BOARD POLICY

RECOMMENDATION NO. 12 AMENDMENTS TO BOARD POLICY SECTION 6232, CONTRACTS FOR SERVICES AND MATERIALS

It is recommended that effective immediately the Board of Trustees amend Board Policy 6232, Contracts for Services and Materials, as follows:

**BP 6232 Contracts for Services and Materials**

The Board of Trustees shall let any contracts involving an expenditure of more than fifteen thousand dollars ($15,000) for work to be done a public project or more than fifty-two thousand nine hundred dollars ($52,900) the bid threshold limit established annually by the Board of Governors of the California Community Colleges for materials or supplies to be furnished, sold, or leased to the District to the lowest responsible bidder who shall give such security as the District requires, or else reject all bids.

For expenditures less than the amounts stated above, the District may request verbal or written quotations from vendors. Such a request shall not be deemed as a competitive bid and the District shall evaluate quotations based upon the needs and desires of the requisitioning department, quality of the materials and/or services provided and other selection criteria. For expenditures less than the Public Contract Code bid limits, the District shall not be subject to award of contract to the vendor submitting the lowest quotation.

Reference: Public Contract Code Sections 20651 and 22002

Comment: The revisions to Board Policy 6232 bring the policy into conformity with Public Contract Code Sections 20651 and 22002. The bid threshold is increased annually and is currently $60,900. Documentation of the annual bid threshold is maintained in the Purchasing and Accounts Payable offices. The amended language will comply with County requirements and remove the necessity to annually update the Board Policy. The amendments are not substantial and therefore the District is recommending the change take effect immediately. This will facilitate start of the year purchases being processed.

3. APPROVAL OF MINUTES

   Motion was made by Paul Leoni and seconded by Pierce Watson to approve the minutes of April 21, 2004.

   Herb Rose commented that it was noted in the minutes that he had requested a breakdown of costs for the Bundy site to be included on the agenda under “old business,” but it was not included on the agenda. Tom Donner responded that the Measure U Project List (which includes the Bundy Project) was not prepared because of a delay in receiving year-end closing statements. Herb Rose stated that he has requested the breakdown of costs on the Bundy site several times and feels the information he has received is not adequate. Consequently, Tom Donner and he agreed to meet in order to clarify the information being requested. The Measure U Project List will be provided at the October meeting.

   Approval of Minutes: Unanimous
4. **REAPPOINTMENT OF MEMBERS, 2004-2006**

Congratulations to the following members of the committee who were unanimously reappointed for another two-year term by the Board of Trustees on June 7, 2004:

- Paul Leoni
- Ed Moosbrugger
- Jim Mount
- Herb Reich
- Herb Rose
- Bertrand Staggers
- Pierce Watson

It was requested that the following information be included in the minutes regarding the composition of the Citizens' Bond Oversight Committee (CBOC):

*Education Code Section 15282 states that the Citizens' Bond Oversight Committee shall consist of at least seven members, comprised of the following:*

- Representative of business community
- Representative of senior citizens organization
- Member of a taxpayers' organization
- Currently enrolled student
- Member of college advisory board or foundation

Currently, there are two vacancies that need to be filled: (1) SMC student and, (2) representative of a Taxpayers' Association. The District is accepting applications to fill these positions (application is enclosed) and recommendations will be submitted to the Board of Trustees for approval in time for the October CBOC meeting.

Election of officers for 2004-05 will be held at the October meeting after the vacancies are filled.

5. **REPORTS and DISCUSSION**

**Draft of Annual Report, 2003-04**

Motion was made by Joe Weichman and seconded by Pierce Watson to approve the Annual Report for 2003-04. Ed Moosbrugger suggested that the committee be provided the District's Audit Report related to the Measure U funds before approving the Annual Report which contains a statement of compliance. It was agreed that the appropriate portion of the Audit Report would be forwarded to the Committee. The motion was amended to defer approval of the Annual Report until the October meeting. Unanimously approved.

**Measure U Timeline**

*Liberal Arts Replacement Building*

The increasing price of construction materials (steel, lumber, and concrete) and competing construction projects have delayed the awarding of the construction bid for the Liberal Arts Building. A fee factor on the part of the contractors is contributing to bids being 20 to 100 percent over estimates. The District will be going out to bid again for the Liberal Arts Building with the hope of starting construction by the end of the year. This is a complex project because there are multiple funding sources: the City of Santa Monica (Redevelopment Funds), State, FEMA and Measure U. Timing issues need to be coordinated with all agencies.
**Status of Other Projects**

- The District will be interviewing for architects for the Student Services Building.
- Main Stage is progressing.
- Student Services Building: This project has an approximate 6-8 year lead time with the State of California.
- Science Complex: Assuming funds are available, this is the wing along Pearl (where the Liberal Arts building is) and will connect to the existing Science complex. The Math program will be housed here.
- The new Math complex and P.E. facilities are completed.

In response to Bert Staggers' concern about growth and the number of students attending SMC, Piedad Robertson reported that the State’s funding formula is based on growth. If the District doesn’t grow according to the State’s requirements, there is a one-year recovery period. The only way that SMC can achieve the growth required by the State is through distance education, therefore the college is increasing its distance education offerings, particularly in nursing. Linda Sullivan added that the use of the Bundy site is one way for the college to accommodate growth. Piedad Robertson stressed that the State's funding formula needs to be reviewed and revised.

Herb Rose asked if the Concert Hall will still be used by the Music Department after the Madison remodel. Piedad Robertson answered that the Concert Hall will continue to be used by the Music Department, in addition, to the Madison Theater and Rehearsal Hall.

**Proposed Bond Measure**

A public opinion poll recently conducted indicates 65% positive support for a $175 million bond measure on the ballot this November. A document is available (enclosed) that includes the list of projects to be considered by the Board of Trustees in August. Although this committee is not directly involved with the potential bond measure for November, it is important that the members understand what the District is considering.

- Tom reported that there would be no impact on the sale of Measure U bonds because the District is far below its debt limit, and there would be no impact on credit worthiness or ability to pay.

- An important concept of the potential bond measure is that land is extremely expensive and no one agency can monopolize land any longer. The proposal calls for multiple agencies to work cooperatively and share the use of land. The college has a need for field space and cultural arts space to support the University of California admission requirement in the arts.

- The proposal also calls for acquisition of a site/facility/field space in Malibu, and there has been a positive reaction from Malibu to enter into a partnership. Of the $175 million, $100 million would be for shared projects, with a 75/25 split between Santa Monica/Malibu.

- The College has had a challenging relationship with the City of Santa Monica, but this will be a matter of learning to trust each other and work together on partnerships. A good example of this is the swimming pool which was constructed by the City on College land, is jointly used by both agencies sharing operating expenses.

- The SMMUSD Superintendent is recommending to the Board of Education that they not participate in the bond, but keep the door open for shared use.
Concerns/issues raised:

- Jim Mount asked about use of the facility at Bergamot station.
- Eleanore Meyer expressed concern about the difficulty in coordinating efforts.
- John Jalili stated that the alternative to the partnership approach is very expensive. The cost of each agency separately purchasing and operating parallel programs is three times as costly.
- Piedad Robertson stated that “this is a leap of faith.” She added that the projects need to be spread over a number of years.
- Bert Stiggers commented that PNA neighbors are very hostile towards the students because of problems with traffic and parking. He asked if there are plans to project the number of cars in the neighborhood as the colleges grows.
- Piedad Robertson responded that the District has addressed traffic and parking concerns in facility planning, resulting in acquiring Stewart Street property for the Academy of Entertainment and Technology, Madison, Emeritus College on Second Street, and the Bundy site.
- Tom Donner added that SMC’s enrollment has never consisted of more than 30 percent of Santa Monica residents. All residents of the State of California are allowed to attend any community college in the State. Most of the District’s operating budget comes from the State, less than 10 percent comes from local property taxes.
- Paul Leoni expressed concern that this bond measure might be viewed by the public as “coming to the trough” for the college, and he added that the partnership concept will get more support.

Federal Appropriations Update
Presented by Marvin Martinez, Associate Vice-President, Planning and Development

In the Fall of 2002, Santa Monica College launched a campaign to pursue federal funds to support various facility developments throughout the campus. The past two years have proven to be worthwhile in understanding the appropriations process and developing relationships with our local members of the House and Senate. Given the fact that SMC is the “new kid on the block”, the College has made much progress in acquiring new federal appropriations and is awaiting a response on additional appropriations from the Congress. 2004 is an election year. As a result, the Congress will delay decisions on a new budget for fiscal year 2005 as well as appropriations requested by the College.

The following is a list of federal appropriations received and requested by SMC:

Transportation Committee – Under the annual transportation budget approved by the Congress and President George Bush, Santa Monica College was appropriated $1 million for the Madison Campus Parking Structure. A response is expected in January of 2005.

TEA 21 Committee – Under the Reauthorization of the TEA 21 Act, SMC was appropriated a total of $2.25 million for an Intermodal Facility at the Bundy Campus. The funds have been approved by both the House and Senate and are awaiting approval by the President. A response is expected by January of 2005.
Health and Human Services Appropriations Committee (HHS) - Under the HHS Appropriations Committee, SMC was earmarked for a total of $2 million for Nursing. Funds will be used to support the new nursing facility at the Bundy Campus. We await a response in January of 2005.

Transportation Committee – Under the annual transportation budget, SMC has requested an appropriation of $2 million to support parking improvements at the new Bundy Campus. January of 2005 is the earliest we hope to have a response.

Department of Labor – A request of $2.6 million has been made under the Assistant Secretary Emily DeRocco’s Office to support the improvement of SMC’s Nursing Program. Funds can be utilized for equipment and facility improvements. We anticipate a response on this request by the end of August, 2004.

Department of Labor – A request of $3.5 million has been made under the Assistant Secretary Emily DeRocco’s Office to support the development of a Teacher Preparation Program at the new Bundy Campus. Funds can be utilized for equipment and facility improvements. We anticipate a response on this request by the end of August 2004.

The Congress will be going into recess on July 26th which is the opening day of the Democratic Convention in Boston, Massachusetts. After the Republican Convention in August, the Congress will be in a full campaign swing until the elections in November. After the elections, a lame-duck Congress will function to ensure the federal government can continue functioning. In January of 2005, the Congress will resume its responsibility in passing a new budget and considering the various appropriation requests made by SMC and other special interests groups.

- The District’s lobbyist in Washington, D.C. is Cassidy and Associates; the cost is $20,000 a month from SMC operating costs, not Measure U funds.

- In response to Linda Sullivan questions about encouraging CBOC members to write letters and make contacts, Marvin Martinez responded that letters of support are good when the committees are entertaining the District’s requests.

- Herb Rose asked if there is funding available through the State or from private funds. Tom Donner stated that most of the grants in the State are not facilities grants. In addition, the District is required to go through the Chancellor’s Office for facility needs. The SMC Foundation primarily raises money for scholarships, but has raised over $8 million for the Madison project. Most people make contributions to four-year institutions, and private foundations do not usually contribute to construction projects.

- Piedad Robertson added that NIH (National Institute of Health) has money for nursing and they are visiting colleges to meet with faculty to talk about grants and assist with grant applications.
