A. Planning Process for 2006-07: Superintendent/President Chui Tsang presented a charge to DPAC to work on developing a strategic planning process so the college can come together to create a vision for the future. A reliable process is needed to develop goals and vision, assess the college’s successes and areas needing improvement, improve communication, and allow for cross fertilization. Dr. Tsang suggested bringing someone from the outside who can be objective and facilitate the process and asked DPAC to start working on this immediately so we can incorporate the theme of strategic planning into opening day activities.

A discussion followed in support of the charge to DPAC. It was agreed that a dynamic speaker and/or workshop facilitator on the topic of strategic planning should be engaged for opening day. A subcommittee was formed (Richard Tahvildaran-Jesswein, David Zehr and Bernie Rosenloecher) to research speakers and/or consultants, specifically one who has community college experience; the subcommittee will report back to DPAC on June 28th.

B. Facilities Planning Subcommittee Report/Recommendation regarding relocation of Superintendent/President's Office. DPAC unanimously approved a recommendation from the Facilities Planning Subcommittee:

It is recommended that the Superintendent’s Office be permanently relocated to Drescher Hall (third floor) in approximately two years when the location is available. In the interim, two offices for the Superintendent and an administrative assistant will be available in the new HSS (formerly Liberal Arts north) building.

C. Process for hiring and budgeting of Classified employees: Reagan Romali reported that the Budget Planning Subcommittee reviewed classified positions for 2006-07. Approximately 40-45 fully-funded positions are included in the tentative budget. The tentative budget will be adjusted in consultation with the Budget Planning Subcommittee to develop an adopted budget to be presented to DPAC and Dr. Tsang before going to the Board for approval (in September). Senior staff determines the priorities based on FTES needs, unexpected turnover, resignations/retirements, needs of the students, and recommendations from the departments. The Budget Committee agreed that classified positions should be replaced, but the budget amount should reflect the fill rate of vacancies (a recommendation will be presented at the next meeting).
