RECOMMENDATION NO. 21-A EMERGENCY RESOLUTION FOR EMERGENCY REPAIR OF COMMUNICATION CABLES

The Board of Trustees hereby unanimously resolves that an emergency existed because of the severance of communication cables wherein certain repairs, alterations, work, or improvements were necessary to permit the continuance of existing college classes, or to avoid danger to life or property, as described below:

Installation of fiber optic and copper communication cables needed to replace cables severed by an outside contractor working on the Library project. The estimated cost is approximately $42,000.

With the approval of the Los Angeles County Superintendent of School, the Board of Trustees will make contracts on behalf of the District for the performance of labor and furnishing of materials or supplies for the purpose without advertising for or inviting bids.

Comment: On August 13, 2001, the contractor working on the Library project severed primary communication cables for the campus. Telephone and computer network services were lost to over half of the campus including Admissions and KCRW’s transmission was interrupted during its summer pledge drive. Public Contract Code Section 20654 authorizes the Board of Trustees to take this emergency action.

**TOTAL PROPOSED ADOPTED BUDGET** $180,162,705

The 2000/2001 fiscal year closed with a combined General Fund ending balance of $7,047,790. This is 6.9% of the total actual combined General Fund expenses of $101,934,300. During the 2000/2001 fiscal year the ending balance percentage increased from 5.9% to 6.9% while substantially increasing program offerings and services to our students. This is due to over a million dollars in one-time revenue being received in 2000/2001.

In the following pages, items of interest by fund are highlighted.

**GENERAL FUND**

**General Fund Unrestricted (01)**

These are the funds available for the general operations of the College. All other funds are restricted.

The federal income levels for 2001/2002 are based on information received from the Federal government.

The State Community College budget reflects a 3.87% Cost of Living Adjustment (COLA) and an estimated average state growth of 3%. For Santa Monica College, the State’s projection of growth is 7.64% (CAP). The availability of growth funds depends on the College’s ability to meet the State’s enrollment forecasts. Basic skills funding has been budgeted at zero because it can only be realized if the College grows beyond CAP.

The state funding formula is based on the combination of property taxes, enrollment fees and principal apportionment funds added together to equal the state revenue limit. The figures in the budget are based on projections from the Chancellor’s Office. If actual receipts of either property taxes or enrollment fees exceed projections, apportionment funding will decrease. The enrollment fee remained at $11 per unit for the 2001/2002 fiscal year.

The State Lottery revenues are based on the $117 per FTE projection from the State.
Partnership for Excellence (PFE) funding has not been increased since the Governor would not support the planned system-wide increase or the requested COLA to cover the rising cost of PFE programs. Twenty-five full-time faculty and over $300,000 in part-time faculty positions are funded from PFE dollars and over a million dollars is used to fund instruction related classified positions. Also included in the income account titled “Other State Income” the college has placed the $1,114,232 for part-time faculty compensation and $205,874 for part-time faculty health benefits. Both of these revenues are funded by the State from one-time revenue sources. At this time the funding for part-time faculty office hours is unknown and will need to be treated as a budget amendment when the State provides that information.

Local income items are projected to reflect the 2000/2001 actual figures. Contrary to past practice, the College has budgeted the entire revenue from non-resident tuition to make up for deficiencies in income from the State. The $130 per unit rate has remained constant for two years.

The expenditure budget for the General Fund Unrestricted reflects all anticipated expenditures for the 2001/2002 fiscal year except for faculty items subject to collective bargaining. The past practice of budgeting for all classified vacancies has been suspended for fiscal year 2001/2002. Over $1.6 million of vacancies are not included in this budget.

Academic salary projections for 2001/2002 reflect the hiring of 17 new full-time faculty, and all step and column advancements and sabbaticals. The Chancellor's Office growth formula for Santa Monica College will require the College to hire 19 new faculty in fiscal year 2002/2003.

Classified salary projections include all step, column and longevity increases. All authorized classified positions not on hold are reflected in the budget, including vacancies. The negotiated contract increase of COLA effective January 1, 2002 is included in these projections. These projections include a COLA adjustment for all management and confidential staff effective January 1, 2002.

Employee benefits reflect an increase due to additional staff, increased salaries and a substantial increase in health and welfare benefit costs. Insurance premium increases and utility increases of 50% on gas and electric are reflected in the budget. The equipment budget includes on-going lease purchase payments for equipment and two payments for Certificates of Participation.

The projected ending balance for fiscal year 2001/2002 is $6,309,087. The ending balance will be affected by any collective bargaining agreements.
RESTRICTED FUNDS

General Fund Restricted (03)

This fund represents restricted money that is received by the District from Federal, State and local sources. A summary of all grants is available in the Accounting office. The restricted lottery funds revenue are by law allocated to the purchasing of instructional materials.

The Block Grant and Instructional Equipment and Library Materials Grant are carried over from 2000/2001 funding. No new funds were received for fiscal year 2001/2002. The 2001/2002 Energy Cost funding is $433,004 and will be used for energy conservation projects.

The $1,091,919 adjustment to the 2000/2001 beginning balance is due to post-closing entries and adjustments to the 1999/2000 income shifted to 2000/2001 income.

When received, any new grants will be presented to the Board of Trustees for approval and the College’s budget will be augmented to reflect the increase.

Student Financial Aid Fund (09)

This fund consists of all student financial aid programs (PELL, SEOG, EOPS and Cal Grants). Transfer line item 5 reflects a transfer from the General Fund Unrestricted to meet the match requirement of the individual grant programs.

Special Reserve Fund (15) (Capital)

This fund is also known as the Capital Expenditures Fund. State funding for capital projects, schedule maintenance, asbestos abatement and architectural barrier removal is reflected in this fund. The non-resident capital charge is a revenue source to this fund. This fund includes two funded capital projects, the Library Addition and the equipment for the Library Addition.

Scheduled Maintenance funding for 2001/2002 was deleted from the State budget. The only capital funding the District received for 2001/2002 was $260,800 for Asbestos Abatement.

All capital expenditures in the Special Reserve Fund, as well as Fund 70 and Fund 73, reflect the total allocation and the total expenditures for all projects thus resulting in a $0 ending balance.

Bond Interest and Redemption Fund (21)

This fund is administered by the Los Angeles County Treasurer’s Office and reflects the receipt of property tax money due to voted indebtedness for bond issues and the payment of interest on those bonds plus the redemption of the bonds whose maturity date is within the 2001/2002 fiscal year. This information is projected for the District by the Los Angeles County Treasurer’s Office.
Bond Fund (70)

This fund reflects the revenue from the sale of bonds approved by Proposition “T” and the interest earned in the fund.

The expenditures in this fund are coupled with State grants and FEMA funding to cover the necessary expenses related to the College construction plan approved under Proposition “T”.

Earthquake Fund (73)

This fund reflects the FEMA and OES money received and expended as a result of the damage incurred at Santa Monica College due to the 1994 Northridge Earthquake.

Auxiliary Operations

This budget reflects the income and expenses of the auxiliary operations of the District, namely the bookstore, the food and vending concessions, and College programs in athletic, music, theatre arts and journalism.

CONCLUSION

The 2001/2002 budget has been adjusted to compensate for the State budget cuts made by Governor Davis and the legislators. Unfortunately the State has only provided growth funds to cover the cost of hiring more full-time faculty, improving technology and expanding program offerings. Achieving growth is a calculated process that is more than just adding students. Over the last 10 years, Santa Monica College enrollment has grown by 21% or about 2% per year. Now the State expects us to grow by 7.64% in one year if we are to receive the dollars in their projections.

In order to attempt to meet the funding needs of the College new ways of improving growth funding must be pursued without bringing more students to the main campus. The 2001/2002 General Fund budget reflects a shift of the summer of 2002 into the 2001/2002 reporting period to achieve 90% of the growth the State has allocated to the District.

Given the economic outlook for the State budget over the next two years it is unlikely that even growth will be available after 2001/2002. The current budget reflects the beginning of what the State sees as a period of deficits. The Community College System will need to work together to maintain the funding it currently receives.
