INFORMATION ITEM E  SUBMITTAL OF GRANTS

Title of Grant: Fund for Instructional Improvement: Leadership Pipeline Project
Granting Agency: Chancellor’s Office, California Community Colleges
Requested Funding: $119,438
Matching Funds: $12,008 (Source: SMC in-kind)
Performance Period: September 12, 2001 – September 11, 2002
Summary: This proposal seeks to develop a two-pronged approach to identifying and assisting current faculty who might consider pursuing a leadership role within a community college.

First, model curriculum will be developed to provide interested faculty with an overview of administrative roles in the community colleges. Through a seminar format, and guided by consultants from the University of Southern California’s Center for Urban Education, the participating faculty will gain insight into the administrative opportunities available.

The second objective will actually place several faculty as “interns” serving in a variety of administrative roles. This objective also addresses the need to recruit more administrative candidates from traditionally underrepresented populations.

Title of Grant: Fund for Instructional Improvement: Infusing Information Competency in the Curriculum
Granting Agency: Chancellor’s Office, California Community Colleges
Requested Funding: $97,048
Matching Funds: $16,706 (Source: SMC in-kind)
Performance Period: September 12, 2001 – September 11, 2002
Summary: This proposal addresses the need for faculty, administrators, staff and students to develop skills to interpret, evaluate, and critically analyze information. The rapid development of information resources and our increasing reliance on information has made it mandatory for students to develop and demonstrate a minimum level of information competence: the ability to find, evaluate, use, and communicate information in all its various forms.
