Personal NCLEX-RN Review Tutor

Increase pass rates and provide a comprehensive self-paced review for your students with MEDS’ all new Personal NCLEX-RN Review Tutor. This comprehensive e-learning solution, taught by MEDS’ 5-star live review nurse educators, provides over 30 hours of learning covering all the essential content needed for the NCLEX exam.

EASY STEPS TO INTEGRATION

1. Use to supplement class content, assigning tutorial sections that correspond with curriculum.
2. Assign exams in Assessment Mode and view results in TrackerPlus® Online Management System to ensure students complete assignments and understand concepts.
3. Encourage students to remediate by reviewing weak areas throughout the semester and taking exams in Practice Mode.
4. Use as an NCLEX Review for graduating seniors during the last two weeks of the semester.

MEDS’ PERSONAL NCLEX-RN REVIEW TUTOR INCLUDES 5 MODULES TOTALING 30 HOURS OF LEARNING
