MEDS’ Learning System (LS) is the ultimate Q&A skill building program designed to prepare your students from day 1 of nursing school through the challenging NCLEX exam.

**EASY STEPS TO INTEGRATION**

1. Exams are organized into 16 major topic areas with hundred of subtopics for your convenience.
2. Assign exams to correspond with the content covered in your class. For example, fundamentals exams should be assigned to be completed within the first few weeks of class and final exams would be best used for graduating students preparing for the NCLEX.
3. Use your curriculum as a guide for assigning exams.
4. Exams can be assigned in Practice or Assessment Mode.
5. Exams that cover a specific area are recommended to be assigned in Practice Mode, a non-scoring mode for learning with features that build critical thinking.
6. Comprehensive exams and final exams cover many topic areas and are recommended to be assigned in Assessment Mode, a scoring mode option designed to test a student’s knowledge. A Review Mode option is available for immediate remediation after an exam is taken in Assessment Mode. These types of exams will be a good gauge of the students’ command of the content.
7. Remember to lock or unlock your learning mode of choice. The questions in an exam are the same for both Practice and Assessment Modes, so choose ahead of time which mode to make available for students.
8. Mandate that students spend one minute per test question in each learning mode.
**Meds Learning System RN Includes 59 Exams and 2,550 Q&A with Detailed Rationales**

### Getting Started
- Exam 1 - 5 Q.

### Alternate Test Item Formats
- Comprehensive Exam 25 Q.
  - Fill-in-the-blank
  - Calculations
  - Sequence
- Hot Spot
- Multiple Response
- Charts, Tables, & Graphic Images
- Exam 2 - 25 Q. (All Graphics)

### Communications
- Exam 1 - 50 Q.
  - Advice
  - Approval
  - Defensive
  - Devaluing
  - Empathy
  - Focusing
  - Here & Now
  - Hold
  - Inappropriate Responses
  - Information
  - Offering Self
  - Restatement
  - Silence
  - Validation/Clarification
  - Comprehensive Exam 50 Q.

### Community Health
- Comprehensive Exam 40 Q.
  - Community as Client
  - Community Based Nursing Practice
  - Disaster Management
  - Epidemiology
  - Environmental Health
  - Vulnerable Populations
  - Wellness Promotion

### Disaster Planning
- Comprehensive Exam 25 Q.
  - Bioterrorism
  - Disaster Preparedness
  - Physiological Adaptation
  - Psychological
  - Triage
  - Comprehensive Exam 50 Q.

### Dosage & Calculations
- Comprehensive Exam 25 Q.

### Fundamentals
- Exam 1 - 50 Q.
  - Basic Needs
  - Communications
  - Role of the Nurse
- Exam 2 - 50 Q.
  - Perioperative
  - Physical Assessment
- Exam 3 - 50 Q.
  - Hygiene & Comfort
  - Body Mechanics & Mobility
  - Procedures
  - Comprehensive Exam 50 Q.

### Gerontology
- Comprehensive Exam 50 Q.
  - Aging/Physiological
  - Common Health Problems
  - Communications
  - Elder Abuse/Neglect
  - Health Promotion
  - Legal Issues
  - Life Cycle/Physiological Adaptation
  - Organic Mental Disorders
  - Pharmacology
  - Sexuality
  - Therapeutic Diet
  - Comprehensive Exam 50 Q.
  - Aging/Physiological
  - Common Health Problems
  - Communications
  - Elder Abuse/Neglect
  - Health Promotion
  - Legal Issues
  - Life Cycle/Physiological Adaptation
  - Organic Mental Disorders
  - Pharmacology
  - Sexuality
  - Therapeutic Diet
  - Comprehensive Exam 25 Q.
  - Alternative & Complementary Medicine
  - Body Image
  - Cultural & Spiritual Sensitivity
  - Development Stages/Transitions
  - Self Care
  - Health & Wellness
- Exam 2 - 50 Q.
  - Disease Prevention
  - Health Promotion Programs
  - Health Screening
  - Comprehensive Exam 50 Q.

### Medical-Surgical
- Exam 1 - 30 Q.
  - Cardiovascular
  - Dermatological
  - Endocrine
  - Gastrointestinal
  - Genitourinary
  - Geriatric
  - Hematologic
  - Immunologic
  - Infectious
  - Musculoskeletal
  - Neurologic
  - Oncologic
  - Respiratory
  - Sensory
  - Comprehensive Exam 50 Q.
  - Respiratory
  - Sensory
  - Comprehensive Exam 50 Q.

### Pharmacology
- Exam 1 - 50 Q.
  - Administration
  - Fluid/Electrolyte Balance Agents
  - IV Therapy
  - Blood (Hematological)
  - Cardiovascular
  - Gastrointestinal
  - Genitourinary
  - Respiratory Drugs
  - Comprehensive Exam 50 Q.
  - Labor & Delivery
  - Pediatric
  - Psychiatric Drugs
  - Comprehensive Exam 50 Q.

### Psychiatric
- Exam 1 - 50 Q.
  - Anxiety
  - Psychosocial Adaptation
  - Mood/Associated Disorders
  - Schizophrenia/Paranoia
  - Chemical Dependence
  - Eating Disorders
  - Organic Mental Disorders
  - Personality Disorders
  - Violence/PTSD
  - Comprehensive Exam 50 Q.

### Safety
- Exam 1 - 50 Q.
  - Accident Prevention
  - Infection Control
  - General Safety
  - Emergency
  - Comprehensive Exam 50 Q.
  - Home Safety
  - Hazardous/Infectious Materials
  - Restraints
  - Medication Safety
  - Comprehensive Exam 50 Q.

### Women’s Health
- Exam 1 - 50 Q.
  - High-Risk Prenatal
  - Preterm
  - High-Risk Newborn
  - Newborn
  - Postpartal
  - Comprehensive Exam 50 Q.
  - Gynecology
  - Labor & Delivery
  - Comprehensive Exam 50 Q.

### Points to Remember:
1. Choose ahead of time which mode to make available for students because questions in exams are the same for Practice and Assessment Modes.
2. Students should spend 1 minute per test question in each learning mode.
3. Use your curriculum as a guide for assigning exams.
