RECOMMENDATION NO. 1

SUBJECT: SMC MINIMUM WAGE

SUBMITTED BY: Vice President, Human Resources

ACTION REQUESTED: It is recommended that the Board of Trustees approve incremental adjustments of the Santa Monica College Minimum Wage to coincide with the City of Santa Monica Wage Ordinance, beginning January 1, 2018.

SUMMARY: In December 2016, the Board of Trustees approved adjustments to the Santa Monica College Minimum Wage to correspond with the California Minimum Wage. Following is the State of California minimum wage schedule to increase annually for employers with 26 or more employees:

Effective July 1, 2017, the City of Santa Monica implemented the Minimum Wage Ordinance below that is more aggressive than the State of California’s Minimum Wage Schedule. The District is exempted from the City's minimum wage ordinance.

COMMENTS: During the student employment/minimum wage report at the October 3, 2017 Board of Trustees meeting, the Trustees requested that additional analysis be conducted to determine the feasibility of the District adopting the City of Santa Monica’s accelerated minimum wage schedule. The Office of Institutional Research assisted with the analysis and provided Research Brief No. 1423 for review. The information within the Brief validated that there are benefits to students pertaining to student employment.
BACKGROUND:
The number of student workers employed by the District varies monthly and is directly related to the amount of available funding for student employment. There are three student worker funding sources: 1) District Unrestricted General Fund (01.0) that incudes money for ill leave hours and federal work-study match dollars; 2) grant money that is specified for student help and tutors; and 3) Federal Work-Study allocations for work-study students. Student work assignments continue until funding is exhausted. Using last fiscal year as an example, there were actually 809 student workers. Student workers are typically assigned 10-20 hours per week. The budget for student workers for fiscal year 2017-2018 is $2,089,000. If the District continues to pay along California Minimum Wage requirements and has the same number of students workers as last year (809), approximately 240 hours will be provided per student worker. If the District has the same number of students as last year and opts to adjust the minimum wage to the City of Santa Monica wage ordinance requirements, the accelerated pay rates would decrease the number of hours provided from 240 hours to each student to approximately 215 hours, a reduction of approximately 11% of the funded student worker hours.

In response to inquiries at the October Board meeting pertaining to the value of student employment and the work that students do, Senior Staff members commented that student workers served in labs to support classes and also served as embedded tutors. They worked as supplemental instruction leaders and assisted other students in learning resource centers, including the library. Student workers have helped in academic and operational departments and have monitored the fitness center, checking people in and out including during faculty and staff hours.

If the minimum wage is adjusted to the same rate of pay per hour as the City of Santa Monica Wage Ordinance, the SMC’s minimum wage will be raised to $12 per hour through June 30, 2018 and adjusted again to $13.25 effective July 1, 2018 (six months later).

Analysis - Brief’s Hypothetical Impact of Wage Increase Hours Worked (Winter/Spring 2017)

On November 6, 2017, the Office of Institutional Research posted Brief No. 1423 – Summer/Fall 2015 Student Workers: Demographics and Employment Patterns. Highlights of the report included impressive correlations between the average hours that student workers worked and a high successful course completion rate (80.9%) and high course retention rates (88.7%) during the study’s review period. The brief also shows that when looking at course success figures, students who worked 11 or more hours a week successfully completed courses at the highest rate (86%). Students who worked an average of 7 to 8.99 hours each week successfully completed their courses at the lowest rate (73%).

Though the number of average hours worked by students in the hypothetical impact study are reduced, students typically work more hours per week.

In Winter/Spring 2017, SMC employed a total of 512 students. The 512 students worked a total of 41,924.5 hours during the winter and spring terms (average of 2.15 hours/week) and earned a total of $440,207 during the same period at an hourly rate of $10.50. If the college were to adopt the City of Santa Monica’s minimum wage schedule today, the same student workers would be paid an hourly wage of $12.00 (until June 30, 2018). Assuming the same budget for student employment, the increase in wage would result in 5,240 fewer hours worked during the winter/spring terms, a decrease of 0.39 hours per week worked per student (if the same number of students were employed), and 64 fewer students employed (if the average hours per week worked was maintained at 3.15 hours/week).

Summary

The Board recognized its faculty and staff by approving salary adjustments. Student workers are the only SMC employees who receive minimum wage. There are three funding sources for student employment. Based on best practices, there is no mixing of work-study funding and student employment funding. Student workers assignments continue until funding is exhausted. Student employment opportunities are valued by the District and students. At its present pace, the District will reach the $15.00 per hour minimum wage goal by January 1, 2022. The City of Santa Monica’s Wage Ordinance accelerates incremental adjustments to reach $15.00 per hour minimum wage by July 1, 2020. There is a two-year period before the District matches the City’s minimum hourly wage. Students have made many appeals to the Board for jobs for students. Student Trustee Chase Matthews appealed that the District match the City’s minimum wage ordinance. The costs for housing, food, gas, etcetera are significantly greater than the current minimum wage in Santa Monica. The research showed that there is a high correlation between student employment, course completion and course success rates. The research also showed that the student employment opportunities serve diverse student populations.

It is recommended that the District adopt the City’s accelerated minimum wage schedule to become effective January 1, 2018, despite the fact that the incremental increase in students’ hourly wages (assuming the same number of average scheduled hours per week worked by student workers is maintained) reduces funded student employment hours and reduces the number of student workers employed by the District. Approval of this recommendation would mean that Santa Monica College student workers’ wages per hour will be increased effective January 1, 2018 to $12.00 per hour through June 30, 2018.

Non-approval of this recommendation will mean that the California State Minimum Wage acceleration proceeds as approved in December 2016. Effective January 1, 2018, the incremental adjustment will raise the $10.50 minimum wage to $11.00 per hour.

INFORMATION ITEM 2

SUBJECT: AACC PATHWAYS 2.0 PROGRAM

SUBMITTED BY: Superintendent/President

SUMMARY: The American Association of Community College (AACC) recently launched a national project focused on building capacity for community colleges to design and implement structured academic and career pathways at scale for all of their students. The project reflects AACC’s commitments to follow through on recommendations set forth in the 2012 report of the 21st Century Commission on the Future of Community Colleges, *Reclaiming the American Dream*, and the 2014 implementation guide, *Empowering Community Colleges to Build the Nation’s Future*.

AACC serves as the lead organization and fiscal agenda for the multi-year grant. Other grant partners are:
• Achieving the Dream (ATD)
• The Aspen Institute
• Center for Community College Student Engagement (CCCSE)
• Community College Research Center (CCRC)
• Jobs for the Future (JFF)
• The National Center for Inquiry and Improvement (NCII)
• Public Agenda

Thirteen diverse institutions from 17 states have been selected to participate in the intensive Pathways Project work over the next three years. The selection criteria were intentionally rigorous, as the project is designed to help colleges already progressing on a student success agenda to advance that work to the next level.

Santa Monica College was selected as one of the thirteen institutions to participate in the American Association of Community Colleges Pathways 2.0 Project. SMC’s Pathways team participated in the first Pathways 2.0 institute, November 16-18, 2017 in Washington, D.C. The eight-member team included Superintendent/President Kathryn E. Jeffery, Trustee Margaret Quiñones-Perez, Vice-President of Academic Affairs Georgia Lorenz, Vice-President of Student Affairs Michael Tuitasi, Dean of Instructional Services Jennifer Merlic, Dean of Institutional Research Hannah Lawler, and faculty members Guido DelPiccolo and Maria Munoz. The Institute provided background information and expectations for each college and their team throughout the three-year term of participation, team building activities and time to interact with teams from other selected colleges.

Title of Grant:  Nonresident Dreamer Emergency Aid
Granting Agency:  California Community Colleges Chancellor’s Office
Augmentation Amount:  $157,723
Matching Funds:  none
Performance Period:  July 1, 2017 – June 30, 2018
Summary:
AB 134 provides Santa Monica College an estimated fair share allocation of $157,723 in funding for distribution for providing emergency aid to students with an identified need, who are exempt from paying nonresident tuition under (Ed. Code § 68130.5). This includes AB 540 and AB 2000 eligible students. To receive this emergency student aid, students are required to complete the California Dream Act Application (CADAA) described in subdivision (b) of (Ed. Code § 69508.5). The CADAA is available year round for students eligible under (Ed. Code § 68130.5). Note that US citizens, and eligible non-citizens who qualify for the non-resident tuition waiver under AB 540 are excluded from receiving any emergency funds from this provision.

The Chancellor’s Office encourages Financial Aid Offices to work closely with their campus Dream Act Centers, Student Equity (SE), Student Success and Support Program (SSSP), other student support staff, counselors, and campus advocacy groups to effectively identify and notify students regarding the availability of this funding, and how to access these resources. Estimated eligible students: 1,200

Colleges should be aware of the following when awarding this funding to qualified Dreamers:

- Colleges shall award direct aid to students as an emergency grant.
- There is no stated award minimum or maximum for direct aid to students, but funding is limited to the district allocated dollars and should best serve the eligible population of students in a local context.
- Statutory eligibility standards for direct aid to students include:
  - (Ed. Code § 68130.5) eligibility providing for exemption from the non-resident fee.
  - Eligibility to file, and the completion of the CADAA. This requirement may be fulfilled at any point prior to the distribution of emergency funding to the student.
  - Demonstrated financial need.
- The statute does not specify any additional eligibility requirement restrictions.
- When awarding direct aid to students, funding must be accounted for as resources in award packaging and payment.
