior Director, Government Relations/Institutional Communications

SUMMARY: The creation of the Community and Academic Relations area fulfills a major reorganization approved in October 2014 to bring together Community Relations, Marketing, web and social media, the Public Information Office and certain institutional functions into a coordinated administrative unit within the government relations and institutional communications umbrella.

Community and Academic Relations envisions itself as the communication hub for Santa Monica College, setting the institutional voice for the college to define the narrative for institutional publications, marketing campaigns, social media and traditional marketing strategies. We work to build relationships with the community, both outside and within campus.

Community and Academic Relations supports the Santa Monica College mission by providing vital information to the students, faculty and staff and other community stakeholders to support ongoing relationship and brand-building efforts to meet enrollment targets.

Community and Academic Relations brings in direct engagement of the public through public programs (The SMC Associates and the General Advisory Board) and through support of academic programs and college initiatives (Public Policy Institute, GRIT). The SMC Associates raises funds to foster and encourage scientific, literary, educational and artistic endeavors at Santa Monica College with the goal to Enrich, Inspire and Engage our students. The General Advisory Board is a community ambassador group who learns about SMC and shares information about the college with the Santa Monica community.

DISCUSSION ITEM 7

Deferred to May Board of Trustees Meeting on May 3, 2015

SUBJECT: BOARD OF TRUSTEES’ BUDGET OBJECTIVES AND PRINCIPLES

SUBMITTED BY: Chair and Vice-Chair, Board of Trustees

SUMMARY: The Board of Trustees will review and discuss updating Budget Objectives and Principles adopted on May 1, 2012 to reflect current budget realities and projections.

COMMENT: During the last five years, the California Community Colleges have experienced the worst and the best budgets in the State’s history. For example, in 2011-12, at the heart of the recession, the State reduced the Districts apportionment payment by <$9.3> million. At the opposite end of the spectrum in 2015-16, the State increased the Districts apportionment by more than $8 million, mostly due to one-time adjustments to the base. The college’s previous high water mark for apportionment came in 2008-09 at $108 million; the lowest in 2011-12 at $98 million. The District did not recover to the $108 million mark until 2014-15. While the District’s apportionment has recovered from the lows of the recession, mostly due to one-time base allocations in 2015-16, there are still some major issues of budgetary concerns that need to be addressed including:

1. New state growth allocation formula
2. Funding of STRS/PERS benefits increases
3. Funding of STRS/PERS future pension obligations
4. Funding of OPEB obligations
5. Flattening of enrollment for Resident and Non-Resident students
6. Reliance on one-time funds to offset the operating deficit
7. Uncertainty of Proposition 30 funding
8. Increases in expenses higher than COLA
9. Finalization of the Governor’s Budget for 2016-2017

The District managed through the state budget funding decreases during the recession and avoided layoffs of permanent employees by using a portion of its fund balance of over $23 million and maintaining unfunded FTES, which was used to capture growth/access funding when available. Currently, the projection for the fund balance is $18 million with the District only able to capture 65 credit FTES of the available 432 credit FTES of growth. However, a review of the Board’s strategic planning Principles and Guidelines is needed. With this as guidance to aid college-wide planning, SMC can develop a budget strategic plan that aligns more realistically to the dynamic fiscal changes and continue to move forward as the premier community college in the State.
BOARD OF TRUSTEES BUDGET OBJECTIVES AND PRINCIPLES  
Adopted May 1, 2012

OBJECTIVES

1. Develop a budget plan guided by benchmarks that brings available ongoing revenues and expenditures into balance effective with the adoption budget for 2013-2014.

2. Protect the College’s ongoing operation by maintaining a fund balance for the District of 5% or more going forward from 2012-2013.

In a time of state-mandated limits on resources, the following are the Board of Trustees guiding principles.

PRINCIPLES

A. The College is committed to student access and success and service to the community.

B. Ensure that enrollment targets are consistent with the state-funded FTES cap, and, to the degree that they are the basis for revenue projections, can realistically be achieved within the fiscal limitations of the College.

C. Maintain course offerings that are responsive to student needs and consistent with the State priorities of transfer, career technical, and basic skills education.

D. Programs will not be eliminated or reduced without careful review.

E. Establish and maintain an acceptable cost effective level of learning resources and student support services based on comparative performance data as determined by the College.

F. Develop a variety of expenditure reduction strategies.

G. Expedite changes that may produce lower costs over time such as energy saving retrofits, alternative energy sources, reduction or consolidation of facility usage, etc.

H. Where possible and practicable, use staff attrition and/or existing vacancies as one means of reaching budget targets.

I. Seek to spread cost reductions equitably.

J. Avoid layoffs of permanent employees. Seek salary freezes, furloughs, salary reductions, and other temporary or ongoing adjustments.

K. Continue to seek external sources of funding, such as grants, to support the College’s core missions, but avoid those with matching, management, or reporting requirements that demand significant college resources.
L. Develop a budget process that manages the growth of expenditures based on: analysis of program need (rather than historical allocations); realistic expectations of revenues; updated market information; and performance measurements.

M. In light of the current State-imposed funding reductions, review ongoing and future planning initiatives in terms of their long term advantages to the College in meeting public demand for services, improving student success outcomes, or to provide new revenues. Modify, defer, or abandon as appropriate those for which the costs outweigh their potential for furthering the College’s core missions and goals.

N. Make effective use of the College’s established planning structures and processes to recommend specific actions to reach the stated objectives, following the principles listed above. The College President shall clarify how these recommendations will be evaluated and the timelines necessary to arrive at a set of final recommendations for any particular budget cycle.

O. Benchmarks will be used as a guide to inform the decision-making process.

**3rd Annual Global Ecofeminism Conference**
Building on the activities, presentations, and workshops of previous conferences the 3rd Annual Global Ecofeminism Conference is committed to sharing the perspectives and experiences of women around the world with the students and the campus community. Students will be involved in the promotion and execution of the event and gain experience in marketing, project management and event coordination. The Global Citizenship theme of “Gender Equity: Is Equity Enough?” suggests the huge role of gender plays in opportunity in our society. Global Ecofeminism uses perspectives and experiences of women in a variety of professions to solve problems such as climate change and the distribution of resources.

The following speakers will present at the 3rd Annual Global Ecofeminism Conference on April 23, 2016. Funding Source: Global Citizenship District Fund Global Grant for a total of $10000

Summary: The State of California has released new funding for Prop 39 Program Improvement to strengthen existing energy efficiency/clean energy programs. These funds are distributed locally through the California Clean Energy LA/OC Consortium Funding under the administration of Los Angeles Trade Tech College. Santa Monica College is one of 23 colleges in the Los Angeles/Orange County region to receive funding, which is based on the number of 2014-2015 unduplicated energy efficiency/clean energy related student awards. SMC will utilize Prop 39 funds to 1) purchase 360 degree camera and support equipment, 2) provide scholarships to continue the successful development of LEED (TM, USGBC) Green Associate Certification training, and 3) pay for guest speakers to carry on this training.

SUBJECT: THE MINORITY MALE COMMUNITY COLLEGE COLLABORATIVE (M2C3)

SUBMITTED BY: Vice-President, Academic Affairs

SUMMARY: The Minority Male Community College Collaborative (M2C3) is a project of San Diego State University’s (SDSU) Interwork Institute. The goal of the project is to partner with community colleges across the United States to enhance access, achievement, and success among minority male community college students. M2C3’s research and practice agenda prioritizes men who have been traditionally underrepresented and underserved in postsecondary education. In addition, the project supports community colleges in building the institutional capacity necessary to serve men of color effectively. M2C3 is co-directed by Drs. Frank Harris III and J. Luke Wood, associate professors at SDSU and scholars who are actively involved in research on community college student success, college men and masculinity, and research and evaluation methods.

M2C3 developed its “flagship” tool, the Community College Survey of Men (CCSM) which is an institutional-level needs assessment instrument designed specifically for measuring factors that influence student success for men, particularly men of color. The CCSM is typically used for establishing student outcome benchmarks, monitoring student performance, and identifying issues in need of enhanced attention. The implementation of this survey as well as focus groups with students, students in mathematics, and mathematics faculty members were included in Santa Monica College’s (SMC) Student Equity Plan. The following activities and objectives were implemented or are currently underway as part of the plan in partnership with M2C3.

• Administered the CCSM to conduct a comprehensive needs assessment of male students at SMC
• Conducted student focus groups with a representative sample of men of color at SMC
• Conducted focus groups with purposefully selected faculty and staff to obtain insights about their experiences in working with men of color at SMC
• Presentation and professional development workshops of findings to key stakeholders at SMC on an ongoing basis. Outcomes included development of strategies to prioritize reducing the equity gap in educational outcomes in all recruitment and hiring.
Highlights of the salient findings from the work conducted thus far include the following.

• **Stressful Life Events** – Many students in the sample indicated experiencing at least three stressful life events (e.g., divorce in family, loss of job, eviction, incarceration, death in family) within the last two years. Notably, 20% of African American students, 16.7% of Middle Eastern students, and 15.9% of Multiethnic students reported experiencing six or more stressful life events within the last two years.

• **Perceptions of Faculty Bias** - African American and Middle Eastern men perceived that faculty did not equally express interest in or pay attention to them compared to other racial/ethnic groups.

• **Personal Relationships with Faculty** - Across all racial/ethnic groups, students had low perceptions of the degree to which faculty know about their goals and know them as a person.

• **Validation from Faculty** - Across all racial/ethnic groups, students had low perceptions of the number of faculty who serve as validating agents and communicate that they have the ability to do the work, can succeed in college, and belong at the institution.

• **“Welcomeness” to Engage** - Overall, students’ perception of welcomeness to engage inside the classroom were higher versus outside the classroom. Across all racial/ethnic groups, students perceived high levels of welcomeness to ask and respond to questions during class, as well as participate in class discussions.

• **Faculty-Student Engagement** - Students across all racial/ethnic groups reported low levels of engagement with faculty, especially in regards to talking about academic and non-academic matters outside of class.

• **Service Use** - With the exception of the library, students across all racial/ethnic groups reported low usage of campus services (e.g. advising and tutoring).

**Findings from Focus Groups with Math Students**

• **Challenges with Classroom Faculty** - the men of color who participated in the focus groups reported the following challenges in their interactions with faculty. Students believed these challenges had a negative influence on their participation and success in class.
  - Lack of validation from faculty
  - Feeling stereotyped as incompetent
  - Lack of support to transfer from faculty
  - Inconsistency between lectures, text books, exams, and other classes
  - Faculty making students feel uncomfortable (“less than”) for asking questions

• **Academic Challenges** – The students in the sample reportedly experienced the following academic challenges that they believed negatively influenced their success.
  - Limited tutoring services
  - Limited class space
  - Lack of test taking and study skills
  - Lack of pre-college academic preparation
• **Personal Challenges** - Students also reported experiencing a host of personal challenges that influenced their success.
  - Financial hardship due to purchasing course materials (books, calculators and online software)
  - Family responsibilities interfering with class attendance
  - Balancing work, school, and extracurricular activities

**Findings from Focus Groups with Math Faculty**

• **Strategic efforts enacted to support men of color** – Faculty focus group participants discussed their strategic efforts they enacted to support men of color at SMC
  - Acknowledging students outside of class/ building rapport
  - Introducing students to student services on-campus
  - Encouraging students to utilize support services

• **Efforts enacted to engage men of color in the classroom** – Faculty focus group participants were also intentional in encouraging men of color to engage fully inside of class.
  - Calling on students vs. Calling out students
  - “I want to them to be leading the class”
  - Acknowledging students’ voices in the classroom
  - Challenging students to succeed

• **Remaining hopeful about the climate of equity at SMC** – The faculty focus groups participants were supportive of the College’s most recent efforts to address equity issues and concerns and are hopeful that these efforts are sustained. The participants also felt it was important to acknowledge that all faculty members, not only faculty members of color, had a responsibility to support men of color in achieving equitable student success outcomes.
  - “I hope equity at SMC is not just another flavor of the month.”
  - “You don’t have to be a faculty of color to work with students of color.”

The Santa Monica College Student Equity Committee is in ongoing conversations with Dr. Harris and Dr. Wood regarding additional professional development opportunities including those offered through the Center for Organizational Advancement (CORA) regarding changing practice to promote the success of men of color in community colleges.

INFORMATION ITEM 3

Santa Monica College Counseling Services: The Impact of Counseling Services on Degree Recipients and New Counseling Initiatives that Address Equity and Completion

Introduction

Santa Monica College continues to provide strong and vibrant counseling services that extend across twenty-three special counseling programs and/or service locations. Thanks to the support of the District as well as specialized categorical funding sources that include SSSP, Equity, BSI, Title V, and more, the Counseling Department currently employs 181 counselors who provide academic counseling, psychological counseling, lead counseling-related student success workshops and/or teach counseling-related courses (Couns 1- Study Skills; Couns 11 - Orientation to Higher Education; Couns 12 - Career Planning; Couns 15 – Job Search Skills; Couns 16 – Job Success Skills; Couns 17 – Orientation; Couns 20 - Student Success Seminar; and a series of specialized DSPS counseling courses).

In general, SMC counseling faculty are seen as leaders throughout the college community, serving on critical committees and partnering with instructional departments to collaborate on key institutional initiatives such as Equity, Completion and STEM. SMC counselors continue to record well over 100,000 student contacts annually through one-on-one and small group meetings with students. Couns 20, the 3 unit, UC/CSU transferable Student Success Seminar, continues to be one of the most enrolled in courses at SMC, second only to English 1, which fulfills a requirement for transfer as well as the AA degree.

Presentation of Data

In an effort to continue to understand the importance and impact of counseling services at SMC, at the request of the Counseling Department leadership, the Institutional Research Office conducted a follow up study to the 2014 research effort that revealed that “first –time freshmen who had contact with a counselor before and/or during their initial term at Santa Monica College persisted to the subsequent spring and fall terms at significantly higher rates (over twice as likely) than their counterparts who did not meet with a counselor.” This follow up study looked at all students, not just first-time freshmen, and sought answers to the following research questions:

1. What percentage of fall 2015 credit students have or have had significant counseling contact?
2. What percentage of students who earned an Associate Degree in 2013-14 had significant counseling contact? Does counseling contact influence the number of semesters it takes students to complete the degree?

Findings of Research Question #1

Data revealed that 86.8% of all students (full-time freshmen and continuing) enrolled in a credit course at SMC in fall 2015 had a least one counseling contact. This contact could have been through a general counseling center (i.e., Transfer/Counseling Center, Welcome Center, International Student Center and/or online counseling), a specialized counseling program, enrollment in Couns 20, or a combination of two or more of these counseling services.
Perhaps even more noteworthy is a breakdown by demographic variable:

Data provided from SMC Research Brief #1010

Clearly this data suggests that a large majority of students, including our underrepresented populations, are availing themselves of counseling services.

Findings of Research Question #2

Data revealed that of the 1,325 students who received an AA degree in 2013-14, all but 3 students had at least one counseling contact while a student at SMC. 97% of these students received counseling in one of the general counseling centers (Transfer Counseling Center, Welcome Center, International Student Counseling Center and/or online counseling) while just under 50% of the first-time freshmen also participated in a special program (Black Collegians, Latino Center, Scholars Program, EOPS, First Year Experience, Veterans Resource Center, etc.) and/or enrolled in Couns 20.

An additional analysis was conducted to determine if students who participated in a special counseling program and/or enrolled in Couns 20 took less time to complete their degree than students who did not do one of these two things.

While it was determined that first-time freshmen who belonged to a special program earned their degrees in less time, the difference was not found to be statistically significant overall. Though true, when this data was further broken down by ethnicity and race, the difference was statistically significant for African American students who participated in a special program. Please see the following table.

Table 2. Average Semesters to Degree Completion by Student Ethnicity/Race and Special Program Participation

Similarly, when an analysis was done on AA degree recipients who had enrolled in Couns 20, it was concluded that African American students who enrolled in this course graduated in fewer semesters, on average, than those who did not.

Conclusions and New Efforts to Address Equity and Completion

Clearly, the data from this institutional research effort underscores the importance and value of the variety of counseling services that are offered at SMC, especially for some of our underrepresented populations. Given this, the Division of Student Affairs is grateful for the additional funding provided by SSSP and Equity that have allowed for more intentional counseling programming and intervention. What follows below are examples of new counseling initiatives aimed at addressing equity and completion issues at Santa Monica College.

New Equity Initiatives Spearheaded by Black Collegians and Adelante

Collaboration with John Adams Middle School
In spring 2015, the Black Collegians and Adelante programs began a partnership with John Adams Middle School (JAMS) that has been more formalized during the 2015-16 academic year under the leadership of Dr. Paul Jimenez, a part-time counselor, who was hired with equity funds. This partnership, in essence, brings students, parents, faculty, and staff from both institutions together with the common goal of exposing African American and Latino students to opportunities that will improve and enhance their academic journey and overall educational experience. Furthermore, this effort seeks to cultivate, empower and retain SMC student of color while simultaneously expanding this equity effort to the students of color at JAMS. Over 60 JAMS Latino and African American students have participated in this program to date. The Principal of JAMS, Steve Richardson, has referred to this program as “transformational.”

Brother-to-Brother and Sister-to-Sister Mentoring Program
An outgrowth of the SMC/JAMS partnership described above was the creation of the Brother-to-Brother Mentoring program. This program exposes JAMS students to positive male role models who demystify the “college world” for them. Additionally, Adelante and Black Collegians male students received training on becoming a mentor and the opportunity to positively impact the lives of their mentees. SMC students in the programs have been assigned mentees at JAMS with whom they interact twice per month in organized activities such as:

- Topical discussions on relevant issues (i.e., the importance of friendship and respect)
- Sporting events such flag football and basketball
- Campus tours/scavenger hunts for JAMS students on the SMC campus.

Given the success of the mentoring program for the boys at JAMS, a Sister-to-Sister Mentoring Program was developed in spring 2016 under the leadership of Maria Reynoso, a new part-time psychologist, hired with equity funds. Female student leaders from the Black Collegians and Adelante clubs serve as the mentors to the female JAMS students.

The SMC student mentors have shown a true commitment to the JAMS students and look forward to their interactions with the middle school students. There is a sense of responsibility that the SMC students exude to ensure the JAMS students see them as role models. This is a win-win equity model for both SMC and JAMS.
**Noche de Familia**
Given the high number of first-generation college students in the Adelante program, the Latino Center has expanded the offering of Noche de Familia (Family Night) where Adelante parents are invited to monthly seminars to learn more about the educational process and how to support their students. As of February 2016, JAMS parents are now invited to attend with SMC parents. A record 80 parents attended the most recent monthly program. The Noche de Familia seminars are conducted in Spanish by Latino Center counselors and dinner is provided free of charge to parents and their families through a continuous and very generous donation from Mr. Carlos Haro, owner of Casablanca restaurant.

**Special Monthly Programs for Black Collegians and Adelante Students**
In addition to the regular workshop programming that is provided each month, the Black Collegians and Adelante programs host all-female and all-male workshops once each month. These are unique, powerful and often times emotional workshops that seek to support and retain SMC students in ways not provided by any other program at SMC. Students have reported that the topics and discussions are frequently “life-changing” where they find comfort expressing very personal issues related to the cultural experience of African Americans and Latinos in American society. These workshops are very well-attended and are among the most popular series in both programs.

**Counseling with an Equity Focus in STEM**
SMC’s STEM Initiative is a comprehensive academic support program designed to help traditionally underrepresented students interested in STEM careers successfully complete their studies at SMC, transfer to a 4 year research orientated baccalaureate program, and ultimately enter the STEM workforce. Counseling services offered to STEM students are a critical component of the program, and are comprehensive and equity focused. The program is anchored in a philosophy that success in STEM is the product of hard work and agency rather than having a natural aptitude or being “super smart.” Counselors intentionally work to dispel self-defeating notions such as “I’m not a math person,” or that success comes solely because of a “natural talent” or “innate gift.” Instead, STEM counselors help students understand that success in STEM classes are skills that can be learned, practiced and improved. As such, students are introduced to the importance non-cognitive skills and having a growth mindset. Additionally, STEM counselors familiarize students with equity issues such as stereotype threat, unconscious bias and the hidden curriculum. Counselors are vital to the STEM program – they interact with students on an individual basis, through workshops, special events such as STEM Day, and support many of the other STEM programmatic activities.

**New Completion Initiative: MyEdPlan Online Counseling Review and Intervention**
As of winter 2016, counselors can now provide MyEdPlan users with an online review capability. In one transaction, counselors can either approve an online educational plan or provide students with constructive feedback regarding their plan and ask students to make changes and resubmit the plan online for counselor approval. The goal of this MyEdPlan enhancement is to significantly increase the number of counselor reviewed and approved educational plans. In the first six weeks of the program launch, counselors completed over 110 online ed plan reviews. The program which initially was limited in scope to matriculant 1’s (first-time students with an educational goal of certificate, degree or transfer) will soon be expanded to continuing students and reverse transfers. Reverse transfers with transcripts from other institutions will be asked to first meet with a counselor in person so that a transcript evaluation can completed and entered into the SMC Degree Audit program. It is anticipated that this increased access to counselors for educational plan review should lead to increased student goal completion, as student knowledge of correct requirements is key towards progressing to graduation and/or transfer in a timely fashion.
New Completion Initiative: Transfer Completion Counselor Efforts

In fall 2014, using SSSP funding, an adjunct “completion counselor” was hired with the goal of increasing the number of students who transfer to four-year colleges and universities. The students targeted for intervention are selected based on units and GPA. These students receive phone calls, emails and are invited to meet with a counselor and/or receive assistance with their transfer application during the weekday and/or weekend. Saturday transfer workshops have proven to be well attended with over 100 students attending weekend workshops in 2014-15, and 228 attending weekend workshops to date in 2015-16. During the 2014-15 academic year the completion counselor contacted and/or assisted 752 students, and thus far during the 2015-16 academic year she has worked with 993 students. The completion counselor has reported a number of recurring themes that include: misunderstanding of transfer requirements, confusion regarding application timeline and process, and indecision about major and/or transfer school. In general, students are appreciative of the outreach and “intrusive” support, and it is anticipated that this new effort will soon yield increases in SMC transfer numbers.

Equity and Completion: New Efforts to Serve Undecided Students

According to research conducted by McMaster from the University of Canada, students who have an idea about potential careers are more likely to persist in college over their peers who have no direction. There are many external factors pulling students away from school, and without focus, students do not persist.

As a result of the recent Student Success legislation, California community college students are now required to declare a college major and educational goal by their 16th unit. The Career Services Center has been charged with helping these “undecided” first-year students make decisions in these areas. Utilizing SSSP funds, the Career Services Center recently hired three additional part-time career counselors. Rather than having these new counselors work out of the Career Services Center, they have been strategically placed in the African American Collegiate Center, the Latino Center and to work with students in the First Year Experience (FYE) program. These counselors work closely with the program leaders to identify students who could benefit from career counseling and/or are in need of a clear educational goal and/or major. They also attend program orientations and conduct program workshops upon request throughout the academic year. These new hires supplement the work of three other adjunct career counselors who serve the general population along with the faculty leader. They lead a host of workshops, teach Couns 12, make presentations in Couns 20 classes, and meet with students individually.

As a result of this new effort, per the data below, the Black Collegians and Adelante programs report significantly higher levels of participation in career counseling:

- In 2013-2014, 211 Adelante students met with a career counselor.
- In 2014-2015, 1099 Adelante students met with a career counselor.
This is an increase of 80%

- In 2013-2014, 56 Black Collegian students met with a career counselor.
- In 2014-2015, 567 Black Collegian students met with a career counselor.
This is an increase of 90%

The career counselor dedicated to the FYE program performs the same types of activities as described above with the exception of orientations and workshops. Instead, the counselor is sent a weekly list of first-year students who self-report indecision about a college major and/or educational goal. The Career Center staff then reaches out to the student and schedules an appointment with one of the career counselors.
As a result of this new effort, in 2014-2015, the FYE program reported 1,447 student contacts with an SMC career counselor. The response to this effort has been so positive that in fall 2015, the FYE career counseling program now requires each new FYE program student to meet with an SMC career counselor at least once.

**Final Conclusions**

The SMC Counseling Department is committed to moving the needle with regard to equity and completion, and will continue to utilize new categorical funding sources such as SSSP and Equity to further expand innovative programming efforts and more intentional intervention with at risk students.
APPENDIX C

INFORMATION ITEM 6

SUBJECT: Community and Academic Relations Department: Connected Campus. Connected Community.

The creation of the Community and Academic Relations area fulfills a major reorganization approved in October 2014 to bring together Community Relations, Marketing, web and social media, the Public Information Office and certain institutional functions into a coordinated administrative unit within the government relations and institutional communications umbrella.

Community and Academic Relations envisions itself as the communication hub for Santa Monica College, setting the institutional voice for the college to define the narrative for institutional publications, marketing campaigns, social media and traditional marketing strategies. We work to build relationships with the community, both outside and within campus.

Community and Academic Relations supports the Santa Monica College mission by providing vital information to the students, faculty and staff and other community stakeholders to support ongoing relationship and brand-building efforts to meet enrollment targets.

Community and Academic Relations brings in direct engagement of the public through public programs (The SMC Associates and the General Advisory Board) and through support of academic programs and college initiatives (Public Policy Institute, GRIT). The SMC Associates raises funds to foster and encourage scientific, literary, educational and artistic endeavors at Santa Monica College with the goal to Enrich, Inspire and Engage our students. The General Advisory Board is a community ambassador group who learns about SMC and shares information about the college with the Santa Monica community.

Community and Academic Relations 2015-16: Summary in Numbers
Total events for the 2015-16 academic year: 100
(45 in fall and 55 in spring)
100 Total Events:
  • 12 Associates events (meetings, receptions, annual Kick-Off at Rand)
  • 12 GAB events (meetings, fall socials, Annual Athletic Awards)
  • 54 Associates Lectures
  • 10 Public Policy Institute events (Symposiums, special lectures co-sponsored with KCRW)
  • 12 Special events (that we either helped with/sat on committees for, etc.: flex day, MIS ribbon cutting, holiday dinner, Heaven is Traffic Jam on the 405 screening, etc.)
  • Out of those 100 events, 71 had catering included with the events (luncheons, receptions, snacks, etc.)
The SMC Associates continues to fund activities across the spectrum of campus disciplines and interests through its membership dues and donations. In addition to a number of one-of-a-kind special events, seven Associates-sponsored speaker series were offered to enhance the academic experience for students. These events attract a diverse set of students across the college and enrich the campus culture. Below is a summary covering the variety of lecture series and events offered during the 2015-16 academic year.

_Distinguished Scientist_, the first lecture series instituted at SMC in 1999, is now in its 17th year. The speakers are identified in close collaboration with the faculty to ensure their relevance and value to the student audience. The college is able to attract speakers of very high caliber based on the series’ longevity and its roster of distinguished past presenters. This year has seen outstanding speakers on Cardiac CT Scanning, Exploring the Synthesis and Applications of Graphene, Deep Sea Sediments as a way to Archive Ocean and Climate History, as well as hosting the International Ocean-Color Coordinating group with NASA to share how remote sensing is used to study oceans.

_The Literary Lectures_, a series of readings and discussions on the craft of writing with Southern California authors, enjoys the broad support of the English Department, ESL and beyond, showcasing culturally diverse authors and engendering cross-discipline conversations.

_Entrepreneur Lecture Series_, a new series this spring, is a collaboration with the SMC student Rotaract Club and the Santa Monica Chamber of Commerce.

_Environmental Issues_ is an ongoing collaboration with Center for Environmental and Urban Studies to address the themes and current issues in this arena.

_Global Connections Series_, created as the first step in the college’s Global Citizenship commitment, is now in its 9th year.

_Film Series_, an endeavor started in fall 2014, has continued to evolve based on contributions from the Communication Studies department as well as the Black Collegians and the Adelante programs.

_Black History Series_, which started in spring 2015, has continued to be an exceptionally successful programming collaboration which enriches the campus community. In Fall 2015, filmmaker Bill Duke screened his award-winning documentary _Light Girls_ to standing room only crowds, a Tuskegee Airman shared his life story, others spoke about the development of Hip Hop, and the historical and contemporary implications of racism in modern society.

_Art/Science Series_, which started in the spring of 2015, included lectures cross promoted with science lectures to help encourage students to find inspiration within cross disciplinary programming.

_GRIT Series_, new as of fall 2015, is sponsored by the GRIT campus initiative and highlights a variety of speakers who showcase their stories and experiences with a message of perseverance and determination.

_Master Classes_, supported by the Associates and working with the Broad Stage and its Arts Outreach program, offer SMC students the unique opportunity to work with renowned artists right on stage be it in voice, single instrument, or dance and movement. These programs are well received by the students who participate.
Women’s Empowerment Series, new this spring 2016 in collaboration with Associated Students, GRIT, Global Council and the Alumni Association, is a semester long series of lectures created to go beyond the concept of “women’s history month.” Highlighted speakers included Anita Sarkeesian, Rosa Moreno, Jackson Katz, Helena Lazaro, and a screening of the documentary “No Mas Bebes.”

Special Events: British National Debate team vs SMC and Japanese National Debate team vs. SMC, Dr. Henry Oster – Holocaust survivor whose story inspired Toni Scott’s Freedom Memorial Sculpture at the Museum of Tolerance, Dr. Larry Shiner lecture at LACMA to name a few.

Public Policy Institute is a collaboration that continues to be successful, as the SMC Associates will be funding speakers and receptions for the fall and spring symposiums.

General Advisory Board

The SMC General Advisory Board continues to be active and experience growth in younger members from local business and professional communities, with their own set of networks and more active engagement style. Program presentations are guided by an executive committee that gives continuous feedback and suggestions. This year the GAB has decided to move its annual Athletic Award ceremony into the quad during Activity hour to increase the awareness level about this significant celebration of our student athletes. Collaborations are in the works with Associated Students to provide financial scholarships for the student athletes who are given the award as top male/top female athlete of the year.

Community Event Partnerships:
Santa Monica Artwalk – 10th anniversary
Santa Monica Community Martin Luther King, Jr. celebration
Santa Monica High School Career Day participation
Santa Monica Chamber of Commerce: Organization of Women Leaders Conference
VITA tax preparation for low income families with Assemblymember Bloom’s office
And many, many more.

The Community and Academic Relations office hopes to continue to be perceived as an accessible source of information and support for both internal and external communities.
