

A Course of Study for

PSYCHOLOGY - Transfer

Psychologists study the behavior of individuals and groups and try to help people achieve satisfactory personal adjustment. They work with individuals, couples, families or groups. Some engage in teaching or research, while others work with people doing testing, counseling, or treatment in clinics, schools, and industries. Some additional career titles include developmental psychologist, industrial/organizational psychologist, mental health coordinator, and community services worker.

This major may also lead to many other careers. For additional possibilities, visit the Career Services Center on campus to utilize computerized career information systems and other valuable career resources.

MILLS COLLEGE

“Minimum” is the minimum coursework needed in order to complete a B.A. in the associated major in two years, requiring multiple “heavy” semesters with three or four science courses in one semester. Students on a four-year B.A. path typically take two science or math courses each semester. “Minimum” coursework will not enable a student to complete a B.S. in two years. Students who do not meet the “minimum” pre-requisites may be able to complete the program, given extra time or some summer coursework, and should contact the departmental representatives below.

“Optimal” is the additional coursework to put a transfer student on the same schedule as a student who entered Mills College as a freshman, for the B.A. program. Students who enter at this level will also be able to complete the B.S. by taking one or more semesters with 4 science courses and/or some summer coursework.

“Recommended” courses are specifically for students interested in the B.S. degree. In the B.S. program, students typically take 3 science and/or math courses after the freshman year. With the recommended coursework completed, transfer students should not need to take more than 3 science/math courses in one semester to complete the B.S. degree.

PSYCHOLOGY: Minimum: PSYCHOLOGY 1 and at least one other Psychology course.

Optimal, also complete: select three or four courses of the following: PSYCHOLOGY 2, 3, 12, 13, 14, 19; MATH 54; other courses that can be accepted as “additional courses”: PSYCHOLOGY 5, 6, 11, 16, 18, 25, 40

General education requirements are listed on a separate sheet available in the Transfer/Counseling Center, as well as online (go to www.smc.edu/articulation).

NATIONAL UNIVERSITY - LOS ANGELES

B.A. PSYCHOLOGY: MATH 54; PSYCHOLOGY 1

National University accepts CSU GE and IGETC certification. Please see www.smc.edu/articulation for course to course articulation.

National University has a unique one course per month format in which each course lasts for four weeks. The BA, Psychology degree will run in NU's traditional onsite format where students attend two nights a week and two half Saturday sessions. The classes are scheduled to meet Mondays and Wednesdays from 5:30pm-10pm for 17 consecutive months.
