7-D   NEW MUSIC AND PERFORMING ARTS COMPLEX, MADISON CAMPUS – SETTLEMENT
AGREEMENT FOR STRUCTURAL STEEL CLAIMS

Agreement with FTR International on the Performing Arts Center, Madison Campus Project to settle outstanding structural steel claims in the amount of $285,000.

Funding Source: Measure S

Comment: The Settlement Agreement was negotiated by District staff with the Contractor for the Performing Arts Center, Madison Project to resolve additional cost claims of the Structural Steel Subcontractor. Additional and unanticipated costs were incurred by the Structural Steel Subcontractor to complete construction of the Project structural steel systems, including mast truss curtain wall support, miscellaneous changes to lighting rail at tech level, field priming of structural steel in lieu of fireproofing, modifications to reflector steel, revisions to the tube steel support for stone cladding and changes to miscellaneous structural steel support pieces to coordinate interface with structural concrete.

The additional costs claimed by the Structural Steel Subcontractor have been reviewed by District staff. The settlement reached reflects fair, reasonable and equitable costs for the additional work completed by the Structural Steel Subcontractor. The District is authorized by law to compromise or settle claims arising under the District's construction contracts. Specifically, the District is authorized under Public Contract Code §9201(a) “to compromise or otherwise settle any claim relating to a contract at any time.”

7-F AGREEMENT FOR CONSULTING SERVICES – CONSOLIDATED STUDENT SERVICES AND ADMINISTRATION BUILDING

Agreement with Christopher A. Joseph & Associates for environmental analysis services for the Consolidated Student Services and Administration Building project for an amount not to exceed $39,600 plus reimbursement of actual and necessary expenses.

Funding Source: Measure U

Comment: The final phase of SMC’s Facility Master Plan, approved by the Board of Trustees in January 1998, provides for a Consolidated Student Services and Administration Building and the related demolition of various buildings and trailers. The project is included as one of the specific projects identified in Measure U, approved by Santa Monica and Malibu voters in March 2002. The Board of Trustees authorized architectural planning for the project in September 2004, and approved the Final Project Proposal (FPP) in May 2005 for submission to the State for capital outlay funding. The State has approved the project for funding, and funding will become available starting in July 2007.

Student services at Santa Monica College cannot operate efficiently and effectively at the present time. These services are housed in nine dispersed locations, discouraging student use. The facilities, due to their age and condition, do not provide the amenities required for today’s activities; most of these facilities are not connected to a centrally monitored fire alarm system and lack fire sprinklers; and most have interior hallways and doorways that do not meet ADA requirements. Executive management is housed at separate locations on campus and in a temporary building off the main campus, requiring extra time to have effective communication among units.

The proposed project is a 53,505 assignable square-foot building with approximately 135 parking spaces underground, sited on approximately 3.5 acres at the northeast quadrant of the campus. The proposed project removes approximately 120 surface parking places, replaces approximately 37,387 assignable square feet of existing space, and removes approximately 58,000 gross square feet of existing one-story temporary and outdated structures from the main campus.

The proposed project will result in a net increase of open space on campus and will qualify as a LEED-certified building.

Christopher A. Joseph & Associates has provided similar services for Santa Monica College. The services are to prepare a Mitigated Negative Declaration level analysis in accordance with CEQA and SMC guidelines and will include an Initial Study. This process provides for public notification, public review, and public comment.
