Producing, transmitting and consuming energy in the most efficient and sustainable manner is one of the biggest challenges we face globally in the 21st Century. In order to have a greater impact on the environment we must create new careers in sustainable energy in order to prosper while reducing greenhouse gas emissions. At Santa Monica College, we recognize the path to sustainable energy starts with Conservation and Energy Efficiency and follows with Renewable Energies. Our goal is to educate and provide training and resources to create economic impact in the area of Sustainable Energy.

Energy Efficiency Auditing

Join the rapidly expanding Green Collar economy by learning about energy efficiency and weatherization. Energy efficiency is the first step when considering a renewable energy solution such as solar.

This 27hr course provides training in the basic energy concepts needed to be successful as an Energy Efficiency auditor. Course topics include: basic energy concepts, identification of energy efficiency measures, uses of energy auditing tools, how to perform energy assessments, weatherization, and the effective communication of cost-effective, sustainable energy measures.

In addition you are invited to participate in the 6 hr business boot camp* if you are interested in launching your own business as an Energy Efficiency Auditor.

**Dates:**
- April 20, 22, 27, 29
- May 4, 6, 11, 13, 18, 20, 25

**Times:**
- 6:00 - 9:00 pm
- 6:00 - 9:00 pm

*Thursday class meets in Airport campus, Room 102 (Tuesdays meet at 6:00-9:00pm, Thursdays meet 6:30-9:30pm)

**Fee:** $350

**Course Instructor:** STAFF

**Course Location:** SMC, Airport campus, Room 101

**Additional Information:** Fee waivers are available for displaced workers from the construction industry. Please contact the Marina Del Rey Work Source Center for questions regarding eligibility requirements: (310) 309-6000 x248
