Section 2. For the above purposes, this District Board hereby requests the County Board to issue the Bonds and to order such Bonds to be sold to RBC Dain Rauscher, Inc., as the Underwriter, at a negotiated sale in accordance with a Contract of Purchase to be prepared and entered into by and among the District, the County and the Underwriter in connection with the sale of the Bonds, substantially in the form submitted to and considered by this Board (the "Contract of Purchase"). The Bonds will be issued at a true interest cost not to exceed 8% per annum and shall not exceed 25 years in maturity from their date of issuance. The form of Contract of Purchase on file with the District Board is hereby approved and the Interim Superintendent/President of the District, its Vice President, Business & Administration or any designee of either thereof (each, an “Authorized Officer.”), and each of them is hereby authorized to execute the Contract of Purchase, with such changes therein, deletions therefrom and modifications thereto as such Authorized Officer may approve, such approval to be conclusively evidenced by the execution and delivery thereof. Section 3. The District Board hereby approves the use by the Underwriter of a Preliminary Official Statement relating to the Bonds, substantially in the form submitted to and considered by this District Board (the “Preliminary Official Statement”) and following pricing, an Official Statement in connection with the sale of the Bonds (the “Official Statement”), in each case with such changes as may be approved by the Authorized Officer and such other officers of the District as may be authorized by the District Board are, and each of them acting alone hereby is, authorized to deliver copies of the Preliminary Official Statement and the Official Statement with such changes therein as such Authorized Officer shall approve, in his or her discretion, as being in the best interests of the District. The Authorized Officer is hereby authorized and directed to execute such Official Statement with such changes therein, deletions therefrom and modifications thereto as such Authorized Officer may approve, such approval to be conclusively evidenced by the execution and delivery thereof.

The District hereby covenants that it shall not, directly or indirectly, use or permit the use of any proceeds of any of the Bonds, or of any of the property financed or refinanced with the proceeds of the Bonds, or other funds of the District, or take or omit to take any action that would cause the Bonds to be deemed “arbitrage bonds” within the meaning of Section 148 of the Internal Revenue Code of 1986, as amended (the “Code”). To that end, the District shall comply with all requirements of Section 148 of the Code and all regulations of the United States Department of the Treasury promulgated thereunder to the extent that such requirements are in effect and applicable to the Bonds.
Section 8. The District hereby covenants and agrees that it will comply with and carry out all of the provisions of such Continuing Disclosure Undertaking in order to assist the Underwriter to comply with the requirements of the Rule. Any Owner may take such actions as may be necessary and appropriate, including seeking mandamus or specific performance by court order, to cause the District to comply with its obligations under this Section; however, noncompliance with this Section shall not constitute a default under or cause the acceleration of the Bonds.

Section 10. Should the Authorized Officer, upon consultation and advice of the Underwriter, determine it is in the best interests of the District to obtain credit enhancement for the Bonds, including municipal bond insurance, to improve their marketability, the Authorized Officer is hereby authorized and directed to sign documents to secure such credit enhancement on such terms and subject to such conditions as may be established by the Authorized Officer, in agreements relating to such credit enhancement.

Section 11. The County Board is hereby requested to assist the District in the issuance and sale of the Bonds; in order to meet the requirements of law and the procedures of the County with respect to such a request, the Clerk of the District Board is hereby directed to lodge a certified copy of this Resolution with the Clerk of the County Board and with the Superintendent of Schools of the County promptly following adoption hereof, and the District represents and warrants to the County that annual administrative expenses associated with the Bonds at the time outstanding shall be the sole responsibility of the District and the District shall reimburse the County’s costs and expenses incurred in connection with the issuance and sale of the Bonds. The Bonds are the general obligations of the District secured by tax levies and do not constitute an obligation of the County except as set forth in the resolution to be adopted by the County Board authorizing the issuance of the Bonds. The County will bear no responsibility for the acquisition, construction or installation of the project, or any part thereof.

Section 12. Officers of the District Board and District officials and staff, their authorized deputies and designees, are hereby authorized and directed, jointly and severally, to do any and all things and to execute and deliver any and all documents which they may deem necessary or advisable in order to proceed with the issuance of the Bonds and otherwise carry out, give effect to and comply with the terms and intent of this Resolution. Such actions as may have heretofore been taken by such officers, officials and staff are hereby ratified, confirmed and approved.

RECOMMENDATION NO. 21

LONG RANGE MASTER PLAN PROCESS FOR
THE BUNDY CAMPUS

It is recommended that the Board of Trustees direct staff regarding site options for the continuation of the Long Range Master Plan process for the Bundy Campus at 3171 Bundy Drive. The process shall include campus workshops and input from the public.

Comment:
The Board has previously approved the renovation of the existing four-story building on the Bundy campus into a community college facility and has also approved associated site improvements. The primary access to the site has historically been by means of a roadway east of the 3200 Airport Avenue Building that runs south from Airport Avenue. Both the City of Santa Monica and the College desire to move this roadway about 300 feet south (to the other side of the 3200 Building) to align with Donald Douglas Loop South.

The City may wish to impose limitations on the use of this new accessway, and has asked the College to provide information about the long-range plans for the campus in order to inform itself on the matter. A Board-initiated Long-Range Master Plan process for the Bundy campus is underway. Staff is recommending a preferred site option based on an assessment of educational need, community priorities, Airport Commission concerns related to traffic impacts on Airport operations, and Sunset Park and Mar Vista neighborhood concerns.

The recommended long-range site option provides for 689 parking spaces (current is 609 and the prior use was 550); the same building square footage as currently exists (approximately 96,000 square feet; the prior use included 200,000 square feet); a phased transition from a site that currently provides surplus parking for the College as a whole to a site that operates primarily as a stand-alone facility (similar to the Academy campus); a long-range monitoring program on the part of both the City and the College to provide for public comment and review; and limited restrictions on the accessway as determined from circulation studies.

As the immediate use of the site is critical to College programs and its financial stability, the site is opening this summer with pedestrian access only from Airport Avenue as approved by the City Council. Efforts are underway to provide interim arrangements for the Fall semester and to have permanent arrangements in place to coincide with the start of construction for Airport Park and the dislocation of the College Shuttle.

RECOMMENDATION NO. 22 CORSAIR FIELD RENOVATION

It is recommended that the Board of Trustees approve the following agreements related to the renovation of Corsair Field.

A. Amendment to Agreement for Architectural Services
Amend the agreement with CALDWELL ARCHITECTS for architectural services associated with the Corsair Field Renovation project for an amount not to exceed 9% of the cost of construction plus reimbursable expenses.

Comment: This agreement provides for the planning, design and construction administration for the renovation of Corsair Field to include a new all purpose synthetic turf field for expanded college and community use. This amendment expands the scope of work for this project to include underground parking below the renovated field.

B. Agreement for Environmental Consulting Services
Agreement with CHRISTOPHER A. JOSEPH & ASSOCIATES to prepare an Environmental Impact Report on the Corsair Field Renovation project for an amount not to exceed $107,510 plus reimbursable expenses.

Comment: This agreement provides all necessary environmental consulting services in the preparation of an environmental impact report for the renovation of Corsair Field and related underground parking. This firm has participated in other major projects with the District.

C. Agreement for Traffic Consulting Services
Agreement with KAKU ASSOCIATES for traffic consulting services related to the Corsair Field Renovation project for an amount not to exceed $60,000 plus reimbursable expenses.

Funding Source: Measure S, U

Comment: In January, the Board of Trustees approved a project to convert Corsair Field to an all-weather surface and to a configuration suitable for NCAA-regulation soccer play. Artificial surfaces provide significant increases in field availability; as a result, Corsair Field will provide field time for SMC women's soccer and about another 35 hours a week availability for community sports programs. The need to fast-track the project no longer exists, as the Airport Park project will be completed in the near future rather than be delayed to accommodate a College-proposed underground parking structure.
The College continues to experience the loss of about 270 parking spaces on the main campus, primarily from the effects of the Northridge earthquake and also from minor losses due to replacement building projects. Also, the College will experience new parking demands from the community use of Corsair Field. Already, community parking for use of the Santa Monica Swim Complex is currently insufficient when the College is in session. Also, the future Physical Education building renovation is intended to provide new community use facilities as well as improvements to College instructional facilities. The community use parking demand is estimated at about 120 parking spaces.

Providing parking under Corsair Field would relieve the community of these parking shortages. The underground parking potential for Corsair Field is estimated at about 525 parking spaces, providing a net increase of 135 new spaces to partially offset recent expansions of preferential parking.

This underground parking is anticipated to be primarily for public, faculty, and staff use, in order to reduce trip congestion, and would connect to Parking Structure C and the 17th Street parking courtyard. The project will also include streetscape improvements on 16th Street and Pearl Street.

A traffic circulation study will be prepared in order to guide the planning of this project. Also, the project will include a full Environmental Impact Review (EIR).

The project would require the temporary relocation of men's football and other field activities related to College physical education classes. The District has met with Santa Monica-Malibu Unified School District Superintendent John Deasy to propose College-funded capital improvements to the John Adams Middle School playing fields and to the Lincoln Middle School playing field in order to increase capacity and thereby provide a temporary replacement for College activities. Mr. Deasy has encouraged the further exploration of this proposal in order to understand its timing and scheduling effects. If things work out, the College and the SMMUSD could then form a Joint Powers Authority for the purpose of constructing field improvements at one or both of the middle schools.
