Organizational Functions
IV. PRESENTATIONS AND BOARD DISCUSSION

- Student Services/Administration Building
- Board of Governors Meeting – Report by Trustee Margaret Quiñones

V. SUPERINTENDENT’S REPORT

Interim Superintendent/President Dr. Thomas J. Donner and members of his staff gave updates on the following:

- **Enrollment:** SMC has made “great strides” in its aggressive push to recover this year the major enrollment losses of 2003-04 that resulted from budget cuts. Jeff Shimizu, Vice President of Academic Affairs, reported that the college fell short of full recovery to its 2002-03 enrollment level by only 550 full-time equivalent students. SMC’s aggressive recovery plan will continue in 2005-06 with such measures as early registration, stepped-up marketing and advertising, dynamic enrollment management in which classes are added or dropped based on student demand, increased online courses, a doubling of the high school dual enrollment class offerings, and the return of non-credit course offerings in ESL and Basic Skills.

- **Bundy Campus Master Plan Update:** Greg Brown, Director of Facilities Planning, reported that the college is continuing its work on developing a long-range master plan for the new Bundy Campus, also called the Santa Monica Airport Campus, which is scheduled to open July 5. Based on “visioning” workshops that the college has held among college employees and community groups, SMC, working with consultants, is fine-tuning its plan for future uses of the campus.

- **Exemplary Program Award:** The Board heard a report about the 2004-05 California Community Colleges’ Board of Governors “Exemplary Program Award” that was given to SMC’s Student Enhancement & Educational Research Project. The project, which is headed by counselor Esau Tovar and had previously won a national award, seeks to help students on academic probation.

- **Student Services/Administration Building:** The Board heard a presentation by Andrea… (?????), an architect with Santa Monica-based WWCOT, on the design of a new Student Services/Administration Building. The building, which is several years away from construction, is designed as a three-story modern structure with underground parking and would feature an atrium, “sustainable” design and more. The building would be a one-stop shop for all student services and would house Academic and Student Affairs administration and possibly the college president’s office.

- **Recognition of Student Trustee:** The Board recognized and thanked Student Trustee Dina Cervantes for her service at what was her last meeting. Her term officially expires June 1.
• **New Associated Students Board:** Student Trustee Dina Cervantes introduced members of the 2005-06 Associated Students Board of Directors, including Student Trustee-elect Belinda Phillips and A.S. President-elect Lillian Cavalieri. The new A.S. Board members begin their one-year terms July 1, except for the student trustee, who begins June 1.

10-C  CORRECTION – ADDITIONAL ARCHITECTURAL SERVICES NEW STUDENT SERVICES BUILDING

Additional services under the agreement with WWCOT for architectural and engineering services related to the New Student Services Building project. Fee for additional services in the amount of $10,000, not to exceed a corrected total amount of $45,000 plus reimbursable expenses.

Funding Source: Measure U

Comment: These additional services provide for a full cost estimate and other additional documentation required by the State of California for submittal with the Final Project Proposal (FPP) to request State funding for this project. This item corrects the amount previously submitted to the Board for approval which did not include the cost of changes requested by the District.

10-D  FINAL PROJECT PROPOSAL – NEW STUDENT SERVICES/ADMINISTRATION BUILDING

The Board of Trustees of the Santa Monica Community College District approves the submission of the Final Project Proposal (FPP) to the Board of Governors of the California Community Colleges to request state funding support for the new Student Services and Administration Building and promises to fulfill the list of Project Terms and Conditions that are contained within and a part of the Final Project Proposal for the project.

Funding Source: Measure U, State of California

Comment: The FPP is submitted to the State to request approximately $14,229,000 in state funding for the project. Because construction costs have increased since the passage of Measure U, the District is submitting major bond projects that fit within State funding guidelines for supplemental funding.

The Science Building Addition is a Measure U project which is planned for expansion of the Science program and to relocate the Earth Science and Mathematics departments to a permanent location.

RECOMMENDATION NO. 21-C

SUPERINTENDENT/PRESIDENT SEARCH CHARGES TO THE SEARCH COMMITTEE

It is recommended that the Board of Trustees adopted the following charges to the Search Committee, including confidentiality policies and ground rules.

1. To assist in the development of a profile statement of desired presidential qualifications after receiving the recommendations of college's internal and external constituents.

2. To assist in the conduct of an active national search for a Superintendent/President following Equal Employment Opportunity guidelines and considerations as well as the regulations of the state.

3. To follow the timetable for the search that will bring recommendations to the Board by a certain date.

4. To observe the attached policies of strict confidentiality with regard to candidates, applicants, and nominees for the position.

5. To recommend three to five candidates, in unranked alphabetical order, to the Board for its selection for Superintendent/President.

Confidentiality Policies

All individuals involved in the process of selecting the Superintendent/President are expected to honor the following policies and to respect the confidentiality of candidates' personal and professional goals and current position.

1. The college is committed to conducting an open and equitable search process that conforms to the District's Equal Employment Opportunity (EEO) regulations, and to meet the spirit of EEO, as well as the legal requirements of the state.

2. The official spokesperson for the Superintendent/Presidential search is the Public Information Officer. Members of the Search Committee should not discuss the search with the media, individuals or college constituency groups. Regular progress reports will be sent to all interested groups and the media.

3. All candidate files are considered confidential and must be maintained and reviewed in a manner that insures that candidates' identities are not divulged.

4. Information on whether or not an individual is a candidate, and candidates' status at each stage of the search is considered confidential.

5. All information contained in semi-final and final candidates' background and reference reports is considered confidential.

6. The identity of candidates is not to be divulged until the candidates accept invitations to come to the college for open interviews as final candidates.
Ground Rules for Search Committee Meetings

The following ground rules and consensus building process are based on the philosophy that group effort in support of the Superintendent/President search is better than individual effort.

1. Issues and concerns discussed in committee meetings are confidential; committee discussions of candidate identities, names of potential nominees and qualifications of individual applicants and candidates are ABSOLUTELY confidential.

2. Everyone is expected to participate.

3. There is no "rank" in the room; everyone is equal.

Comment: The structure of the Search Committee recommended by the consultant is based on their experiences in successful searches. Understanding college and community needs and helping to establish the shared vision necessary for a success Superintendent/President search requires that all segments of the college community be represented. The Search Committee is encouraged to develop an overall view of the college, its challenges and opportunities, and the role of the Superintendent/President, rather than the view of their particular constituent group. This will help build consensus and support for the final choice of the Board.

Search consultant Abel Sykes will be available via conference call during the Board’s discussion of these recommendations.

RECOMMENDATION NO. 22  ENDORSEMENT OF SANTA MONICA SUSTAINABLE CITY PLAN

It is recommended that the Board of Trustees endorse the Santa Monica Sustainable City Plan (SCP) and support the engagement of the Santa Monica College community in implementing the Plan.

Comment: The Sustainable City Plan provides a comprehensive approach to addressing the long-term environmental, economic and social health of the entire Santa Monica community. The Plan was adopted in 1994 and updated in 2002 to encompass the following eight goal areas:

- Resource Conservation
- Environmental and Public Health
- Transportation
- Economic Development
- Open Space and Land Use
- Housing
- Community Education and Civic Participation
- Human Dignity

The 2002 goals were set by a community-based process and therefore cannot be achieved by the City alone. In order to increase community involvement and better success with the Plan, the City Council created the Sustainable City Task Force (SCTF) and appointed 11 members of the community who hold some kind of expertise in one or more of the SCP goal areas. The newly created SCTF works with City staff to engage the community in development an implementation plan for the SCP.

The SCTF would like to work with Santa Monica College to learn more about what the college is doing through its operations and curriculum to support the SCP and work collaboratively in identifying potential new programs and new funding sources.

RECOMMENDATION NO. 25  RECEIPT OF PERSONNEL COMMISSION PROPOSED 2005-2006 BUDGET

It is recommended that the Board of Trustees acknowledge receipt of the 2005-2006 proposed budget for the Santa Monica Community College District Personnel Commission with the understanding that if further reductions become necessary as the State attempts to resolve its budget situation, the District may request that the Personnel Commission make further reductions to its budget. The Personnel Commission Budget will be discussed as part of the District’s regular budget process.

Comment: The proposed Personnel Commission 2005-06 Budget is slightly less than last year’s budget. The budget reflects a reorganization of the Personnel Commission that will better meet the needs of the Commission and results in a reduction in the Salaries category of the budget. The Personnel Commission’s organizational structure changes will result in the same number of budgeted positions and will include the following positions: Director of Classified Personnel, two Personnel Analysts, two Personnel Technicians, and Administrative Assistant III (confidential) and a Clerical Assistant II.

The budgeted amount for Consultants has been reduced by $50,000 to reflect the deletion of the one-time monies that the Board of Trustees graciously provided to the Personnel Commission for the classification and compensation study of the College’s classified positions. The amount budgeted for Legal Fees is the same amount that was budgeted last year. This amount will ensure that there is adequate funding to cover potential disciplinary hearings as well as unanticipated legal expenses.

JOINT PUBLIC FACILITIES AGREEMENT
SMCCD COMMITMENT OF FUNDS FOR
LAND ACQUISITION

It is recommended that the Board of Trustees authorize the commitment of $1.5 million of Measure S funds for the acquisition of land as part of a joint effort to develop a water treatment facility in Malibu.

Comment: The District, through the creation of a Joint Powers Agreement with the City of Malibu, has committed to the establishment of an educational center in Malibu with funds from Measure S. A water treatment facility including the irrigation land is necessary for the operation of an educational center in Malibu because there is no sewer system. The District desires to be an active participant in the development of the water treatment facility as part of the necessary infrastructure for the operation of the educational facility.

**INFORMATION ITEM E**  

**SUBMITTAL OF GRANTS**

**Title of Grant:** Hispanic Serving Institutions Education Grant Program  
**Funding Source:** United States Dept. of Agriculture/Cooperative State Research Education and Extension Services  
**Requested Funding:** $249,969  
**Performance Period:** 10/01/05 – 09/30/07  
**Expected Award Date:** Summer 2005

Each year, the USDA sets aside funding for Hispanic Serving Institutions to increase the number of under-represented students in agricultural and agricultural-based careers. SMC is proposing to utilize USDA funding to increase the diversity and cultural competency of local and regional food and nutrition specialists, including dieticians. SMC will increase diversity by hiring a recruitment/outreach specialist who will work with the local high schools and with SMC students with undeclared majors to generate interest and enthusiasm in Food and Nutrition Science among ethnically diverse student groups. This recruitment effort will include a summer bridge program focused on Nutrition for local high school students. SMC will increase the cultural competency of the existing and future workforce by offering coursework that integrates culture across the curriculum rather than as a stand-alone class. This will ensure that all students of all ethnic backgrounds are aware of the role that culture has on the health and nutrition of individuals and communities.

**Title of Grant:** Demonstration Project to Ensure that Students with Disabilities Receive Quality Higher Education Program  
**Funding Source:** United States Department of Education/Office of Special Education  
**Requested Funding:** $830,697  
**Performance Period:** 10/01/05 – 09/30/08  
**Expected Award Date:** Summer 2005

As the title implies, the purpose of this grant is to ensure that students with disabilities receive a quality higher education. SMC will achieve this goal by providing professional development activities and peer mentoring to faculty and staff, focusing on the needs of students with disabilities. Grant funds will hire a faculty peer mentor/coach who will facilitate inservice presentations, conduct small group workshops and brown bag lunches, and meet individually with faculty to address the specific needs of students with disabilities. In addition, this grant will also fund the completion of the CD-ROM Accessible Multimedia Project (CAMPproject), which will facilitate faculty development of multimedia learning tools that are accessible for all students.

4. OLD BUSINESS

   Review of District Audit Report (as it pertains to Measure U funds).

   The major issue in the Audit Report was how to address a transfer made during the year end closing process which was improperly recorded. Expenditures related to the library addition project were recorded to the Measure U Bond Building Fund rather than to the old Bond Building Fund, in the amount of $1,187,168.05. The auditor and the District staff agreed that the proper adjustment could be made in the subsequent year’s beginning balance.
adjustments since the County does not have another way to correct errors in closing. In the future, the closings would be earlier so that there is an opportunity to make adjustments. The next audit report will be coming for the next period and will be forwarded to the Committee. There was no effect of this adjustment on interest earned in the account.

Approval of Annual Report, 2003-04

The Annual Report for 2003-04 includes a statement that the District is in compliance with the requirements of Article XIII A, Section 1(b)(3) of the California Constitution and a summary of the Committee’s proceedings and activities for 2003-04.

5. REPORTS and DISCUSSION
   Capital Outlay Program – Bond Projects
   Measure U/Measure S Construction Projects Timeline
   Measure U/Measure S Projects Expenditure Report

   • The cost of construction for Measure U projects have increased, so decisions will need to be made on prioritizing projects and reducing costs to keep the total at $160 million. The District is actively pursuing other funding.
   • The District is working with the City of Santa Monica and the Santa Monica-Malibu Unified School District to jointly develop early childhood education center (classes, not lab) using Measure S funds.

Santa Monica Airport Campus

• The purchase amount of $30 million for the Santa Monica Airport Campus (formerly BAE site) came from Certificates of Participation (COP) not from Measure U funds. COPs are used to borrow funds to purchase land or buildings for a government agency. The payoff of the COPs with Measure U funds will be considered when interest rates increase.
• There were two public hearings held regarding the SM Airport Campus, one in Santa Monica and one in Mar Vista. The Mar Vista residents asked for community services, self-contained programs and adult classes, and the District is planning to provide that public benefit. Some Santa Monica residents may have misunderstood the topic of the meeting, but many good comments were made.
• Classes at the SM Airport Campus are scheduled to start in July, 2005. These will be self-contained programs, adult education, community services courses.

Shuttle Replacement Parking Structure:

• The purpose of the shuttle parking lot was to move cars off the main campus; now a different group is saying they do not want student traffic between the Airport campus and the main campus.
• The traffic study preliminary report will be ready in a couple of weeks.
• The District’s proposal to the City of Santa Monica to build parking under the Airport Park was not well received as they do not see any long-term benefit to the City in doing that, and it would cause delays to the project.
• Another proposal was to build a parking structure on the Bundy site, which was opposed by the Mar Vista residents.
• There was a proposal to bring cars back onto the main campus.
• Another idea presented was for the District to purchase property near a freeway off ramp, build a parking structure and thereby eliminate the amount of surface traffic. This would be very costly and would create another set of problems with the existing freeway off ramp.
• The college is waiting for the Los Angeles City elections to be able to work with the new Councilmember.

14th and Pico:
• The lot at 14th and Pico is being used as the staging area for contractors on various construction projects, thereby keeping open space on campus which allows for better student circulation. This lot is approximately 25,000 square feet.
