

A Course of Study for
BUSINESS - Transfer

Business Managers coordinate business activities in both private industry and public agencies. They are responsible for operations, maintenance, purchasing, planning, organizing, budgeting, and directing the work of the employees. Business executives are the higher-level management staff, directing the activities of the firm. They develop and administer policies to maximize profits. They also direct financial programs and develop policies aimed at maintaining good relations with the public, stockholders, employees, and customers.

This major may also lead to many other careers. For additional possibilities use Choices, Bridges.com or echoices.com which are computerized career databases. These and many other career resources are located in the Career Services Center.

TRANSFER

Business Associate in Arts degree and Certificate requirements can be found on a separate sheet in the Transfer/Counseling Center as well as online at www.smc.edu/articulation.

Courses may not be taken CR/NC; most schools require a minimum grade of C (2.0) in courses required for the major. It is recommended that all major/pre-major requirements be completed prior to transfer and the majority completed by the end of the Fall semester in which the UC application is submitted.

Students planning to transfer to a four-year college should complete the lower-division major requirements and the general education pattern for the appropriate transfer institution. Santa Monica College has articulation agreements for this major with the following UC, CSU, and private institutions. Exact major requirements for these and other UC and CSU campuses can be found online at www.assist.org. Articulation agreements with private institutions can be found online at www.smc.edu/articulation.
