Inconsistency Between Program Statute and Circular

8

- If Perkins differs from Omni Circular, then Perkins governs.

Most Significant Change

9

- Shift from focus on *Compliance* to focus on **PERFORMANCE!!!**

Performance

10

- Auditors (A-133 + Federal OIG) and Monitors (Federal and State Pass Through) must look more to “outcomes” than to “process”

Flexibility

11

- The “Omni Circular” adds significant flexibility to way grantee / subgrantee can adopt their own processes

Financial Management Controls

*The Key Component to
Federal Grants*

Quick Overview of Major Themes:

20

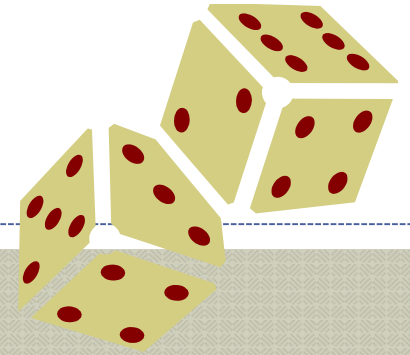

1. Performance Metrics
2. Risk Management
3. Augmented Pass-Through Responsibilities
4. Emphasis on Immediate Corrective Action
5. Cooperative Audit Resolution

WHY??

21

All oversight will examine financial management controls:

- 1) OIG Audit
- 2) Single Audit
- 3) Federal Program Monitoring
- 4) “Pass Through” Monitoring

- **New Risk Assessment Will be Based on Financial Management Controls**

- The more attention paid to financial management controls, fewer headaches down the road!!!

Crosswork Between 34 CFR 80.20 (b) and CFR 200.302(b)

24

34 CFR 80.20 (b)

1. Financial Reporting
2. Accounting Records
3. Internal Control
4. Budget Control
5. Allowable Cost
6. Source Documentation
7. Cash Management

2 CFR 200.302 (b)

1. Identification of Awards

- Accurate, current, complete disclosure of financial results of each award
- (Old) in accord with the financial reporting requirements of the grant
- (New) in accord with 200.327 and 200.328
- 200.327 – Federal awarding agency can only collect OMB approved data elements, no less than annually, no more than quarterly
- 200.328 – Non federal entity must submit performance reports at intervals required by federal agency or pass through. Annual performance reports due 90 days after reporting period; Quarterly performance reports due 30 days after reporting period

2) Financial Reporting (cont.)

28

- Performance Metrics:

1. Compare actual accomplishments to objectives. (quantify to extent possible)
2. Reasons goals were not met if appropriate
3. Additional pertinent information (e.g. analysis and explanation of cost overruns, high unit costs)

2) Financial Reporting (cont.)

29

4. **Significant developments**
 - a. Problems, delays. Adverse conditions that would impair ability to meet objective of the award
 - b. Favorable developments. Finishing sooner or at less cost

2) Financial Reporting (Cont.)

30

- OMB Allows ED to waive “performance metrics” not required.

- How will ED reconcile performance metrics with accountability / performance indicators of ESEA, IDEA, CTE, AEFLA

3) Accounting Records (Source Documentation)

- Must adequately safeguard all assets
- Use assets solely for authorized purpose

4) Internal Control 200.303 (cont.)

33

6) Written Cash Management Procedures (cont.)

38

- For all other non federal entities, payments must minimize time elapsing between draw from G-5 and disbursement (not obligation)

6) Written Cash Management Procedures (cont.)

39

- Written procedures must describe whether non-federal entity uses:
 - 1) Advance Payments (preferred)
 - Limited to minimum amounts needed to meet immediate cash needs
 - 2) Reimbursement
 - Pass through must make payment within 30 calendar days after receipt of the billing
 - 3) Working Capital Advance
 - The pass through determines that the nonfederal entity lacks sufficient working capital. ➡ Allows advance payment to cover estimated disbursement needs for initial period

6) Written Cash Management Procedures (cont.)

40

- Non federal entity must use existing resources before requesting an advance: program income, refunds, rebates, interest earned

6) Written Cash Management Procedures (cont.)

41

- Payments must not be withheld from nonfederal entities unless finding of noncompliance debt to the U.S., or nonfederal entity is withholding payment to a vendor to assure satisfactory completion of work

6) Written Cash Management Procedures (cont.)

42

- Advances must be maintained in insured accounts
- Pass through cannot require separate depository accounts
- Accounts must be interest bearing unless:
 1. Aggregate federal awards under \$120,000
 2. Account not expected to earn in excess of \$500 per year
 3. Bank require minimum balance so high, that such account not feasible

Pass-Through Agency Responsibilities

56

Show me the money!!!

What was COFAR Thinking?

If A-133 cost and S/A costs come from the same pot of fund, perhaps SEAs will do a better job

Will pass-through agencies embrace
“performance metrics” more
effectively?

- A pass-through entity means a non-federal entity that provides a subaward to a subrecipient to carry out part of a federal program.

-200.74

(e.g. ESEA, IDEA, CTE, AEFLA)

- Under EDGAR / A-102, pass through responsibilities primarily described in 34 CFR 80.40 – Monitoring of Subgrantees
- (Note – Part 76* on S/A programs will not change significantly)

*And Part 75

- But OMB / COFAR shifted many new responsibilities to the pass-through, over and above 80.40

- Omni Circular NPRM (February 1, 2013) proposed reduction of the number of types of compliance requirements in the compliance supplement

- Many pass-throughs opposed this reduction because of burden on them. OMB punted p. 78608

Monitoring Responsibilities of the Pass-Through ⁽⁹⁶⁾ 200.328 → 34 CFR 80.40

- Non federal entity is responsible for oversight of the operations of the federally supported activities

Measuring Performance “Performance Metrics” 200.328(b)

67

- The non federal entity must submit the performance metrics to the pass-through
 - ✦ 200.32(b)

The Big Question

68

- How will ED (OESE, OSERS, OPE, OCTAE) reconcile the OMB required performance metrics with the current statutory / regulatory performance / accountability indicators?

- In many instances OMB performance metrics are more detailed

Specific Requirements for Pass-Through (200.331)

70

- Ensure that every subaward contains the following information relating to federal award identification:
 1. Subrecipient name (must match registered name in DUNS)
 2. Subrecipient DUNS # (Data Universal Numbering System)
 3. Federal Award Identification Number (FAIN)
 4. Federal Award Date

Specific Requirements for Pass-Through (200.331) (cont.)

71

5. Period of performance start and end date
6. “Amount of federal funds “obligated” by this action”??
7. “Total amount of Federal funds “obligated” to the subrecipient” ??
8. “Total amount of the federal award”

Specific Requirements for Pass-Through (200.331) (cont.)

72

9. Federal award project description for FFATA purposes
10. Name of federal awarding agency, pass-through agency, and contact official
11. Is the award for “research and development” ?
12. The indirect cost rate (restricted vs. unrestricted)

- The pass-through must reference the requirements of the federal grant and any additional requirements imposed by the pass-through (i.e. state-administered programs)

(Incorporate by reference)

Compare 200.331(a)(1)(xiii) to 200.331(a)(4) on indirect costs

74

- What is the relevance of the approved federally recognized indirect cost rate in state-administered programs with a non supplant provision?
- Must pass-through negotiate restricted rates, and must sub-grantees use them?

- Pass through must seek an assurance from subgrantees that access will be provided to records and financial statements

New Risk management Requirements for Pass-Throughs

76

- Pass-through must evaluate each subrecipient's risk of non compliance (federal statute / regulations / terms of award) for purpose of monitoring

- Risk Factors:

1. Subrecipient's prior experience with the grant program
2. Results of previous audits
3. New personnel or substantially changed systems
4. Results of federal monitoring

200.331

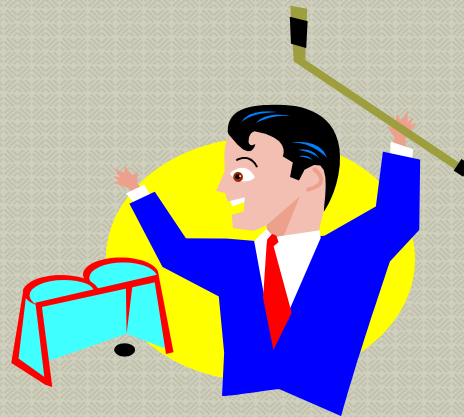

79

- Pass-through may impose conditions on subgrant based on risk assessment:
 1. Shift to reimbursement
 2. Withhold payments until evidence of acceptable performance
 3. Require more reporting
 4. Require additional monitoring
 5. Require additional technical or management assistance
 6. Establish additional prior approvals

200.331

80

- Pass-through must monitor its subrecipients to assure compliance and performance goals are achieved

200.331

81

- Monitoring must include:
 1. Review financial and programmatic reports
 2. Ensure corrective action
 3. Issue a “management decision” on audit findings if the award is from the pass-through

- Types of monitoring tools (depending on risk assessment)
 1. Providing training and technical assistance
 2. On-site reviews
 3. Arranging for “agreed upon procedures” (less than \$750,000)

200.331

83

- Pass-through must verify all subrecipients (> \$750,000) have single audits

200.331

84

- Pass-through must adjust its own financial records based on audits, monitoring, on-site reviews

200.331

85

- Pass-through must consider taking enforcement action based on non compliance:
 1. Temporarily withhold cash payments pending correction
 2. Disallow all or part of the cost
 3. Wholly or partly suspend the award
 4. Recommend to federal awarding agency suspension / debarment
 5. Withhold further federal awards
 6. Other remedies that may be legally available

200.339

86

- The pass-through may terminate the award for “cause”, notice and opportunity for hearing (200.340 and 200.341)
