

# Sustainability “Quiz” Activity

## Supplies

1. Scrap paper
2. A hat or bowl for collecting the papers
3. One question (moderate to high difficulty) about that week’s topic

## Step 1:

Crew Leader distributes small pieces of paper.

## Step 2:

The Crew Leader asks the Crew one question about that week’s topic. Then, Crew Members write down their answers and place them in the hat or bowl.

**Note:** Crew Members must write their names on the paper.

## Step 3:

The Crew Leader randomly draws a piece of paper from the hat or bowl. If the first answer he/she draws is not correct, he/she continues to draw until the correct answer is found.

The first Crew Member who answers correctly and is drawn from the hat/bowl receives a prize. However, if this person has already won a prize from a previous quiz, the Crew Leader will continue drawing names until the next correct answer is chosen.
