Santa Monica College’s Registered Nursing Program submitted a total curriculum revision to the California Board of Registered Nursing, the Accreditation Commission for Education in Nursing, Inc., and Santa Monica College’s Curriculum Committee in 2018. The total curriculum revision was done to create a more contemporary, concept based curriculum in alignment with growing trends in the health care industry. The total curriculum revision was implemented in Spring 2019.

In this Nursing Student Handbook you will see references to both the past and revised curriculum since students currently enrolled in the program may be enrolled in either the past or revised nursing courses. Students have catalog rights based on the semester first enrolled in the Nursing Program.

Transition to the revised curriculum will be completed in Fall 2020.
The Nursing Program philosophy is in accord with the philosophy and mission statement of the college. Teaching and learning are viewed as the institution’s primary responsibility. The standard of educational excellence delivered within a diversified educational setting has particular significance for the nursing program. The nursing program at Santa Monica College is designed to produce an Associate Degree Nurse who is caring, competent and compassionate. To that end, the philosophy of the nursing program incorporates beliefs regarding person, environment, health, nursing, the art and science of nursing and nursing education.

Faculty believes that each individual is a bio-psycho-social-spiritual being who is more than the total of his/her parts. As a result of these properties, the person is capable of participating in determining his/her own destiny and is, subsequently, largely responsible for decisions and actions influencing his/her state of being. Each person is in constant interaction with an ever-changing environment in order to meet personal needs. This state of being or existence is recognized as life and may have varying degrees of quality at any point in time. The attribute of quality is a perception based in the person’s unique totality and the society in which the person functions.

Health is a dynamic state of physical, mental, social and spiritual well-being and not just the absence of disease or infirmity. Health is influenced by an individual’s perceptions and adaptive abilities in response to changing needs. Health problems arise when needs are not met, are only partially met, or remain in conflict.

Nursing responds to health problems that occur when an individual requires assistance to meet identified or perceived needs. The goal of nursing is to assist the individual to attain his/her unique optimal health potential. As primary members of the health care team responding to health needs of individuals, nurses facilitate and maintain an environment conducive to promoting health.

Nursing faculty of Santa Monica College believes that nursing incorporates both art and science. Caring is believed to be a core value of nursing that directly influences the healing process. Inherent components of the caring environment include support of both the Nurses’ Code of Ethics and the Patient’s Bill of Rights. Nursing has the capacity to create caring environments and render compassionate care that acknowledges the uniqueness of each individual. Compassionate care encompasses, but is not limited to, recognition of the interdependence of all living things and sensitivity to the worth of each person.

Nursing education incorporates principles and theories from other disciplines such as physical, behavioral, social and natural sciences. The science of nursing is based on scientific and technical data, which provides the basis for competent care. The focus of nursing is on the diagnosis and treatment of human responses to actual and/or potential health problems. Competent care includes the provision of direct care, guidance, support and education to individuals and groups. Competent care is rendered and managed through utilization of the systematic problem solving method called the nursing process. Through this process the nurse assesses, plans, implements and evaluates actions that assist individuals to sustain life, enhance health, recover from illness and/or complete the life cycle with dignity. Outcome criteria, which reflect competency, are considered valid evaluators of educational integration and progression.
Faculty believes that the teaching-learning experience is a shared process with reciprocal responsibilities. Students enter the Santa Monica College Program from diverse backgrounds. They are recognized as unique in their culture, experiences, values, sexual orientation, economic status, attitudes, motivation, learning styles and learning potential. Faculty accepts the responsibility for establishing and maintaining a learning environment that will broaden the students’ awareness and appreciation of the uniqueness of others. Faculty believes that varied methodologies provide opportunities for cognitive growth, self-discovery, social interactions and sharing of ideas. The faculty believes that support services should be available and accessible to students. Support services include but are not limited to educational advisement, tutoring, assessment of skills and learning disabilities, remediation of basic skills, financial aid, health services, and psychological services. Faculty will refer students to appropriate resources to facilitate student success. It is the student’s responsibility to follow through or make an informed decision regarding the utilization of appropriate resources. Students should also assess and evaluate their support system(s), and develop strategies to achieve successful completion of the program.

Faculty upholds and promotes the belief that learning is a process that continues throughout the lifespan. The student learner is given the responsibility for actively participating in the educational experiences provided. Students are considered to be mature individuals capable of becoming increasingly self-directed, responsible and accountable for their own actions and decisions.

Rev 5/05
The SMC Nursing program provides high quality education to meet health care needs of diverse persons with knowledge, skills, and attitudes to engage in quality care. The SMC Nursing Program is committed to advancing the science and art of nursing by empowering graduates to value safety, teamwork and collaboration, patient centered care, quality improvement, informatics, evidence based and commitment to lifelong learning. The values of the Santa Monica College Nursing Program are caring, inclusivity, integrity, and civility.

The faculty believe that the person is holistic, social, and culturally diverse with integrated body, mind, and spirit existing within the context of families, groups, and communities. Each person is unique, has dignity and self-worth, the potential for change, and the right to self-determination. Each person has different capacities and vulnerabilities, and the potential to affect his/her human responses and health outcomes throughout the life cycle.

Health is viewed by the faculty as a state of physical, mental, social and spiritual well being. It is influenced by one’s perceptions, experiences, and culture. The Health – Illness Continuum is a dynamic process that reflects the view of the World Health Organization (WHO). Health is “a state of well-being and not merely the absence of disease or infirmity”. When a person reaches the end of life, the goal is for the person to experience peace and end life with dignity.

Nursing is a professional discipline with a defined body of knowledge which focuses on actual or potential health problems. Nurses promote the image of nursing by modeling the values, ethics, standards, and attitudes of the nursing profession. The nursing faculty recognizes that professional nursing accountability underpins safe and effective nursing practice. Professional nursing accountability is defined as: “Taking responsibility for one’s nursing judgments, actions, and omissions as they relate to life-long learning, maintaining competency, and upholding both quality patient care outcomes and standards of the profession while being answerable to those who are influenced by one’s nursing practice” (Krautscheid, 2014). The faculty believes caring empowers the nurse to recognize the inherent worth of each individual and group and to promote health, healing, and hope.

The faculty view nursing education as a dynamic process that upholds the principles of life-long learning and respects previous knowledge that the student brings to the educational environment. Nursing education provides theoretical knowledge that prepares the student to practice in ways that facilitate and promote health of persons, families, and diverse communities. Competent care is provided and managed through utilization of the systematic clinical reasoning method called the nursing process.

The teaching – learning process is contextual and the faculty promotes learning through an interactive student centered environment. The nursing faculty believes the teaching - learning process include a variety of teaching methodologies. The nursing faculty are facilitators, and role models. Learning is ongoing and fosters discovery. The teaching – learning environment is influenced by student dimensions including: culture, ethnicity, gender, learning styles, goals, and support systems.
The nursing faculty’s view of nursing is consistent with Dorothea Orem’s Self-Care Concept of Nursing, which provides the unifying framework for the SMC nursing curriculum. Nursing, according to Orem, is a human service based on the values of self-help to assist individuals unable to care for themselves. It achieves its purpose through effective procedures, and communication that takes into account the ethnic, racial, cultural, sexual and spiritual differences that influence self-care in the promotion of health. According to Orem, each human being is a complex integration of physical, psychological, interpersonal, and social functions; each is self-reliant and responsible both for self-care and the well being of their dependents.

The nursing faculty agrees with Orem that human beings have the capacity to: learn and develop; to reflect upon their experiences and their environment; to symbolize what they experience; and to use symbols (words and ideas) in thinking, communicating and guiding efforts to benefit themselves and others. Self-care is behavior that individuals can learn commensurate with their age, mental capacity, culture, society, and emotional state. Care may be rendered by others when an individual is unable to learn or provide self-care for whatever reason.

The ability of the individual to meet basic needs and maintain present states of health or well-being or move toward estimated desirable states, determines self-care demands -- a complex set of requirements for actions that assist a person to maintain or move toward a desired health state.

The goal of health care services is the health and well-being of individuals, families and communities. Nursing is a specific health care service that focuses on enhancing the self-care capacity of an individual, family, or community; on providing criteria for describing, measuring, and predicting their functional activities; and on giving direct assistance to people unable to meet the requirements for self-care.

For self-care to be therapeutic, it must help to sustain life, promote normal growth and development, and prevent or control the effects of disease and disability. Any interference with the individual’s ability to perform self-care activities related to their health state indicates a need for nursing. Thus the goals of nursing are to:

1. accomplish the patient’s self-care demand;
2. move the patient toward responsible self-care -- either independence or adaptation to self-care interruptions or decline;
3. assist with the transfer of responsibility to family member or significant other;
4. enhance the general feeling of well-being.

The faculty utilizes Orem’s Model, the Nursing Process, the program’s philosophy and specific course objectives to prepare each student to become an Associate Degree Nurse. The preparatory courses in communication and in social, behavioral and natural sciences provide a solid foundation upon which students can build their understanding of nursing concepts and their individual approach to nursing care. Upon completion of the program, the SMC ADN graduate is eligible to take the NCLEX-RN and function as a safe and accountable entry level staff nurse: as a care provider, manager of patient/client care and a member of the nursing profession.
**Education**

Learning occurs in the cognitive, affective, and psychomotor domains. It is facilitated by professional role-modeling in an environment conducive to critical thinking and the exchange of ideas and promoted by the reciprocal involvement of students and faculty. Recognizing each student’s individuality, the faculty strives to individualize the teaching/learning process based upon the student’s desires, needs, responsibilities, and experiences and to assist the student in progressing from the known to the unknown, the overt to the covert, the simple to the complex.

Nursing education is eclectic and hierarchical in nature. The curriculum builds upon previous and concurrent learning, draws from several academic disciplines, and integrates the concepts of the Orem Model, the nursing process, developmental changes throughout life, and the bio-psycho-socio-spiritual and cultural needs of the individual. Because the faculty agrees that competency-based learning is essential to nursing education, outcome criteria that reflect competency are considered valid evaluators of a student’s educational integration and progress.

**Health**

Orem states that health is a state of wholeness in which the individual has the capacity to live in harmony with his or her physical, biological, and social environments and to achieve well being. Because health is considered not merely the absence of disease or infirmity but rather a state of physical, mental and social well being, an individual may become a patient in need of assistance as a result of any or all of the following:

1. lack of knowledge
2. lack of skills
3. lack of motivation
4. lack of orientation
5. capacity

Assistance may be required to meet either:

1. basic self-care requisites or
2. specific self-care needs as related to effects of injury or illness.
**Major Components of the Model:**

- An individual is a bio-psycho-socio-spiritual-cultural and rational human being.

- An individual has three categories of self-care needs: Universal, Health Deviation, and Developmental.

- An individual possesses capabilities and deficits in providing for their own self-care needs and well-being. These capabilities or deficits are of five types: knowledge, skills, motivation, orientation, and capacity.

- The nurse’s role is one of enabling the patient to provide for his or her own self-care needs. The nurse, with the patient, identifies the nursing assistance focus (goal) and provides the intervention mode (care) through acting, teaching, guiding, supporting and/or providing a developmental environment. These intervention modes are wholly compensatory, partly compensatory, or supportive-educative, depending on the self-care demand.
Competencies of the Associate Degree Nurse on Entry into Practice

The purpose of the Santa Monica College Nursing Program is to prepare Associate Degree nurses to function as caring, competent, and compassionate practitioners at an entry level of professional nursing and across a variety of care settings. The graduate of this program will be able to work with and provide care for patients of diverse groups in a multicultural community.

The Santa Monica College Nursing Program has established the following competency based objectives as outcome criteria for the graduate based on the NLN Core Components and Competencies for graduates of Associate Degree programs.

I. ROLE AS A PROVIDER OF CARE

1. Utilize critical thinking and the nursing process to formulate and maintain individualized, compassionate care for a group of patients.
2. Collaborate with members of the health team to provide a caring and compassionate environment conducive to assisting in the fulfillment of health care needs.
3. Develop and implement an individualized teaching plan that will promote and/or maintain optimal health.
4. Utilize therapeutic communication to assist patients, families, and/or significant others in adapting or coping with life experiences.
5. Communicate changes in health status that interfere with the patient’s ability to maintain or achieve optimal health.

II. ROLE AS A MANAGER OF CARE

1. Coordinate and establish nursing care priorities
2. Assist nursing personnel to develop and enhance nursing care skills.
3. Utilize appropriate channels of communication to accomplish goals related to delivery of patient care.
4. Advocate for individual patient needs and for system changes to improve health care delivery.

III. ROLE AS A MEMBER WITHIN THE DISCIPLINE OF NURSING

1. Maintain accountability for own nursing practice within the profession’s ethical and legal framework.
2. Serve as a role model to members of the nursing team by fostering high standards of nursing practice.
4. Acknowledge the influence of nursing research on nursing practice.
The graduate of Santa Monica College nursing program will be able to work within a variety of settings and provide care for patients of diverse groups in a multicultural community. The program student learning outcomes are:

1. Delegate tasks based on the legal scopes of practice.
2. Collaborate with members of the health team to provide a caring and compassionate environment conducive to assisting in the fulfillment of health care needs.
3. Advocate for patients and families in ways that promote self-determination.
4. Exhibit clinical reasoning and judgment in practice substantiated with evidence that integrates nursing science and technology in the provision of safe quality care that promotes the health of patients across a variety of settings.
LEVEL I

Upon entry to Level I, the student will have completed English 1, Anatomy 1, Physiology 3 and Microbiology 1. The student will demonstrate an understanding of the material in these courses and will have the ability to apply this content in subsequent courses throughout the curriculum. The student will be expected to demonstrate proficiency in basic nursing skills and assess patients using Orem’s Self-Care Model in application of the nursing process. At the conclusion of Level I the student will have successfully completed Nursing 10, 10L, 15, 15L, and 36.

Upon completion of Level I the student will be able to:

Role of Provider of Care

1. Develop competency in basic nursing skills reflecting awareness of critical elements and the integration of universal factors that are appropriately applicable.
2. Utilize therapeutic communication when interacting with patients and colleagues.
3. Utilize teaching principles to promote and maintain optimal health by implementing existing teaching plans.
4. Incorporate behaviors of caring and respect during the provision of basic nursing care for patients with self-care requisites.
5. Apply the nursing process and components of critical thinking abilities when implementing therapeutic nursing interventions for patients with self-care requisites.

Role as Manager of Care

1. Complete assignments within the allotted time frame.
2. Comply with established nursing standards and protocols.
3. Identify and discuss circumstances that require patient advocacy.
4. Participate in the self-evaluation process and identify strategies that will assist in development.
LEVEL II
Upon entry to Level II, the student will have successfully completed all Level I requirements and is expected to apply the knowledge of principles, concepts and theories learned to all Level II coursework. During Level II the student will demonstrate the acquisition of additional skills and the assessment of patients with selected health deviations. The student will formulate individualized care plans, which reflect the interdependence of the nursing process, knowledge of selected health deviations, and critical thinking abilities. At the conclusion of Level II the student will have completed Nursing 20, 20L and Nursing 25, 25L, Nursing 17, Nursing 28, and Nursing 16.

Upon completion of Level II the student will:

Role as Provider of Care
1. Demonstrate critical thinking skills when implementing therapeutic nursing interventions while providing care for patients with selected health deviations.
2. Correctly employ each component of the nursing process in theory, clinical, and written assignments.
4. Perform therapeutic nursing interventions in a respectful, empathetic, and caring manner, which reflect consideration of multi-cultural variables.
5. Integrate patient education consistently to provide assistance for the patient and immediate support system.
6. Predict nursing assistance required for the patient with selected health deviations using an analytical approach.

Role as a Manager of Care
1. Prioritize and manage nursing assistance for patients with selected health deviations.
2. Interact with members of the multi-disciplinary health care team.
3. Communicate effectively through appropriate channels to achieve stated goals in the health care setting.

Role as a Member Within the Discipline of Nursing
1. Act as a patient advocate by recognizing and reporting concerns regarding quality of care, and ethical or legal dilemmas encountered in practice.
2. Critique performance and incorporate suggestions for improving nursing practice.
3. Display behaviors, which reflect an awareness of issues of contemporary health care and the managed care environment.
4. Utilize technology appropriately to assess own learning needs and expand theoretical foundation.
LEVEL III

Upon entry to Level III the student will have completed Level II, or be accepted for advanced placement into Level III. The student will incorporate and transfer theoretical concepts and principles from Level I and Level II. During Level III the student is expected to incorporate increasingly complex assessment of patient needs in medical-surgical settings. The student will plan and implement nursing care, which reflects thorough understanding of the nursing process and the constant interrelatedness of psychosocial and physiological patient needs. At the conclusion of Level III the student will have completed Nursing 30, 30L, 35, 35L Speech 5, Psychology 19, and Sociology 1.

Role as a Provider of Care
1. Develop and implement individualized plans of care for patients with multi-system health deviations.
2. Assess the appropriateness of therapeutic nursing interventions based on individual patients health deviations.
3. Utilize therapeutic communication to interact with patients, families, significant others, and members of the health care team.
4. Evaluate the effectiveness of therapeutic use of self with patients, facilities, significant others, and health team members.
5. Develop and implement individualized teaching plans for patient and/or family that will promote or maintain optimal health.

Role as a Manager of Patient Care
1. Assess the effectiveness of delegation by health team members in a variety of care settings.
2. Collaborate with members of a multi-disciplinary team and/or ancillary personnel to facilitate delivery of health care.
3. Delegate aspects of care to appropriate members of the team.

Role as a Member Within the Discipline of Nursing
1. Engage in activities that promote self-development.
2. Discuss ethical and legal issues related to patients with multi-system failure.
3. Discuss allocation of resources in the current health care environment and predict the impact on health care delivery.
LEVEL IV

Upon entry to Level IV the student will have completed all other course work required in the nursing curriculum. The student incorporates and transfers theory and principles from Levels I, II and III. During Level IV the student will assess patients with self-care requisites, health deviations and developmental needs. The student will plan and implement care for patients in obstetric, pediatric, and medical-surgical settings. The student will also apply leadership and management principles and discuss some of the issues confronting the profession of nursing. The student demonstrates skill proficiency in providing care to patients with complex self-care demands. At the conclusion of Level IV the student will have completed Nursing 40, 40L, 45, 45L, 50, 50L, and all requirements of the program.

Upon completion of Level IV the student will be able to:

Role as Provider of Care
1. Utilize critical thinking skills and the nursing process to implement therapeutic interventions that will assist in meeting the therapeutic self-care demand, self-care requisites, health deviation, and developmental needs, for a group of patients with multi-system deficits.
2. Collaborate with members of the health care team to ensure a caring environment conducive to promoting optimal health.
3. Utilize therapeutic communication to facilitate adaptation of patients, families, or significant others to maturational and situational stressors.
4. Develop and implement teaching plans that assist in promoting and maintaining health across the life span.

Role as Manager of Care
1. Demonstrate ability to delegate aspects of care to licensed and/or unlicensed personnel.
2. Supervise and evaluate the nursing care provided by members of the health care team.
3. Assess the need for and participate in staff development that will enhance the quality of health care delivered in a variety of settings.
4. Advocate for individual patient needs and for system changes to improve health care delivery.
5. Function within the organizational framework to initiate change(s) that will improve health care delivery.

Role as a Member Within the Discipline of Nursing
1. Demonstrate accountability for own nursing practice within the ethical and legal framework of the profession.
3. Acknowledge the influence of nursing research on nursing practice.

(Prior to Spring 2019)

Describe Behaviors That Satisfy Meeting the Following Roles:

Role as Provider of Care

Role as Manager of Care

Role as a Member Within the Discipline of Nursing

Areas That Need Improvement
The Code of Ethics for Nurses with Interpretative Statements (the code) establishes the ethical standard for the profession and provides a guide for the nurse to use in ethical analysis and decision making. The code is nonnegotiable in any setting. It is foundational to nursing theory, practice and praxis in its expression of the values, virtues, and obligations that shape, guide and inform nursing as a profession. A code of ethics stands as a central and necessary mark of a profession. It functions as a general guide for the profession’s members and as a social contract with the public that it serves. A code of nursing ethics cannot be static, neither can it be unstable. It must be enduring and rooted in the core of nursing identity, but must be also responsive to the growth, development and context of practice. Nursing encompasses the protection, promotion, and restoration of health and well-being, the prevention of illness and injury; and the alleviation of suffering in the care of individuals, families, groups, communities and populations. All of this is reflected in part, in nursing’s persisting commitment both to the welfare of the sick, injured and vulnerable population in society and to social justice. Nurses act to change those aspects of social structures that detract from health and well-being. Individual who become nurses, as well as the professional organizations that represent them are expected not only to adhere to the values, moral norms, and ideas of the profession but also to embrace them as a part of what it means to be a nurse. The ethical tradition of nursing is self-reflective, enduring and distinctive. A Code of Ethics for the nursing profession makes explicit the primary obligation, values, and ideas of the profession. In fact, it informs every aspect of the nurse’s life.

The Code of Ethics for Nurses with Interpretative statements serves the following purposes:

1. It is a succinct of the ethical values, obligations, duties, and professional ideas of nurses individually and collectively.
2. It is the profession’s non-negotiable ethical standard.
3. It is an expression of nursing’s own understanding of its commitment to society.

The Code of Ethics can be achieved through the following Provisions:

1. Affirming Health through Relationships of Dignity and Respect.
   1.1 Respect for Human Dignity
   1.2 Relationships with Patients
   1.3 The Nature of Health
   1.4 The Right to Self Determination
   1.5 Relationships with Colleagues and Others
2. The Patient as Nursing’s Foundational Commitment.
   2.1 Primacy of the Patient’s Interest
   2.2 Conflict of Interest for Nurses
   2.3 Collaboration
   2.4 Professional Boundaries
3. Advocacy’s Geography
   3.1 Protection of the Rights of Privacy and Confidentiality
   3.2 Protection of Human Participants in Research
   3.3 Performance Standards and Review Mechanisms
   3.4 Professional Responsibility in Promoting a Culture of Safety
   3.5 Protection of Patients Health and Safety by Action on Questionable Practice
3.6 Patient Protection and Impaired Practice
4. The Expectation of Expertise
4.1 Authority, Accountability, and Responsibility
4.2 Accountability for Nursing Judgments, Decisions, and Actions
4.3 Responsibility for Nursing Judgments, Decisions, and Actions
4.4 Assignment and Delegation of Nursing Activities or Task
5. The Nurse as Person of Dignity and Worth
5.1 Duties to Self and Others
5.2 Promotion of Personal Health, Safety and Well-Being
5.3 Preservation of Wholeness of Character
5.4 Preservation of integrity
5.5 Maintenance of Competence and Continuation of Professional Growth
5.6 Continuation of Personal Growth
6. The Moral Milieu of Nursing Practice
6.1 The Environment and Moral Virtue
6.2 The Environment and Ethical Obligation
6.3 Responsibility for the Healthcare Environment
7. Diverse Contributions to the Profession
7.1 Contributions through Research and Scholarly Inquiry
7.2 Contributions through Developing, Maintaining, and Implementing Professional Practice Standards
7.3 Contribution through Nursing and Health Policy Development
8. Collaboration to Reach for Greater Ends
8.1 Health is a Universal Right
8.2 Collaboration for Health, Human Rights, and Health Diplomacy
8.3 Obligation to Advance Health and Human Rights and Reduce Disparities
8.4 Collaboration for Human Rights in Complex, Extreme or Extraordinary Practice Settings
9. Social Justice: Reaching Out to a World in Need of Nursing
9.1 Articulation and Assertion of Values
9.2 Integrity of the Profession
9.3 Integrating Social Justice
9.4 Social Justice in Nursing and Health Policy

Adapted from: Guide to the Code of Ethics for Nurses with Interpretive Statements
A link to the current listing of catalog course descriptions is available on the SMC homepage at [www.smc.edu](http://www.smc.edu)

Nursing course numbers with a companion laboratory course (L) must be taken concurrently.

*Applies to transfer/LVN students
Enrichment courses are courses offered to on-going nursing students to enhance and/or reinforce content of required nursing courses. These courses are optional for students. These courses cannot be used to remediate a failing grade or substitute for competency in a prior course. Some are offered on a credit/no credit basis. Most are offered in summer and winter sessions. Class size is often limited. Students on the wait list for readmission to a course must be approved by faculty prior to participating in courses offered within a clinical setting.

A link to the current listing of catalog course descriptions is available on the SMC homepage at www.smc.edu

STANDARDIZED TESTING
ASSOCIATED WITH NURSING PROGRAM

Policy

Students in the Santa Monica College Nursing Program will be required to participate in a series of national testing. Students will be required to pay a test fee and will receive national percentile ranked scores in return. The Instructor of the related course will inform students of test administration times. Actual testing will occur outside of lecture time and after administration of the final examination for the related course. Testing time is incorporated into the required course units. The fee for testing for the entire program is payable at the end of the first semester to facilitate timely ordering of tests. Failure to participate in this process will result in the awarding of a grade of “Incomplete” for the associated course.

Purpose

The inclusion of external testing within the program serves the following benefits:

Students receive feedback immediately following concentration on a specific area of content or at a point in time in which certain cognitive abilities should have been integrated. The feedback ranks students among diploma, associate degree and baccalaureate degree nursing students nationwide. The results facilitate students’ awareness of their abilities and reflect acquisition of a common core of knowledge based on a particular topic.

The process of taking standardized tests and receiving nationally ranked results removes variables and/or biases which could be present at local levels such as learning or teaching styles, student/instructor relationship, and clinical or personal experiences.

The composite results received by the program provide feedback to the faculty regarding inclusion of core material. This information could promote practice appropriate program and/or specific course changes. The information also allows for tracking and trend analysis over time with consideration of variables that may have influenced results.

The process of taking multiple standardized national tests within the program provides practice for the student prior to taking the National Council Licensure Examination. In addition to practice, results provide the student with information on their preparedness for taking the National Council Licensure Examination. This information provides the student with data upon which to make decisions for studying, reviewing materials, taking additional coursework and/or paying sums of money for these purposes.

The table on the following page identifies the test, cost, and point of administration.

08/2019
MEDICATION ADMINISTRATION REQUIREMENTS

SANTA MONICA COLLEGE
DEPARTMENT OF NURSING
MEDICATION ADMINISTRATION REQUIREMENTS

All medications are expected to be administered safely, through use of the SIX RIGHTS. They are to be administered in a timely manner and are to be documented accurately.

REQUIREMENTS*: 

1. At the beginning of each shift, the student will check the medication record to determine which medications are to be administered that shift and the time to be administered.
2. Medications will be prepared for administration within 30 minutes of the actual written time of administration, except for extenuating circumstances (patient off floor, patient NPO, missing meds, etc.).
3. Oral medication will be placed in a medicine or soufflé cup in their unit dose package (do not open packages to half a tablet until checked by the instructor but be sure to state that tablet is to be halved). The medication/soufflé cup should then be placed in the patient cassette or kept with the student until checked by the instructor. Equipment for medications delivered by other routes (syringes, IV tubing, etc.) should be available at the medicine pyxis/cassette. The medication by parenteral route (or other) should be in the patient’s medication cassette, on the medicine cart or in the pyxis. Non-unit dose medications and narcotics should be prepared in the presence of the instructor.
4. All oral medication placed in the medicine/soufflé cup and any other medications to be given by another route (topical, IVPB, subcutaneous, IM sublingual, etc.) should be available for the instructor to check. Medications checked by the instructor at this time will be considered to be those that the student will deliver to the patient. Any incorrect medication(s), set up by the students at the time they are checked by the instructor prior to administration, will be considered and classified as a medication error and managed accordingly.
5. Asepsis (medical and/or surgical) must be maintained during the entire medication procedure.
6. PATIENT NAMEBANDS WITH TWO IDENTIFIERS (NAME & HOSPITAL NUMBER) MUST BE CHECKED PRIOR to MEDICATION ADMINISTRATION AGAINST the MAR.
7. Prior to check by the instructor, the student must be knowledgeable regarding the essential aspects of the medications and essential aspects pertaining to the route of administration as well as the nursing implications. See Safe Care Directives in the Nursing Student Handbook.
8. The student will be knowledgeable of normal ranges and/or therapeutic ranges and of inappropriate vital signs and/or level (based on the normal and/or therapeutic ranges) that will cause a medication to be held and will state these to the instructor at the time of medication check. Failure to have vital signs/lab or drug values will be considered as failure to meet the provision of this policy and will be evaluated as “unsatisfactory medication administration.”
9. The students will demonstrate skill proficiency in all medication administration.
10. All students must have with them in clinical: a working watch with a second hand, a stethoscope, and current drug book or they will be sent home.
11. All medication must be documented immediately

*Modifications to this policy might need to occur based on clinical site and policies.
REMEDIATION:

NUR 2L and NUR 3L (first and second semester courses) remediation will follow the first and second errors in medication administration. Remediation will be determined by the lead instructor and the clinical instructor. Remediation will include but not limited to viewing appropriate videos, CD-ROMs, CAI, etc.

After Nursing 3/3L the student will have to remediate and will be placed on a Plan of Correction. This could potentially result in failure in the course and/or dismissal from the program.

If the error(s) occurs prior to midterm evaluation, an “UNSATISFACTORY” will be placed on the student’s midterm clinical evaluation record.

The student will receive an “unsatisfactory” in the objective pertaining to “administer medications safely and correctly” if consistent violation of the provisions of this policy in medication administration occurs during the course. This unsafe behavior can result in being dismissed from the program.

ERROR FREE MEDICATION ADMINISTRATION IS EXPECTED FOLLOWING REMEDIATION.

As noted, any unsatisfactory in a critical requirement objective/element will result in an unsatisfactory final grade for the clinical course.

I have read and understand the Nursing Department policy on Safe Medication Administration Requirements.

Please leave a message at any time at the above office phone numbers. Home phone numbers can only be given out by the individual whose phone number is being requested, this includes students, faculty and staff.

All requests requiring the Associate Dean’s signature must be made in writing. Students must authorize release of any information in writing. This is a State law concerning student confidentiality. Requests such as these may require several weeks to process. Mail for the Associate Dean, faculty, or staff may be given to the Administrative Assistant.
Health Sciences Counselors
The Health Sciences Counselors are here to assist you with your academic and psychological well-being. Their hours are posted in the nursing office. The counselors are well versed in the nursing program curriculum and general academic advising. You may leave a voice mail for them at 310-434-3456. One of them will return your call at their earliest opportunity.

Faculty Meetings
One student from each semester will be elected by their respective classes to represent collective student viewpoints at the ADN faculty meetings. However, all students are welcome and may speak to any agenda item. Meeting dates, time, and location are posted in the facility on the bulletin board. Students will be excused from the meetings when confidential student or personnel matters are discussed.
Students and faculty have worked together to assure students have the opportunity to express their ideas, suggestions and concerns. Improvements in the Nursing Program and student success occur as a result of continual program assessment. The following processes have been implemented to assist with overall program improvement and student success.

**Instructor**

If you have a recommendation, concern or complaint regarding a particular course - either the classroom or clinical setting - it would be most appropriate to discuss the thought with the instructor of the course or clinical section. The telephone numbers of the nursing faculty are listed in this handbook. Each full time instructor has voice mail. Faculty office hours may be requested through the Administrative Assistant of Health Sciences. The Administrative Assistant is also willing to leave a message on your behalf at the home phone number of any part time faculty member who can then return your call.

If, for some reason, you are unable to meet with your instructor, or if you are not satisfied with the outcome of your meeting with the instructor, please complete the electronic form in the Health Sciences Suggestion Box. Your concerns and recommendations will be reviewed by the Associate Dean of the Health Sciences Department/Director of the Nursing Program. You may also want to make an appointment with the Faculty Chair of the Health Sciences Department/Assistant Director of the Nursing Program.

**Associate Dean, Health Sciences Department/Director of the Nursing Program**

If you are unable to discuss your thoughts or concerns with your immediate instructor or the Faculty Chair of the Health Sciences Department or are dissatisfied with the outcome, you are welcome to make an appointment with the Associate Dean of the-Health Sciences Department. Any student in the program has priority in securing an appointment through the department Administrative Assistant. The content of the meeting may be held in confidence if you so desire. The goal of the meeting would be to facilitate problem resolution. If you are not satisfied with the outcome of the meeting, you may make an appointment with the campus Ombudsperson.

**Ombudsperson**

If, after meeting with your immediate Instructor, the Faculty Chair, and the Associate Dean of the Health Sciences Department, you remain dissatisfied with a particular event, you should make an appointment with the campus Ombudsperson to discuss the matter further. The Ombudspersons are, Dr. Eric Oifer, and Yvonne Ortega at (310-434-3986).

**Process**

If a student has concerns regarding a grade received in a course, student-instructor relationships or any other matter that affects the student’s learning in the nursing program, it is recommended that the student follow the process listed below:
1. Make every attempt to first approach the instructor(s) involved to discuss concerns. If you are not able to discuss concerns with the instructor, or are not satisfied with instructor discussions, then go to Step 2.

2. Complete the electronic form in the Health Sciences Suggestion Box. Your concerns and recommendations will be reviewed by the Associate Dean of the Health Sciences Department/Director of the Nursing Program and directed to the appropriate party.

3. Discuss your concerns with the Faculty Chair of the Health Sciences who may involve the concerned parties (with student permission) in an attempt to resolve the situation.

4. If you are not satisfied with the discussions with the instructor involved and the Faculty Chair of the Health Sciences Department, discuss your concerns with the Associate Dean of the Health Sciences Department/Director of the Nursing Program.

5. If you are not satisfied with the discussions with the instructor, Faculty Chair, and Associate Dean, discuss your concerns with the Campus Ombudsperson who will recommend options to consider in seeking resolution. (See Role of Campus Ombudsperson below.)

6. Initiate the grievance process according to college policy and procedure.

**Role of Campus Ombudsperson**

In conjunction with the Dean, Student Life, the Student Ombudsperson acts as a mediator, listening ear and resource for students with problems involving other students, faculty and administrators. Responsibilities also include handling grade disputes and other various complex issues.

The Ombudsperson mediates differences and grievances that students have involving other students, instructors, and administrators. She/he investigates and mediates a wide range of problems, including grade appeals and difficulties within the classroom. The Ombudsperson listens to your concerns and may offer suggestions for the successful resolution of your problem.

The campus Ombudsperson is available to students for consultation at any point in the problem-solving process. Students who are not able to meet during scheduled hours may phone the Ombudsperson and set up an appointment. The telephone number is available from the Administrative Assistant or online at [http://www.smc.edu/ombuds/](http://www.smc.edu/ombuds/).

If you have followed steps 1, 2, and 3 and still are not satisfied, you may want to initiate the grievance process according to college policy and procedure. Be advised that all concerns are not grievable.

**Student Grievance**

All students have access to the Student Grievance Procedures as delineated by the Santa Monica College Policy and is available at [http://www.academicsenate.com/](http://www.academicsenate.com/) and/or [http://www.smc.edu/disciplinarian/](http://www.smc.edu/disciplinarian/). Information regarding this procedure is explained in the SMC Nursing Student Handbook. The student may also seek information in the Student Activities Offices. The college Ombudsperson is available for any concerned student regarding this process.

AR 4135 Compliance with the Family Educational Rights and Privacy Act (FERPA)
This regulation implements the federal Family Education Rights and Privacy Act of 1974 (FERPA) and State law.

A. Student Privacy Rights
Current and former students have the following rights regarding their student education records:
1. The right to be informed about their education records.
2. The right to inspect their education records.
3. The right to request amendment to their education records.
4. The right to have a formal hearing if the request for amendment is denied.
5. The right to prevent unauthorized disclosure of any or all of the information in their education records, subject to specific exceptions identified in FERPA and State law.
6. The right to lodge a complaint to the U.S. Department of Education about a violation of FERPA regarding their education record.
7. The right to waive these rights in writing, including the right to give written authorization to a third party to obtain a copy of their education records.

B. Definitions
For the purposes of this policy, Santa Monica Community College District (hereinafter “Santa Monica College” or “College”) has used the following definitions of terms:
1. “Student” means any person who attends or has attended Santa Monica College. The word “attend” includes, but is not limited to, attendance in person or by paper correspondence, videoconference, satellite, Internet, or other electronic information and telecommunications technologies for students who are not physically present in the classroom.
2. “Record” means any information recorded in any way, including, but not limited to, hand writing, print, computer media, video or audio tape, film, microfilm, and microfiche.
3. “Education records” means any record maintained by Santa Monica College or an agent of the College which contains personally identifiable information related to a student. The following are not education records:
   i. Records that are kept in the sole possession of the maker, are used only as a personal memory aid, and are not accessible or revealed to any other person except a temporary substitute for the maker of the record.
   ii. Records relating to an individual who is employed by an educational agency or institution, that are made and maintained in the normal course of business, relate exclusively to the individual in that individual's capacity as an employee; and are not available for use for any other purpose. Records relating to an individual in attendance at Santa Monica College who is employed as a result of his or her status as a student are education records and not excepted under paragraph of this definition.
   iii. Records made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his or her professional capacity or assisting in a paraprofessional capacity which are made, maintained, or used only in connection with treatment of the student and disclosed only to individuals providing the treatment. For the purpose of this definition, “treatment” does not include remedial educational activities or activities that are part of the program of instruction at the agency or institution;
   iv. Records maintained by Santa Monica College if (a) the records are maintained solely for law enforcement purposes, (b) are revealed only to law enforcement agencies of the same jurisdiction, and (c) the office holding these records does not have access to
education records maintained by the College.
   v. Alumni records which contain information about a student after he or she is no longer in attendance at the College and which do not relate to the person as a student.
   vi. Grades on peer-graded papers before they are collected and recorded by a teacher.
4. “School Official” means:
   i. A person employed by the District in an administrative, supervisory, academic, research or support staff position.
   ii. A person elected to the Board of Trustees.
   iii. A person such as an attorney or auditor employed by or under contract to the District to perform a special task.
5. “Legitimate education interest” means an official need to review or access a student education record by an official or employee of the College in order to fulfill a professional responsibility; to perform appropriate tasks that are specified in his or her position description or by a contractual agreement; to perform a task related to the student's education; to perform a task related to the discipline of a student; or to provide a service or benefit relating to the student or student's family, such as health care, counseling, job placement, or financial aid.
   School officials who use student education record information to serve their own personal needs or for purposes which are not related to their job responsibilities do not have a legitimate education interest in the information being used.
6. “Personally Identifiable Information” includes, but is not limited to--
   i. the student’s name;
   ii. the name of the student’s parent or other family members;
   iii. the address of the student or student’s family;
   iv. a personal identifier, such as the student’s social security number, student number, or biometric record;
   v. other indirect identifiers, such as the student’s date of birth, place of birth, and mother’s maiden name;
   vi. other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty;
   vii. information requested by a person who the educational agency or institution reasonably believes knows the identity of the student to whom the education record relates; or
   viii. email address.

C. Annual Notification
Students will be notified of their rights under FERPA and State law annually by publication in the Santa Monica College Catalog. The catalog is available on the College’s website.
D. Procedure to Inspect Educational Records
1. Students may inspect and review their education records upon request to the appropriate record custodian. Students should submit to the record custodian or an appropriate College staff person a written request which identifies as precisely as possible the record or records he or she wishes to inspect. (Forms for this request are available in the Admissions and Records Office.)
2. The record custodian or an appropriate College staff person will make the needed arrangements for access as promptly as possible and notify the student of the time and place where the records may be inspected. Access must be given in 15 work days or less from the receipt of the request. [Note: FERPA requires that access be provided within 45 days; however, state law requires that access be provided within 15 days.]
3. When a record contains information about more than one student, the student may inspect and review only the records which relate to him/her.

**E. Right to Refuse Access**
Santa Monica College reserves the right to refuse to permit a student to inspect the following records:
1. The financial state of the student's parents.
2. Letters and statements of recommendation for which the student has waived his or her right of access or which were placed in file before January 1, 1975.
3. Records connected with an application to attend Santa Monica College if the application was denied.
4. Those records which are excluded from the FERPA definition of education records. The records will be made available if required by State law.

**F. Refusal to Provide Copies**
Santa Monica College reserves the right to deny copies of records not required to be made available by the FERPA or State law in any of the following situations:
1. The student has an unpaid financial obligation to the College.
2. There is an unresolved disciplinary action against the student.

**G. Fee for Copies of Records**
The fee for copies will be $0.20 per page.
The fees charged to students for transcripts are:
1. $5 for an official transcript, with the first two free for currently enrolled students
2. $10 service charge in addition to the transcript fee for a “Rush” transcript.
3. A student may obtain an unofficial copy of his/her transcript at no charge from the SMC Website.

**H. Disclosure of Education Records**
Santa Monica College will disclose information from a student's education records only with the written consent of the student, except as set forth below. The College may disclose information without student consent as follows:
1. To officials and employees of Santa Monica College, if that person has a legitimate educational interest to inspect a record.
2. To authorized representatives of the Comptroller General of the United States, the Secretary of Health, Education, and Welfare, an administrative head of an education agency, state education officials, or their respective designees or the United States Office of Civil Rights, where that information is necessary to audit or evaluate a state or federally supported education program or pursuant to a federal or state law, except that when the collection of personally identifiable information is specifically authorized by federal law, any data collected by those officials shall be protected in a manner that will not permit the personal identification of students or their parents by other than those officials, and any personally identifiable data shall be destroyed when no longer needed for that audit, evaluation, and enforcement of federal legal requirements.
3. To other state and local officials or authorities to the extent that information is specifically required to be reported pursuant to state law adopted prior to November 19, 1974.
4. To officials of other public or private schools or school systems, including local, county, or state correctional facilities where educational programs are provided, where the student seeks or intends to enroll, or is directed to enroll.
5. To agencies or organizations in connection with a student's application for, or receipt of, financial aid, provided that information permitting the personal identification of students may be disclosed only as may be necessary for those purposes as to determine the eligibility of the student for financial aid, to determine the amount of the financial aid, to determine the conditions that will be imposed regarding the financial aid, or to enforce the terms or conditions of the financial aid.
6. To accrediting organizations in order to carry out their accrediting functions.
7. To organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if those studies are conducted in such a manner as will not permit the personal identification of students or their parents by persons other than
representatives of those organizations and the information will be destroyed when no longer
needed for the purpose for which it is conducted.

8. To appropriate persons in connection with an emergency if the knowledge of that information is
necessary to protect the health or safety of a student or other persons, or subject to any
regulations issued by the Secretary of Health, Education, and Welfare.
Santa Monica Community College District

9. To the alleged victim of any sexual assault or physical abuse, including rape, forced sodomy,
forced oral copulation, rape by a foreign object, sexual battery, or threat or assault, or any
conduct that threatens the health and safety of the alleged victim, which is the basis of any
disciplinary action taken by a community college, shall be permitted access to that information.
Access to student record information shall be in the form of notice of the results of any
disciplinary action by the community college and the results of any appeal, which shall be
provided to the alleged victim within three days following that disciplinary action or appeal.
The alleged victim shall keep the results of that disciplinary action and appeal confidential.

10. In compliance with a court order or a lawfully issued subpoena. The College shall make a
reasonable effort to notify the student in advance of compliance with a lawfully issued subpoena
and, in the case of compliance with a court order, if lawfully possible within the requirements of
the order. This notification shall take place using a standard form approved by the FERPA
Compliance Officer.

I. Record of Requests for Disclosure
Santa Monica College will maintain a record of all requests for and/or disclosure of information from a
student’s education records for the appropriate record retention period. The record will indicate the
name of the party making the request, any additional party to whom it may be redisclosed, and the
legitimate interest the party had in requesting or obtaining the information. The record may be
reviewed by the eligible student. Personal information may be transferred to a third party only on the
condition that such party will not permit access by any other party without the written consent of the
student. (As an example, information released to agencies for auditing purposes or for improving
instruction.) In such cases, Santa Monica College will issue the following statement to accompany
records released: “All student education records will be destroyed when they are no longer needed for
implementation of the study. Student education records may not be released without the written
consent of the student.”

J. Directory Information
Santa Monica College designated the following items as Directory Information:
   Student name
   City of Residence
   Age
   Major field of study
   Participation in officially recognized activities and sports
   Weight and height of members of athletic teams
   Dates of attendance
   Degrees and awards received and most recent previous school attended
   Student’s photograph
   The College may disclose any of those items without prior written consent unless notified in
   writing to the contrary by the student.

Students have the following options in connection with the release of directory information:
1. Do NOT permit SMC to release Directory Information to anyone.
2. Do NOT permit the release of information to the Military

K. Correction of Education Records
1. Any student may file a written request with the Superintendent/President to correct or remove
information recorded in his or her student records which the student alleges to be:
   (1) inaccurate; (2) an unsubstantiated personal conclusion or inference; (3) a conclusion or
   inference outside of the observer's area of competence; or (4) not based on the personal
observation of a named person with the time and place of the observation noted.

2. Within 30 days of receipt of the request, the Superintendent/President, or his or her designee, shall meet with the student and the employee who recorded the information in question, if any, if the employee is presently employed by the community college district. The Superintendent/President or his or her designee shall then sustain or deny the allegations.

3. If the Superintendent/President, or his or her designee, sustains any or all of the allegations, he or she shall order the correction or removal and destruction of the information.

4. If the Superintendent/President, or his or her designee, denies any or all of the allegations and refuses to order the correction or removal of the information, the student, within 30 days of the refusal, may appeal the decision in writing to the Board of Trustees.

5. Within 30 days of receipt of an appeal, the Board of Trustees shall, in closed session with the student and the employee who recorded the information in question, if any, and if that employee is presently employed by the community college district, determine whether to sustain or deny the allegations.

6. If the governing board sustains any or all of the allegations, it shall order the chief administrative officer, or his or her designee, to immediately correct or remove and destroy the information.

7. The decision of the governing board shall be final.

8. Records of these administrative proceedings shall be maintained in a confidential manner and shall be destroyed one year after the decision of the governing board unless the student initiates legal proceedings relative to the disputed information within the prescribed period.

9. If the final decision of the governing board is unfavorable to the student or if the student accepts an unfavorable decision by the chief administrative officer, the student shall have the right to submit a written statement of his or her objections to the information. This statement shall become a part of the student's record until the information objected to is corrected or removed.

L. Subpoenas.

Each office that routinely receives subpoenas for student records shall have a written policy on compliance with subpoenas. The written policy shall be approved by the FERPA Compliance Office. Any out of the ordinary subpoenas for student records shall be referred to Campus Counsel for review prior to release of the records.

Santa Monica Community College District

ARTICLE 4300 STUDENT PROGRESS AND GRADUATION

AR 4344 Students Dismissed from a Program as a Result of Unsafe Performance

These guidelines have been developed to assist faculty and departments in withdrawing students from programs in which the student’s behavior and/or performance is determined to be unsafe. These programs include, but are not limited to:

- Education/Early Childhood Education
- Cosmetology
- Nursing
- Respiratory Therapy

The overall process for determining whether a student meets the program standards specific to a particular program may include up to three levels of intervention: the instructor level, the program or department level, and the college level (joint administration-faculty committee). The student may seek the ombudsperson’s assistance.

I. Faculty Level

1. Instructors are encouraged to use their professional judgment in identifying student behavior and/or performance that they consider inappropriate to a specific program.

2. The instructor should meet with a student as early as possible in the semester to discuss his/her concerns. Such concerns include, but are not limited to the following: issues of safety regarding self, other students, patients, clients, or children; lack of sensitivity in classroom or field work situations; poor judgment; or any other concern. The instructor
should document the meeting. These notes can be brief but must include the date and time of the meeting and a summary of topics discussed.

3. If the instructor is satisfied with the student’s performance for the rest of the semester, nothing more need be done.

4. If the instructor continues to have reservations regarding the student’s behavior and/or performance (even though the student may have passed the class academically), the instructor should inform either the program leader or the department chairperson.

II. Program or Department Level

1. The dismissal of a student from a program is a departmental concern and should not be viewed as the individual instructor’s responsibility. Each department shall develop program standards to evaluate students objectively. Each department is to develop a readmission review procedure for students dismissed from its program(s).

2. Each program will have its own set of procedures for informing students of faculty concerns, documenting meetings to discuss these concerns, working out behavioral contracts to assist students in meeting program standards, and any other procedure the faculty considers helpful to the student or to the program.

Santa Monica Community College District

III. College (Joint Administration/Faculty) Level

1. Any student who wishes to appeal dismissal from a program has 10 working days to file a written request for an appeal with the Dean of Student Affairs. The student will be able to present his/her case within 10 working days of the filing of the request. The Committee hearings shall be closed to the public.

   Members of Committee
   1. The Dean of Student Affairs (chair)
   2. Two academic deans (not from the involved department/program)
   3. Two faculty at large (selected by Academic Senate)
   4. Two students (selected by Associated Students)

2. The student may bring to the hearing counsel or other representatives. These representatives, however, may not participate directly in the proceedings. The student filing the appeal will bear the burden of proof.

3. Each party shall have the right to present written statements, witnesses if appropriate, and any other forms of evidence at the hearing, if approved by the Appeals Committee. Each party shall have the right to question evidence and supportive documents.

4. The Committee chair shall notify in writing the student, faculty member, department chair, and the Superintendent/President of the decision.

5. Within five (5) working days after service of the committee’s formal recommendation, either party may make a written appeal to the Superintendent/President.

6. The decision of the Superintendent/President shall be final.

ARTICLE 4400 STUDENT CONDUCT, ACTIVITIES AND PROGRAMS

AR 4405 Student Bill of Rights

Preamble

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the intellectual and social development of students, and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility. Students are entitled to the following rights.
1. Access to Higher Education
   The institution shall provide access to its services, classes and program without regard to race, religious creed, color, national origin, ancestry, handicap or sex.

   Reference: Education Code 72011

2. In the Classroom
   Student performance should be evaluated solely on achievement of the goals of the curriculum, not on opinions or conduct in matters unrelated to curricular standards.

   A. Protection of Freedom of Expression
      Students should be free to take reasoned exception to the data or views offered in any courses of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

   B. Protection Against Improper Academic Evaluation
      Students shall have protection through orderly procedures against prejudiced or capricious academic evaluations. At the same time, they are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Any student shall have access to a hearing before an unbiased academic appeals committee, as provided for under Board policy.

   C. Protection Against Disclosure
      Information about student views, beliefs, and political associations which professors and administrators acquire in the course of their work as instructors, advisors and counselors, should be considered confidential. Protection against improper disclosure is a serious professional obligation. Judgments of ability and character may be provided under appropriate circumstances, always with the knowledge or consent of the student. Nothing in this section shall prevent disclosure of information as provided for in state law.

3. Confidentiality of Student Records
   Transcripts, health records, disciplinary records, library records and counseling records are confidential except under judicial process or in cases where the safety of persons or property is involved.

   Reference: Education Code 76210, 76240

4. Student Activities
   In student activities, the district guarantees the right of students to organize, to exercise freedom of speech, to participate in the student and institution government and to prepare and distribute student publications.

   A. Freedom of Association
      Students bring to the campus a variety of interests previously acquired and develop many new interests as members of the academic community. They should be free to organize and join associations to promote their common interests. Any group of six associated students may form such an organization.

      (1) The membership, policies and actions of a student organization usually will be determined by vote of only those persons who hold bona fide membership in that organization. No student should be barred from any organization because of his race, religion, sex or natural origin.

      (2) Affiliation with an extramural organization should not, of itself, disqualify a student organization from institutional recognition.

      (3) Since campus advisors are required, each organization should be free to choose its own advisor. Campus advisors may advise organizations in the exercise of responsibility, but they should not have the authority to control the policy of such organizations. However, it is understood that the governing board must retain responsibility under the education code for supervision and regulation of student affairs.

      (4) Student organizations may be required to submit a statement of purpose,
criteria for membership, rules of procedure, and a current list of officers and advisors. They shall be required to submit a membership list as a condition of institutional recognition.

Reference: Education Code 76060, 76062

B. Freedom of Inquiry and Expression

(1) Students and student organizations should be free to examine and to discuss all questions of interest to them and to express opinions publicly and privately. They should always be free to support causes by orderly means which do not disrupt the essential operation of the institution. At the same time, it should be made clear to the academic and the larger community that, in their public expressions or demonstrations, students, or student organizations, only speak for themselves.

(2) Students should be allowed to invite and to hear any person of their own choosing, provided that there is compliance with the laws of the State of California, orderly scheduling of facilities, and adequate preparation for the event, and that the occasion is conducted in a manner appropriate to an academic community. The institutional control of campus facilities should not be used as a device of censorship. It should be made clear to the academic and larger community that sponsorship of guest speakers does not necessarily imply approval or endorsement of the views expressed, either by sponsoring group or the institution.

Reference: Education Code 76120

C. Student Participation in Institutional Government

As constituents of the academic community, students should be free, individually and collectively, to express their views on issues of institutional policy and on matters of general interest to the student body. The student body should have clearly defined means to participate in the formulation and application of institutional policy affecting academic and student affairs. The role of the student government and both its general and specific responsibilities should be made explicit, and the actions of the student government within the areas of its jurisdiction should be reviewed only through orderly and prescribed procedures.

Reference: Education Code 76067

D. Student Publications

Student publications and the student press are a valuable aid in establishing and maintaining an atmosphere of free and responsible discussion and of intellectual exploration the campus. They are a means of bringing student concerns to the attention of the faculty and the institutional authorities and of formulating student opinion on various issues on the campus and in the world at large. Whenever possible, the student publications should be independent entities, financially and legally separate from the college. Where financial and legal autonomy are not possible, the institution, as the publisher of student publications, may have to bear the legal responsibility for the contents of the publications. Santa Monica Community College District

Student publications which are published as laboratory work for the journalism department will be subject to the same faculty and administrative direction as any other laboratory course in the college and should explicitly state on the editorial page that the opinions there expressed are not necessarily those of the college or student body. In the delegation of editorial responsibility to the editorial board, the college, through the journalism instructor, should provide sufficient editorial freedom for the student publications to maintain their integrity of purpose as vehicles for free inquiry and free expression in an
academic community. At the same time, the editorial freedom of student editors and managers entails corollary responsibilities to be governed by the canons of responsible journalism, such as avoidance of libel, indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo. The editorial freedom of student editors and managers of student publications not connected with the Journalism Department also entails the responsibilities listed above. As safeguards for the editorial freedom of such publications, the following provisions are necessary:

1. The student press should be free of censorship and advance approval of copy, and its editors and managers should be free to develop their own editorial policies and news coverage.

2. Editors and managers should be protected from arbitrary suspension and removal because of student, faculty, administrative, or public disapproval of editorial policy or content. Only for proper and stated causes should editors and managers be subject to removal and then, by orderly and prescribed procedures, as outlined in Board of Trustees policy.

3. All student publications should explicitly state on the editorial page that the opinions there expressed are not necessarily those of the college or student body.

7. Enactment
This Bill of Rights is a separate entity and apart from any Constitution and it shall stand by itself. This Bill of Rights shall become effective upon passage by the student body and the Board of Trustees. All amendments to this Bill of Rights shall be ratified by the student body and the Board of Trustees.

ARTICLE 4400 STUDENT CONDUCT, ACTIVITIES AND PROGRAMS
AR 4410 Rules for Student Conduct

1. Rules for Student Conduct
Students enrolling in the college assume an obligation to conduct themselves in a manner compatible with the college's function as an educational institution. Misconduct or "good cause" for which students are subject to discipline falls into the following categories:

A. Continued disruptive behavior, continued willful disobedience, habitual profanity or vulgarity, persistent abuse of other students, or the open and persistent defiance of the authority of, or persistent abuse of, college personnel. [E.C. §76033(a)]

B. Assault, battery, or any threat of force or violence upon a student or college personnel. [E.C. §76033(b)]

C. Sexual harassment, sexual assault, including, but not limited to, rape, forced sodomy, forced oral copulation, rape by a foreign object, sexual battery, or threat of sexual assault.

D. Willful misconduct which results in injury or death to a student, college personnel, or college visitor, or which results in cutting, defacing, or other injury to any real or personal property owned by the District. [E.C. §76033(c)]

E. The use, sale, or possession on campus of, or presence on campus or at any college sponsored event under the influence of, any controlled substances without prescribed direction of a licensed medical authority or any poison classified as such by Schedule D in Section 4160 of the State of California Business and Professions Code. [E.C. §76033 (d)]

F. Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the Board of Trustees. [E. C. §76033 (e)]

G. Persistent, serious misconduct where other means of correction have failed to bring
about proper conduct. [E.C. §76033 (f)]

H. Dishonesty, including, but not limited to, cheating, plagiarism, or knowingly furnishing false information to the college.

I. Forgery, alteration, or misuses of college documents, records, or identification.

J. Obstruction or disruption of teaching, research, administration, disciplinary procedures, or any other authorized college activities.

K. Theft of or damage to property of the college or of a member of the college community or campus visitor.

L. Willful or blatant misuse of email or other inappropriate forms of communication towards faculty, staff or students including but not limited to phone, voicemail, written notes and any form of electronic communication.

M. Unauthorized entry to college facilities or unauthorized use of college supplies, equipment including computer hardware, and licensed software.

N. Violation of college policies or of campus regulations, including, but not limited to, campus regulations concerning student organizations, the use of college facilities, responsible computer use policy, or the time, place, and manner of public expression, library procedures, college bills and debts, or residence.

O. Disorderly conduct or lewd, indecent, or obscene conduct or expression on college owned or controlled property or at college-sponsored or supervised functions.

P. Failure to comply with directions of college officials acting in the performance of their duties.

Santa Monica Community College District

Q. Possession or use of alcoholic beverages on the campus property, at any college sponsored event, or presence on campus or at any college-sponsored event while under the influence of alcohol.

R. Illegal possession or use of firearms, explosives, dangerous chemicals or other weapons on college property or at college-sponsored activities.

S. The act or crime of willfully and repeatedly following or harassing another person in circumstances that would cause a reasonable person to fear injury or death especially because of expressed or implied threats.

T. Hate crimes or hate incidents: A hate crime or hate incident is any act or attempted act directed against a person(s) based on the victim’s actual or perceived race, nationality, religion, sexual orientation, disability or gender. The difference between a hate incident and a hate crime is that a hate incident is a non-criminal act.

U. Any other offense set forth in the State of California Education Code which constitutes "good cause." No student shall be removed, suspended, or expelled unless the conduct for which the student is disciplined is related to college activity or attendance. [E.C. §76034]

3. Disciplinary Sanctions to Enforce Adequate Standards of Student Conduct [E.C.§§76030, 76031, 76032]

A. Sanctions

Disciplinary sanctions include, but are not limited to, verbal or written reprimand, disciplinary probation, removal from class, ineligibility to participate in extracurricular activities, temporary disciplinary holds, suspension, and expulsion. Repeated and/or multiple infractions may lead to a greater disciplinary sanction. Subsequent to investigation of allegations made against a student, the College Disciplinarian is authorized to impose the sanctions listed above for good cause as set forth in Section 1 of this administrative regulation.

B. Right to Inspect

If a written report is placed in the student's disciplinary file, the student shall have the right to inspect and appeal the information as specified in Education Code Section 76232.
C. Definitions
When the term "College Disciplinarian" is used, it shall refer to the designee of the Superintendent/President.
The term “school day” is used in this Administrative Regulation for the purpose of calculating deadlines and shall mean any day that classes are in session except Saturdays and Sundays.
A copy of this administrative regulation shall be made available to students upon request.
Santa Monica Community College District

D. Written Reprimand

1. A written reprimand, issued by the College Disciplinarian, serves to place in a student’s disciplinary records (not the academic records) a statement that he/she has not met the standards of conduct as set forth in Section 1 of this administrative regulation.

2. A student receiving a written reprimand shall be notified that:
   a. the reprimand serves only as a warning that continued conduct of the type described in the written reprimand may result in further disciplinary action against the student;
   b. such records are not part of a student's academic record at the college and that the disciplinary records will be destroyed three years after the date of the reprimand;
   c. the student has an opportunity to write a response to the reprimand and that the response shall be placed on record with the reprimand; and
   d. with respect to reprimands, there shall be no hearing or appeal to the Student Conduct Appeals Committee.

E. Disciplinary Probation

1. A student who fails to meet the standards of conduct as set forth in Section 1 of this administrative regulation may be placed on disciplinary probation by the College Disciplinarian. The student shall be notified in writing that continued conduct of the type described in a "notice of probation" will result in a greater sanction. The notice of disciplinary probation must include:
   a. the sanction that will be imposed if the conduct described in the notice of probation continues. The sanction must be authorized by this administrative regulation.
   b. the period of time the student is to be on probation. This period may not exceed one year.

2. A student placed on disciplinary probation shall be notified that:
   a. the imposition of disciplinary probation serves as notice that continued conduct of the type described in the notice of probation will result in the imposition of sanction;
   b. the disciplinary probation is not part of a student's academic record at the college and that the disciplinary records will be destroyed three years after the probation ends;
   c. the student has an opportunity to write a response to the notice of disciplinary probation and that the response shall be placed on record with the notice of disciplinary probation; and
   d. with respect to disciplinary probation, there shall be no hearing or appeal to the Student Conduct Appeals Committee. However, before the sanction set forth in the notice of probation is imposed, the student shall be given notice and an opportunity to appeal to the Student Conduct Appeals Committee.
F. Removal from Campus Activities

(1) Removal from Class [E.C. §76032]
   a. An instructor is authorized to remove a student from class for cause for the day of the incident and the next class meeting. The instructor shall immediately report the removal to the College Disciplinarian. During the period of removal, a student shall not be returned to the class without the concurrence of the instructor.
   b. If the student requests, the College Disciplinarian shall hold a conference with the student and other appropriate personnel regarding the removal from class.
   c. If the student removed is a dependent minor for federal income tax purposes, the parent or guardian shall be notified in writing by the College Disciplinarian.
   d. With respect to removal from class, there shall be no hearing or appeal to the Student Conduct Appeals Committee.

(2) Removal from Extra-Curricular Activities [E.C. §76030]
   a. The College Disciplinarian may remove a student from extracurricular activities for a period not to exceed one (1) year. One or more of the following may be imposed for good cause as set forth in Section 1 of this administrative regulation:
      1. Removal from all college organization offices;
      2. Ineligibility to participate in or attend all college sponsored activities, including public performances; Nothing in this administrative regulation shall restrict the College Disciplinarian from imposing lesser sanctions than those described.
   b. Before removal from the above-mentioned activities is imposed, the student shall have a right to pursue the Hearing and Appeal Process as set forth in Section 2, F of this administrative regulation. Removal from activities imposed pursuant to interim/immediate suspension as described in Section H(4) of this administrative regulation shall be governed by the appeal rights afforded in cases of interim/immediate suspension.

G. Temporary Disciplinary Holds
A disciplinary hold prevents a student from conducting any transactions with the college, such as enrollment and fee payment, use of library privileges or any other college business. The College Disciplinarian may place a temporary disciplinary hold on a student’s college record to:

   (1) enforce a suspension or expulsion after the appeal process has been exhausted and the suspension or expulsion becomes final. The College Disciplinarian may remove a temporary disciplinary hold after a student has served a suspension provided that the Student Conduct Appeals Committee reviews and approves the student’s petition to be readmitted.
   (2) enable the College Disciplinarian to conduct a thorough investigation of an alleged violation of the Student Conduct Code. In such cases, the College Disciplinarian shall remove the temporary disciplinary hold
      a. as soon as the investigation is complete and the student in question is exonerated, or
      b. when the student enters the appeal process. In such cases the College Disciplinarian may opt to lift temporarily the disciplinary hold to enable the student to conduct a specific transaction with the college, while the appeal process is underway.

H. Suspension [E.C. §§76031, 66017]

(1) The College Disciplinarian is authorized to suspend a student for good
cause as set forth in Section 1 of this administrative regulation.

(2) The period of suspension may be:
   a. For a period of up to ten (10) days of instruction from one or more classes.
   b. For the remainder of the school term from one or more classes.
   c. For one (1) or more terms from all classes and activities of the college.

(3) Whenever the student suspended is a dependent minor for federal income tax purposes, the parent or guardian shall be notified in writing by the College Disciplinarian.

(4) Before a suspension becomes effective, the student shall have the right to pursue the Hearing and Appeal Process as set forth in Section 3 of this administrative regulation, except that an interim suspension may be imposed by the College Disciplinarian where an immediate suspension is required in order to protect lives or property and to insure the maintenance of order pending a hearing. As soon as practical, the College Disciplinarian shall hold a formal conference with the student to give the student an opportunity to respond to the charges against him or her.

(5) The College Disciplinarian shall, upon the suspension of any student, notify the appropriate law enforcement authorities of any acts of the student which may be in violation of Penal Code Section 245 (assault with a deadly weapon or instrument). [E.C. §76035]

I. Expulsion [E.C. §76030]
A student may be expelled by the Board of Trustees for good cause as set forth in Section 1 of these rules. Expulsion is authorized when other means of correction fail to bring about proper conduct, or when the presence of the student causes a continuing danger to the safety of the student or others.

4. Hearing and Appeal Process
   A. Notice
      (1) The student shall be given written notice of the disciplinary action to be taken, if any. Such notice shall include:
         a. a statement of the specific facts and charges upon which the disciplinary action is based;
         b. a copy of the disciplinary rules of the District which relate to the alleged violation; and
         c. a statement that the student has the right to file with the office of the College Disciplinarian a Notice of Intention to Appeal the decision to the Student Conduct Appeals Committee and that such notice must be filed within two (2) school days following receipt of the notice of disciplinary action.
      (2) Prior to giving notice, the College Disciplinarian may schedule a formal conference regarding the basis for possible disciplinary action.

Santa Monica Community College District

(3) The student shall be deemed to have accepted the disciplinary action, unless within two (2) school days following written notice of the specific facts and charges, the student files with the College Disciplinarian written Notice of Intention to Appeal.

(4) Within five (5) school days after filing a Notice of Intention to Appeal, the student shall file with the College Disciplinarian a written response to the charges. Only charges to which the student responds may be reviewed by the Appeals Committee.

B. Student Conduct Appeals Committee and Procedures
   (1) Statement of Purpose
      a. The committee is established to hear appeals of students regarding decisions made by the College Disciplinarian.
b. Specifically, the committee will hear appeals concerning disciplinary action involving removal from extra-curricular activities, suspensions, and expulsions.

(2) Selection
At the beginning of each academic year or as needed, the Superintendent/President or designee shall establish a standing panel from which members of individual Student Conduct Appeals Committee panels may be constituted.

(3) Standing Panel
The standing panel of the Student Conduct Appeals Committee shall consist of:

   a. At least five (5) students appointed by the Associated Students President;
   b. At least five (5) faculty members appointed by the Academic Senate President;
   c. At least five (5) classified employees appointed by the CSEA President; and
   d. At least five (5) academic managers appointed by the Superintendent/President one of whom will chair the committee and will only vote in the case of a tie.

(4) Individual Hearing Panel
Each individual panel will be drawn from the standing panel by the Superintendent/President or designee. To hear each appeal, the Superintendent/President or designee will appoint a hearing committee consisting of two (2) students, two (2) faculty members, two (2) classified employees, and one (1) manager. To conduct business, the panel must have a quorum of at least one member from each of the four constituent groups.

Decisions of the committee shall be made by simple majority vote.

(5) Time Frame

   a. The committee shall convene for an appeal hearing prior to the sanction taking effect and not more than thirty (30) school days after receipt of the notice of intent to appeal.
   b. In cases where suspension is immediately effective, the committee shall convene for an appeal hearing not more than ten (10) school days after receiving the notice of intent to appeal.
   c. The student shall be given written notice of the time and place of the hearing. If the student fails to appear for the hearing, the decision of the College Disciplinarian shall stand.

(6) Hearing Order

   a. At the beginning of the hearing, the designated college management member, or attorney or college representative, shall present the college case, first with an initial summary that includes the evidence to be presented, followed by a detailed presentation of the findings, including presentation of evidence and witnesses. The student and/or attorney or representative may cross-examine the college’s witnesses, and examine the evidence.
   b. Next, the student or his/her attorney or representative shall present his/her case, including any evidence or witnesses. The college’s representative may cross-examine the student’s witnesses, and examine the evidence.
   c. Examination and cross-examination must be limited to issues and matters relevant to the case.
d. The designated college management member, attorney or representative may present a closing argument summarizing the college’s findings.

e. The student or his/her attorney or representative may present closing argument, summarizing his/her case.

f. The committee may question witnesses but should limit its inquiries to eliminating confusion, uncertainty or lack of clarity in the witness’ statements.

g. All hearings shall be recorded, except for closed deliberations.

h. All hearings shall be closed to the public.

(7) Evidence
The committee may review any relevant evidence presented during the hearing. The committee is not required to give validity to any written testimony/evidence if the witness or writer of the evidence does not personally appear at the hearing. Hearsay evidence is admissible but no decision may be made based solely on hearsay.

(8) Rights of the Committee
The basic rights of the committee shall include, but not be limited to the following:

a. The committee has the right to decide:
   1. Relevance
   2. Materiality
   3. Competency
   4. Number of witnesses
   5. Time allocation

b. The committee has the right to:
   1. Instruct the witness
   2. Question the witness
   3. Examine the evidence

On failure of the witness to follow directions, the committee may dismiss the witness.

(9) Rights of the Student
a. The student may, with the permission of the hearing committee, have a translator or qualified interpreter if the student’s command of the English language prevents him/her from being able to fully participate in the proceedings.

b. The student may have legal counsel or representation, but must notify the College Disciplinarian at least two (2) school days prior to the hearing.

(10) Standard of Proof
The District will instruct the Committee that the District bears the burden of proof by a preponderance of the evidence and that preponderance of the evidence means “more likely to be true than not true.”

(11) Decisions
a. The Student Conduct Appeals Committee shall have the power to accept, reject or modify the decision of the College Disciplinarian, but in no case shall impose a more stringent sanction.

b. Decisions should include:
   1. Findings of facts (what the student did);
   2. Conclusions (with relation to the rules of conduct); and
   3. A decision (disciplinary action affirmed, rejected, or modified)
(12) In the hearing, the committee should decide the following issues:
   a. Does the alleged act constitute a violation of the Student Conduct Code?
   b. Did the student involved commit the act with which he/she is charged?
   c. If the acts are found to have been committed by the student, and are also found to constitute a violation of the Student Conduct Code, were there any “attendant circumstances” shown in mitigation and/or in aggregation?
   d. The facts in each individual case shall be considered when making a determination on the appropriateness of the sanction imposed.

(13) The decision of the Student Conduct Appeals Committee shall be sent to the student and the Superintendent/President in writing within six (6) school days of the hearing. This decision shall include the findings and conclusions of the Student Conduct Appeals Committee.

Student Services

C. Readmission of Suspended Students
(1) Any student who has served a suspension for a period of at least one (1) full term, shall submit a petition for readmission to the Office of the College Disciplinarian. The petition for readmission shall document the steps that the student has taken since the suspension to eliminate the behavior that caused the suspension. Said petition shall be completely separate, apart and in addition to any procedures required by the Admissions and Records Office.
(2) Within ten (10) school days of the petition for readmission submittal, the Student Conduct Appeals Committee panel shall review the petition for readmission to determine whether the student has made reasonable adjustment in the behavior or that the student has received the appropriate guidance, counseling and/or attention necessary to avoid the behavior that brought about the suspension. The Student Conduct Appeals Committee panel may delegate the decision to the College Disciplinarian or may conduct its review by email or teleconference.
(3) The Student Conduct Appeals Committee panel may request a hearing with the student to ascertain whether the student’s claim regarding the behavioral adjustment is accurate. The student shall be notified of the date, time and place of the hearing within ten (10) school days of the petition for readmission submittal. The student may present further evidence or documentation in support of his/her claim. The College Disciplinarian shall notify the student within five (5) school days of the committee’s decision.

The Student Conduct Appeals Committee panel may:
   a. approve the student’s request to be readmitted with a statement to include conditions of re-admission, if any.
   b. deny the student’s request to be readmitted due to lack of supporting evidence and/or documentation indicating that a behavioral adjustment has occurred.

D. Appeal of Committee Decision

Within two (2) school days after receiving the written decision of the Student Conduct Appeals Committee, the student may request a review of the decision by the Superintendent/President. A copy of said request shall be sent to the College Disciplinarian. The student shall state in writing the grounds for review, basing the request upon one or more of the following provisions:
(1) The required procedures have not been followed and that the student has been demonstrably damaged; and/or
(2) There is insufficient evidence to support the committee decision; and/or
(3) The penalty imposed is inappropriate.

E. Superintendent/President Review

(1) In cases of suspension and/or lesser sanction:
Within thirty (30) school days of receipt of the request for review, the
Superintendent/President shall review the decision of the Student Conduct
Appeals Committee, the basis upon which it was made, and the student’s
appeal based on D.(1), (2) and/or (3). The Superintendent/President has the
sole authority to:

a. Adopt the recommended discipline of the Student Conduct
   Appeals Committee;

b. Modify or reduce the discipline recommended by the Student
   Conduct Appeals Committee; or

c. Reverse the discipline recommended by the Student Conduct
   Appeals Committee. The decision of the Superintendent/President
   shall be communicated to the student in writing, and a copy sent to the
   College Disciplinarian. In cases of suspension and/or lesser sanction,
   the decision of the Superintendent/President is final.

(2) In cases where expulsion has been recommended:

a. The recommendation of the Student Conduct Appeals Committee
   shall be forwarded to the Superintendent/President or designee for
   review and decision.

b. The Superintendent/President’s decision shall be based upon
   evidence presented at the expulsion hearing or the facts of the case
   as presented by the College Disciplinarian.

c. The Superintendent/President or designee may accept the
   recommendation of the Student Conduct Appeals Committee and
   recommend to the Board of Trustees that the student be expelled,
   or impose a lesser sanction. The Superintendent/President or designee
   shall render a decision within ten (10) business days of receipt of the
   recommendation of the Student Conduct Appeals Committee. Notice
   of the Superintendent/President or designee’s recommendation shall be
   mailed to the student, and, in cases where expulsion is recommended,
   forwarded to the Board of Trustees for final action.

d. The Board of Trustees’ decision to expel a student shall be based
   upon evidence presented at the expulsion hearing or the facts of the
   case as presented by the College Disciplinarian. Santa Monica
   Community College District

e. The Superintendent/President or designee shall, upon the expulsion
   of any student, notify the appropriate law enforcement authorities
   of any acts of the student which may be in violation of Penal Code
   Section 245 (assault with a deadly weapon or instrument) [E.C.
   §76035] and additional code sections.

f. Whenever the student expelled is a dependent minor for federal
   income tax purposes, the parent or guardian shall be notified in
   writing by the College Disciplinarian within five (5) school days.

ARTICLE 4400 STUDENT CONDUCT, ACTIVITIES AND PROGRAMS

AR 4411 Code of Academic Conduct

To maintain the academic integrity of Santa Monica College, faculty and students must take responsibility for maintaining an educational environment characterized by academic honesty. Therefore, under no circumstances will academic dishonesty be tolerated.

1. Faculty Responsibilities

In order to maintain an environment of academic integrity, faculty will:

A. Make every attempt to conduct classes in a manner that encourages honorable behavior, ensures equal opportunity for student success, and discourages academic dishonesty.
B. Inform students in writing and, whenever possible, verbally, of the course requirements, grading procedures, and expectations for acceptable academic conduct and behavior.
C. Inform students of the SMC Code of Academic Conduct and the consequences of behavior in violation of the Code.
D. In instances where alleged academic integrity violations are filed, inform students of their right to due process.
E. Ensure that the appropriate process for reporting a violation of the Code of Academic Conduct is followed (see Reporting a Violation).

2. Student Responsibilities

In order to maintain an environment of academic integrity, students will:

A. Familiarize themselves with the Code of Academic Conduct, Honor Code, and Student Conduct Code.
B. Behave in a manner that encourages learning and upholds the Code of Academic Conduct and Honor Code.
C. Act with fairness (i.e., not seek undue advantage) towards other students in classroom interactions, completion of assignments, examinations, or any other academic activity.
D. Make every attempt to prevent the unauthorized use of their work.

3. Academic Dishonesty Conduct Defined

Santa Monica College defines academic dishonesty as an act of fraud or deception, in any academic exercise. This includes, but is not limited to, the following actions or attempted actions:

Santa Monica Community College District

A. Using unauthorized testing aids such as calculators, recorders, electronic devices or notes on any examination or assessment, or the failure to observe the expressed procedures or instructions of an academic exercise (e.g., examination instructions regarding alternate seating or conversation during an examination).
B. Allowing another individual to assume one’s identity for the purpose of satisfying course requirements or enhancing one’s grade or score in any of the following: testing, assessment, on-line classes, field trips, or attendance.
C. Falsifying attendance records or grade rosters.
D. Representing the words, ideas or work of another as one’s own (plagiarism) in any academic exercise, including the use of commercial term papers, solution manuals, or any other work of another regardless of how it is created or published.
E. Changing answers on a previously scored test, assignment, or experiment.
F. Copying or allowing another student to copy from one’s paper or answer sheet during an examination or for a graded assignment.
G. Inventing information for the purpose of completing a laboratory experiment, a case study analysis, or field trip.
H. Giving or receiving information during an examination by any means including sign language, hand signals, secret codes, or electronic transmission.
I. Accessing or reproducing exams in any form without the prior authorization of the instructor with the purpose of sharing, selling, or publishing them.
J. Intentionally or knowingly helping another to violate any provision of this Code.
K. Forging or altering academic documentation (including transcripts, assessment scores/results, letters of recommendation, enrollment certifications, registration forms, and medical certification) concerning oneself or others.

4. Reporting a Violation

Given an incident of academic dishonesty, faculty should adhere to the following procedures:

A. Inform the student of the nature of the alleged violation and the impending course of action.
B. Complete and submit the Academic Dishonesty Report Form, along with any related evidence, to the College Disciplinarian within ten (10) school days of the allegation. The term “school day” is used in this Administrative Regulation for the purpose of calculating deadlines and shall mean any day that classes are in session except Saturdays and Sundays.

Santa Monica Community College District

5. Consequences for Violating Academic Conduct

A. Given an alleged violation of academic honesty, the instructor may impose one or both of the following sanctions, subject to appeal to the Santa Monica College Honor Council:
   (1) dismiss the student from the class or activity for up to two class sessions;
   (2) assign a failing grade to the examination or assignment in which the alleged cheating or plagiarism occurred.
B. Upon receiving a report of alleged academic dishonesty, the College Disciplinarian will notify the student, the campus Ombudsperson, and the department chair of the content of the alleged violation. The Campus Disciplinarian will then conduct such investigation as he/she deems necessary.

Subsequent to investigation, the College Disciplinarian may:
   (1) Confirm the sanction imposed by the instructor and notify the student of his/her right to appeal the sanction to the SMC Honor Council.
   (2) Provide the student with the opportunity for a conference with the campus Ombudsperson or designee in an effort to resolve the accusation informally. As part of the informal resolution process, the Ombudsperson or designee may confer with the faculty member and department chair or designee.
   (3) Impose sanction under AR 4410. In severe incidents of academic dishonesty, including but not limited to impersonation, presentation of falsified documents, stealing exams or research papers, or repeated violations, the College Disciplinarian may suspend or recommend expulsion of a student from the College in accordance with the procedures set forth in AR 4410.

C. In any case where the College Disciplinarian confirms the alleged incident of academic dishonesty, he/she shall place in the student’s disciplinary records: a copy of the Academic Dishonesty Report Form; a summary of the College Disciplinarian’s Investigative Findings; and a description of the sanction imposed by the Instructor or College Disciplinarian.

A student whose disciplinary records contain a report of academic dishonesty shall be informed that:
   (1) the information placed in the student’s disciplinary record is not part of his/her academic record at the college and that the disciplinary records will be destroyed within three years, providing there are no further acts of misconduct;
   (2) the student has an opportunity to write a response to each document included in his/her disciplinary record, and that the response shall be placed on record with the original document;
   (3) the inclusion of these documents in the student’s disciplinary records may be challenged if a student appeals the alleged incident upon which they are based to the SMC Honor Council.

D. The College Disciplinarian and the SMC Honor Council may recommend to the Superintendent/President and Board of Trustees the revocation of any degrees, certificates, course credits awarded to a student when findings indicate that a severe incident of academic dishonesty with direct bearing on the award of the degree, certificate or course credit has occurred.
6. Appeal Procedure
A student has the right to appeal sanctions imposed by the instructor or College Disciplinarian under AR 4411 through the procedure set forth in AR 4412.

Santa Monica Community College District

ARTICLE 4400 STUDENT CONDUCT, ACTIVITIES AND PROGRAMS
AR 4412 Honor Code/Honor Council
1. Mission Statement
Santa Monica College is committed to the academic, social, and ethical development of our students. We strive to create a learning environment that is challenging and supportive of the community at-large. We are committed to upholding fundamental values of honesty, trust, fairness, respect, responsibility, civility, and community. In recognition of this effort we hereby establish this Honor Code and Honor Council.

2. Honor Code
The Honor Code consists of the following principles:
A. Honesty: means fairness and straightforwardness of conduct; implies a refusal to lie, steal, or deceive in any way.
B. Integrity: implies that one is true to a trust; one adheres to a code of moral values.
C. Social Responsibility: is demonstrated by adherence to policies of the institution, departments, labs, libraries and individual classes.
D. Respect and Civility: implies that one will conduct oneself in a courteous and respectful manner in our communications and actions toward members of the campus community.

3. Student Honor Statement
As testament to their commitment and readiness to join the Santa Monica College academic community, all students are expected to uphold the Honor Code. At the time of enrollment students will certify the following statement:
In the pursuit of the high ideals and rigorous standards of academic life, I commit myself to respect and uphold the Santa Monica College Honor Code, Code of Academic Conduct, and Student Conduct Code. I will conduct myself honorably as a responsible member of the SMC community in all endeavors I pursue.

At the direction of a faculty member or testing officer, students may be requested to affirm or re-affirm their commitment to the Honor Code as they participate in any given examination, paper submission, or any other academic exercise.

4. Honor Council Responsibilities and Membership
A. Membership
(1) Honor Council membership is extended to up to 17 members of the college community who are committed to upholding the Mission and Principles of the Honor Code. The Honor Council shall consist of the following:
a. A minimum of one (1) and up to five (5) students appointed by the Associated Students President.
b. A minimum of two (2) and up to five (5) faculty members appointed by the Academic Senate President.
c. A minimum of one (1) and up to five (5) classified employees appointed by the Honor Council Membership.
d. The College Disciplinarian and one (1) academic manager appointed by the Superintendant/President.

(2) The Honor Council may remove any member on grounds of malfeasance, misfeasance or nonfeasance by two-thirds vote of the membership appointed.
(3) The Honor Council Chair shall be appointed annually by the Academic Senate President. The Co-Chair shall be the College Disciplinarian or other academic administrator appointed by the Superintendent/President. The Chair will work closely with the Office of Student Judicial Affairs.

B. Responsibilities
The Honor Council shall be guided by the Honor Code and has the following responsibilities and authority:
(1) To advise and confer with faculty members, administrators, staff, and students on matters pertaining to academic integrity;
(2) To create and conduct educational presentations designed to promote academic integrity;
(3) To establish operational procedures with the approval of the Joint Academic Senate Student Affairs Committee and the College Disciplinarian;
(4) To collect and disseminate statistics pertaining to Honor Code violations;
(5) To issue an annual report to the Joint Academic Senate Student Affairs Committee and campus community on academic integrity standards, policies, and procedures, including recommendations for appropriate changes;
(6) Other responsibilities as agreed upon with the Joint Academic Senate Student Affairs Committee;
Santa Monica Community College District
(7) To provide students accused of violating the Honor Code due process protections via the implementation of an Honor Council Hearing Board;
(8) To appoint from its members two faculty, two students, and two classified staff to an Honor Council Hearing Board (“Hearing Board”) to adjudicate cases of alleged violations of the Honor Code. The Hearing Board will be chaired by an academic administrator appointed by the Superintendent/President (or designee).

5. Honor Council Hearing Board
A. Appeal Procedure
(1) Given an alleged violation of the SMC Honor Code, a student has the right to appeal any sanction imposed by a faculty member or the College Disciplinarian through the appeal procedures established by the College. Upon formal notification of imposed consequences for alleged academic dishonesty violation, the accused student has ten (10) school days to appeal such decision to the Honor Council. The term “school day” is used in this Administrative Regulation for the purpose of calculating deadlines and shall mean any day that classes are in session except Saturdays and Sundays.
(2) Once the student initiates the appeal process, he or she will be provided the opportunity for a conference with the campus Ombudsperson or designee in an effort to resolve the accusation informally.
(3) If no resolution is reached after an informal conference, the student may proceed with a formal appeal to the Honor Council. An appeal petition, along with any supporting documentation, must be filed with the Office of Student Judicial Affairs within ten (10) school days of the informal conference or refusal to participate in such conference.
(4) In all cases where the alleged violations are subject to sanctions less than immediate suspension, alleged violations of the SMC Honor Code are subject to review by the SMC Honor Council as stipulated in AR 4412. In cases where a violation is subject to interim/immediate suspension, appeal shall be governed by the appeal rights afforded in cases of interim/immediate suspension as described in AR 4410.
(5) Final grade disputes for alleged instructor mistake, bad faith, fraud, or incompetence are subject to AR 4313 (Grade Appeals Committee). The Grade Appeals Committee will not adjudicate issues pertaining to academic dishonesty.
B. Hearing Boards
(1) A quorum for a Hearing Board will be established by a minimum of three hearing board members which must include at least two (2) faculty and one (1)
student. The Chair may vote in the case of a tie. Members appointed to a hearing panel must notify the Honor Council Chair of potential conflicts of interest and are strongly encouraged to recuse themselves from any such proceedings and deliberations.

(2) Hearing Board hearings are closed to the public. The student may bring legal counsel or other representatives, however, these individuals may not participate in the proceedings. Counsel participation will terminate the hearing. Students are required to notify the College of counsel/guest(s) presence to these proceedings within 48 hours of the scheduled hearing. Each party will have the right to present written statements, witnesses, if appropriate, and any other forms of evidence. Each party will have the right to question evidence and supportive documents.

(3) Standard of Proof
The District will instruct the Hearing Board that the District bears the burden of proof by a preponderance of the evidence and that preponderance of the evidence means “more likely to be true than not true.”

(4) Any materials related to the hearing, including electronic recordings of the proceedings, may not be released to the student requesting the appeal or to any other individual or group. In accordance with the Family Education Rights and Privacy Act (FERPA) the student may submit a written request to the College Disciplinarian or designee to inspect and review these materials. The request must be made no less than one week in advance.

(5) The Hearing Board is empowered with the authority to:
   a. Affirm or deny the alleged violation.
   b. Where appropriate, educate the student and/or faculty on issues related to academic integrity.
   c. Recommend sanctions commensurate with the violations, including, but not limited to: failure in assignment, test, course: reprimand, suspension, or expulsion.
   d. Reverse instructor-imposed sanctions in the absence of substantive evidence of alleged academic violation. Substantive evidence may include or consist of instructor’s account of academic violation.

Santa Monica Community College District

6. Appeal of Hearing Board Recommendation
   A. Within five (5) school days after receiving the written decision of the Hearing Board, the student or faculty member may request a review of the decision to the Superintendent/President. A copy of said request shall be sent to the Honor Council Chair and the College Disciplinarian. The request will state in writing the grounds for review and will be based upon one or more of the following provisions:
      (1) The required procedures were not followed;
      (2) There is insufficient evidence to support the Hearing Board’s decision;
      (3) The penalty imposed is inappropriate.
   B. Superintendent/President Review
      (1) Within thirty (30) school days of receipt of the request for review, the Superintendent/President will review the decision of the Hearing Board and the basis upon which it was made. The Superintendent/President has the sole authority to:
         a. Adopt the decision of the Hearing Board;
         b. Modify the decision of the Hearing Board; or
         c. Reverse the decision of the Hearing Board.
      (2) The decision of the Superintendent/President will be communicated to the student in writing, and a copy sent to the Honor Council Chair and College Disciplinarian. In all cases the decision of the Superintendent/President is final.

Approved: 10/17/06
Revised: 9/26/2011
Santa Monica Community College District
STUDENT NURSES’ ASSOCIATION (SNA)

The Student Nurse’s Association (SNA) is an organization for students of nursing. The purpose of SNA is to assume responsibility for contributing to nursing education in order to provide for the highest quality health care; to provide programs representative of fundamental and current professional interests and concerns and to aid in the development of the whole person, his/her professional role, and his/her responsibility for the health care of all people.

SNA does this by influencing the educational process; promoting and encouraging participation in community affairs and activities; influencing health care through involvement in legislative activities; representing students to the consumer, to institutions and to other organizations; promoting and encouraging student participation in interdisciplinary activities and in recruitment efforts regardless of a person’s race, color, creed, lifestyle, gender, national origin, age, or economic status; and promoting collaborative relationships with other nursing and health organizations.

Nursing students at Santa Monica College (SMC) are members of the campus organization, California Nursing Student Association (CNSA).

Active membership in the CNSA local Chapter helps develop nursing students’ leadership and decision-making skills by participation in the political, economic and social activities that have direct and positive influence on the nursing profession. SMC nursing students are actively involved in promoting membership at the state and national levels for the development of the profession and of each student.

Active participation in CNSA has encouraged SMC ADN students to grow as members within the profession and to develop a broader view of the importance of their role as part of the health care team.
PRESIDENT: The role of the President of the Student Nurses’ Association is fulfilled by the elected person during the fourth semester of the nursing program.

Responsibilities which should be fulfilled or delegated include: take necessary steps to assure that the club is registered with the Student Activities’ Office during the first week of the semester; select a representative and a designated alternate to attend ICC meetings; participate in the decision-making process for all matters in which student representation is needed; plan faculty and pinning ceremony planning meetings; organize fund raising events; attend faculty meetings; work with faculty advisors in planning and coordinating the pinning ceremony; deliver a speech at the pinning ceremony; communicate on a regular basis with other class officers; participate in orientation for incoming students; organize and conduct the election process for the positions of President-Elect; remain accessible to fellow officers and faculty advisors.

VICE-PRESIDENT: The role of Vice-President of the Student Nurses’ Association is fulfilled by the elected person during the fourth semester of the nursing program.

Responsibilities which should be fulfilled or delegated include: participate in the decision-making process for all matters in which student representation is needed; attend all club, faculty and pinning ceremony planning meetings; represent the club President in his/her absence; assist the President with activities required to conduct the pinning ceremony; lead the nurses pledge at the pinning ceremony; assume responsibility for ordering and delivering the nursing pins in a timely fashion; participate in orientation for incoming students; participate in fund raising or charitable events; organize and conduct the election process for the positions of President-Elect and Vice President-Elect; remain accessible to fellow officers and faculty advisors.

PRESIDENT-ELECT: The role of President-Elect of the Student Nurses’ Association is fulfilled by the elected person during the third semester of the nursing program.

Responsibilities which should be fulfilled or delegated include: participate in the decision-making process for all matters in which student representation is needed; attend all club and faculty meetings; coordinate Club Row activities; work with Vice-President-Elect on designated projects; participate in orientation for incoming students; participate in fund raising or charitable events; represent the student body in the absence of the President and Vice President; organize and conduct the election process for position of Secretary and Treasurer; serve as usher at the pinning ceremony; remain accessible to fellow officers and faculty advisors. Post meeting notices in the SMC student newspaper, The Corsair.

VICE-PRESIDENT ELECT: The role of Vice-President-Elect of the Student Nurses’ Association is fulfilled by the elected person during the third semester of the nursing program.

Responsibilities which should be fulfilled or delegated include: participate in the decision-making process for all matters in which student representation is needed; attend all club and faculty meetings; work with the President-Elect on designated projects; participate in orientation for incoming students; participate in Club Row activities; participate in fund raising or charitable events; participate in election process for position of Secretary and Treasurer; work with other class officers and Lab Representatives to assure bulletin boards are current; serve as usher at the pinning ceremony; remain accessible to fellow officers and faculty advisors.
SECRETARY: The role of Secretary of the Student Nurses’ Association is fulfilled by the elected person during the second semester of the nursing program.

Responsibilities which should be fulfilled or delegated include: attends all club meetings and faculty meetings when requested; maintains a thorough, written record of all club meetings; posts minutes of all meetings in timely fashion on student bulletin boards; drafts letters and/or correspondence as needed to communicate club information; maintains permanent file of all minutes and correspondence; collects mail from the main campus on a routine basis; serves on committees or works on special projects at the request of the President; participates in fund raising or charitable events; remain accessible to fellow officer and faculty advisors.

TREASURER: The role of the Treasurer is fulfilled by the elected person during the second semester of the nursing program.

Responsibilities which should be fulfilled include: attends all club meetings and faculty meetings when requested; maintains financial records; gives report of financial activities and status at all meetings; processes requisitions for reimbursement; processes approved withdrawals of funds; serves on committees or works on special projects at the request of the President; participates in fund raising or charitable events; remain accessible to fellow officers and faculty advisors.

INTERCLUB COUNCIL REPRESENTATIVES (ICC): Several students from any of the four semesters may simultaneously fill the role of ICC Representative. Representatives may volunteer, be elected by classmates, or be appointed by the President of the Student Nurses’ Association (SNA).

Responsibilities which should be fulfilled include: mandatory attendance at ICC campus meetings; report Student Nurses’ Association activities and upcoming events at ICC campus meetings; articulate the goals of the association to other ICC club members; vote on issues that directly relate to the SNA as a club, such as funding, use of funds, fund raisers; participate along with other officers in petitioning for extra funding for events held by the SNA; communicate with SNA officers regarding ICC meetings, policy changes; attend SNA meetings whenever possible.

ICC REPRESENTATIVE: The role of the ICC Representative is fulfilled by an elected person during the nursing program.

Responsibilities which should be fulfilled include: organize ICC representatives’ schedules that coordinate with main campus ICC meetings; ICC representatives will give report of main campus meeting to this official; the ICC representative Supervisor will attend all CSNA meetings and will recount the minutes of the ICC meetings; remain accessible to fellow officers and faculty advisors.

Class Officers

Class officers are charged with the responsibility of representing their classmates and bringing forth concerns through appropriate channels. You are encouraged to serve as an officer. Discuss your concerns with these representatives so that broader discussion can occur at monthly meetings and across other classes. This is a good place to initiate discussion for possible future change.

Commencement and Nursing Pinning Ceremonies

All students eligible for graduation from the Santa Monica College Nursing Program are encouraged to participate in the Santa Monica College Commencement Ceremony and the Nursing Pinning Ceremony. Students should wear the appropriate dress for each ceremony.
The Pinning Ceremony is planned by the graduating class with input opportunities from the nursing faculty. The Assistant Director of the Nursing Program serves as advisor and coordinator to the planning committee.
PROCEDURES FOR ELECTION OF CLASS OFFICERS

General Guidelines
- All communication to the class will occur on the day of lecture -- immediately following class (if more than one lecture day per week, communication will occur on the second day of lecture).
- Candidates running for office will run as individuals rather than a team.
- All nominated or volunteer candidates must be willing and able to fulfill the responsibilities of the position.
- A simple majority vote will determine the outcome.
- Newly elected officers will be expected to begin functioning in their roles immediately.

Secretary and Treasurer
1. During the third week of Nursing 15 students in the first semester will be advised of the upcoming elections for the officer positions of Secretary and Treasurer by the Vice President-elect and the President-elect.
2. Students may volunteer to run for office or be nominated by a classmate. If nominated by another, the person being nominated must indicate their awareness and approval of being nominated. Names should be submitted to the third semester officers through the Administrative Assistant of the nursing program within a two-week time frame.
3. The officers receiving the names will prepare a ballot.
4. Ballots will be distributed and collected by the third semester officers during the tenth week of the first semester. Ballots will be counted in the presence of a faculty advisor.
5. Names of the newly elected officers will be posted on the bulletin board during the tenth week of the first semester.

President-Elect and Vice President-Elect
1. During the tenth week of the second semester the class will be advised of the upcoming elections for the class officer positions of President-elect and Vice President-elect by the current President and Vice President.
2. Names for the positions may be submitted by an individual student or by nomination from another student. If by nomination, the person being nominated must indicate their awareness and approval of being nominated. Names shall be submitted through the Administrative Assistant of the nursing program within a two-week time frame.
3. The officers receiving the names will prepare a ballot.
4. Ballots will be distributed and collected by the President and Vice President during the tenth week of the second semester. Ballots will be counted in the presence of the faculty advisor.
5. Names of the newly elected officers will be posted on the bulletin board during the tenth week of the second semester.

The President-elect and the Vice President-elect will ascend to the offices of President and Vice President during the fourth and final semester.

ICC Representatives
Two ICC (Inter Club Council) representatives volunteer, are elected, or are appointed to attend meetings of the ICC on main campus as representatives of SNA. They remain accessible to CSNA officers and faculty advisors. ICC representatives may be from any semester.
The following criteria apply to the ADN Program grading procedures.

1. Students will demonstrate knowledge of the subject matter as shown by meeting the course objectives and clinical competencies.

2. Students will achieve at least the satisfactory completion of all clinical assignments within the timelines specified by the instructor.

3. Students will attend regularly all clinical sessions. Attendance in the clinical is essential for successful completion of objectives and to provide needed clinical experience. To pass each clinical rotation, the students must complete the clinical objectives in a satisfactory manner.

4. Students’ clinical laboratory grades are determined by competency-based clinical evaluations and are expressed as Pass/Satisfactory or Fail/Unsatisfactory. Clinical experiences are evaluated based on the students’ satisfactory demonstration of understanding, integrating, and applying both theory and practice from previous and current courses and labs.

5. All nursing lecture classes use the following grade scale:
   - 92-100% = A
   - 83-91% = B
   - 75- 82% = C
   - 70-74% = D*
   - Below 70% = F*

   *In all required courses in the nursing curriculum, both “D” and “F” grades are considered failing grades.

6. In all nursing courses that have both a clinical and a theory component, the student must receive a Pass grade in the clinical and a “C” grade or higher in theory in order to pass the course. If a student fails the clinical portion, the letter grade for the course is “F”. This applies to all nursing courses with a lab component.

7. A student must receive a minimum of “C” in all nursing courses to remain enrolled in and complete the nursing program.

8. The following nursing support courses, which are part of the approved total curriculum, also require a minimum grade of “C”.

   Anatomy 1  Physiology 3  Nursing 36
   English 1   Psychology 19  Nursing 17
   Microbiology 1  Sociology 1  Nursing 19
   Speech 5

Students are encouraged to make an appointment with the appropriate clinical or lecture instructor if they experience any difficulty understanding the objectives, criteria, grading, or content of any assignment in any course. Full-time instructors post and announce their office hours and office phone
extension for this purpose. Part-time instructors should be approached before or after class for appointments or may be contacted through the Health Sciences Department by phone (310-434-3450).

Students should follow the appropriate communication channels (see Section IV. Student Role, Student Concerns/Problems, Procedures for Students’ Concerns). Any problems that cannot be resolved with the instructor should be referred to the Associate Dean of Health Sciences, as detailed in the Procedures for Students’ Concerns.

**Notice of Deficiency**

A student is notified that he or she is “at risk” at any time he or she is functioning below the minimally acceptable level of performance in either the clinical or academic areas of the program. To help the student return to good standing, he or she will receive a “Statement of Concern”, stating areas that need improvement, suggestions for making these improvements, and a date by which the deficit behaviors must be corrected. A Statement of Concern sample form is located on the following page. In lieu of a “Statement of Concern” a midpoint rating of needs improvement or unsatisfactory will serve as notice of deficient behaviors. If the midpoint evaluation is needs improvement or is unsatisfactory, a copy of the midpoint evaluation will be provided to the student.

Students are encouraged to take an active role in their learning by seeking the available resources to assure their success in the program before they become “at risk”.

When deficit behaviors are more serious, more frequent, or persistent, in a variety of areas or when behaviors pose a danger to the patient, a “Plan of Correction” may be given to the student by the instructor. A sample form is located on the following pages, and includes information clarifying the serious nature of the circumstances warranting use of this document. The issuance of this document constitutes due process and may initiate a process of program dismissal.
STATEMENT OF CONCERN

Student Name: ___________________________________________ I.D. ____________________

Date: __________________ Observations/Evaluation made by: ______________________________

On (date of occurrence(s) _____________________________________________________________

Expected Behaviors:

Deficit Behaviors:

Remediation/Correction Required:

Time Limit for Remediation/Correction:

Implication(s) of Non-correction:

_____ I have read and accept the above statement (and agenda, if attached).

_____ I have read and do not agree with the above statement and will submit a written rebuttal within 48 hours.

_____ I have received a copy of this document.

_________________________________________  __________________________
Signature (Student)                           Signature (Instructor)

Date/Time

NOTE: If a rebuttal is elected and is not submitted within 48 hours, the Instructor’s statement will be assumed to be accepted.
Name of Student: _______________________________ Date: ___________________

Clinical Course: ______________________________ Subject: WRITTEN WARNING NOTICE

This Written Warning Notice is to inform you that your behaviors in the clinical setting do not meet course objectives. You are receiving this Written Warning Notice as of ______________ for:

(include description of what occurred as well as what should have occurred) Deficit Behavior/Expected Behavior

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

A student may receive a Written Warning Notice two times throughout the course of the program unless it is for gross negligence. If a student receives a third Written Warning Notice, the student will be dismissed from the program.

Please be advised that this is your _____ First Written Warning Notice
                                           _____ Second Written Warning Notice
                                           _____ Dismissal Notice from the Instructor

Please note that students who receive a first Written Warning Notice should meet with their instructor for conference. Students who receive a second Written Warning Notice should meet with their instructor and the Associate Dean of Nursing for a conference. Students who are dismissed from the program have the option of meeting with their instructor and the Associate Dean of Nursing for a conference. Please refer to the Student Handbook for the Readmission/Appeal Process.

A student may be placed on Written Warning Notice at any point during the semester for any of the following reasons:

1) Placing a patient in physical jeopardy
2) Placing a patient in emotional jeopardy
3) Failure to demonstrate competence
4) Gross Negligence

Physical jeopardy is defined as any action or inaction on the part of the student, which in the judgment of the instructor, compromises the patient’s physical safety. Emotional jeopardy is defined as any action or inaction on the part of the student, which in the judgment of the instructor compromises the patient’s emotional safety. Failure to demonstrate competence is defined as the lack of possession of or the failure to exercise that degree of learning, skill, care, and experience ordinarily possessed and exercised by students of the same level. The student exercises an inability to demonstrate mastery of
previous or current course content as described in course objectives. Gross negligence is defined as an extreme departure from the standard of care, which, under similar circumstances would have been exercised by a student of the same level. A student may be dismissed for one instance of behavior that can be classified as gross negligence.

You are receiving a Written Warning Notice as your behaviors fall into the category(ies) of

__________________________________________________ listed above.

This memo also constitutes written warning of clinical lab failure in

__________________________________________________.

Please recognize that unless immediate changes occur in your behavior, a below passing grade may be issued at the end of the course.

Specific suggestions for improvement are as follows:

__________________________________________________

__________________________________________________

__________________________________________________

__________________________________________________

Student Comments:

__________________________________________________

__________________________________________________

__________________________________________________

__________________________________________________

I have read and understand this memo and the suggestions for improvement. I have received a copy of this memo.

KEY FOR CLINICAL EVALUATION RATING SCALE

Health Sciences Department
Nursing Program

KEY FOR CLINICAL EVALUATION RATING SCALE

“S”: SATISFACTORY
The student’s performance would be considered SATISFACTORY (S) if the following behaviors are manifested:
1. Performs the expected behaviors safely.
2. The quality of performance is at expected level of achievement.
3. Performs the expected behaviors at or within the designated time period.
4. Seeks appropriate guidance, validation, direction, and supervision.
5. Transfers previously acquired knowledge and skills to current practice.
6. Deliberately communicates therapeutically.
7. Written assignments submitted when due.
8. Wears correct/clean/complete attire, name tag, and adheres to student dress code standards.
9. Consistently demonstrates professional behavior.

“N.I.”: NEEDS IMPROVEMENT
The student’s performance would be considered as NEEDS IMPROVEMENT (N.I.) if any of the following behaviors are manifested:
1. Behaviors manifested incorrect but caused no harm because instructor/staff person intervened with questions, data, further instructions.
2. Preparation inadequate or not related to specific needs of assigned patient.
3. Manages time ineffectively.
4. Unable to accurately perform previously acquired skills or not knowledgeable regarding expected skill performance.
5. Assumes observer/follower role vs. active caregiver role after first day of care in new unit/clinical area
6. No deliberative therapeutic communication or client teaching performed.
7. Written assignments submitted one or more days late and/or with limited/incomplete data.
8. Inconsistent performance of expected clinical behavior.
9. Inconsistently demonstrates professional behaviors.
10. Wears incorrect/unclean/incomplete attire, does not wear name tag, and does not adhere to student dress code standards.

“U”: UNSATISFACTORY
The student’s performance would be considered UNSATISFACTORY (U) if any of the following behaviors are manifested:
1. Behaviors manifested are unsafe and have potential for causing harm if not changed/corrected/ or further action taken.
2. Demonstrates lack of and/or incomplete knowledge of principles, correct techniques, effects of actions, and/or nursing implications.
3. Consistently lacks incomplete and/or inadequate preparation for care.
4. Incorrect and/or inaccurate information given to client.
5. Impedes client’s communication/expression of feelings and fears.
6. Fails to perform the expected criteria within the designated time period, after repeated instruction, guidance, and remediation opportunity.
7. Fails to seek appropriate guidance or keep appropriate people informed.
8. Requires more than the expected amount of instruction and guidance for the stated level of performance. Continues to require frequent reminders by instructor to complete assignments.

**CLINICAL EVALUATION GRADING PROCEDURE**

Students are expected to transfer and integrate knowledge and skills learned in previous nursing courses and related courses for successful completion of this course.

Behaviors are related to clinical course objectives and will be listed in the specific evaluation tool for each course in the nursing program which has a clinical component.

At the conclusion of N1L, N2L, N3L, N4L a student may receive a “N.I.” in up to three behaviors and receive a passing grade with a Statement of Concern or Plan of Correction to be completed by a specific date, and no later.

Students in N30L, N35L may receive a N.I. in up to two behaviors and receive a passing grade with a Statement of Concern of Plan of Correction to be completed by a specific date, and no later.

Students in N40L, N45L may receive a N.I. in up to one behavior and receive a passing grade with a Statement of Concern of Plan of Correction to be completed by a specific date, and no later.

Students in N50L may not receive a N.I. in any behaviors and receive a passing grade.

If a student exceeds the above number of N.I.s for each course No Credit will be given. A “U” in any behavior will result in No Credit being given. Physically or emotionally jeopardizing a patient as specified in the SAFE CARE DIRECTIVES may result in dismissal from the program. Students must comply with the SAFE CARE DIRECTIVES in order to remain enrolled in and complete each clinical component of a course.

Failure in the companion theory course constitutes No Credit for clinical regardless of performance rating and the student will not be permitted to progress in the nursing program.

08/19
SAFE CARE DIRECTIVES

All nursing students must be expected to provide safe nursing care to assigned/selected patients. A student is expected to

1. maintain confidentiality

2. give safe patient care based upon previous and concurrent learning experiences.

3. implement nursing care using the nursing process.

4. implement the physician’s written orders.

5. observe, interpret, and record the patient’s responses to treatment.

6. use the Standards of Care/Practice defined by each clinical facility, which are consistent with course level objectives to provide safe care.

7. adhere to the Code of Academic Conduct at all times. Dishonesty and/or concealment of any errors in nursing practice constitute unsafe practice.

8. follow the hospital medication procedure/policy for medication administration and the following:
   a. state the expected effect for each medication.
   b. state the major side effects for each medication.
   c. state the rationale for giving each medication.
   d. assess the desired effects; report and document them.
   e. assess the side effects of every medication given; report and document them.
   f. verify each medication with the doctor’s written order.
   g. know contraindications for each medication.
   h. know the nursing implications of each medication.
   i. know the safe dosage range of each medication.
   j. calculate what the correct dosage should be.
   k. if you are a first-year student, give medication ONLY when supervised by the clinical instructor or designated RN.
   l. if you are a second-year student, give medication with supervision of the clinical instructor or preceptor RN in accordance with clinical objectives.

9. never administer any medication that was reconstituted, prepared, drawn up, or poured by another health care provider, unless prepared by the pharmacist or his/her representative.

10. maintain awareness of assigned patients’ scheduled procedures and the related nursing implications.

11. incorporate principles of safety when performing nursing care.

12. be prepared to state underlying principles when implementing nursing care.

13. follow facility policy regarding removal of narcotics.
14. comply with the BRN Nursing Practice Act.

Because of the serious consequences for patient comfort and/or health, any violation of these critical behaviors constitutes unsafe nursing behavior and may result in a student’s dismissal from the program. To protect the patient’s well being, the clinical instructor may dismiss from the clinical area students considered unsafe.

The instructor may contact the Associate Dean of Health Sciences or designee and request a formal dismissal of the student from the program. In that case, the nursing faculty will convene and the instructor involved will present written documentation for requesting the student’s dismissal. The student in question will be given the option to present an explanation of his/her behaviors either verbally or in written form and the faculty will vote on the decision.

If the student is to be dismissed, he or she will be notified in writing or by telephone within five working days. Students so dismissed will not be eligible for readmission.
**PROFESSIONAL ROLE DEVELOPMENT**

**Policy:** In order to promote the development of students in their role as members within the profession of nursing, students are encouraged to become active participants within the nursing program, the profession and the community. Students meeting the activity may receive up to an additional 2% of their earned course points. For example, in a course, which has a total possible point value of 400, a student earning 350 points may receive up to a maximum of 7 bonus points. Professional role development points cannot be used to achieve a passing grade. Students must be passing the course with 75% or better to be eligible for the additional 2%.

**STANDARDS FOR PROFESSIONAL ROLE DEVELOPMENT ACTIVITIES**

1. Students will submit a proposal of their professional development activity to the lead theory instructor on the Professional Role Development Activity Proposal Form within two weeks of the course start date (one week for courses < eight weeks). Late proposals will not be accepted. The lead theory instructor will approve or disapprove the proposal within one week and return a signed copy of the proposal to the student. The student must commit to at least six (6) hours of service in the Medical – Surgical nursing courses.

2. Students will submit a Report of Professional Role Development Activity Form to the lead theory instructor pursuant to instructor guidelines. Late reports will not be accepted.

3. Students will be responsible for arranging and completing the Professional Role Development Activity within the prescribed time frames of the course.

4. The Professional Role Development Activity must be performed on a volunteer basis, i.e., no fees will be charged or monies received for participation. The activities should include new learning experiences.

5. Students are representing Santa Monica College and will abide by the policies of the Santa Monica College Student Nurse Handbook and the community agency if applicable.

**PROFESSIONAL ROLE DEVELOPMENT SUGGESTED ACTIVITIES**

1. Serve as a class officer in the Student Nurses Association.

2. Attend and participate in at least three nursing faculty meetings.

3. Serve and participate on a standing committee within the nursing program.

4. Attend a continuing education program approved by the Board of Registered Nursing (BRN) which is six contact hours or greater.

5. Attend a Board of Registered Nursing disciplinary hearing or a general BRN meeting.

6. Administer influenza vaccine with Instructor supervision at a community clinic.

7. Volunteer on a crisis intervention hotline.
8. Teach a CPR course (must have an instructor’s certificate).

9. Participate in a blood pressure screening clinic.

10. Participate in a Health Fair.

12. Volunteer at a school based health clinic.

13. Volunteer at a homeless shelter.

14. Explore health care issues of an ethnic group other than your own at a community health care center.

15. Participate in an immunization clinic at a Health Department with Instructor supervision.

17. Attend/volunteer at a meeting of a professional organization.

Title
Criteria for Dismissal

Dismissal: Dismissal is defined as removal from the nursing program according to the policies, requirements, and/or regulations of any of the following entities: 1) Santa Monica College Nursing Program; 2) Santa Monica College; 3) California Board of Registered Nursing and/or 4) Affiliating Agencies. Students who are dismissed from the nursing program are not eligible to return to the nursing program. Dismissal from the nursing program includes, but is not limited to the following:

- Behavior inconsistent with the American Nurses Association Code of Ethics.
- Failure to comply with established college, nursing program, and/or clinical facility regulations and requirements.
- Violation of Safe Care Directives, California Board of Registered Nursing Regulations, or scope of nursing practice.
- Any form of dishonesty (refer to the SMC Honor Code and Code of Academic Conduct).

In critical cases, such as unsafe clinical performance, dismissal may be considered without prior warning or probation. This may be determined initially by any faculty member followed by concurrence of the faculty as a whole (see AR 4344 Students Dismissed from a Program as a Result of Unsafe Performance). Unsafe students are not eligible for re-entry into the SMC Nursing Program.

Criteria for Failure

Failure: Failure is defined as non-progression in one or more courses during a semester or intersession. Failure in a course with a companion laboratory component (i.e., Nursing 10/Nursing 10L) is considered as one exit from the nursing program. Failure in the nursing program includes, but is not limited to the following:

- Final grade below “C” or “no credit” in any required course in the nursing curriculum.
- Failure to show a consistent pattern of satisfactory behavior in the clinical setting or failure to meet course objectives.
- Behavior inconsistent with the American Nurses Association Code of Ethics.
- Failure to comply with established college, nursing program, and/or clinical facility regulations and requirements.
- Any form of dishonesty (refer to the SMC Honor Code and Code of Academic Conduct).
The Santa Monica College Nursing Program has a two time admission policy. Any nursing course within the approved curriculum may be repeated only one time. Failure to successfully complete the program during the second admission will preclude further re-entry.

**Withdrawal Policy**

Students who withdraw from the Nursing Program may reapply once, regardless of the reason for withdrawal (i.e., elective withdrawal, leave of absence, illness, failure, pregnancy). Students who voluntarily withdraw from the nursing program are responsible for notifying all involved instructors and the nursing counselor in addition to officially withdrawing from the courses. Withdrawal from a nursing course is considered as one exit from the nursing program. The Santa Monica College Nursing Program has a two time admission policy. Any nursing course within the approved curriculum may be repeated only one time. Failure to successfully complete the program during the second admission will preclude further re-entry.

Students may withdraw from most classes online through Corsair Connect. It is the student’s responsibility to withdraw from a class—informing the instructor is NOT sufficient. Failure to withdraw (officially drop) from a class could result in a grade of F. A complete explanation of how withdrawal deadlines are determined is available online (see Board Policy Manual or the annual SMC College Catalog). Please note that short-term courses have earlier or different deadlines. Go to www.smc.edu and click on “Dates and Deadlines” for details.

**Readmission Policy and Procedure**

**Readmission to the SMC Nursing Program**

Those students who have exited the program or failed a nursing course will be required to make an appointment with the nursing counselor to develop a Remediation Plan. Students will not be eligible for readmission to the nursing program until remediation has been successfully completed and all applicable assessments have been successfully passed. The Remediation Plan and all applicable assessments must be successfully completed within one year of the student’s program exit date (Please read the Readiness/Retention Policy in the Nursing Student Handbook.).

The process for readmission is initiated by the student through submission of a letter of request to the Associate Dean of the program. Students exiting the program must meet with the nursing counselor to develop a remediation plan, participate in remediation activities, and successful complete remediation prior to being added to the re-entry waitlist. A chronological wait list exists for each course. In the event that two or more students reapply at the same point in time, ranking will be established through random draw. Admission will be granted based on space availability. The Student Affairs Committee will make a recommendation to the faculty for students requesting readmission by exception. Students who apply for readmission after twelve months of leaving the program (and/or if there have been major curriculum changes) may be required to take additional courses.

Students who have been accepted for readmission will re-enter the program at times compatible with class scheduling and class space,

Revised: 07/2013
A criminal background check and a drug screening test are required from all conditionally accepted applicants for admission and from returning students requesting readmission to the nursing program. The purpose of this requirement is to comply with the policies of the clinical agencies where students complete the lab component of the nursing courses. The clinical lab component of the program is fundamental to nursing education. Therefore, we must abide by the rules and policies of the agencies that provide clinical experience to the SMC nursing students. The agencies require that all nursing students placed at the facilities maintain a clear or negative background check and a negative drug test. Consequently, all conditionally accepted applicants, students requesting readmission, and continuing students (when requested) are required to provide evidence of a clear or negative background check and a negative drug test for entry to the SMC Nursing Program.

Criminal Background Check
The background check must be done upon entry, re-entry, and as requested by the nursing program. The time frame in which the background check may be completed and the results submitted will be designated by the Director. The clinical agencies require a negative/clear background check. Therefore, if the student’s background check is not clear, students will not be able to enter or remain in the nursing program. The frequency of Criminal Background Checks will be determined by the requirements of the clinical agencies. If there is a question regarding a student’s results, the Director of the nursing program will confer with the Chief of the college police department to determine eligibility for the program.

Drug Screening Test
The drug screening test must be done upon entry, re-entry, and as requested by the nursing program. The time frame in which the test may be completed and the results submitted will be designated by the Director. Additionally, continuing students may be subject to random drug testing at the clinical site per the discretion of the clinical agency. Clinical affiliates of the Nursing program require evidence of a negative drug screening test from all students assigned to participate in the clinical lab experience at their facilities. Therefore any student with a positive drug screening test cannot be admitted to or continue in the Nursing program. The frequency of Drug Screening will be determined by the requirements of the clinical agencies.

Instructions
Upon conditional acceptance to the Nursing Program, students will be provided with instructions on how and where to complete the background check and drug screening. The background check and drug screening are performed by independent services and the cost is the responsibility of the student. Results of background check and drug testing will be accepted only from Santa Monica College Nursing Program approved agencies/organizations. The criminal background check and drug screening test may not be completed prior to notification from the Director.

The Director of the nursing program will review the results after the student has signed a release allowing the Director access to the information. The background check certificates and test results will be assigned identifying passwords and will be kept confidential. The details of the test results will not be provided to the clinical agency. However, in situations where the clinical agency requires further details, the clinical agency will make a request directly to the student for the needed information.
Positive results on the drug screening test or refusal to be tested and/or unsatisfactory background checks, including failure to disclose information, may result in forfeiture of admission to the nursing program or dismissal from the nursing program.

Revised 8/2019
The primary purpose of the SMC Nursing Program Readiness/Retention Policy is to assist students in the completion of the nursing program. Additional outcomes of the readiness/retention policy are a decrease in the attrition rate of the nursing program and an increase in the number of highly qualified nurses in California. Readiness/Retention services and support will be available to all students who have completed the SMC Nursing Program application process. However, students who demonstrate a need for additional services to enhance their success in the program will be required to participate in Readiness/Retention Activities.

**Pre-Nursing Students**

Students who have completed the nursing program application process for admission to the program must pass a California Community College Chancellor’s Office approved admissions assessment prior to entrance into the program. If a prospective student does not successfully complete the assessment, the student will be required to participate in readiness and/or remediation activities. Following successful completion of the readiness and/or remediation activities the student must pass the readiness/admission assessment(s).

Prospective students will not be admitted to the nursing program until the readiness and/or remediation activities are completed and the readiness/admission assessment(s) have been passed. Readiness and remediation activities must be completed within one year of the initial diagnostic assessment. Readiness and remediation activities completed at other colleges or institutions will not be accepted by the nursing program at Santa Monica College.
Algorithm for Nursing Program Entry

**STEP ONE**
Student completes nursing program application

**STEP TWO**
Student application and documentation is evaluated for minimum admission requirements. If Necessary: *Course Substitution/Equivalency Petition (s) processed * Transcript Evaluation (s) processed

**STEP THREE**
If minimum application requirements are met, student completes NLN-PAX RN admission assessment

- **Student meets** the score requirement for the NLN-PAX admissions assessment
  - Student satisfactorily completes Readiness Plan and meets the score requirement for the NLN-PAX admissions assessment retake within one year of their initial diagnostic assessment.
- **Student does not meet** the score requirement for the NLN-PAX admissions assessment and is referred to Counselor to create Readiness Plan
  - Student does not complete Readiness Plan and or does not meet the score requirement for the NLN-PAX admissions assessment retake within one year and is removed from Nursing Program Waitlist*

**STEP FOUR**
Multi-criteria ranking system used to determine eligible students for Conditional Acceptance*into the Nursing Program: Conditional Admission Criteria Include:
Attend Mandatory Nursing Orientation*If student is not selected via Multi-criteria ranking system, the student is ranked as an “alternate” **If “alternate” student is not offered Conditional Admission, the student has the option to re-apply during the next application period
**Students Enrolled in the Nursing Program**

In an effort to ensure all enrolled Nursing Students have the support necessary to successfully complete the Nursing Program, currently enrolled students are required to meet with a Nursing Counselor for a “Retention Meeting” at least once per semester. The Retention Meeting is designed to survey the students’ commitment to the program, level of achievement, knowledge and utilization of support services, and if needed, refer the student to needed services. Through this regular contact with the Nursing Counselors the program hopes to identify issues early that might interfere with a student’s progress in the program and to supply necessary interventions prior to any significant drop in student achievement.

Currently enrolled students who demonstrate a need for additional services may self identify or may be identified by a Faculty Member, Nursing Counselor, and/or other staff as “At Risk”. Once identified, students will be required to create a **Retention Plan** with a Nursing Counselor and participate in activities as specified within their approved plan. Failure to participate in activities as outlined in the Retention Plan, may result in ineligibility for re-entry into the program, should the student exit.

Characteristics that may indicate a student’s need for additional services are…

- self determined need for additional services
- failure to participate in learning activities,
- failure of a course exam or quiz,
- poor mid course evaluation,
- poor clinical performance,
- failure to adequately demonstrate Level Competencies,
- possession of a cumulative course grade below 78%,
- passing a nursing course with a percentage of 78% or lower, and/or
- HESI Mid curricular score of less than 800.

A Retention Plan may include, but is not limited to mandatory…

- meetings with a Nursing Counselor once per course,
- attendance in Supervised Tutoring – NURSNG 900 (if available),
- completion of skills practice hours in the Nursing Skills Lab,
- participation in Level Competency activities,
- participation in Web Accessible Nursing Tutorials or other available tutoring, and/or
- participation in remediation/skills development activities during summer or winter intersession.

Updated 06/2009
Algorithm for Intervention and Retention of Currently Enrolled Nursing Program Students

STEP ONE

Student is identified by faculty or self as “At Risk”

STEP TWO

Student is contacted by or referred to a Counselor for meeting

STEP THREE

Student and Counselor create a Retention Plan based on needs and resources available

Retention Plans may include but are not limited to the following

<table>
<thead>
<tr>
<th>Didactic coursework and assessments</th>

STEP FOUR

Follow up. Counselor and student meet again to discuss progress.
Advanced Placement or Transfer into the SMC Nursing Program

The following students are not eligible for admission or transfer to the SMC nursing program: 1) students who have withdrawn failing from another nursing program; 2) students who have failed a theory course in a previous nursing program 3) students who received an unsatisfactory clinical evaluation; 4) students who are not eligible for readmission from another nursing program. All students seeking Advanced Placement or Transfer into the SMC Nursing Program must be evaluated to determine Readiness and/or Remediation needs. Those students who have exited another nursing program in good standing within a year of application to the SMC Nursing Program may be able to waive the Remediation Plan requirement upon Counselor approval. Students will not be eligible for admission to the nursing program until remediation has been successfully completed and all applicable assessments have been successfully passed.

A Remediation Plan may include, but is not limited to mandatory…

- assessment of basic skills (Reading Comprehension, Math, and English), if not previously completed,
- enrollment and successful completion of remedial/skills development courses (grade of “C” or better),
- meetings with a Nursing Counselor, Faculty member, and/or staff person
- skills practice hours in the Nursing Skills Lab and verification of skills proficiency, and/or
- participation and successful completion of Web Accessible Nursing Tutorials or other available tutoring.

Upon completion of the remediation plan, a student will be eligible for admission to the program.
Re-admission to the SMC Nursing Program

Those students who have exited the program or failed a nursing course will be required to successfully complete a Remediation Plan prior to re-admission to the program. Students will not be eligible for re-admission to the nursing program until remediation has been successfully completed and all applicable assessments have been successfully passed. The Remediation Plan and all applicable assessments must be successfully completed within one year of the student’s program exit date*.

A Remediation Plan may include, but is not limited to mandatory…

- assessment of basic skills (Reading Comprehension, Math, and English), if not previously completed,
- enrollment and successful completion of remedial/skills development courses (grade of “C” or better),
- meetings with a Nursing Counselor, Faculty member, and/or staff person
- enrollment and successful completion of Supervised Tutoring – NURSNG 900 (if available)
- skills practice hours in the Nursing Skills Lab and verification of skills proficiency, and/or
- participation and successful completion of Web Accessible Nursing Tutorials or other available tutoring.

Upon completion of the remediation plan, a student will be eligible for readmission to the program.

Level Competencies are groups of skills, behaviors, and knowledge that are identified as performance standards for each of the four SMC Nursing Program levels as outlined in the Level Objectives.

*Students who exit and were not previously identified as “At Risk” may be able to waive the Remediation Plan requirement and/or the one year time limit with Counselor approval.

Updated 11/8/2011
Algorithm for Re-entry Students

### STEP ONE
Faculty notifies Associate Dean of Health Sciences of student’s exit

### STEP TWO
Student completes Letter of Request for Re-entry

### STEP THREE
Student completes Exit Survey with Counselor and is put on Re-entry Waitlist

### STEP FOUR
Student and Counselor create Remediation Plan based on needs and resources available

Remediation Plans may include but are not limited to the following:

**Didactic coursework and assessments**
- Web Accessible Nursing Tutorials (Software for Nurses)
- Computer Lab Based Nursing Software Tutorials
- Counselor Meetings
- Peer Support Groups/Study Groups
- Media Resources – Check-out Policy
- Individualized Tutoring with Staff or Faculty Member
- Counseling 1 or 20
- SMC Student Services (Financial Aid, Disabled Students, Psychological Services, Etc.)
- Counseling 1 or 20
- Nursing Concepts Seminar
- Plato Learning web based software

**Clinical coursework**
- Mandatory number of hours in the Skills Lab
- Peer Support Groups/Study Groups
- Individualized Tutoring with Staff or Faculty Member
- Counseling 1 or 20
- Nursing Concepts Seminar
- Plato Learning web based software

**Personal Conduct**
- Peer Mentor (Student Nurses Association)
- Faculty Mentor
- SMC Student Services (Financial Aid, Disabled Students, Psychological Services, Etc.)
- Counseling 1 or 20
- Meet with Counselor

### STEP FOUR
Follow up. Counselor and student meet again to discuss progress.

### STEP FIVE
Student provides Counselor with signed confirmation of successful completion of Remediation Plan from associated Staff and/or Faculty (must be completed within one year of program exit)

### STEP SIX
Counselor identifies student on Re-entry Waitlist as being eligible for program re-entry
The Associate Dean of Health Sciences will evaluate previous nursing education and/or experience for the purpose of granting credit either by course challenge or transfer credit for equivalent nursing education courses. The applicant for challenge or transfer must also meet the same admission requirements as the generic student. Challenge procedures are not an option to remediate failing grades from previous nursing courses.

1. Each applicant is given individual consideration. An applicant may qualify by completion of one or a combination of methods. The following applicants may be considered for transfer credit or challenge procedures:

   a. **Students transferring from accredited two or four-year colleges** will be granted transfer credit for equivalent nursing education courses taken within two years prior to the date of transfer. Credit will be granted in accordance with the established college policy on transfer credits.
Students transferring from accredited schools of professional nursing, such as diploma programs or colleges in other countries, are eligible for advanced placement and/or allowed to take challenge examinations provided the applicant has completed clinical experience in a registered nursing program within two years prior to the date of transfer. It should also be recognized that challenge examinations may be necessary for this person in order to receive credit and units toward graduation requirements.

b. **Licensed Vocational Nurses** must hold a current California license, is in good standing with the California Board of Vocational Nursing and at least one year of direct patient care in the past two years.

c. LVN students will be required to score at least 75% or above on selected Maternal-Child and Pediatric tests in order to waive the comparable course. Testing fees will be incurred by the student seeking course equivalency.

d. **Any person who has served on active duty in the medical corps** of any branch of the armed forces and who has completed the basic course of instruction in nursing, or its equivalency, and whose separation from the armed services was under honorable conditions, is eligible for advanced placement. Challenge examinations may be necessary for this person in order to receive credit and units toward graduation requirements. Please see Challenge/Advanced Placement Policy for Military Trained Healthcare Personnel.

e. **Licensed Vocational Nurses who are current California license holders** in good standing should request a nursing program brochure and college catalog to review their options for entry. The LVN may seek an ADN degree or the 30 Unit Option curriculum. All other policies and procedures of Transfer and Challenge are applicable.
2. **Placement in the appropriate nursing course** is dependent upon available space. If no space exists, qualified applicants will be placed on a waiting list and accepted in turn based on chronology.

3. **Transcript Review Policy**: College courses taken at other educational facilities are assessed via transcript by appropriate college counselors. Courses specific to the approved nursing curriculum are assessed by the Associate Dean of Health Sciences. Equivalency may be granted based on sufficient combinations of the following:
   - transcripts
   - course outlines
   - catalog descriptions
   - course syllabi

   In all instances the applicant will be notified in writing of the evaluative outcome and the appropriate form stating the outcome will be placed in the student’s file.

4. **All general education courses** required as part of the nursing curriculum will be accepted for transfer credit in accordance with the college policy. If coursework for consideration was taken in a non-accredited or unrecognized institution, disposition will be determined by the Counseling Department. A CLEP examination or course repeat may be necessary.

5. **Challenge Policy/Procedure**: In order to challenge any course the student applying for challenge should:
   a. **Complete prerequisites required** for the course you wish to challenge. Proof of completion must accompany the request. If the course is the first course in the nursing program, then all nursing program requirements must be met.
   b. **Submit a written request** to the nursing program stating the desire to challenge a specific course 6-8 weeks prior to the start of the course.
   c. **Receive the course syllabus** and any further written instructions from the Instructor of Record including a timeline for completion of the challenge.
   d. **Complete the challenge requirement** with an average score of at least 75%.

   Please note that challenge requests for any course that includes both a theory and clinical component will include an examination for theory and a performance evaluation of clinical competence. The written examination will be administered first and must be successfully completed (75%) prior to the clinical performance evaluation.

   Challenge examinations may include objective, multiple choice questions, short answer questions or discussion type questions. Upon completion of challenge requirements, the challenger will be notified of the results on a designated form. A copy of the completed form will be placed in the student’s file.

   In order to meet a clinical performance challenge, the student must be in compliance with the requirement of the clinical agency (CPR – immunizations – malpractice – tuberculin skin testing – clear criminal check – facility orientation).

   An individual may have only one attempt to challenge a particular course. If unsuccessful, the course must be taken in the traditional manner.

   LVNs requesting exemption from pediatrics and obstetrics must take the NLN specialty exams and score at least 75% and pass the practicum with a satisfactory rating to be exempt. Licensed psych technicians must take the NLN psychiatric nursing exam and score at least 75% and pass the practicum with a satisfactory rating. The student is responsible for incurring the cost of the exams and the cost of the practicum.
Santa Monica College Nursing Program
CHALLENGE/ADVANCED PLACEMENT POLICY FOR MILITARY TRAINED HEALTHCARE PERSONNEL INTO THE NURSING PROGRAM

Effective: 2/2019
Issue Dates: 10/5/16, 1/1/17, 2/2019

Challenge/Advanced Placement Policy for Military Trained Healthcare Personnel

Individuals who have held Military Health Care Occupations, specifically: Basic Medical Technician Corpsman (Navy HM or Air Force BMTCP), Army Health Care Specialist (68W Army Medic) or Air Force Independent Duty Medical Technician (IMDT 4N0X1C) may achieve advanced placement into the 2nd semester of the nursing program with documentation of education and experience qualifying them for the specific Military Health Care Occupation, and proof of honorable discharge.

Policy:

1. Acceptance of Military Challenge students into the Associate Degree Nursing Program is contingent upon space availability.
2. Military challenge students who were not successful in a previous nursing program are not eligible to apply for admission to the nursing program as an Advanced Placement student.
3. Applicants must complete the National League for Nursing Pre-Admission Examination (NLN-PAX) with a score of 114 or above before being eligible for Nursing 19 or the Challenge procedure.
4. Applicants must successfully complete Nursing 19, Orientation for Advanced Placement.
5. All ADN Prerequisites must be completed prior to Nursing 19, Orientation for Advanced Placement.
6. If Nursing 19 is not offered, the applicant may choose the following Challenge procedures.

Nursing 19 Challenge Procedures:

Applicants must successfully pass:

1. HESI Fundamentals Exam with a score of 850 or greater.
2. Nursing 36, Calculations in Drugs and Solutions challenge exam with a score of 75% or better.
3. Skills competency exam

Procedure:

1. Interested candidates must request an appointment with the Nursing Counselor at least four weeks prior to any application period to discuss eligibility requirements for the Associate Degree Nursing Program.
2. Applicants considered for advanced placement will include those individuals who have satisfactorily completed, within the last two years from the date indicated on the applicant’s DD-214, education and experience for the following:
a. Basic Medical Technician Corpsman (Navy HM or Air Force BMTCP)
b. Army Health Care Specialist (68W Army Medic)
c. Air Force Independent Duty Medical Technician (IMDT 4N0X1C)

3. Applicants applying for transfer credit must submit the following materials verifying education and experience: official copies of transcripts from appropriate education program(s), demonstrating satisfactory completion of coursework and clinical experience.

4. Documentation of experience

5. After a review of the applicant’s documentation and upon determination that the applicant has met the educational and experience requirements as well as the additional nursing program admission requirements, the student will be required to successfully pass Nursing 19, Orientation for Advanced Placement.

6. If Nursing 19 is not offered the applicant must successfully pass the HESI Fundamentals exam, a competency skills exam, and a dosage calculations challenge exam.

7. The HESI Fundamentals exam, skills competency examination, and the challenge exam for Nursing 36 Calculations in Drugs and Solutions must be completed eight weeks prior to admission to the program, unless waived by the Director of the Nursing Program.

8. The following materials will be available to the applicant once challenge confirmation is made:
   a. Nursing 36 course syllabus
   b. List of skills for competency exam
   c. Nursing Skills textbook used in SMC’s Nursing Program

9. If the above requirements are not met the student should attend an information session to learn more about the Generic RN program.
Challenge/Advanced Placement Policy for International Registered Nurses

The Nursing Program offers the opportunity for Registered Nurses from outside the USA to fulfill California Board of Registered Nursing requirements to correct a noted deficiency in an area of nursing education which prevents eligibility for NCLEX-RN.

Policy:

1. The International Registered Nurse must have a letter from the California Board of Registered Nursing stating the nursing area(s) deficiencies.
2. If the area(s) to be completed includes medical surgical nursing these courses cannot be completed at Santa Monica College because medical surgical nursing is included throughout the entire SMC Nursing curriculum.
3. Acceptance of International Registered Nurse into the Associate Degree Nursing Program is contingent upon space availability.
4. International Registered Nurses who were not successful in a previous nursing program are not eligible to apply for admission to the nursing program as an Advanced Placement student.
5. Applicants must meet all general entrance requirements of Santa Monica College including completion of designated prerequisites for the Nursing major.
6. Applicants must complete the National League for Nursing Pre-Admission Examination (NLN-PAX) with a score of 114 or above before being eligible for Nursing 19 or the challenge procedure.
7. If Nursing 19 is not offered, the applicant may choose the following Challenge procedures.

Nursing 19 Challenge Procedures:

Applicants must successfully pass:

1. HESI Fundamentals Exam with a score of 850 or greater.
2. Nursing 36, Calculations in Drugs and Solutions challenge exam with a score of 75% or better.
3. Skills competency exam

Procedure:

1. Interested candidates must request an appointment with the Nursing Counselor at least eight weeks prior to any application period to discuss eligibility requirements for the Associate Degree Nursing Program.
2. After a review of the applicant’s documentation and upon determination that the applicant has met the educational and experience requirements as well as the
additional nursing program admission requirements, the student will be required to successfully pass Nursing 19, Orientation for Advanced Placement.

3. If Nursing 19 is not offered the applicant must successfully pass the HESI Fundamentals exam, a competency skills exam, and a dosage calculations challenge exam.

4. The HESI Fundamentals exam, skills competency examination, and the challenge exam for Nursing 36 Calculations in Drugs and Solutions must be completed eight weeks prior to admission to the program, unless waived by the Director of the Nursing Program.

5. The following materials will be available to the applicant once challenge confirmation is made:
   a. Nursing 36 course syllabus
   b. List of skills for competency exam
   c. Nursing Skills textbook used in SMC’s Nursing Program

6. If the above requirements are not met the student should attend an information session to learn more about the Generic RN program.
Santa Monica College Nursing Program

CHALLENGE/ADVANCED PLACEMENT POLICY FOR LICENSED VOCATIONAL NURSES INTO THE NURSING PROGRAM

Effective: 9/2019
Issue Dates: 2/2017, 9/2019

Challenge/Advanced Placement for Licensed Vocational Nurses
Santa Monica College offers an Associate Degree Nursing Program that prepares students to meet the standards of the California Board of Registered Nursing. Licensed Vocational Nurses may apply for Advanced Placement into the second semester of the Nursing Program.

Policy:
1. In order to be eligible for advanced placement, the LVN applicant must have:
   a. A current unencumbered California LVN license
   b. Proof of IV certification
   c. One year’s experience in direct patient care within the past two years.
2. Acceptance of LVN students into the Associate Degree Nursing Program is contingent upon space availability.
3. LVN challenge students who were not successful in a previous nursing program are not eligible to apply for admission to the nursing program as an Advanced Placement student.
4. Applicants must meet all general entrance requirements of the Associate Degree Nursing Program including completion of designated prerequisites for the Nursing Major.
5. Applicants must complete the National League for Nursing Pre-Admission Examination (NLN-PAX) with a minimum score of 114 before being eligible for Nursing 19 or the challenge procedure.
6. The 5 year recency rule for core sciences is waived for the LVN who is currently practicing.
7. Applicants must successfully complete Nursing 19, Orientation for Advanced Placement.
8. All ADN Prerequisites must be completed prior to Nursing 19, Orientation for Advanced Placement.
9. If Nursing 19 is not offered, the applicant may choose the following Challenge procedures.

Nursing 19 Challenge Procedures:
Applicants must successfully pass:
1. HESI Fundamentals Exam with a score of 850 or greater.
2. Nursing 36, Calculations in Drugs and Solutions challenge exam with a score of 75% or better.
3. Skills competency exam
Procedure:

1. Interested candidates must request an appointment with the Nursing Counselor at least four weeks prior to any application period to discuss eligibility requirements for the Associate Degree Nursing Program.

2. LVN applicants considered for advanced placement will include those individuals who have:
   a. A current unencumbered California LVN license
   b. Proof of IV certification
   c. One year’s experience in direct patient care within the past two years.

3. Applicants applying for transfer credit must submit the following materials verifying education and experience: official copies of transcripts from appropriate education program(s), demonstrating satisfactory completion of coursework and clinical experience.

4. Documentation of experience from employer.

5. After a review of the applicant’s documentation and upon determination that the applicant has met the educational and experience requirements as well as the additional nursing program admission requirements, the student will be required to successfully pass Nursing 19, Orientation for Advanced Placement.

6. If Nursing 19 is not offered the applicant must successfully pass the HESI Fundamentals exam, a competency skills exam, and a dosage calculations challenge exam.

7. The HESI Fundamentals exam, skills competency examination, and the challenge exam for Nursing 36 Calculations in Drugs and Solutions must be completed eight weeks prior to admission to the program, unless waived by the Director of the Nursing Program.

8. The following materials will be available to the applicant once challenge confirmation is made:
   a. Nursing 36 course syllabus
   b. List of skills for competency exam
   c. Nursing Skills textbook used in SMC Nursing Program

9. If accepted, the LVN will be placed in Nursing 3/Nursing 3L.

10. If the above requirements are not met the student should attend an information session to learn more about the Generic RN program.

The Nursing Program at Santa Monica College does not discriminate against qualified individuals with disabilities. A qualified applicant is defined as an individual who has met the academic requirements and is able, with or without reasonable accommodation, to perform the essential functions of a nursing student. All students enrolled in the program are required to meet the same standards with or without accommodation. The essential functions required for all nursing students are described below. A student must be able to adequately monitor, observe, and assess healthcare needs of the patient and communicate effectively with other health care professionals and staff.

**Auditory** includes, but is not limited to, the ability to:
- receive and interpret information a patient is communicating verbally
- receive and interpret auscultation sounds using a stethoscope
- receive and interpret auditory signals from technical equipment
- receive and respond to cries for help
- communicate using telecommunication devices, such as a telephone

**Visual** includes, but is not limited to, the ability to:
- monitor, observe, and assess drainage on dressings and drainage of body fluids
- note fluid levels in collection devices, syringes, and infusion devices
- read gauges, such as a sphygmomanometer, that monitor patient progress
- administer treatments such as I.V. fluids and oxygen
- observe changes in patient skin color
- discriminate colors for diagnostic purposes
- assess movements of patients
- observe general patient behavior, especially in rehabilitation or psychiatric settings

**Tactile** includes, but is not limited to, the ability to:
- perform palpation and other functions necessary for a physical examination
- assess texture, shape, size temperature and vibration
- perform therapeutic functions, such as inserting a urinary catheter or I.V., changing dressings, and administering medications
- collect specimens necessary for assessment of the patient

**Gross and Fine Motor Coordination, Neuromuscular Strength** includes, but is not limited to, the ability to:
- transfer patients (i.e., from wheelchair to bed and from bed to stretcher)
- perform palpation, auscultation, and percussion to elicit information
- manipulate diagnostic instruments to perform all aspects of a physical assessment
- perform CPR
- administer intravenous, intramuscular, subcutaneous and oral medications
- manipulate life support devices
- apply therapeutic pressure to stop bleeding
- navigate safely in patient care environments
- perform treatments and procedures
- calibrate diagnostic and treatment equipment
**General Physical Stamina:** A student must be able to tolerate sitting, standing, moving, and performing nursing care activities to assigned patients in clinical labs and health care environments in the required timeframe.

**Communication** is the ability to communicate effectively and sensitively with patients, family members, and other members of the health care team. It is both expressive and receptive modes of verbal, nonverbal and written communication. It includes, but is not limited to, the ability to:
- access electronic medical records and input data using site specific systems
- utilize electronic medical records for the purpose of retrieving medications from an automated dispensing system
- explain treatment procedures to patients and family members
- initiate health teaching with patients and family members
- document nursing assessment, nursing action, and patient /family responses
- access documentation and medical literature pertaining to the patient
- accurately report patient information to other health care professionals and members of the patient’s health care team

**Social Behaviors** include the ability to establish and maintain appropriate professional relationships, such as the ability to:
- act ethically
- demonstrate compassion
- develop professionally mature, sensitive, caring, and effective relationships with patients and other members of the health care team

**Cognitive/Emotional Capabilities** includes emotional health concurrent use of his or her intellectual abilities including:
- effectively prioritize competing demands
- function successfully in stressful circumstances
- separate one’s own needs and experiences from the situation at hand to maintain objectivity and patient-centered care
- adjust to changing circumstances
- exercise reasonable clinical judgment
- respond appropriately to supervisor’s direction

6/04
Updated 12/12
In accordance with State and Federal law, academic requirements at SMC shall be modified, as necessary, to ensure that they do not discriminate, or have the effect of discriminating on the basis of handicap, against qualified handicapped applicants or students. The Website is http://www.smc.edu/disabledstudent/. The procedure for seeking an adjustment is as follows:

1. A qualified handicapped student contacts the instructor or instructors prior to or at the beginning of the semester with a request for an academic adjustment;

2. The instructor or instructors discuss the request with the student and confer with the staff at the Center for Students with Disabilities—phone (310) 434-4265; TDD (310) 434-4273—in determining an appropriate adjustment;

3. A qualified handicapped student may also seek an adjustment by requesting staff at the Center for Students with Disabilities to initiate contact with the instructor(s); and

4. If the student, instructor(s), and staff at the Center for Students with Disabilities are unable to agree on an appropriate adjustment, the matter may be referred to Sandi Burnett, ADA/Section 504 Compliance Officer. You may call her at (310) 434-4442, or send e-mail to Burnett_Sandra@smc.edu.
NURSING STUDENT DRESS CODE

- Appropriate street clothes or uniforms are to be worn in the classroom.

- **Uniforms, only, should be worn to the clinical setting unless otherwise specified by the instructor. Students who are visiting clinical facilities in preparation for clinical assignments should also be in full uniform. (as described below) or in appropriate business casual attire. Clothing made out of denim fabric may not be worn in clinical facilities.**

- **Uniforms should follow the criteria outlined below:**
  
  o The uniforms are Landau Galaxy Blue V-Neck with two front pockets and matching elastic waistband pants/shirts. The school patch is sewn on the left shoulder of each uniform.

  o The uniforms are embroidered on the left chest side in white script that reads:
    
    Santa Monica College
    Nursing Program

  o A white crew neck short or long sleeve undershirt or tank top may be worn under the uniform. The sleeves of the short sleeve undershirt should not be visible.

  o Only Landau Galaxy Blue scrub jacket may be worn when providing patient/client care. It must be embroidered on left chest with white script that reads: Santa Monica College Nursing Program. The school patch is sewn on the left shoulder of the scrub jacket.

  o Uniforms must be neat, clean, pressed, and odor free.

  o Men and women should wear undergarments as part of their uniform. The undergarments should not be visible.

  o White, non-canvas, nursing shoes, with or without laces, and stockings or plain white socks are to be worn with the uniform. The shoes and laces should be kept clean at all times. **Tennis shoes, athletic shoes, and open backed shoes are NOT appropriate footwear with the uniform.**

  o The student’s name pin, required at every clinical facility, is worn on the left side of the uniform. The school’s patch is available at the SMC Bookstore. It is to be sewn on to the left shoulder of each uniform.

  o The student’s photo I.D., provided at Station “D” on the SMC Main Campus, is required at every clinical facility and is worn as part of the uniform at the V-neck or on the right side of the top. Student’s photo I.D. must be readily visible at all times.
The student’s hair should be neat and off the face and shoulders. Extreme hairstyles and/or colors, either wigs or natural, are not appropriate. Brightly colored hair ornaments or clips are not appropriate.

Male students should be clean shaven and keep their mustaches neatly trimmed to the contour of the lip line. All other facial hair is prohibited to accommodate personal protective equipment.

The student’s fingernails should be kept short and even with the fingertips, well groomed, and neat. Students may wear neutral shades of nail polish. Extreme shades of polish or chipped nail polish are not appropriate. **Acrylic nails are not to be worn in the clinical setting.**

Jewelry is generally not appropriate with uniforms. Wedding bands, engagement rings or one simple flat ring may be worn. One pair of simple stud earrings may be worn—one stud earring in each earlobe. Costume jewelry, chain necklaces, body jewelry, or brightly colored jewelry is not acceptable with uniforms.

Visible body piercings, other than simple stud earrings, are not acceptable.

Visible tattoos are not acceptable. The student bears the responsibility to conceal tattoos by applying make-up designed for this purpose or by wearing a regulation scrub jacket or undershirt.

Students may wear cosmetics in moderation.

Strong scents such as perfumes, colognes, or aftershave lotions are not appropriate.

Sweaters are not appropriate while giving patient care. Only the Landau Galaxy Blue scrub jacket may be worn when providing patient/client care.

Other required parts of the uniform in the patient care area include the following:

- A watch with a second hand or display
- A penlight
- Bandage scissors (5 ½” to 6” long)
- Hemostats (5 ½” to 6” straight or curved with teeth)
- Stethoscope
- Protective eyewear
- One-way CPR mask
- Notebook (5 ½” x 4”)

A washable white nursing organizer pouch may be worn with the uniform.

In some psychiatric settings business casual street clothes with pockets should be worn. Your instructor will clarify the dress code for each clinical placement.

Students who are not appropriately attired, odor-free or well groomed will be excused for the clinical day from the clinical setting without earning credit for the day and will receive a statement of concern. If a student disputes the instructor’s action, the Associate Dean of Health Sciences will be asked to mediate and will make the final determination.
*Non-compliance with the established dress code, may result in the student being dismissed for the clinical day and/or a statement of concern.

- The uniforms consist of a scrub top and matching scrub pants by Landau in the color galaxy blue and in a 65% polyester – 35% cotton fabrication. The uniforms shall follow the criteria outlined below:

  - The scrub top shall be either the women’s V-neck top with two front pockets or the unisex V-neck top with one chest pocket. Note that men are permitted to wear the women’s top with two front pockets, as the appearance is similar to the unisex top and the second pocket may be useful.
  - The school patch shall be sewn on the left shoulder of the scrub top.
  - The following shall be embroidered in white script on the upper left chest of the scrub top: Santa Monica College Nursing Program
  - The pants shall be the matching women’s and men’s scrub pants with a fully elastic waistband that sits at the natural waist.
  - Note that these pants have been approved for the uniform because of both their polyester-rich, wrinkle-resistant fabrication as well as their classic fit with a relaxed leg and traditional rise that sits roughly at the natural waist. Students are permitted to wear other Landau galaxy blue pants in a slightly different fabrication and with a waistband that is not fully elastic; provided, however, that it is each student’s responsibility to ensure that the uniform has a professional appearance at all times and that any alternative scrub pants:
    1. Are substantially similar to the approved pants in terms of appearance and fabrication and closely match the required scrub top,
    2. Have a waistband that does not sit below the natural waist and is secured at all times (for example, any drawstrings must be pulled tight and securely tied), and
    3. Have hip, thigh, and leg openings are not too slim or tight.

- Students are permitted to wear a matching Landau galaxy blue scrub jacket in the same 65% polyester – 35% cotton fabrication as the uniform. Only this scrub jacket may be worn over the uniform when providing patient/client care.

  - The school patch shall be sewn on the left shoulder of the scrub jacket.
  - The following shall be embroidered in white script on the upper left chest of the scrub jacket:
    Santa Monica College
    Nursing Program

Revised 2/23/2018
STUDENT ATTENDANCE POLICY - CLINICAL

Classroom and clinical experiences are provided for each student to facilitate fulfillment of course objectives. The SMC Attendance Policy is addressed in the college catalog. The attendance policy and procedures for the nursing program are located on this and the following pages.

Tardiness

Students are expected to arrive on time for all class and clinical experiences. A student who is tardy to clinical two or more times will be counseled by the Instructor of Record and will be subject to the following sanctions:

a) late three times in a course will be considered equal to one absence.

b) Statement of Concern for excessive tardiness will be instituted.

c) may not be allowed to remain in clinical.

d) Further tardiness will be considered excessive and may be a cause for course dismissal.

Absence

Student absences are considered excessive when a student is absent more than 2 days in an 8 week course or 1 day in a 5 week course. A Statement of Concern will be written by the Clinical Instructor after the second absence in an 8 week course or after the first absence in a 5 week course or if the clinical meets only 1 day per week. Students with excessive absences may be dismissed from the course and exited from the nursing program.

Students who are ill are expected to seek appropriate medical care. Students should not attend the clinical setting if experiencing an elevated temperature, a draining wound, a communicable disease or an inability to function. If there is any doubt as to whether or not one should be present in the clinical setting, the Clinical Instructor should be consulted and will make the final determination.

The Instructor of Record may request written medical approval and/or verification before allowing return to the clinical area.

Regardless of the number of hours absent, the student will still be held accountable for fulfillment of course (theory and clinical) objectives.

If a student is absent from clinical to the extent that objectives cannot be met, any of the following options may be applied at the Instructor’s discretion:

a. clinical make-up with the Instructor of record

b. course failure

In cases of acute or prolonged illness, or conditions requiring surgery, the student should consult with the Associate Dean of Health Sciences to determine the best course of action.
Failure to meet standards of punctuality and attendance shall be considered in the evaluation and grading of student performance.
Rev. 9.29.10, 12.3.12

Procedure for Notification of Absence or Lateness

1. If it is necessary to be absent or to arrive late for the clinical or classroom experience, it is the responsibility of the student to notify the Instructor and/or the clinical facility prior to the scheduled start time.

2. In addition, the student should notify the Administrative Assistant of Health Sciences, of the absence prior to the scheduled start time (310) 434-3450. A message may be left on voice mail. Please include: your name, the course and location you will be absent from, state the reason for the absence and your expected return date.

3. Absences lasting more than one day require daily instructor notification unless other arrangements have been made.
The policies detailed below exist for the protection of students, patients, clinical personnel, and faculty.

1. Injury in the classroom or clinical setting should be reported immediately to the nursing Instructor who will oversee completion of necessary medical care forms. The Associate Dean of Health Sciences and SMC Health Services (http://www.smc.edu/healthcenter/) should be notified as soon as possible of any occurrences.

2. Students with a visible injury or having had a potentially communicable illness must furnish a clearance statement from their physician before returning to the classroom or clinical setting.
   a. “Visible injuries” include conditions requiring casts, canes, crutches, slings, elastic bandages, dressings, or open, draining wounds.
   b. “Potentially communicable illnesses” include skin rashes, sore throats, and productive coughs.
   c. Students with severe upper respiratory symptoms, draining wounds, cold sores, fever, crutches, casts, and other signs of illness or disability may be allowed in the classroom but will not be allowed in the clinical area. Exceptions may be considered on a case-by-case basis.

3. Letters from physicians regarding student illness, injury, or pregnancy should include specific limitations or restrictions to the student’s activities, as well as a statement defining the classroom and clinical activities the student is allowed.
   a. Pregnant students must submit such a letter from their physician stating any restrictions to their activities, approval to continue with activities required by the nursing program, and the estimated date of delivery.
   b. Before students can return to the nursing program, any limitations previously imposed must be followed up by a written release from their physician and clearance from the SMC Health Center.

4. To be permitted to remain in any instructional setting, students should be physically able to meet the objectives of the course or clinical requirements.
Effective Fall 2010

**Drug Dosage Calculations Test**

In all of the nursing courses students will be required to successfully pass a drug dosage calculations test. The test will be appropriate for the medications that are administered in the clinical lab course. If a student does not successfully pass the drug dosage calculations test at the required passing rate within the number of allowable attempts, the student will not pass the clinical lab course and will be exited from the nursing program. The pass rate on the drug dosage calculations test will increase with each level as follows:

<table>
<thead>
<tr>
<th>Semester</th>

Issue Date: Fall 2010
Revised: 8/2019
Students and faculty are considered guests of the clinical facility and appropriate behavior, as detailed below, should be observed at all times.

1. Students should park their cars in areas designated by the clinical facility and abide by its parking regulations.

2. Students must adhere to the clinical facility’s policy on smoking.
   a. Smoking is not allowed in any clinical area.
   b. Smoking is allowed only in clearly designated areas.

3. Students are to engage in appropriate clinical facility activities like charting and reading charts and/or activities that meet course objectives. Purely social activities are not appropriate unless requested by facility personnel. Students are expected to communicate with staff personnel, etc. in a professional manner and maintain a professional demeanor when in the clinical facility.

4. In general, students should not answer the telephone at the nurses’ station unless they have been directed to do so by hospital personnel.
   a. A student should not make or receive personal calls while at the hospital. Cell phones or mobile pagers should be left in the student’s car or in a backpack or locker, not on the student.
   b. Emergency phone calls should be directed to the Health Sciences Department at (310) 434-3450.

5. Since violation of patient confidentiality is unethical, unprofessional, and illegal, students and faculty should not discuss patients and their conditions or facility personnel or policies in any public area (regardless of the source of data i.e. computer).

6. Students should perform all procedures under the direct supervision or with the permission of the instructor. Students should check with the instructor before performing a procedure requested by facility personnel.

7. Although patients may wish to express their gratitude by giving students and/or faculty a gift, such gifts must be refused because accepting them violates the philosophy of the SMC nursing program and may compromise treatment.

8. Additional student requirements include the following:
   a. Students should report to the clinical facility in full uniform at the appointed time. In the psychiatric setting, conservative street clothes are worn.
b. Students should provide their own transportation to and from the clinical facility and accept sole and full responsibility for any accidents or injuries incurred as a result of that travel.

c. Students should report immediately to the instructor if they become ill or injured while on lab assignment or in the clinical area.

d. Students should not accept verbal medical orders from a nurse or a physician. Students should follow only orders written on the patient’s chart and signed by the physician.

e. Students should not leave the clinical facility for any reason during their scheduled time without the instructor’s permission.

9. Proof of current CPR and First Aid must be on file in the Health Sciences office at least two weeks prior to the first clinical course. Students must have on file in the Health Sciences Department and the SMC Health Center evidence of their physical examination, immunization records, and validation of any physical restriction or limitations. Students must also have a clear criminal background check performed by the agency identified by the Nursing program.

   a. Portions of the physical exam must be updated annually, (CPR, Tuberculin skin test or chest x-ray). Failure to submit proof will prevent the student from attending the clinical component of the course. Program health requirements must be on file in the Health Sciences office two weeks prior to the course start. Non-compliance will result in an inability to attend the assigned clinical experience with the ensuing risk of being dropped from the course. American Heart Association CPR Health Provider cards are valid for two (2) years.

   b. Students are responsible for updating the physical exam and notifying the Health Sciences Department of this by submitting a copy of the negative TB or CXR and the completed required immunizations to the Health Sciences department.

   c. Validation of malpractice insurance must be in the Health Sciences office two weeks prior to the start of the program and two weeks prior to the start of the course being entered when updated (must be updated annually).

   d. The course instructor has the option to deny Professional Role Development opportunities or points when students are not in compliance with program requirements.

   e. CPR certification for health care providers, tuberculin skin testing, (or chest x-ray), and malpractice insurance must be updated yearly.

   f. Students must show proof of health insurance coverage (required by some health care facilities).
Introduction

The social and electronic media policy is based upon state and federal legislation and best practices for the use of this technology. Students are expected to be knowledgeable of and adhere to all current legislation including the Health Information Portability and Accountability Act (HIPAA).

Inappropriate use of social media may violate state and federal laws established to protect patients, their privacy and confidentiality. Violations may result in civil and/or criminal penalties, personal liability for defamation, harassment and/or invasion of privacy. Postings on the Internet are discoverable by law even when they are deleted.

Use of Social and Electronic Media for SMC Student Nurses:

- SMC student nurses must adhere to all applicable rules and regulations and legislation concerning patient privacy before they attend clinical (i.e., HIPAA).
- Students will not take or post images or information regarding clinical facilities, staff, patients, patients’ family or friends, any patient body organs, fluids, wounds, dressings, medical equipment, or human patient simulators.
- Audio and visual images from the classroom, clinical setting, skills lab and simulation may not be posted on social or electronic media. Disclosure of exam items before, during or after the exam or sharing school papers for the purpose plagiarism are considered information that should not be shared in any format.
- Electronic social networking (i.e., “Facebook,” “MySpace,” “Twitter”, email, text, etc.) is not permissible during scheduled class or clinical time.
- Posting comments on social media sites and/or other online venues about other students, faculty or staff at Santa Monica College which may constitute “cyberbullying” or lateral violence is against the social media use policy. If it’s negative, belittling, mocking or intimidating, or can be construed in such a manner, do not post it. Students who choose to communicate electronically via social networking sites are held responsible for the content they post.
- All students are required to read the National Council of State Boards of Nursing (NCSBN) publication, “White Paper: A Nurse’s Guide to the Use of Social Media,” on their website: https://www.ncsbn.org/Social_Media.pdf
- Recording by any method is by permission of the instructor only.
- Recordings of any kind may not be shared, transmitted, or sold and must be destroyed at the end of each course.
- Photograph and video recording by students is not allowed in class or clinical.
- Use of electronic devices during class or clinical (i.e., cell phones, ipads, laptop computers) is by the permission of the instructor only and/or facility policy.
- Cell phones are not to be utilized in patient care areas unless they are the official cell phone of the facility and are utilized for the purpose of patient care.
- Do not present yourself as an official representative or spokesperson for the Santa Monica College nursing program.

Consequences of inappropriate use, actions, and/or behaviors related to the use of social and electronic media include, but are not limited to:
• Violation of any of the above guidelines for any reason and regardless of intention may be grounds for dismissal from the clinical facility and/or the nursing program.
• Students who violate these guidelines may not be eligible to re-enter the nursing program.

1/13, 8/17
The California Board of Registered Nursing protects the public by screening applicants for licensure to identify potentially unsafe practitioners. Statutory authority for denial of licensure is set out in Business and Professions Code, sections 480-487, 496, 810, 820-828, 27500-2765, and 2795-2797.

The law provides for denial of licensure for crimes or acts that are substantially related to nursing qualifications, functions, or duties. A crime or act meets this criterion if, to a substantial degree, it indicates present or potential unfitness to perform nursing functions in a manner consistent with the public health, safety, or welfare (California Administrative Code, section 1444).

The Board may deny licensure on the basis of:

1. being convicted of a crime substantially related to the practice of nursing;
2. committing any act involving dishonesty, fraud, or deceit with intent to substantially benefit oneself or another or to injure another substantially;
3. committing any act that constitutes ground for revocation of a license;
4. making a false statement on the application for license;
5. breaching examination security.

The nursing faculty agrees with the California Board of Registered Nursing that the above behaviors are not consistent with safe nursing practice. Therefore, the faculty reserves the right to dismiss from the nursing program any student who evidences not only the above described behaviors but also plagiarism, cheating on examinations, lying on any school, department, or hospital documents, or performing any act of dishonesty in the clinical area. (See also the “Code of Academic Conduct”). The website for the California Board of Registered Nursing is http://www.rn.ca.gov.
In the matter of nursing students impaired by alcoholism, drug abuse, and emotional illness, the California Board of Registered Nursing recognizes that:

1. these are diseases and should be treated as such;

2. personal and health problems resulting from these diseases can affect students’ academic and clinical performance and the impaired nursing students are a danger to themselves and a grave danger to the patients in their care;

3. nursing students who develop these diseases can be helped to recover;

4. nursing students have the responsibility to voluntarily seek diagnosis and treatment for any suspected illness;

5. confidential handling of the diagnosis and treatment of these diseases is essential.

Furthermore, the Board expects Schools of Nursing to ensure that instructors have the responsibility and authority to take immediate corrective action with regard to the student’s conduct and performance in the clinical setting. The Santa Monica College Health Sciences Department’s contract with affiliating agencies provides for an instructor to assume this responsibility and have this authority. Therefore, impaired nursing students will not be allowed to continue in the program. Reinstatement in the nursing program will be considered on a case-by-case basis in compliance with BRN policy.

Although it is outside the Board’s scope of function to endorse or recommend a particular course of therapy, it does wish to inform nursing students of the importance of seeking voluntary help for conditions that could, if left unattended, lead to disciplinary action and prevent them from being licensed to practice nursing in California.

Students impaired by alcoholism, drug abuse, or emotional illness who do not voluntarily seek assistance of the Center for Wellness and Wellbeing at Santa Monica College may be referred to this service by their instructor. All counseling associated with this service is confidential and its goal is to enable students to resolve any personal problems that may affect their educational experience.

For more information:
STATE OF CALIFORNIA-DEPARTMENT OF CONSUMER AFFAIRS
BOARD OF REGISTERED NURSING
TELEPHONE: (916) 322-3350, website http://www.rn.ca.gov/
The Santa Monica College ADN Program agrees with the Board of Registered Nursing Guidelines for schools of nursing in dealing with the matter of nursing students impaired by alcoholism, drug abuse and emotional illness.

If a student is impaired by alcohol, drug(s) or emotional illness, the student will be asked to leave the theory or clinical setting. The professor will counsel and/or refer the student to an appropriate individual/agency.

The signature below indicates that the student has read the above statement and the related Santa Monica College policy.

Signature: ____________________________________________

Date: ______________________

Print Name: ____________________________________________
Policy:

Students will not make contact with individual clinical sites and/or hospital staff employees until they have been given direction and contact information by the clinical instructor and/or staff member in the Health Sciences Department of Santa Monica College.

If there are any concerns with the assignment, clinical practice and/or safety at the clinical facility the student should first contact their clinical instructor for resolution.

Failure to comply may lead to dismissal from the nursing program.
SMC CAMPUS RESOURCES AND FACILITIES

Santa Monica College offers many resources that provide assistance to students while attending SMC. The following is a list of some resources that may be of most interest to the nursing student. Refer to the SMC Catalog for a complete listing. SMC is currently involved in major construction and department location and telephone numbers are subject to change. Please verify the location and telephone number with the website and/or directory. Please contact each department of interest for their program guidelines.

ADMISSIONS AND RECORDS - (310) 434-4380
Inquiries about admissions, records, registration, transcripts, petitioning for graduation, and all academic progress of the student are directed to the office of Admissions and Records. Students may also refer to Santa Monica College’s website (www.smc.edu) to gain information. The nursing counselor is available to answer questions related to these areas. After attending a semester, students may obtain grades and register for classes via telephone (310-434-4333) or Web.

AUXILIARY OFFICE (student health insurance) - (310) 434-4255
Student Insurance: Each full-time student who purchases a student body card may purchase accident and health insurance for a reasonable fee. For further information, contact the Auxiliary Office.

CENTER FOR STUDENTS WITH DISABILITIES - (310) 434-4265
http://www.smc.edu/disabledstudent/
Santa Monica College makes every effort to make its campus fully accessible to students with disabilities. The Center for Students with Disabilities offers guidance on admissions requirements and procedures, as well as a number of special programs to help students with their academic, vocational, and career planning goals. Counselors are available at the Center to assist with situations, which may arise. Other services available are tutoring, priority registration, specialized equipment/high tech center, readers and learning disability assessment. Bundy Campus is accessible for those students traveling via wheelchair or walker.

EXTENDED OPPORTUNITY PROGRAM SERVICES (EOPS) - (310) 434-4268
http://www.smc.edu/eops/
EOPS is a state-funded program designed to assist the disadvantaged student with emphasis on recruitment and retention services.

FINANCIAL AID/SCHOLARSHIPS - (310) 434-4343 http://www.smc.edu/financialaid/ and or http://www.smc.edu/scholarships/default.htm
Financial assistance is provided for nursing students through loans, scholarships, grants and job placement. The sources for the support come from federal, state, and local agencies and organizations. Notices of scholarships with relevant criteria and deadline dates are posted routinely on designated bulletin boards. Scholarship applications from community organizations are also available in the Nursing Counseling office. Applications must be submitted within a designated time frame annually.
HEALTH SERVICES (student health office) - (310) 434-4262 http://www.smc.edu/healthcenter/

SMC’s Health Services provides health and psychological services, with referrals as needed, to students enrolled at the College. Payment of student health fees provides: emergency & first aid treatment, free HIV testing, blood pressure screening, urinalysis & lab work, tuberculin skin test, medications (over the counter), immunizations, blood drives, Tay-Sachs screening, health lectures by guest speakers, pamphlets & materials on health topics, short-term, personal psychological counseling (including alcohol & substance abuse). Additional services such as lab work and flu shots are at minimal cost.

Student Services Computer Lab -

In addition to the lecture/lab classrooms, a self-learning center is available at the Bundy Campus. Audio-visual aids and computers are available for student use. Reference books, journals and articles are also available. In addition, a collection of medical texts and journals are available for check out and reference. Bundy Student Services computer Lab is linked to the SMC main database; this increases information available to our students.

LIBRARY – Main Campus (310) 434-4334 http://library.smc.edu/

The principal library is on the main campus. The SMC Main Library has extensive electronic resources for nursing and health sciences where students and faculty can look up subjects and be referred to specific journal articles. Any fees associated with books checked in/out at the Bundy Nursing Library are to be paid at the main library.

Bundy Site – Nursing Library (Located in the Student Services Computer Lab)
Information is available to students through books and periodicals. Instructors initiate purchase of library materials. Students may recommend purchases to their instructors. The collection supports and serves the requirements of the instructional program. Each semester the nursing faculty indicates the books to be placed on reserve for student use in specific courses.

STUDENT CAREER SERVICES CENTER - (310) 434-4337
http://www.smc.edu/careercenter/

The Career Services/Job Center maintains a record of the daily requests for employment by our students as well as opportunities available in the community. All requests for employment or employees from off campus sources are directed to the Job Center. Students and graduates are encouraged to maintain an interest file with staff in the Job Center.

STUDENT LIFE (student activities) - (310) 434-4250 http://www.smc.edu/associated_students/

The Student Life Office coordinates student activities, such as instructional, social, or recreational programs and events. These programs provide the student with activities to supplement the students’ academic endeavors.
Counseling: Students are assisted by counselors in assessing their talents, aptitudes, and interests. The Counseling Department will refer students to appropriate agencies if the college is unable to provide the needed assistance. The Nursing Counselor is available to assist nursing students and pre-nursing students at the Madison campus with the nursing program application process, academic advisement, program requirements, transcript review, and graduation requirements. The Nursing Counselor is available (18 hours per week) for scheduled and drop-in appointments. Hours of availability are posted in the Health Sciences Department Office and via phone message at (310) 434-3456.

Transfer: Transfer information is available through the Transfer Center on the main campus. Information related to local BSN programs is also available in the Nursing Counselor’s office at the Bundy Campus.
The Health Sciences Skills Lab/simulation Lab consists of a skills laboratory, a computer laboratory, area for audiovisual materials, and a quiet study area. The Health Sciences Skills Lab/Simulation Lab is staffed by the Skills Lab Coordinator who is here to assist your learning, skills practice, and to keep the Health Sciences Skills Lab/Simulation Lab in working order. Feel free to ask questions of any Health Sciences Skills Lab/Simulation Lab staff.

- **SMC Nursing ID must be worn in the skills lab and the computer lab.** Only students enrolled in the SMC Health Science programs may have access to the Nursing Skills Lab/Simulation Lab areas.

- **Health Sciences Skills Lab/Simulation Lab** hours are posted outside the doors of the skills lab and the computer lab.

- Noise and visiting must be kept to a minimum. The computer lab is a quiet area.

- **No food or beverages are allowed in any of the Health Sciences Skills Lab/Simulation Lab areas.**

- No children are allowed in the Health Sciences Skills Lab/Simulation Lab. No pets are allowed in any of the educational facilities.

- Shoes are required at all times.

You will be doing yourself a favor if you label all your books, notebooks, supplies, and papers with your name. Any books left in the Health Sciences Skills Lab/Simulation Lab without a name may not find their way back to you. You are responsible for the security of your own belongings.

Students are expected to maintain the integrity of the Health Sciences Skills Lab/Simulation Lab. Please return to the shelves any practice materials used, put back all Health Sciences Skills Lab/Simulation Lab equipment and return chairs to their proper places. Handle all equipment with care and maintain security of these costly items that are available for your learning.

**BOOKS AND JOURNALS**

The SMC Main Library catalogue all books in the Student Services Computer Lab /Nursing library. Non-reference books may be checked out for three days. Reference books may be checked out for three hours and may be used only in the Student Services Computer Lab /Nursing library area. When searching for a book go to the SMC Library homepage and use Library databases to find books that are on the HSLC shelves; their location is listed as “Nursing”.

To check out a book present the desired book(s) and your SMC ID card to the Nursing Lab Coordinator. An overdue fee of $0.25 per book per day is charged for any book not returned on its due date.

Journals available in the Nursing Skills Lab/Simulation Lab for students are: American Journal of Nursing (AJN), RN, the Nursing series, Journal of Transcultural Nursing, and Journal of Gerontological Nursing. Journals may not be checked out. On-line research for journal articles is available through the SMC Library. Databases available are CINAHL, MedLine, and EbscoHost. Through EbscoHost many full text articles are available for download.
SKILLS LAB AND MATERIALS

The Skills Lab is to be considered a “hospital” environment. The room is divided into two sections by a large curtain. Moveable items, such as tables, stools, etc., may not be moved from one side of the room to the other because often two groups of students will be using the lab at the same time. Leave the patient units in good order with beds neatly made and all occupied beds in LOW position. 

STUDENTS SHOULD NOT SIT ON THE BEDS or pile books/backpacks/etc on beds. Treat our mannequins with TLC; they are fragile and costly to repair. Develop the habit of doing everything in the Health Sciences Skills Lab/Simulation Lab just as it is done in the hospital. Provide for patient privacy by using curtains around the bed, drape the “patients” during procedures, and handle them gently. Side rails must be up at all times when you are not working directly with the “patients”.

Nursing Kits will be ordered during Nursing 11/1L. This kit contains most of the items you will need while learning how to perform clinical skills during the nursing program. When you receive your kit it is your responsibility to make sure it is complete, but do not open any of the individual packages. Many of the items will not be used until Nursing 2, 3, or 5.

Clean up equipment after use. Put it back in the proper order and in the right place. Students may be assigned as “Clean-up Monitors” to insure that the Health Sciences Skills Lab/Simulation Lab is clean after skill practice sessions. However, students are still responsible for their own equipment.

Nursing Kits must be returned upon completion of the Nursing Program.

Revised 8/2019
**HEALTH CARE FACILITIES**

Students in the SMC nursing program are provided with multiple clinical exposures. Some of the facilities are acute care hospitals, some are outpatient centers/clinics and some are community agencies. Following is a list of Acute Care Clinical Facilities, Long-term Healthcare facilities, and Community Agencies, (with addresses and phone numbers) for which we have affiliation agreements.

</tbody>
</table>
The majority of clinical experiences associated with nursing courses occur Monday through Saturday. Clinical experiences may occur during day, evening, or night hours based on facility availability. The overall goal of the program is to secure the highest quality clinical experience related to specific course content. Although the program is considered a full time program every attempt is made to offer the student a four-day/week schedule.

Students in the first semester remain with their same clinical group, if possible, for the entire semester (Nursing 1 and Nursing 2). Student clinical rotations will then change with each subsequent course. Please refer to the policy regarding student request for change of clinical assignment in your Student Handbook.

Clinical rotations (assigned clinical groups) are assigned based on student programming needs, instructor recommendation, and space availability. Once assigned, students may trade assignments if a) the request is made in writing, b) is signed by both parties, c) is approved by faculty, and d) is made at least 15 business days prior to the start of the course. The program is unable to guarantee student placement based on geographical proximity to home, ride-sharing, or lack of private transportation or child-care needs.

Clinical rotation schedules are emailed to nursing students each semester. Additional copies are available for students in the Health Sciences department office.

Revised 8/2019
A **Scholarship Brochure**, which contains application, will be available in the SMC SCHOLARSHIP office and the nursing counselor’s office.

It is suggested that all applicants include a one-page, typed, essay on educational and career goals with the application.

It is also suggested that you include the following: Letter(s) of recommendation from faculty, employer, or community service/campus club supervisor. These should be turned in with the application.

**Only** fill out one application to apply for scholarships listed in the SMC Scholarship brochure.

Other Financial Resources: (with various deadlines)

1. Financial Aid/EOPS

2. Office campus scholarships
   a. Look for listings of deadlines on Scholarship Calendar on the Financial Aid bulletin board.
   b. SMC Library, Reference Section has 50+ books (some are listed on the last page of the Scholarship Brochure).
   c. Some are posted on the bulletin board in the Scholarship Office.

☞ Be sure to identify any participation in volunteer work or campus events.

☞ Sign your application.

☞ Fill in your ASB Number (found on a sticker on the back of your ID card).
   ▸ Review Scholarship Bulletin Board Postings for Award Application Notices

Revised 8/2019
Santa Monica College Nursing Department’s Guidelines For The Use And Application Of The Orem’s Model In The Planning And Development Of The Nursing Care Plan.

INTRODUCTION

Dorothea Orem published her concept of nursing in 1959 and it’s theme centers on the basic premise that human beings have the capacity to care for themselves in order to meet their needs. This capacity to care or to practice “activities that individuals personally initiate and perform on their own behalf in maintaining life, health, and well-being” is what she identifies as self-care and therefore the name of her model – Orem’s Self-Care Nursing Model was initiated. Orem describes the act of nursing as the “giving of direct assistance to a person, as required, because of a person’s specific disabilities in self-care, resulting from a situation of personal health.”

Simplified:

1. The individual has the capability or potential to care for themselves but
2. Due to an inadequacy (e.g., illness, injury) the individual is unable to meet their needs entirely requiring the direct assistance of a person (a nurse).
3. The nurse’s role is to help the individual toward health and well-being returning the individual to self-care.

As with all models, there are assumptions, terms, and definitions unique to the specific model. These assumptions, terms, and definitions make up the premises and the vocabulary used to express the foundation and characteristics of the model and how it is operationalized. The following are terms used to understand the major components of Orem’s model.

Man/Woman - is a bio-psycho-socio-spiritual-cultural and rational being.

Self-Care Capacity - is an attribute or capability of man/woman. It is the ability to engage in actions in order to maintain life, health, and well-being or to limit or choose not to direct their actions to that end. This capability or attribute is influenced by man/woman’s knowledge, skills, motivation, and orientation.

Self-Care - the practice of activities that individuals initiate and perform on their own behalf in maintaining life, health, and well-being.

Therapeutic Self-Care Demand - set of requirements/actions that assist persons to maintain or move toward a desired health state.

Self-Care Requisites - can be thought of as self-care needs. The three categories of self-care requisites (needs) include:

- universal self-care requisites
developmental self-care requisites
health deviation self-care requisites

Universal Self-Care Requisites - those qualities associated with life processes and the maintenance of the integrity of human structure and function. They are common to all human beings during all stages of the life cycle and should be viewed as interrelated factors, each affecting the others.

Developmental Self-Care Requisites - need for living conditions that support life and promote development and the prevention or management on the effects of situations that influence human development.

Health Deviation Self-Care Requisites - needs stemming from the individual’s illness, defects, disabilities, and changes in human structure, physical functioning, and behavior to ADLs which are identified during the individual’s involvement with medical treatment.

Self-Care Deficit - exists when therapeutic self-care demand cannot be met by the self-care agent.

Agency - action, or capability.

Dependent Care Agency - ability of a person to engage in infant care, child care or care of a dependent person.

Self-Care Agency - the ability of a person to engage in self-care.

Nursing Agency - a qualified person with a complex set of qualities acquired through specialized study and experiences in real-world nursing situations.

Nursing Systems - the approaches that nurses use to assist patients with deficits in self-care due to a condition of health. The three systems are:

1. **wholly compensatory** - situation where patient has no active role in the performance of care.

2. **partly compensatory** - situation in which both the nurse and the patient perform care measures.

3. **supportive-educative** - situation in which the patient performs self-care actions but needs assistance in learning self-care measures.
In developing a nursing care plan, you will be using what we call in nursing - the nursing process. You will be expected to read your texts’ description of the process as it relates to the specific content area you will be studying. Your instructor will also further elaborate on the nursing process, and its application using the Orem’s Model. All of your texts are designed to introduce you to the use of the five steps of the nursing process. Because there are several conceptual frameworks in nursing theory and practice your texts are, for the most part, general references and describe the application of the process to many models. While this may be confusing to you initially, with use and practice you will become very proficient in the use of the nursing process and Orem’s Model.

To understand the nursing process, you must first recognize that this process is basically an application of the problem solving method. This method of thinking uses inductive reasoning and is the basis of the development of the scientific hypothesis. As you have already taken prerequisite courses in science, e.g., Anatomy, Physiology, Microbiology, you already have been exposed to the problem solving method. This method forms the basis of the nursing process.

The critical element of this process is change. In the case of nursing practice, it is the change in the state of wellness of man/woman. This state is non-static; it’s in a continual state of flux. Many variables influence the wellness or the capacity to care for one’s self. These variables may be influenced by disease, trauma, lack of knowledge or motivation or socio-economic-cultural limitations. The alterability of the individual’s state of wellness and/or capacity to care for one’s self is a change that necessitates action on the part of the nurse.

This action REQUIRES the student to possess several attributes inherent in the nursing role. These are the ability to:

- problem solve, use critical thinking and analysis.
- transfer basic theoretical knowledge of the biological and psychological/behavioral sciences to clinical settings.
- demonstrate organization, prioritizing, and decision-making skills.
- demonstrate acceptance of responsibility and accountability for outcome of care.

At Santa Monica College, the nursing care plan is a tool used by instructors to teach, assess, and evaluate progress in applying the nursing process. It requires all the above attributes and assists the instructor to identify and analyze ability to transfer theoretical knowledge to the clinical setting.

You will be using the nursing process as a component of Orem’s Model. In order to design and provide a systematic plan of care, you will be assessing the universal self-care requisites, the health deviation self-care requisites and developmental self-care requisites of each patient you will care for each clinical day. The following areas of assessment are listed below with the related NANDA nursing categories.

NOTE: These assessment categories constitute your taxonomy of nursing diagnostic stems. Please note that this list is NOT INCLUSIVE and is subject to additions and changes.
## Self-Care Requisites

### A. UNIVERSAL SELF-CARE REQUISITES

<table>
<thead>
<tr>
<th>Requisite</th>
<th>Examples of Related Nursing Diagnoses (NANDA Taxonomy)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Air</td>
<td>Airway clearance&lt;br&gt;Breathing pattern&lt;br&gt;Gas exchange&lt;br&gt;Tissue perfusion&lt;br&gt;Cardiac output</td>
</tr>
<tr>
<td>2. Water</td>
<td>Fluid volume</td>
</tr>
<tr>
<td>3. Food</td>
<td>Nutrition&lt;br&gt;Self-feeding&lt;br&gt;Sensory perception</td>
</tr>
<tr>
<td>4. Elimination</td>
<td>Urinary Retention&lt;br&gt;Constipation&lt;br&gt;Self-care deficit&lt;br&gt;Impaired Skin integrity</td>
</tr>
<tr>
<td>5. Activity/Rest</td>
<td>Activity intolerance&lt;br&gt;Pain&lt;br&gt;Physical Mobility&lt;br&gt;Sleep pattern disturbance&lt;br&gt;Sleep integrity</td>
</tr>
<tr>
<td>6. Solitude-Social Interaction</td>
<td>Communication&lt;br&gt;Diversional activity&lt;br&gt;Social isolation&lt;br&gt;Family process&lt;br&gt;Thought process&lt;br&gt;Spiritual distress&lt;br&gt;Grieving&lt;br&gt;Anxiety&lt;br&gt;Fear&lt;br&gt;Sensory perception</td>
</tr>
<tr>
<td>7. Protection from Hazards</td>
<td>Injury&lt;br&gt;Violence&lt;br&gt;Sensory perception</td>
</tr>
<tr>
<td>8. A Sense of Normalcy</td>
<td>Coping&lt;br&gt;Home maintenance management&lt;br&gt;Self-concept&lt;br&gt;Powerlessness&lt;br&gt;Pain&lt;br&gt;Sexual dysfunction</td>
</tr>
</tbody>
</table>
B. **HEALTH DEVIATION SELF-CARE REQUISITES**

<table>
<thead>
<tr>
<th>HEALTH DEVIATION SELF-CARE REQUISITES</th>
<th>EXAMPLES OF RELATED NURSING DIAGNOSES (NANDA Taxonomy)</th>

<td>Self-concept disturbance, body image, role performance</td>
</tr>
<tr>
<td>3. Change in human structure, physical behavior, ADL</td>
<td>Anxiety, Powerlessness, Social isolation, Alteration</td>
</tr>
</tbody>
</table>

C. **DEVELOPMENTAL SELF-CARE REQUISITES**

<table>
<thead>
<tr>
<th>DEVELOPMENTAL SELF-CARE REQUISITES</th>
<th>EXAMPLES OF RELATED NURSING DIAGNOSES (NANDA Taxonomy)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Age, Sex</td>
<td>Knowledge deficit, Parenting, Family process, Self-concept</td>
</tr>
<tr>
<td>2. Health State</td>
<td>Coping, Anxiety, Body image</td>
</tr>
<tr>
<td>3. Developmental</td>
<td>Alteration in thought process, Role performance, Rape/Trauma</td>
</tr>
</tbody>
</table>

The deficit(s) with which the nurse will intervene will be further broken down into three levels of intervention. The first is called the wholly compensatory system -- where the patient is unable to meet any of their own self-care needs resulting in the nurse providing total patient care. The second is called the partly compensatory system -- where the patient is able to share in meeting some needs and in sharing responsibility for care. The third is called the educative-development system -- where the patient requires the nurse for support, consultative, and teaching measures that assure self-care.

**NURSING PROCESS CARE PLAN - NURSING DIAGNOSTIC STATEMENT**

A critical element in the nursing process and the development of your nursing care plan is your nursing diagnostic statement. The nursing diagnostic statement is very similar to a scientific hypothesis and requires problem solving and a strong theoretical database. The nursing diagnosis is a statement of the individual’s assessed deficits and abilities, or lack of abilities, to meet their self-care demands.

Students in the Santa Monica College nursing program will use the nursing diagnostic format that is described below. The taxonomy of nursing diagnostic statements will include these three parts:

1. The first part of the nursing diagnosis is the **diagnostic statement** adapted by the North American Nursing Diagnosis Association (NANDA) and is defined in your nursing diagnosis text. For your nursing care plan, the diagnosis will be stated in actual or potential terms. This diagnosis specifies a general category or classification of limitation or deficit.
2. The second part of the nursing diagnostic statement describes the cause of the deficit. In your text this is categorized as etiology or related factors and introduced in your diagnostic statement by the term related to (R/T). This part is derived from an analysis by you of collected data and your knowledge of the pathophysiology.

3. The third part of the diagnostic statement is the signs and symptoms, which support the nursing diagnosis. They are categorized in your text under defining characteristics and introduced in your diagnostic statement by the term manifested by (M/B).

The following is an example of a three part diagnostic statement:

**Example of Diagnostic Statement**

<table>
<thead>
<tr>
<th>Diagnosis</th>
<th>Acute Pain</th>
</tr>
</thead>
<tbody>
<tr>
<td>Etiology</td>
<td>R/T Injuring Agent - Physical (i.e., individualized to your patient’s pathophysiology).</td>
</tr>
<tr>
<td>Defining</td>
<td>M/B - verbal report of pain; facial mask of pain</td>
</tr>
<tr>
<td>Characteristics</td>
<td>(i.e., individualized to your patient’s signs of symptoms).</td>
</tr>
</tbody>
</table>

A blank and model nursing care plan is located in the Appendices.
ASSESSMENT & NURSING DIAGNOSIS

___Nursing Diagnosis/Collaborative Problem Prioritized

NURSING DIAGNOSIS (ND)/COLLABORATIVE PROBLEM (CP)

___Based on data (evidence) from the nursing assessment

___The problem is written before the “related to” and followed by the “manifested by” or “evidenced by” (signs and symptoms) for an actual nursing diagnosis (three part statement)

___High risk statement and contributing factors for a potential or high risk nursing diagnosis (written as a two part statement)

___NANDA’s taxonomy used

___All major problems/nursing diagnoses identified

___Correctly identified as a nursing diagnosis or a collaborative problem

PLANNING
Goals must:

___Minimize or resolve the problem or etiology

___Describe the direction in which patient is expected to progress

___Contain a measurable action verb

___Provide measurable criteria to evaluate effectiveness or ineffectiveness

___Be realistic

___Indicate a time frame

___Provide direction for validating and planning appropriate nursing interventions
INTERVENTIONS

____Assist the patient in achieving the expected outcomes

____Describe the activity to be performed

____Written as nursing orders, (i.e., how, when, where time/frequency, amount)

____Independent (nurse prescribed) nursing interventions are identified

____Collaborative interventions listed (non-nursing prescribed interventions)

____Have a potential to reduce or eliminate the cause of the problem

____Teaching included as part of interventions

____Identify QSEN competency related to each intervention (Patient-Centered Care (PCC), Safety, Teamwork and Collaboration (T & C), Informatics, Quality Improvement (QI), Evidence based practice (EBP)

EVALUATION

____Describe data that supports goal/outcome

____Assess response to therapeutic modalities

____Effectiveness of each intervention noted

____Date of evaluation (if care rendered on different dates)

____State modification of interventions, goals, or diagnostic statement if problem not resolved or goal not met

GENERAL (not unique to nursing)

Correct grammar

Correct spelling

Written legibly

Revised 8/2019
Policy and Procedure for Student Evaluation of Nursing Program

Faculty values student feedback regarding the nursing program. The feedback provided by students is essential for continued improvement of the nursing program. It is the responsibility of the students and faculty to jointly participate in the evaluation procedure, which provides feedback for the SMC Nursing Program. Therefore, all of the clinical and course evaluations pertaining to the nursing program are available on-line.

Students must complete the online course evaluations in order to receive a grade in the course and are to be completed prior to the final course exam. Once the evaluations are completed confirmation receipts are printed and the student should present the receipts to the instructor.

The confirmation receipts maintain the students’ anonymity. Students should be assured that the faculty and administrator are not able to determine the content of individual student evaluations.

CLINICAL AGENCY EVALUATION

Semester: Select Semester  
Year: Select Year  
Course: Select from the list  
Facility: 

Please check the appropriate box for each presentation method, which best represents, your opinion.

1. The number of patients/clients in the clinical setting was sufficient to meet course objectives.
   Choose the best answer from this list . . .

2. The range of major health problems represented in the patient/client population was sufficient to meet course objectives.
   Choose the best answer from this list . . .

3. The variety of learning opportunities was sufficient to meet course objectives.
   Choose the best answer from this list . . .

4. The staff provided positive role models.
   Choose the best answer from this list . . .

5. There were sufficient resources (personnel and supplies) available.
   Choose the best answer from this list . . .

6. The attitude of the staff on the unit contributed to a supportive learning environment.
   Choose the best answer from this list . . .

7. The clinical agency consistently provides adequate learning opportunities to meet course objectives.
   Choose the best answer from this list . . .
8. Students are encouraged to participate as part of the interdisciplinary team in this setting.

Choose the best answer from this list . . .

9. Staff at this agency role model current standards of nursing practice.

Choose the best answer from this list . . .

10. Staff in this agency treat students in a collegial manner.

Choose the best answer from this list . . .

11. Students have ample opportunity to practice communication skills in this setting.

Choose the best answer from this list . . .

12. Adequate space was available for post-conferences.

Choose the best answer from this list . . .

13. The number of patients/clients in the clinical setting was sufficient to meet course objectives.

Choose the best answer from this list . . .

**STUDENT EVALUATION OF LECTURE INSTRUCTOR**

 Semester:  
**Select Semester**

 Year:  
**Select Year**

 Course:  
**Select from the list**

 Instructor:

Please evaluate your instructor on the scales listed below. Since your instructor is interested in improving his/her instructional techniques, it is to the advantage of all to evaluate as fairly and objectively as possible.

1. Is your instructor clear and understandable in his/her explanations?  
   [Choose the best answer from this list...]

2. Does your instructor take an active personal interest in the progress of the class?  
   [Choose the best answer from this list...]

3. Does your instructor show interest and enthusiasm in the course?  
   [Choose the best answer from this list...]

4. Does your instructor interest students in the subject matter?  
   [Choose the best answer from this list...]

5. How well do your instructor’s tests sample the material covered in the class and in the textbook?  
   [Choose the best answer from this list...]

6. How valuable was the course to you?  
   [Choose the best answer from this list...]

7. How well was the class organized?  
   [Choose the best answer from this list...]

8. How well did you like the testing procedure used in this class?  
   [Choose the best answer from this list...]

9. Do you think the lesson outlines were useful?  
   Yes [ ]  No [ ]
10. What do you believe your instructor has done especially well in instructing this course?

11. What specific teaching techniques do you believe your instructor might use to improve instruction of this course?

Thank you for your input.

INSTRUCTORS’ EXPECTATIONS OF STUDENTS

1. In the classroom, the student will:
   a. Demonstrate an interest in learning and in nursing.
   b. Demonstrate awareness of the role of nursing student.
   c. Attend consistently all lecture classes.
   d. Complete reading assignments and participate in class discussion.
   e. Demonstrate responsible adult behavior.
   f. Adhere to the Rules for Student Conduct and the Code of Academic Conduct established by Santa Monica College.

2. In the clinical situation, the student will:
   a. Adhere to the Rules for Student Conduct and the Code of Academic Conduct established by Santa Monica College.
   b. **Attend all lab sessions on time and report any absence to the instructor and/or the hospital, and the Health Sciences Administrative Assistant before 6:30AM on the day of the absence.**
   c. Demonstrate effective interpersonal skills when communicating with instructors, fellow students, and members of the health team.
   d. Utilize therapeutic interventions, theoretical knowledge, judgment, and decision-making skills, appropriate to the students’ level, to ensure safe nursing care of patients and the integrity of the health team.
   e. Demonstrate increased comfort and ease in patient care situations.
   f. Utilize appropriate judgment, based on knowledge of concepts and principles in providing patient care.
   g. Promote safety for the patient and oneself.
   h. Practice and maintain medical and surgical asepsis.
   j. Chart complete descriptive and objective information about patients, using correct spelling, terminology and writing legibly, and utilize the appropriate clinical facility format.
   k. Be able to discuss the patients’ disease process, pathophysiology, diagnostic tests, potential complications and the therapeutic regime, including the nursing implications and the expected outcome(s).
   l. Seek the instructor and appropriate resources for growth and learning.
   m. Implement the plan of care developed and if appropriate modify plan of care with instructor’s guidance.

QSEN: Patient–Centered Care (PCC) Safety, Teamwork and Collaboration (T&C), Informatics, Quality Improvement (QI), Evidence Based Practice (EBP)

8/2019
The goal of associate degree nursing programs continues to be preparation of registered nurses to provide direct client care.

This document describes the anticipated educational outcomes of associate degree nursing programs. These outcomes encompass competencies expected of the graduate at graduation from the program.

**Human Flourishing**
Advocate for patients and families in ways that promote their self-determination, integrity, and ongoing growth as human beings.

**Nursing Judgment**
Make judgments in practice, substantiated with evidence, that integrate nursing science in the provision of safe, quality care and that promote the health of patients within a family and community context.

**Professional Identity**
Implement one's role as a nurse in ways that reflect integrity, responsibility, ethical practices, and an evolving identity as a nurse committed to evidence-based practice, caring, advocacy, and safe, quality care for diverse patients within a family and community context.

**Spirit of Inquiry**
Examine the evidence that underlies clinical nursing practice to challenge the status quo, question underlying assumptions, and offer new insights to improve the quality of care for patients, families, and communities.

Revised 7/2013
### Quality and Safety Education for Nurses (QSEN)

#### Pre-licensure Knowledge, Skills, Attitudes

**Patient-centered Care**

**Definition:** Recognize the patient or designee as the source of control and full partner in providing compassionate and coordinated care based on respect for patient's preferences, values, and needs.

<table>
<thead>
<tr>
<th>Knowledge</th>
<th>Skills</th>
<th>Attitudes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Integrate understanding of multiple dimensions of patient centered care:</td>
<td>Elicit patient values, preferences and expressed needs as part of clinical interview, implementation of care plan and evaluation of care</td>
<td>Value seeing health care situations “through patients' eyes”</td>
</tr>
<tr>
<td>o patient/family/community preferences, values</td>
<td>Communicate patient values, preferences and expressed needs to other members of health care team</td>
<td>Respect and encourage individual expression of patient values, preferences and expressed needs</td>
</tr>
<tr>
<td>o coordination and integration of care</td>
<td>Provide patient-centered care with sensitivity and respect for the diversity of human experience</td>
<td>Value the patient’s expertise with own health and symptoms</td>
</tr>
<tr>
<td>o information, communication, and education</td>
<td></td>
<td>Seek learning opportunities with patients who represent all aspects of human diversity</td>
</tr>
<tr>
<td>o physical comfort and emotional support</td>
<td></td>
<td>Recognize personally held attitudes about working with patients from different ethnic, cultural and social backgrounds</td>
</tr>
<tr>
<td>o involvement of family and friends</td>
<td></td>
<td>Willingly support patient-centered care for individuals and groups whose values differ from own</td>
</tr>
<tr>
<td>o transition and continuity</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Describe how diverse cultural, ethnic and social backgrounds function as sources of patient, family, and community values</td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Demonstrate comprehensive understanding of the concepts of pain and suffering, including physiologic models of pain and comfort.</strong></td>
<td><strong>Assess presence and extent of pain and suffering</strong></td>
<td><strong>Recognize personally held values and beliefs about the management of pain or suffering</strong></td>
</tr>
<tr>

<tr>
<td></td>
<td><strong>Elicit expectations of patient &amp; family for relief of pain, discomfort, or suffering</strong></td>
<td><strong>Recognize that patient expectations influence outcomes in management of pain or suffering</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Initiate effective treatments to relieve pain and suffering in light of patient values, preferences and expressed needs</strong></td>
<td></td>
</tr>
<tr>
<td>Examine how the safety, quality and cost effectiveness of health care can be improved through the active involvement of patients and families</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Remove barriers to presence of families and other designated surrogates based on patient preferences</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Value active partnership with patients or designated surrogates in planning, implementation, and evaluation of care</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Examine common barriers to active involvement of patients in their own health care processes</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Assess level of patient's decisional conflict and provide access to resources</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Respect patient preferences for degree of active engagement in care process</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Describe strategies to empower patients or families in all aspects of the health care process</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Engage patients or designated surrogates in active partnerships that promote health, safety and well-being, and self-care management</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Respect patient's right to access to personal health records</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Explore ethical and legal implications of patient-centered care</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Recognize the boundaries of therapeutic relationships</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Acknowledge the tension that may exist between patient rights and the organizational responsibility for professional, ethical care</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Describe the limits and boundaries of therapeutic patient-centered care</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Facilitate informed patient consent for care</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Appreciate shared decision-making with empowered patients and families, even when conflicts occur</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Discuss principles of effective communication</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Assess own level of communication skill in encounters with patients and families</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Value continuous improvement of own communication and conflict resolution skills</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Describe basic principles of consensus building and conflict resolution</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Participate in building consensus or resolving conflict in the context of patient care</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Examine nursing roles in assuring coordination, integration, and continuity of care</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Communicate care provided and needed at each transition in care</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
**Teamwork and Collaboration**

**Definition:** Function effectively within nursing and inter-professional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care.

</tr>
<tr>
<td>Seek information about quality improvement projects in the care setting</td>
<td>Use tools (such as flow charts, cause-effect diagrams) to make processes of care explicit</td>
<td>Value own and others’ contributions to outcomes of care in local care settings</td>
</tr>
<tr>
<td>Recognize that nursing and other health professions students are parts of systems of care and care processes that affect outcomes for patients and families</td>
<td>Participate in a root cause analysis of a sentinel event</td>
<td>Value own and others’ contributions to outcomes of care in local care settings</td>
</tr>
<tr>
<td>Give examples of the tension between professional autonomy and system functioning</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Explain the importance of variation and measurement in assessing quality of care</td>
<td>Use quality measures to understand performance</td>
<td>Appreciate how unwanted variation affects care</td>
</tr>
<tr>
<td></td>
<td>Use tools (such as control charts and run charts) that are helpful for understanding variation</td>
<td>Value measurement and its role in good patient care</td>
</tr>
<tr>
<td></td>
<td>Identify gaps between local and best practice</td>
<td></td>
</tr>
<tr>
<td>Describe approaches for changing processes of care</td>
<td>Design a small test of change in daily work (using an experiential learning method such as Plan-Do-Study-Act)</td>
<td>Value local change (in individual practice or team practice on a unit) and its role in creating joy in work</td>
</tr>
<tr>
<td></td>
<td>Practice aligning the aims, measures and changes involved in improving care</td>
<td>Appreciate the value of what individuals and teams can do to improve care</td>
</tr>
<tr>
<td></td>
<td>Use measures to evaluate the effect of change</td>
<td></td>
</tr>
<tr>
<td>Safety</td>
<td></td>
<td></td>
</tr>
<tr>
<td>---</td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Definition:</strong> Minimizes risk of harm to patients and providers through both system effectiveness and individual performance.</td>
<td></td>
<td></td>

STUDENT PRIVACY AND DIRECTORY INFORMATION
The Family Educational Rights and Privacy Act (FERPA) of 1974 protects the privacy of a student's educational records— as print or electronic documents—by placing limits on who may have access to the records, what information may be shared or disclosed, and how that information may be used. Santa Monica College complies with FERPA and has strict policies and procedures in place governing student records.

Students who do not wish to have their directory information disclosed may select that a CONFIDENTIALITY HOLD be placed on their records. Students may do this themselves at any time by going to Corsair Connect (on the Admissions webpage) and then responding to confidentiality related questions found on their Student Profile link. Under FERPA, students have the right to inspect and review their own student records. All requests must be made in writing and filed with the Admissions office.

FREQUENTLY ASKED QUESTIONS:
Q: "Why can't you tell me information about my son/daughter?"
A: The College is bound by FERPA to protect student information unless we are given written consent in person, by the student to do otherwise. We apologize for any inconvenience that this may cause and we encourage you to have your student contact us to obtain the information directly themselves.

Q: "What if my son/daughter cannot give me written permission to speak with the college?"
A: Unless the College has something submitted in writing, in person from the student, we will not be able to help you. Please know that a wealth of information can be obtained by the student through Corsair Connect. This information can be accessed online through the use of the SMC Student ID number and password.

Student Privacy Rights
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

(1) The right to inspect and review the student’s education records within 45 days of the day the College receives a request for access. California law requires that records be provided within 15 working days.

A student should submit to the Dean of Enrollment Services or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

(2) The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.
A student who wishes to ask the College to amend a record should write the College official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the College decides not to amend the record as requested, the College will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

(3) The right to provide written consent before the College discloses personally identifiable information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

The College discloses education records without a student’s prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted as its agent to provide a service instead of using College employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for College.

Upon request, the College also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

FERPA requires that College with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your education records. However, College may disclose appropriately designated “directory information” without written consent, unless you have advised the College to the contrary in accordance with College procedures. The primary purpose of directory information is to allow the College to include this type of information from your education records in certain school publications. Examples include:

- A playbill, showing your role in a drama production;

- Honor roll or other recognition lists;

- Graduation programs; and

- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without your prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, federal law requires the College to provide military recruiters, upon request, with certain directory information.

If you do not want College to disclose directory information from your education records without your prior written consent, you should file a written request with the Admissions Office.

**The College has designated the following information as directory information:** student name; city of residence; age; major field of study; participation in officially recognized activities and sports; weight
and height of members of athletic teams; dates of attendance; student photograph; degrees and awards received and most recent previous school attended.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

For a full explanation of FERPA and its implications for college students, please contact the Admissions Office or see the College's Administrative Regulation 4135.

http://www.smc.edu/Projects/32/Administrative_Regulations/AR_4000_StudentServices.pdf
ARTICLE I - Name and Auspices
Section 1, The name of this organization shall be the Student Nurse Association (SNA), Santa Monica College Chapter.

ARTICLE II - Purpose and Function
Section 1. The purpose of SNA is:
   a) To contribute to nursing education in order to provide for the highest quality health care;
   b) To aid in the development of the whole person, his/her professional role, and his/her responsibility for the health care of all people;
   c) To provide support and guidance for students enrolled in Pre-Nursing courses and Nursing Education Programs;
   d) To offer learning experiences outside of the classroom for personal and professional growth; including, but not limited to Professional Role Development. Prior approval for activity must be obtained from appropriate Faculty.
   e) To provide programs representative of fundamental interests and concerns to nursing students;
   f) To promote development of leadership skills and
   g) To serve as the Santa Monica College Chapter of the National Student Nurses' Association (NSNA) and California Nursing Students' Association (CNSA).
Section 2. The function of this organization shall be to:
   a) To have direct input into standards of nursing education and influence the education process;
   b) To promote and encourage participation in community affairs and activities toward the betterment of the community;
   c) To represent nursing students to the self-care agent, to institutions, and other organizations;
   d) To promote and encourage students' participation in interdisciplinary activities, and
   e) To promote and encourage recruitment efforts, participation in student activities, and educational opportunities regardless of any person's race, color, creed, sex, age, lifestyle, national origin or economic status.

ARTICLE III - Membership
Section 1. School Constituent
a) School constituent membership is composed of active or associate members who are members of the NSNA and CNSA.
b) In order to qualify as an NSNA chapter, the Santa Monica Chapter of the CNSA shall be composed of at least 10 active/associate members. There shall be only one chapter on this school campus.
c) For recognition as a constituent, the SNA Vice President shall submit annually the Official Application for NSNA constituency status which shall include the following areas of conformity: purpose and function, membership, dues and representation.
d) A constituent association which fails to comply with the bylaws and policies of NSNA shall have its status as a constituent revoked by a 2/3 vote of the Board of Directors, provided that written notice of the proposed revocation has been given at least two months prior to the vote and the constituent association is given an opportunity to be heard.
e) Each SNA is an entity separate and apart from NSNA and its administration of activities, with NSNA and CNSA exercising no supervision or control over SNA's immediate daily and regular activities. NSNA and CNSA have no liability for any loss, damages, or injuries sustained by third parties as a result of the negligence or acts of SNA or the members thereof. In the event any legal proceeding is brought against SNA, NSNA and/or CNSA, the Student Nurses' Association Chapter of Santa Monica will indemnify and hold harmless the NSNA and CNSA from any liability.

Section 2. Categories of Constituent Membership
a) Active Members:
1) Students enrolled in state approved programs (SMC A.D.N. program) leading to licensure in nursing.
2) Active members shall have all privileges of membership.
3) Must have an active Associated Students Organization (ASO) card.
b) Associate Members:
1) Students enrolled in courses at SMC that will lead to entrance into the A.D.N. program or students interested in becoming involved with SNA activities.
2) Associate members shall have all of the privileges of membership except the right to hold Executive Council offices at school, state and national levels.
3) Active and associate NSNA/SNA membership may be extended six months beyond graduation from a student's program in nursing, providing membership was renewed while the student was enrolled in a nursing program.
c) Active and associate membership shall be renewable annually.

Section 3. Active members of the organization have a various rights, including:
- The right to fair and impartial election of representatives.
- The right to be present at any meeting of the Executive Council.
- The right to inspect the minutes of the Executive Council.
- The right to inspect the financial records of the Organization.
- The right to have free access to the Constitution of this organization, which will be provided in the Student Handbook.

ARTICLE IV: Dues
Section 1. The NSNA dues for active and associate members joining for one or two years shall be specified by the NSNA to cover a period of twelve or twenty-four consecutive months. Current 2002 dues for California state chapters is $30.00/year.
Section 2. National and state dues shall be payable directly to NSNA. NSNA shall remit to CNSA the dues received on behalf of the constituent. NSNA shall not collect nor remit school chapter dues. No dues will be required of members, active or associate, beyond dues paid to the NSNA.

ARTICLE V: Representation and Organization
Section 1. The SNA shall be under the direction of the Executive Council, which has the authority to:
a) Organize, direct and represent SNA members on campus and at community activities.
b) Appropriate all finances in accordance with the SNA voting body.
c) Impeach officers in accordance with the provisions of the organization constitution and in consultation with the SNA Faculty Advisor(s).
Section 2. Members of the Executive Council:
a) SNA SMC Chapter President, who is elected the 10th week of their second semester, to serve as SNA SMC Chapter President Elect their third semester and pass directly to the office of SNA SMC Chapter President their fourth semester without need for reelection.
b) SNA SMC Chapter Vice President, who is elected the 10th week of their second semester, to serve as SNA SMC Chapter Vice President Elect their third semester and pass directly to the office of SNA SMC Chapter Vice President their fourth semester without need for reelection.
c) **SNA SMC Chapter Secretary**, who is elected the 10th week of their first semester, to serve as SNA SMC Chapter Secretary Elect their second semester and pass directly to the office of SNA SMC Chapter Secretary their third semester without need for reelection.

d) **SNA SMC Chapter Treasurer**, who is elected the 10th week of their second semester and becomes the **SNA SMC Chapter Treasurer Elect** for the rest of their second semester and pass directly to the office of SNA SMC Chapter Treasurer their third semester without need for reelection.

e) **Interclub Council Representatives** shall be elected the 10th week of the semester for both the first and second semester classes, to begin their ICC representative duties at the beginning of their second and third semesters respectively and lasting one semester.

f) **Class Representative for each semester (1st thru 4th)**

g) **Faculty Advisor and Alternate**

Section 3. All officers shall be elected two (2) weeks before the end of each semester and shall serve a term of one semester. The elections for first semester students shall occur (2) two weeks after the start of the semester and will serve a term of one semester. The office of President and Vice President, who shall serve in these offices for two concurrent semesters.

Section 4. No individual shall hold more than one voting office on the Executive Council.

Section 5. The faculty advisor(s) will have no vote.

Section 6. **Duties of the officers:**

**a) The President shall:**

1) Preside at all business meetings of this organization.
2) Prepares a master plan for the semester's activities
3) Assure that an agenda for each meeting is consistent with club guidelines.
4) Liaison between the SNA Executive Council, Active SNA Members and the Nursing Program Faculty.
5) Appoints the chairperson of necessary committees, including Membership Committee, which may be ratified at the SNA meeting.
6) Approve and sign expenditures as submitted by the treasurer.
7) Perform all other duties pertaining to the office and represent this association in all matters relating to CNSA.
8) Coordinates Student Welcome/Orientation at the beginning of each semester, Club Row, Nurse Recruitment, and Nurse Appreciation day.
9) Give NO vote on matters on the floor EXCEPT to break ties.

2) Alternates take the place of the regular representatives upon their absence.
3) Alternates are encouraged to attend and participate in all SNA meetings as well as scheduled faculty meetings and should then communicate SNA/ Faculty information to the class.

ARTICLE VII: Elections
Section 1. Officers shall be elected two (2) weeks before the end of each semester. Except for 1st semester students and they will hold their election (2) weeks into the semester.*
Section 2. All elections shall be by ballot.
Section 3. A plurality vote by all students voting shall constitute an election. In the event of a tie, a re-vote shall be taken.
Section 4. All offices are open to students (after their first semester) enrolled in SMC's Nursing Program. First semester students voted into office will take effect immediately*.
Section 5. In the event that an elected official cannot perform his/her duties, a re-election shall be held to replace the vacated seat, either with the remaining candidates or, if only one is available, then that candidate is elected.
Section 6. Should an elected candidate fail to fulfill his specified job duties, he/she may be reprimanded by the Executive Council. Should the failure continue, he/she may be voted out of office by a 2/3 vote of the Executive Council and a re-election for the vacated seat will follow under the previously stated guidelines.

ARTICLE VIII: Delegates
Section 1. Delegate Representation
a) The SNA, when recognized as an official NSNA constituent, shall be entitled to one voting delegate and alternate at the NSNA House of Delegates and shall be entitled to one voting delegate and alternate for every additional 50 members.
b) The delegate and alternate shall be members in good standing in the chapter and shall be selected and/or elected by members of the school chapter at a regularly scheduled meeting.
c) Each school constituent shall be entitled to delegates according to the number of members in good standing in the NSNA. Delegates shall be computed on the basis of the number of members in each constituent as evidenced by the annual dues received by NSNA on a date eight weeks prior to the annual meeting.
Section 2. The voting body shall elect two (2) delegates prior to the annual State Convention to sit in the House of Delegates, representing SNA at the state level and shall be entitled to one voting delegate and alternate for every additional 10 members.
Section 3. The voting body shall elect one (1) delegate prior to the annual NSNA convention of each year to sit in the House of Delegates and vote on behalf of SNA at the National level.
Section 4. The delegates will be reimbursed for their attendance at the state and national conventions by an amount set forth by the voting body.
Section 5. This organization will provide or seek to secure the funds necessary to send the delegate(s) to the annual convention.
