Associate Degree, Certificate of Achievement, and Department Certificate Programs

All programs offered at Santa Monica College leading to an Associate degree (AA, AS, AA-T, or AS-T), a Certificate of Achievement, or a Department Certificate are designed to provide students with the necessary skills to compete successfully in related job markets or for transfer to a four-year college or university. Certificate of Achievement programs offered by Santa Monica College meet the needs of people in business and industry. The teaching faculty in these programs is well trained, with both academic and industry experience. Each career program has an advisory board composed of industry representatives to insure that the curricula are current and that they meet industry needs and standards.

Major requirement sheets for the Associate degree, Certificate of Achievement, and Department Certificate programs are available in the Transfer/Counseling Center and online (go to www.smc.edu/articulation). Completion of Associate degree major coursework, a Certificate of Achievement, or a Department Certificate usually will not adequately satisfy transfer major requirements. Students are encouraged to meet with a counselor to develop an academic program best suited for their transfer institution and intended major.
CERTIFICATES OF ACHIEVEMENT

Catalog rights dictate that a student may satisfy the requirements for a certificate of achievement by completing the general education and major/area of emphasis requirements in effect at any time during the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

- At least 50% of the units required for Certificates of Achievement must be completed at Santa Monica College. (Exception: For IGETC/CSUGE Certificates, 50% of the units required for Certificates of Achievement must be completed at any, or at any combination of, California Community College/s.)
- Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement. (Exception: For CSUGE Certificate, a minimum grade of D- [0.7 on a 4.0 scale] is required for each course applied to the CSUGE Certificate of Achievement. The minimum overall GPA on the CSUGE pattern must be a C [2.0 on a 4.0 scale].)

   Additional majors are being developed. Please see a counselor or visit www.smc.edularticulation for more information.
Accounting

General accountants examine financial records of municipal, county, state, and federal agencies for compliance with laws. They record transactions, such as receivable, payable, payroll, property into a general ledger. Corporate accountants set up and design accounting/bookkeeping systems and procedures, risk management programs, tax law and finance methods, record financial transactions, and analyze and evaluate financial records for businesses. Their duties include interpreting financial information and preparing reports for business executives and government regulatory agencies. Advancement includes senior accountant, controller, treasurer, and chief financial officer positions.

Students planning to transfer to a four-year college/university should refer to the Business Administration major’s transfer requirements.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

ASSOCIATE DEGREE – 60 UNITS

The Associate degree involves satisfactory completion of a minimum of 60 semester units with a C average or higher including the required units in the area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.

At least 50% of the area of emphasis (major) units must be completed at Santa Monica College.

Each course in the area of emphasis (major) must be completed with a grade of C or higher.

These programs are not designed for transfer students.

Anthropology

Anthropologist is a general term for those who study human societies, both present and past. A Socio-cultural Anthropologist may work in a field such as development, community organizing, policy analysis, and social research. Linguistic Anthropologists may work in the areas of inter-cultural communication, language revitalization, and literacy programs. An emphasis in Archaeology lends itself to work in one of many Federal and State agencies and private cultural resource management firms. Biological and Medical Anthropologists work in the growing sector of health related occupations and research. Consultants are employed in historical and ethnographic research, forensic work, archaeological survey and excavation, museums and teaching.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

Anthropology – Associate in Arts for Transfer (AA-T) to CSU

Anthropology is the study of human societies, both present and past. Socio-cultural anthropologists may work in a field such as development, community organizing, policy analysis, and social research. Linguistic anthropologists may work in the areas of intercultural communication, language revitalization, and literacy programs. An emphasis in Archaeology lends itself to work in one of many Federal and State agencies and private cultural resource management firms. Biological and medical anthropologists work in the growing sector of health related occupations and research. Anthropological consultants are employed in historical and ethnographic research, forensic work, archaeological survey and excavation, museums and teaching.

Upon successful completion of the Santa Monica College AA-T in Anthropology, the student will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. This coursework will satisfy most of the lower-division Anthropology requirements at many institutions at the California State University system. This degree is intended for students who are interested in the theory of Anthropology and are planning on transferring to a four year university and majoring in Anthropology. This degree complies with The Student Transfer Achievement Reform Act (Senate Bill 1440).

Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AA-T in Anthropology.

ASSOCIATE DEGREE IN ANTHROPOLOGY FOR TRANSFER TO CSU

The Associate in Arts for Transfer (AA-T) in Anthropology is designed to facilitate transfer admission to a CSU campus in Anthropology or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).
- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

CATALOG RIGHTS

Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

TRANSFER
Students planning to transfer to a four-year college should complete the lower-division major requirements and the general education pattern for the appropriate transfer institution. Santa Monica College has articulation agreements for this major with the following UC, CSU, and pri-
vate institutions. Exact major requirements for these and other UC and CSU campuses can be found online at www.assist.org. Articulation agreements with private institutions can be found online at www.smc.edu/articulation.

In addition to meeting academic requirements, most universities and art schools require prospective students to submit a portfolio for admission to be presented to the Art Department of each institution they apply to for admission.

It is possible for a student to be admitted to a university based on academics, but not into the institution’s Art Major Program, unless a student submits a portfolio with evidence of individual style and concepts.

It is highly recommended that students follow the “Recommended Course of Study for Transfer Consideration and Portfolio Development” with Elective Areas of Specialization prepared by the SMC Art Department, which is available in the Transfer/Counseling Center, the Art Department, and online (go to www.smc.edu/articulation). The recommendations will help students to develop a successful portfolio for transfer.

In addition, students should make an appointment with the institution of their choice to find out about specific courses and portfolio projects needed for transfer.

Art History

Art history is the study of art created in the past by individuals from various cultures and parts of the world. It is the study of the historical development of art as a social and intellectual phenomenon, the analysis of works of art and art conservation. Students study specific periods, cultures, styles and themes. The art historian seeks to interpret and understand works of art of many types, ranging from the monumental to small scale, by learning about artists’ lives and their societies. Students are prepared for a wide range of professional careers – in museums, galleries, auction houses or publishing, including antique dealer, art appraiser, art dealer, art restorer and museum curator.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

Art History – Associate in Arts for Transfer (AA-T) to CSU

Upon completion of the Santa Monica College AA-T in Art History, students will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. Completion of the degree indicates that the student will have satisfied the lower division requirements for transfer into art history or similar major for many campuses in the California State University system. This degree complies with The Student Transfer Achievement Reform Act (Senate Bill 1440).

Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AA-T in Art History.

ASSOCIATE DEGREE IN ART HISTORY FOR TRANSFER TO CSU

The Associate in Arts for Transfer (AA-T) in Art History is designed to facilitate transfer admission to a CSU campus in Art History or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).

- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).

- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.

- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

CATALOG RIGHTS

Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

Art History (18 units)

Program Learning Outcomes: Upon completion of the program, students will have proficiency in the written and verbal critical analysis of diverse visual cultures and artworks, demonstrate the basics of aesthetic formal analysis, and gain the vocabulary necessary to conduct a coherent critical investigation of artworks in both written and verbal form, as well as the ability to situate
those artworks within a social context and a historical chronology. Additionally, students will demonstrate the ability to explore the function of aesthetic objects, the materials and techniques of artistic production, systems of patronage, the conventions of representation, and the relationship between art, politics, race, gender, sexuality, and power.

Astronomy

Astronomers study the solar system, stars, galaxies, and space using principles of physics and mathematics. Their work adds to the basic scientific knowledge about the nature of the universe and also provides a basis for improvement in such areas as aircraft navigation and satellite communication. They study planets, stars, novas, and colliding gases between stars in an attempt to find out how they were formed, what they are made of, and how they change. They measure light, radio and x-ray emissions from space sources. Astronomers can advance to director of an observatory or science center.

Biological Sciences

This major can lead to many biological science careers. Medical laboratory technicians work in a clinical laboratory and perform routine tests to obtain data used by physicians and other medical staff in the prevention, diagnosis, and treatment of illness. Bioscience technicians conduct tests and analyze data for use in research and production. Some additional careers include genetic counselors, environmental health specialists, medical illustrators, microbiologists, toxicologists, wild life biologists, and teachers.

Automotive Technician

The Department Certificate in Automotive is offered through the Business Department.

At least 50% of the required units for a Certificate of Achievement must be complete at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete the Department Certificate.

Automotive Technician (12 units)

Students who complete this short-term program may work in positions troubleshooting and repairing electronic and mechanical vehicle problems. Employees in these basic positions in today’s automotive maintenance shop operate sophisticated tools and equipment and practice safe work practices under the guidance of more experienced technicians. Students wishing to take more advanced training may transfer their SMC courses to Rio Hondo College and to Cerritos College’s Advanced Transportation Program.

Students must petition the Business Department to obtain a Department Certificate in Introductory Automotive Technician.

Program Learning Outcomes: Upon completion of the program, students will be able to apply basic diagnostic techniques, maintenance procedures, and repair skills to automotive electrical, braking, and suspension and steering systems.

Required Courses:
  AUTO 40, Automotive Maintenance and Operations (3)  
  AUTO 45, Automotive Braking Systems (3)  
  AUTO 46, Automotive Electrical Systems (3)  
  AUTO 47, Suspension and Steering (3)

Business Administration - Associate in Science for Transfer (AS-T) to CSU

Upon successful completion of the Santa Monica College AS-T in Business Administration, students will have a strong academic foundation in the field and be prepared for upper-division baccalaureate study. This coursework will satisfy most of the lower-division Business requirements at many institutions and the California State University system. This degree is intended for students who are interested in the theory of Business and are planning on transferring to a four-year university and majoring in Business.

Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AS-T in Business Administration.

ASSOCIATE DEGREE IN BUSINESS ADMINISTRATION FOR TRANSFER TO CSU

The Associate in Science for Transfer (AS-T) in Business Administration is designed to facilitate transfer admission to a CSU campus in Business Administration or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).
- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

CATALOG RIGHTS

Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

Chemistry

Chemists study the properties of matter and make qualitative and quantitative analysis of many substances. They conduct a variety of experiments and tests in laboratories to develop new knowledge or maintain control over the quality of existing products and procedures. Chemists may work in research and development, or production and quality control in the chemical manufacturing industry, and in education or government institutions.

Communication & Media Studies

(For other Media Studies major requirements, also see Broadcasting)

Communication and Media Studies majors will learn the dynamics of communication between and among individuals, groups and cultures, and/or the media. Communication integrates courses in interpersonal, intercultural, organizational and mass communication and public relations. There is a wide range of employment possibilities for students trained in Media Studies in business, sales, public and personnel relations, and advertising. Students can prepare for careers in media news writing and editing, announcing, programming, publicity, community relations, directing and public relations.

Speech and Communication Studies majors pursue a variety of careers depending on their interests. Public relations and advertising firms, health care organizations, government and educational institutions, entertainment companies, social service groups, and media-based firms are just some examples of organizations having a need for people with highly developed interpersonal and technical communication skills. Some of the current career titles include communication consultant, public information officer, public relations specialist, political consultant, press secretary, labor relations specialist, public opinion researcher, news producer, speech/language pathologist, speechwriter, advertising account executive, media manager, human resources manager, mediator, special events coordinator and development officer/fund raiser.

Because of the focus on interpersonal, professional, and intercultural communication skills, this major may also lead to many other careers. For additional possibilities, visit the Career Services Center on campus to utilize computerized career information systems and other valuable career resources.

**Communication Studies – Associate in Arts for Transfer (AA-T) to CSU**

Upon successful completion of the Santa Monica College AA-T in Communication Studies, the student will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. This coursework will satisfy most of the lower-division Communication Studies requirements at many institutions at the California State University system. This degree is intended for students who are interested in the theory of Communication Studies and are planning on transferring to a California State University and majoring in Communication Studies. This degree complies with The Student Transfer Achievement Reform Act (Senate Bill 1440).

Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AA-T in Communication Studies.
ASSOCIATE DEGREE IN COMMUNICATION STUDIES FOR TRANSFER TO CSU

The Associate in Arts for Transfer (AA-T) in Communication Studies administration is designed to facilitate transfer admission to a CSU campus in Communication Studies or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).
- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

CATALOG RIGHTS

Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

Computer Information Systems

Computer Information Systems managers oversee a variety of administrative, clerical, and accounting functions necessary to efficiently run and maintain computerized business systems. Office workers use a variety of software to produce correspondence, maintain databases, manage projects, organize meetings, manage financial records, and create presentations. Students focusing on Web applications attain the skills to professionally design, develop, and manage websites.

This major may also lead to many other careers. For additional possibilities, visit the Career Services Center on campus to utilize computerized career information systems and other valuable career resources.

TRANSFER

Transfer requirements for CIS can be found on the Business major sheet available in the Transfer/Counseling Center or online at www.smc.edu/articulation.

ASSOCIATE DEGREE – 60 UNITS

The Associate degree involves satisfactory completion of a minimum of 60 semester units with a C average or higher including the required units in the area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.

At least 50% of the area of emphasis (major) units must be completed at Santa Monica College.

Each course in the area of emphasis (major) must be completed with a grade of C or higher.

Computer Business Applications (30 units)

The core of this certificate program provides advanced computer skills and business concepts that can be applied in nearly every industry. Students will learn to use Microsoft Office products, as well as other computer software applications, that can be applied in business situations to create, edit, format, and publish documents, spreadsheets, presentations, and databases.

Students can select from three specializations within the Computer Business Applications program:

• Social Media Specialist students will be introduced to the finer points of the most popular social media applications, including search engine optimization, HTML and Web design.

• Office Finance Specialist students will develop the skills necessary to handle basic accounting and bookkeeping procedures for small businesses.

• Microsoft Office Specialist students will develop additional expertise in each of the Microsoft Office
applications. This specialization assists in preparation for the Microsoft Office Specialist (MOS) certification exams.

Program Learning Outcomes: Upon completion of the program, students will be able to analyze different types of business information, use the Internet to support findings, and use software applications to produce various business reports and presentations used in industry of concentration area.

CERTIFICATES OF ACHIEVEMENT
At least 50% of the required units for a Certificate of Achievement must be completed at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement.

Computer Business Applications (30 units)
A Certificate of Achievement is granted in Computer Business Applications upon completion of the required units listed under the Associate degree.

Students who successfully complete the Computer Business Application Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

Website Software Specialist (31 units)
A Certificate of Achievement is granted in Website Software Specialist upon completion of the required units listed under the Associate degree.

Students who successfully complete the Website Software Specialist Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

DEPARTMENT CERTIFICATES
At least 50% of the required units for a Department Certificate must be completed at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete a Department Certificate.

Digital Publishing (formerly Desktop Publishing) (17 units)
This program provides students with students with specific skills that make them job ready for the publishing industry, whether it is for printing or the web. Digital Publishing Specialists use Adobe Photoshop, InDesign, and Illustrator programs, along with Microsoft Word, to format and combine text, numeral data, photographs, charts, drawings, and other visual graphic elements to produce digital and/ or printed publication-ready materials.
Program Learning Outcomes: Upon completion of the program:
1. Given client data, students will utilize marketing research tools, apply creative techniques, choose and utilize appropriate software program(s), and analyze and solve graphic design and page layout problems to produce an effective publication.
2. Working as a member of a Digital Publishing team, students will demonstrate professional work habits, meet scheduled timeline milestones and deadlines, and communicate effectively via oral presentations and written documents.

Required Courses: (16 units)
- CIS 36P, Microsoft PowerPoint (1)
- CIS 37, Microsoft Word (3)

Computer Science
The field of computer science leads to a variety of careers that all require core computer science skills. These skills include theory courses such as Computer Hardware, Data Structures, and Networks, as well as programming in different computer languages. Thereafter, within the field, areas of specialty lead into careers including software development, project management, system analysis, and maintenance among other areas. With the Internet being an integral part of everyday life, Web page authoring and Web application development have been other areas of high demand in the job market.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

TRANSFER
Students planning to transfer to a four-year college should complete the lower-division major requirements and the general education pattern for the appropriate transfer institution. **ASSOCIATE DEGREE – 60 UNITS**

The Associate degree involves satisfactory completion of a minimum of 60 semester units with a C average or higher including the required units in the area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.

At least 50% of the area of emphasis (major) units must be completed at Santa Monica College.

Each course in the area of emphasis (major) must be completed with a grade of C or higher.

**Computer Science (34 units)**

This program covers a broad spectrum of courses ranging from core computer science to a variety of branch fields of computer science. This major provides the student with the basic skills required of core computer science. Courses include programming in low-level and essential languages, Database Theory, Operating Systems Fundamentals, Computer Hardware and Data Structures. Students finishing this major are well equipped to work in the field of computer science as well as transfer to a four-year degree program in this area.

**Program Learning Outcomes:** Upon completion of the program, students will design, code, test, and debug computer programs. They will understand and use the Internet and World Wide Web, application software, the components of the system unit, input, output, storage, operating systems and utility programs, communications and networks, database management, information systems development, and project management. Students will also explain the social implications of technological development, and understand the capabilities of current-day computers and the possibilities for the future.

**Required Core Courses:** (28 units)
- CS 3, Introduction to Computer Systems (3)
- CS 4, Operating Systems (3)
- or
- CS 80, Internet Programming (3)
-...
- CS 50, C Programming (3)
- CS 60, Database Concepts and Applications (3)
- Math 7, Calculus 1 (5)
- Math 8, Calculus 2 (5)

**Required Concentration Courses:** Select 1 of the following groups: (6 units)

**GROUP 1:**
- CS 52, C++ Programming (3)
- CS 20A, Data Structures with C++ (3)

**GROUP 2:**
- CS 55, Java Programming (3)
- CS 20B, Data Structure with Java (3)

**Computer Programming (27 units)**

A computer programmer is a professional who is skilled in writing medium to large-scale computer applications. This requires the knowledge and practice of a multitude of areas in Computer Science. This certificate focuses on learning and using advanced programming techniques to build software applications. In addition, it covers core computer science concepts such as Operating Systems and Database Theory.

**Program Learning Outcomes:** Upon completion of the program, students will design, code, test, and debug computer programs. They will understand and use the Internet and World Wide Web, application software, the components of the system unit, input, output, storage, operating systems and utility programs, communications and networks, database management, information systems development, and project management. Students will also explain the social implications of technological development, and understand the capabilities of current-day computers and the possibilities for the future.

**Required Core Courses:** (15 units)
- CS 3, Introduction to Computer Systems (3)
-...
- or
- CS 80, Internet Programming (3)
-...
- CS 50, C Programming (3)
- CS 60, Database Concepts and Applications (3)
- Math 20, Intermediate Algebra (5) (or higher level courses)

**Required concentration courses:** Select 2 of the following groups: (12 units)

**GROUP 1:**
- CS 15, Visual Basic Programming (3)
- CS 19, Advanced Visual Basic Programming (3)

**GROUP 2:**
- CS 81, JavaScript and Dynamic HTML (3) and one of the following:
  - CS 82, ASP.NET Programming in C# (3)
  - CS 83, Server-Side Java Web Programming (3)
  - CS 84, Programming with XML (3)
  - CS 85, PHP Programming (3)

**GROUP 3:**
- CS 65, Oracle Programming (3)
- CS 66, Advanced Oracle (3)

**GROUP 4:**
- CS 52, C++ Programming (3) and one of the following:
  - CS 51, Visual C++ Programming (3)
  - CS 20A, Data Structures with C++ (3)

**GROUP 5:**
- CS 55, Java Programming (3)
- CS 56, Advanced Java Programming (3)
- CS 20B, Data Structures with Java (3)

**Database Applications Developer (33 units)**

This program develops user-friendly interfaces to database applications. A database application is made of data, a database engine to store the data, and an interface to extract and display the data. The skills needed to build a database application range from database theory and design, using a database engine such as SQL server, or Oracle, to programming in ADO technologies to extract the data, as well as programming in Windows and Web applications on a client and server-side basis to present the data. In addition, with increasing concerns over security, a
database developer must also be able to write secure code that runs with minimum risk of attacks.

**Program Learning Outcomes:** Upon completion of the program, students will develop user-friendly interfaces based on Windows and the Web to extract data stored in databases; incorporate different security techniques to ensure the safe display and update of data; interface databases to the Internet; and install and administer Database Management Systems. In addition, students will design, build and populate databases with data, and use programming languages and graphical interfaces to retrieve and manipulate data.

**Required Courses:** (27 units)
- CS 3, Introduction to Computer Systems (3)
- CS 9A, Technology Project Management I (3) *(same as CIS 9A)*
- CS 15, Visual Basic Programming (3)
- CS 19, Visual Basic Advanced Programming (3)
- CS 32, Database Programming in VB.NET (3)
- CS 37, Web Programming in VB.NET (3)
- CS 60, Database Concepts and Applications (3)
- CS 61, Microsoft SQL Server Database (3)
- CS 65, Oracle Programming (3)

**Select 2 courses from the following:**
- CS 8, Systems Analysis and Design (3)
- CS 9B, Technology Project Management II (3)
- CS 84, Programming with XML (3)
- CS 85, PHP Programming (3)
- CS 86, Android Development (3)
- CS 87A, Python Programming (3)

**Web Programmer (30 units)**

This program helps design and develop applications and scripts for the World Wide Web (WWW). Web programmers need to be knowledgeable on a variety of Internet technologies (HTML, CSS, XML, JavaScript, Perl/CGI, Java, JSP, PHP, and the Microsoft .Net platform), networking, and database management. They are chiefly responsible for providing the programming which makes webpages interactive or allows users to interact with back-end applications and databases. Web programmers are instrumental in making electronic commerce on the Internet possible.

**Program Learning Outcomes:** Upon completion of the program, students will design and develop applications and scripts for the World Wide Web, and provide the programming which makes webpages interactive or allows users to interact with back-end applications and databases.

**Required Courses:** (18 units)
- CS 3, Introduction to Computer Systems (3)
- CS 60, Database Concepts and Applications (3)
- CS 70, Networking Theory and Essentials (3)
- CS 80, Internet Programming (3)
- CS 81, JavaScript and Dynamic HTML (3)
- CS 84, Programming with XML (3)
- CS 86, Android Development (3)

**Select 1 of the following three groups:** (6 units)

**GROUP 1:**
- CS 15, Visual Basic Programming (3)
- CS 19, Advanced Visual Basic Programming (3)

**GROUP 2:**
- CS 55, Java Programming (3)
- CS 56, Advanced Java Programming (3)

**GROUP 3:**
- CS 87A, Python Programming (3) and one course from the following: CS 15, 19, 55, 56

**Select 1 course from the following:** (3 units)
- CS 32, Database Programming in VB.NET (3)
- CS 61, Microsoft SQL Server Database (3)
- CS 65, Oracle Programming (3)

**Select 1 course from the following:** (3 units)
- CS 37, Web Programming in VB.NET (3)
- CS 82, ASP.NET Programming in C# (3)
- CS 83, Server Side Java Web Programming (3)
- CS 83R, Server-Side Ruby Web Programming (3)
- CS 85, PHP Programming (3)

**CERTIFICATES OF ACHIEVEMENT**

At least 50% of the required units for a Certificate of Achievement must be completed at Santa Monica College. Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement.

**Computer Science (34 units)**

A Certificate of Achievement is granted in Computer Science for transfer upon completion of the 34 required units listed under Computer Science Associate degree.

Students who successfully complete the Computer Science Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

**Computer Programming (27 units)**

A Certificate of Achievement is granted in Computer Programming upon completion of the 27-29 required units listed under the Computer Programming Associate degree.

Students who successfully complete the Computer Programming Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

**Database Applications Developer (33 units)**

A Certificate of Achievement is granted in Database Applications Developer upon completion of the 33 required units listed under the Database Applications Developer Associate degree.

Students who successfully complete the Database Applications Developer Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

**Web Programmer (30 units)**

A Certificate of Achievement is granted in Web Programmer upon completion of the 30 required units listed under the Web Programmer Associate degree.

Students who successfully complete the Web Programmer Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.
DEPARTMENT CERTIFICATES

At least 50% of the required units for a Department Certificate must be completed at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete a Department Certificate.

Computer Programming (12 units)

This program provides the student with the basic skills needed to enter the world of programming. It covers a range of programming language courses that expose the student to the spectrum of different languages that are popular today.

Required Courses:
- CS 3, Introduction to computer applications (3)
- CS 15, Visual Basic (3)
- CS 17, Assembly Language Programming (3)
- CS 52, C++ Programming (3)

Information Systems Management (13 units)

This program aims to provide Computer Science students with the knowledge needed to develop Information Systems in a real-world setting. Students learn how to develop medium to large scale applications while applying the skills needed to plan and budget resources in development projects from conceptual design to deployment.

Required Courses: (10 units)
- CS 9A, Technology Project Management I (3) (same as CIS 9A)
- CS 9B, Technology Project Management II (3) (same as CIS 9B)
- CS 15, Visual Basic Programming (3)
- CS 88A, Independent Studies in CIS (1)

Select 1 course from the following: (3 units)
- CS 19, Advanced Visual Basic Programming (3)
- CS 32, Database Programming in Visual Basic .NET (3)
- CS 37, Web Programming in Visual Basic .NET (3)

Mobile Apps Development – Android (15 units)

This program provides students with the knowledge and skills necessary to work in the emerging mobile career field. Students learn how to design and write apps for the Android platform. In addition to programming courses, the program includes courses that teach the fundamentals of mobile app and icon design.

Program Learning Outcomes: Upon completion of the program, students will design—and use the Eclipse environment to develop, test, and debug—apps that run on the Android platform for mobile phones and tablets. In addition, students will use the Android Framework to develop apps for mobile devices that incorporate audio, pictures, animation, maps, networking, and the Internet.

Required Courses: (12 units)
- CS 86, Android Development (3)
- CS 55, Java Programming (3)
- CS 56, Advanced Java Programming (3)
- GR DES 75, Mobile Design 1 (3)

Select 1 course from the following: (3 units)
- CS 60A, Photoshop I (3)
- CS 60, Database Concepts and Applications (3)
- CS 84, Programming with XML (3)

Mobile Apps Development – iPhone (15 units)

This program provides students with the knowledge and skills necessary to work in the emerging mobile career field. Students learn how to design and write apps for the iPhone/iPad/iPod platform. In addition to programming courses, the program includes courses that teach the fundamentals of mobile app and icon design.

Program Learning Outcomes: Upon completion of the program, students will design, develop, test, and debug iOS apps using Xcode environment for iPhone, iPad, and iPod. In addition, students will develop iOS apps using Cocoa Framework that incorporate the Address Book, Audio, Video, Networking, and the Internet.

Required Courses: (12 units)
- CS 53A, iOS Development with Objective-C (3)
- CS 53B, iOS Mobile App Development (3)
- CS 53C, iOS Advanced Mobile App Development (3)
- GR DES 75, Mobile Design 1 (3)

Select 1 course from the following: (3 units)
- CS 60A, Photoshop I (3)
- CS 60, Database Concepts and Applications (3)
- CS 84, Programming with XML (3)

Networking (17 units)

The IT world is integrated by networks. Success in IT disciplines like database, website, or e-commerce development demands a supporting grasp of the network environment. Major technologies are the networks themselves, their fit within the operating platforms they connect to, specific network applications, and measures to achieve networks security.

Network engineers and other qualified IT specialists must understand the various protocols, programs’ interfaces to them, how networks are presented and managed on Unix and Windows platforms, specific server programs and their clients, and what the inherent risks are.

Required Courses:
- CS 41, Linux Network Administration (3)
- CS 43, Windows Network Administration (3)
- CS 70, Network Fundamentals & Architecture (3)
- CS 75, Network Protocols and Analysis (2)
- CS 78, Secure Server Installation & Administration (3)

Robotics and Artificial Intelligence (16 units)

This program is temporarily suspended. Many of the required classes are not being offered at this time. If you are interested in this certificate program, please contact the Computer Science department at (310) 434-4295.

This program aims to provide Computer Science students with the knowledge and skills needed to work in the emergent AI career Field, which includes robotics, knowledge engineering, and virtual human design. Students learn how to program embedded systems to operate mobile robotics that can interact with changing environments, how to create and maintain expert systems, and how to design and build virtual humans that converse much like people. All courses are very much “hands-on.”
Program Learning Outcomes: Upon completion of the program, students will design, program, and operate mobile robots and chatbots that interact with changing environments and people. Students will also design solutions and write programs for real-world applications using embedded systems that interact with external hardware.

Required Courses:
- CS 9A, Technology Project Management I (3) (same as CIS 9A)
- CS 22, Introduction to Mobile Robots (3)
- CS 23, Expert Systems and Chatbots (3)
- CS 25, Embedded Systems (3)
- CS 42, Computer Architecture (3)
- CS 88A, Independent Study (1)

Cosmetology

The Cosmetology Department is an exciting place of color, shape, and beauty. We welcome you to join our program, where you can obtain the education you need to succeed in the cosmetology, skin care, and nail care industries. These well-established programs will prepare you for a career as a platform artist, educator, stylist, colorist, salon owner, sales representative, and makeup artist, as well as offer you the opportunity to work in the television and movie industries, or on cruise ships. Our program prepares you to take the State board examination for a cosmetology license.

Information regarding the cosmetology program is available in the Cosmetology Department, (310) 434-4292, and through the SMC website (www.smc.edu).

ASSOCIATE DEGREE – 60 UNITS

The Associate degree in Cosmetology involves satisfactory completion of a minimum of 60 semester units with a C average or higher, including at least 26.5 semester units in the Cosmetology area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.

At least 50% of the area of emphasis (major) units must be completed at Santa Monica College.

Each course in the area of emphasis (major) must be completed with a grade of C or higher.

Cosmetology (26.5 units, to total 1,600 hours)

Program Learning Outcomes: Upon completion of the program, students will be able to demonstrate professional level skill in her cutting, hair coloring, hair styling, nail care, and skin care. Additionally, the student will be proficient in health and safety procedures in common use in salons. Upon completion, the student will be eligible to take the California State Board of Cosmetology and Barbering licensure exam.

Required Related Science Courses:
- Cosmetology 10A, Related Science 1A (Cosmetology 10 is now 10A and 10B)
- Cosmetology 10B, Related Science 1B (Cosmetology 10 is now 10A and 10B)
- Cosmetology 20, Related Science 2
- Cosmetology 30, Related Science 3
- Cosmetology 40, Related Science 4
- Cosmetology 50A, Related Science 5
- Cosmetology 50B, Practical Preparation for State Board Exam
- Cosmetology 50C, Written Preparation for State Board Exam (only required if 50B was completed fall 2010 or later)

Required Hair Cutting Courses:
- Cosmetology 11A, Hair Cutting 1
- Cosmetology 21A, Hair Cutting 2
- Cosmetology 31A, Hair Cutting 3
- Cosmetology 42, Men’s Hair Styling

Required Hair Styling Courses:
- Cosmetology 11B, Hair Styling 1
- Cosmetology 21B, Hair Styling 2
- Cosmetology 31B, Hair Styling 3

Required Hair Coloring Courses:
- Cosmetology 11C, Hair Coloring 1
- Cosmetology 21C, Hair Coloring 2
- Cosmetology 31C, Hair Coloring 3

Required Permanent Wave Courses:
- Cosmetology 11D, Permanent Wave 1
- Cosmetology 21D, Permanent Waving 2

Required Curly Hair Technique Courses:
- Cosmetology 11E, Curly Hair Techniques 1 (formerly 14A)
- Cosmetology 21E, Curly Hair Techniques 2 (formerly 14B)
- Cosmetology 31E, Curly Hair Techniques 3 (formerly 24)

Required Nail Care Courses:
- Cosmetology 16, Nail Care 1
- Cosmetology 26, Nail Care 2
- Cosmetology 36, Nail Care 3

Required Esthetician Courses:
- Cosmetology 18, Skin Care 1
- Cosmetology 28A, Skin Care 2A
- Cosmetology 28B, Skin Care 2B
- Cosmetology 38, Skin Care 3
- Cosmetology 38B, Mechanical Exfoliation
- Cosmetology 38C, Chemical Exfoliation
- Cosmetology 48, Skin Care 4
- Cosmetology 48B, Advanced Make-Up

Required Salon Management Course:
- Cosmetology 64, Salon Management

Advanced Courses for Career Success; Select at least two of the courses below: (1 unit minimum)
- Cosmetology 41A, Hair Cutting 4
- Cosmetology 41B, Hair Styling 4
- Cosmetology 41C, Hair Coloring 4
- Cosmetology 46, Nail Care 4

In order to fulfill required hours, operations, and/or units, select one or more of the following Salon courses: (1 unit minimum) NOTE: Students may NOT enroll in any of the courses below until they have completed at least 300 hours of practicum activity AND have completed all of the following COSM courses: 10A, 10B, 11A, 11B, 11C, 11D, 11E, 16, and 18.

Salon Experience Courses:
Cosmetology 95A, Salon Experience
Cosmetology 95B, Salon Experience
Cosmetology 95C, Salon Experience
Cosmetology 95D, Salon Experience

Additional graduation requirements for the Associate degree from Santa Monica College are listed in the Academics section of this catalog, as well as online (go to www.smc.edu/articulation).

CERTIFICATES OF ACHIEVEMENT
At least 50% of the required units for a Certificate of Achievement must be completed at Santa Monica College.
Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement.

Cosmetology (26.5 units)
A Certificate of Achievement is granted upon completion of the required courses listed under the Associate degree.
Students who successfully complete the Cosmetology Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

DEPARTMENT CERTIFICATES
At least 50% of the required units for a Department Certificate must be completed at Santa Monica College.
Students must receive a grade of C or higher in each course to successfully complete a Department Certificate.

Esthetician (formerly Skin Care) (12 units)
The esthetician program provides students with professional-level skill in health and safety procedures in common use in salons and spas.
Program Learning Outcomes: Upon completion of the program, students will become proficient in health and safety procedures in common use in salons and spas. Upon completion, the student will be eligible to take the State Board of Cosmetology and Barbering/NIC Esthetician licensure exam.

Program Learning Outcomes: Upon completion of the program, students will become proficient in health and safety procedures in common use in salons and spas. Upon completion, the student will be eligible to take the State Board of Cosmetology and Barbering/NIC Esthetician licensure exam.

Required Hours:
600 hours minimum, including the courses specified below.

Required Related Science Courses:
Cosmetology 10A, Related Science 1A
Cosmetology 10B, Related Science 1B
Cosmetology 20, Related Science 2
Cosmetology 30, Related Science 3
Cosmetology 50E, Written Preparation for Esthetician State Board Exam

Required Esthetician Courses:
Cosmetology 18, Skin Care 1
Cosmetology 28A, Skin Care 2A

Cosmetology 28B, Skin Care 2B
Cosmetology 38, Skin Care 3
Cosmetology 38B, Mechanical Exfoliation
Cosmetology 38C, Chemical Exfoliation
Cosmetology 48, Skin Care 4
Cosmetology 48B, Advanced Make-Up

Required Salon Management Course:
Cosmetology 64, Salon Management

Theory and Practice Activity: In order to fulfill required hours, operations, and/or units, select one or more of the following Salon courses: (1 unit minimum) (NOTE: Students may NOT enroll in any of the courses below until they have completed at least 90 hours of practicum activity AND have completed all of the following COSM courses: 10A, 10B, and 18.

Salon Experience Courses:
Cosmetology 95A, Salon Experience
Cosmetology 95B, Salon Experience
Cosmetology 95C, Salon Experience
Cosmetology 95D, Salon Experience

Nail Care (9 units)
Program Learning Outcomes: Upon completion of the Nail Care program, students will demonstrate professional-level skill in manicures, pedicures, nail tips, acrylics, gel nails, and 3-D nail art. Additionally, the student will be proficient in health and safety procedures in common use in salons and spas.

Required Hours:
600 hours minimum, including the courses specified below.

Required Related Science Courses:
Cosmetology 10A, Related Science 1A
Cosmetology 10B, Related Science 1B
Cosmetology 20, Related Science 2
Cosmetology 50N, Written Preparation for Nail Care State Board Exam

Required Nail Care Courses:
Cosmetology 16, Nail Care 1
Cosmetology 26, Nail Care 2
Cosmetology 36, Nail Care 3
Cosmetology 46, Nail Care 4

Required Salon Management Course:
Cosmetology 64, Salon Management

Theory and Practice Activity: In order to fulfill required hours, operations, and/or units, select one or more of the following Salon courses: (1 unit minimum) (NOTE: Students may NOT enroll in any of the courses below until they have completed at least 90 hours of practicum activity AND have completed all of the following COSM courses: 10A, 10B, and 16.)

Salon Experience Courses:
Cosmetology 95A, Salon Experience
Cosmetology 95B, Salon Experience
Cosmetology 95C, Salon Experience
Cosmetology 95D, Salon Experience

Salon Business (11 units)
A Department Certificate in Salon Business will aid cosmetologists, estheticians, and manicurists in establishing and running their own business/salon.

Required Courses:
Accounting 21, Business Bookkeeping (3)

Business 1, Introduction to Business (3)
or
Business 20, Principles of Marketing (3)
or
Business 65, Management Principles (3)

CIS 4, Introduction to Computers, Business Applications (3)

Dance
The Dance program prepares the serious dance student for university transfer and provides dance training and enrichment for both the beginning and the advanced dancer. The program offers a comprehensive curriculum with a broad range of dance courses to nurture versatile dance artists. The Dance Department encourages students to think independently, to value creative thought and diversity, and to be responsible global citizens.

The goal of the Dance program is to prepare students for future careers in performance, choreography, teaching, and related careers in dance. The program offers a wide array of dance classes designed to cultivate technique, creativity, and performance skills while enhancing self-confidence, creative thought/expression, and critical thinking.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

TRANSFER
Students planning to transfer to a four-year college should complete the lower-division major requirements and the general education pattern for the appropriate transfer institution. Santa Monica College has articulation agreements for this major with the following UC, CSU, and private institutions. Exact major requirements for these and other UC and CSU campuses can be found online at www.assist.org. Articulation agreements with private institutions can be found online at www.smc.edu/articulation.

The Early Childhood Education Program major follows a natural progression that allows students to move from short to long-term educational goals: preparation for the state Children’s Center Permit, fulfillment of post-certificate Professional Development, completion of advanced California Career Ladder courses (including paired specialization courses as well as the California State Mentor course), completion of an Associate degree in Early Childhood Education – Career, Associate degree in Early Childhood Intervention assistant, Associate degree in Early Childhood Intervention Teacher, and transfer to a four-year institution.

Possible Early Childhood Education career goals include Early Childhood Education Teacher, Early Education Director, Early Childhood Intervention Assistant, Early Childhood Intervention Teacher, Family Home Child Care Provider, Private ECE Center Owner/Director, K through 12 Teacher, Early Childhood Special Education Teacher, K through 12 Special Education Teacher, Parent Educator, Early Childhood Education Instructor, Marriage Family and Child Counselor, Child-Life Specialist.

The Early Childhood Intervention Assistant program will prepare students for career placements in public and/or private early intervention and educational settings that serve typically and atypically developing young children. Specific jobs and responsibilities may include serving as an early childhood educator with a specialization in working with children with special needs, special education assistant for children birth to eight years of age, a one-to-one aide for a child (e.g., “inclusion facilitator”), classroom aide with expertise in special needs, or as an assistant to the early intervention team for infants birth to three years of age.

Early Childhood Education – Associate in Science for Transfer (AS-T) to CSU

Upon successful completion of the Santa Monica College AS-T in Early Childhood Education, the student will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. This coursework will satisfy most of the lower-division Early Childhood Education requirements at many institutions in the California State University systems. This degree is intended for students who are interested in the theory of Early Childhood Education and are planning on transferring to a four-year university and majoring in Early Childhood Education.

Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AS-T in Early Childhood Education.

ASSOCIATE DEGREE IN EARLY CHILDHOOD EDUCATION FOR TRANSFER TO CSU

The Associate in Science for Transfer (AS-T) in Early Childhood Education is designed to facilitate transfer admission to a CSU campus in Early Childhood Education or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).
- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

CATALOG RIGHTS

Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

Program Learning Outcomes: Upon completion of the program, students will demonstrate the knowledge, skills, and dispositions to meet the entry-level requirements for early childhood professionals working in programs regulated by the California Department of Social Services (Title 22). This degree is designed to meet the requirements for the California Child Development Teacher permit and satisfies the course work required to transfer to a four year institution.

Required Core Courses: (27 units)

- Early Childhood Education 2, Principles and Practices of Teaching Young Children (3)

Economics

Economists study how society can best use scarce resources such as land, raw materials, capital, and labor. They analyze the relationships between the supply of goods and services and the demand for them, as well as how these goods and services are produced, distributed, and consumed. Some economists work on public issues such as the control of inflation, business cycles, unemployment, wage, tax, and tariff policies. Economics is widely recognized as a solid background for a career in business, government, law, teaching and research.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

TRANSFER

Students planning to transfer to a four-year college should complete the lower-division major requirements and the general education pattern for the appropriate transfer institution. Santa Monica College has articulation agreements for this major with the following UC, CSU, private, and international private institutions. Exact major requirements for these and other UC and CSU campuses can be found online at www.assist.org. Articulation agreements with private institutions can be found online at www.smc.edu/articulation.

**Economics – Associate in Arts for Transfer (AA-T) to CSU**

The Associate in Arts in Economics for Transfer (AA-T) involves the study of how society can best use scarce resources such as land, raw materials, capital, and labor. The course of study analyzes the relationships between the supply of goods and services and the demand for them, as well as how these goods and services are produced, distributed, and consumed. Some economists work on public issues such as the control of inflation, business cycles, unemployment, wage, tax, and tariff policies. Economics is widely recognized as a solid background for a career in business, government, law, teaching and research.

Upon successful completion of the Associate in Arts in Economics for Transfer (AA-T), students will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. Completion of the degree indicates that the student will have satisfied the lower division requirements for transfer into economics or similar majors for many campuses in the California State University system.

Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. **If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that**
institution’s transfer requirements might be different from those required for the AA-T in Economics.

ASSOCIATE DEGREE IN ECONOMICS FOR TRANSFER TO CSU

The Associate in Arts for Transfer (AA-T) in Economics is designed to facilitate transfer admission to a CSU campus in Economics or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).
- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

CATALOG RIGHTS

Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

Economics (21 units)

Program Learning Outcomes: Upon completion of the program, students will demonstrate, through written and oral academic work, an understanding of how the market economy fundamentally operates. Specifically, students will develop the quantitative reasoning and critical analytical/graphical skills necessary to comprehend and explain basic microeconomic and macroeconomic concepts and functions, including, but not limited to, supply and demand, pricing decision, firm’s production decisions and profit maximization decision under various market structures, contending perspectives of economic thought, and the impacts of government policies (fiscal and monetary policies) on gross domestic product, unemployment, inflation, budget deficits, national debt, foreign currency, and the international economy.

Required Core Course: (15 units)

- Economics 1, Principles of Microeconomics (3)
- Economics 2, Principles of Macroeconomics (3)
- Math 54, Elementary Statistics (4)
- Math 7, Calculus 1 (5)

LIST A: Select 1 course from the following: (3 units minimum)

- Accounting 1, Introduction to Financial Accounting (5)
- Accounting 2, Corporate Financial and Managerial Accounting (5)
- Arabic 1, Elementary Arabic 1 (5)
- Business 5, Business Law (3)
- Business 6, Advanced Business Law (3) (formerly same as Accounting 26)
- Business 32, Business Communications (3)
- Chinese 1, Elementary Chinese (Mandarin I) (5)
- Chinese 2, Elementary Chinese 2 (5)
- English 2, Critical Analysis and Intermediate Composition (3)
- English 70, Technical Communication (3)
- History 47, The Practice of History (3)
- Math 2, Precalculus (5)
- Math 8, Calculus 2 (5)
- Math 29, Calculus II for Business and Social Science (3)
- Spanish 1, Elementary Spanish I (5)
- Spanish 2, Elementary Spanish II (5)
- Spanish 3, Intermediate Spanish I (5)
- Spanish 4, Intermediate Spanish II (5)
- Spanish 11, Spanish for Native Speakers I (5)
- Spanish 12, Spanish for Native Speakers 2 (5)

LIST B: Select 1 course from the following: (3 units minimum)

- Any course not used in List A
- Economics 5, International Political Economy: Introduction to Global Studies (3) (same as Political Science 5 and Global Studies 5)
- Economics 6, Contemporary Economic Problems (3)
- Economics 15, Economic History of the US (3) (same as History 15)
- Math 11, Multivariable Calculus (5)
- Math 13, Linear Algebra (3)

TRANSFER

Upon completion of the Santa Monica College AA-T in Anthropology, the student will be eligible for priority admission consideration to the majors at the following CSU campuses:

- California Polytechnic State University, San Luis Obispo
  - B.S. Economics – General
  - B.S. Economics – Quantitative Economics
  - B.S. Economics – Real Estate Economics
- California State Polytechnic University, Pomona
  - B.S. Economics – General
- California State University, Bakersfield
  - B.S. Economics – General
- California State University Channel Islands
  - B.A. Economics – General

Major requirements for transfer change frequently. Please access ASSIST at www.assist.org for the most up-to-date requirements. For the most up-to-date Associate degrees and Certificate of Achievement requirements, visit www.smc.edu/articulation.
The Energy Efficiency Specialist Department Certificate is designed to provide formal training for individuals who seek entry into the Energy Services field. Students will learn to conduct energy audits in residential buildings; establish energy efficiency benchmarks for commercial buildings and data center physical infrastructures; and help utilize resources more efficiently by reducing lighting, and lowering heating and cooling energy consumption in building systems and processes.

Students will learn to provide analyses and recommendations that will help suggest alternative energy sources, as well as unconventional lighting, cooling, space heating, and resource management procedures.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

DEPARTMENT CERTIFICATE

At least 50% of the required units for a Department Certificate must be completed at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete a Department Certificate.

Energy Efficiency Specialist (13 units)

The Energy Efficiency Specialist Department Certificate is granted upon completion of 13 required units listed below.

Program Learning Outcomes: Upon completion of the program, students will demonstrate knowledge of basic safety and health concerns in building management activities; perform analysis of residences and businesses, starting with utility bills and focusing on reducing energy usage; suggest efficiency measures and estimate energy consumption in electrical, mechanical, and heat energy units; and make recommendations for alternative energy production and storage methods to reduce utility costs and provide sustainable substitutes to fossil fuel energy use and non-renewable resource use.

Required Courses:
- Energy 1, Introduction to Energy Efficiency (3)
- Energy 2, Energy Efficiency 2: Residential Building Science (3)
- Energy 3, Commercial Building Science (4)
- PV 1, Introduction to Solar Energy Systems (3)

Engineering

Engineers apply the theories and principles of science and mathematics to research and develop economical solutions to practical technical problems. Their work is the link between scientific discoveries and commercial applications. Engineers design products, the machinery to build those products, the factories in which those products are made, and the systems that ensure the quality of the product and efficiency of the workforce and manufacturing process. There are a variety of engineering fields: electrical, mechanical, civil, industrial, aeronautical, chemical, materials, nuclear, petroleum and mining engineering.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

TRANSFER

Students planning to transfer to a four-year college should complete the lower-division major requirements and the general education pattern for the appropriate transfer.
institution. Santa Monica College has articulation agreements with the following UC, CSU, and private institutions. Exact major requirements for these and other UC and CSU campuses can be found online at www.assist.org. Articulation agreements with private institutions can be found online at www.smc.edu/articulation.

Admission to Engineering programs is very competitive. Students should complete all lower division requirements prior to transfer to be competitive for admission.

Additionally, to be minimally eligible to transfer to a UC campus, transfer students must complete four (4) general education courses chosen from at least two of the following areas: Arts and Humanities, Social and Behavioral Sciences, Physical and Biological Science, and two composition courses. Please see a Santa Monica College counselor for additional information.

English majors develop written and spoken mastery of the English language, creativity of thought, and an appreciation of the language’s literature. The English major can lead to a career in teaching at all levels. Additional careers include advertising copywriter, editor, foreign correspondent, literary agent, media planner, reporter, fundraiser, paralegal, public administrator, speechwriter, information abstractor/information indexer, interpreter & translator.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

Entertainment Technology

The mission of the Entertainment Technology program is to provide students with a comprehensive and well rounded education in rapidly evolving media fields. The Entertainment Technology curriculum is designed to meet the changing needs of the entertainment industry. Entertainment Technology courses are comprehensive and rigorous, covering areas such as Animation, Game Development, Post-Production, and Visual Effects. Students will develop professional portfolios, work in teams, and may participate in internships with industry partners when available.

While the Entertainment Technology certificate programs are designed as full-time programs, students may also attend part-time. Courses are available during the day and evenings Monday through Friday and during the day on Saturday. For additional information, please refer to www.academy.smc.edu.
The Entertainment Technology program currently offers comprehensive Certificates of Achievement in Animation and Digital Media.

**ASSOCIATE DEGREE – 60 UNITS**

The Associate degree involves satisfactory completion of a minimum of 60 semester units with a C average or higher, including the required units in the area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.

At least 50% of the area of emphasis (major) units must be completed at Santa Monica College.

Each course in the area of emphasis (major) must be completed with a grade of C or higher.

**Animation (49 units)**

The Animation Associate degree is a comprehensive study of 2D and 3D animation techniques, taking four semesters of full-time study to complete.

**Program Learning Outcomes:** Upon completion of the program, students will be able to develop original and effective animation projects using industry-standard tools and methodologies.

**Required Core Courses: (34 units)**

- Entertainment Technology 2, Storytelling (3)
- Entertainment Technology 3, Principles of Project Management (3)
- Entertainment Technology 18, Storyboarding (3)
- Entertainment Technology 20, Visual Development (3)
- Entertainment Technology 24, 3D Fundamentals I (4)
- Entertainment Technology 31A, Digital Video Fundamentals (3)
- Entertainment Technology 40, Digital Audio Fundamentals (3)
- Entertainment Technology 61, History of Animation (3)
- Entertainment Technology 72, Career Exploration (2)
- Entertainment Technology 91, Perspective Drawing (2)
- Entertainment Technology 94, Color Theory (2)
- Graphic Design 64, Digital Imaging for Design I (3) *(formerly same as Entertainment Technology 37)*

**Required Concentration: Select 1 of the following groups:** *(total of 15 or 16 units as specified)*

**GROUP A: 2D Animation Concentration: 16 units**

- Entertainment Technology 19A, Beginning 2D Animation (3)
- Entertainment Technology 19B, Advanced 2D Animation (3)
- Entertainment Technology 30, Animation Project (4)
- Entertainment Technology 34, Web Animation I (3)
- Entertainment Technology 75, Digital Production for 2D Animation (3)

**GROUP B: 3D Animation Concentration: 16 units**

- Entertainment Technology 19A, Beginning 2D Animation (3)
- Entertainment Technology 19B, Advanced 2D Animation (3)

**GROUP C: 3D Modeling Concentration: 16 units**

- Entertainment Technology 25, 3D Modeling and Rigging (3)
- Entertainment Technology 25B, 3D Character Creation (3)
- Entertainment Technology 25C, 3D Character Rigging (3)
- Entertainment Technology 26, 3D Rendering (3)
- Entertainment Technology 30, Animation Project (4)

**GROUP D: 3D Rendering Concentration: 16 units**

- Entertainment Technology 25, 3D Modeling and Rigging (3)
- Entertainment Technology 26, 3D Rendering (3)
- Entertainment Technology 30, Animation Project (4)
- Entertainment Technology 32, Digital Compositing (3)
- Entertainment Technology 38, Digital Imaging II (3)

**GROUP E: Digital Effects Concentration: 15 units**

- Entertainment Technology 32, Digital Compositing (3)
- Entertainment Technology 63, Digital Tracking & Integration (3)
- Entertainment Technology 64, Digital Effects I (3)
- Entertainment Technology 65, Digital Effects II (3)
- Entertainment Technology 33, Advanced Digital Compositing (3)
- Entertainment Technology 80, Digital Effects Project (3)

**GROUP F: 3D Game Design Concentration: 16 units**

- Entertainment Technology 15, Beginning 3D Level Design (3)
- Entertainment Technology 17, Advanced 3D Level Design (3)
- Entertainment Technology 42, Principles of Game Development (3)
- Entertainment Technology 44, Game Design/Play Mechanics (3)
- Entertainment Technology 49, Game Development Project (4)

**Digital Media (44 units)**

This program provides students with a comprehensive hands-on education using industry-standard digital media tools. Focusing on the design and implementation of digital media for the entertainment industry, this program covers a range of real-world audio and video production and post-production techniques, as well as traditional principles of storytelling and visual communication.

**Program Learning Outcomes:** Upon completion of the program, students will be able to develop original and effective digital media projects using industry-standard tools and methodologies.
Required Courses:
Entertainment Technology 2, Storytelling (3)
Entertainment Technology 3, Principles of Project Management (3)
Entertainment Technology 18, Storyboarding (3)
Entertainment Technology 31A, Digital Video Fundamentals (3)
Entertainment Technology 31B, Digital Video Editing (3)
Entertainment Technology 32, Digital Compositing (3)
Entertainment Technology 38, Digital Imaging for Design 2 (3)
Entertainment Technology 40, Digital Audio Fundamentals (3)
-----
Entertainment Technology 41, Digital Audio Post Production (3)

or
Entertainment Technology 41M, Digital Music Production (3)
-----
Entertainment Technology 58, Motion Graphics I (3)
Entertainment Technology 60, Post Production Project (3)
Entertainment Technology 94, Color Theory and Application (2)
Film Studies 1, Film Appreciation: Introduction to Cinema (3)
Graphic Design 64, Digital Imaging for Design I (3)
(formerly Entertainment Technology 37)
Graphic Design 71, Motion Graphics 1 (3)
Graphic Design 71B, Motion Graphics 2 (3)

CERTIFICATES OF ACHIEVEMENT
At least 50% of the required units for a Certificate of Achievement must be completed at Santa Monica College.
Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement.

Animation (49 units)
A Certificate of Achievement is granted upon completion of the required courses listed on the Associate degree.
Students who successfully complete the Animation Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

Digital Media (44 units)
A Certificate of Achievement is granted upon completion of the required courses listed on the Associate degree.
Students who successfully complete the Digital Media Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

DEPARTMENT CERTIFICATES
At least 50% of the required units for a Department Certificate must be completed at Santa Monica College.
Students must receive a grade of C or higher in each course to successfully complete a Department Certificate.

2D Animation (16 units)
Entertainment Technology 19, Beginning 2D Animation (3)
Entertainment Technology 19B, Advanced 2D Animation (3)
Entertainment Technology 30, Animation Project (4)
Entertainment Technology 34, Web Animation I (3)
Entertainment Technology 75, Digital Production for 2D Animation (3)

3D Animation (16 units)
Entertainment Technology 19, Beginning 2D Animation (3)
Entertainment Technology 19B, Advanced 2D Animation (3)
Entertainment Technology 24B, 3D Character Animation (3)
Entertainment Technology 24C, Advanced 3D Character Animation (3)
Entertainment Technology 30, Animation Project (4)

3D Modeling (16 units)
Entertainment Technology 19, Beginning 2D Animation (3)
Entertainment Technology 19B, Advanced 2D Animation (3)
Entertainment Technology 24B, 3D Character Animation (3)
Entertainment Technology 24C, Advanced 3D Character Animation (3)
Entertainment Technology 30, Animation Project (4)

3D Rendering (16 units)
Entertainment Technology 25, 3D Modeling and Rigging (3)
Entertainment Technology 25B, 3D Character Creation (3)
Entertainment Technology 25C, 3D Character Rigging (3)
Entertainment Technology 26, 3D Rendering (3)
Entertainment Technology 30, Animation Project (4)

Digital Effects (15 units)
Entertainment Technology 32, Digital Compositing (3)
Entertainment Technology 63, Digital Tracking and Integration (3)
Entertainment Technology 64, Digital Effects I (3)
-----
Entertainment Technology 65, Digital Effects II (3)

or
Entertainment Technology 33, Advanced Digital Compositing (3)
-----

Entertainment Technology 17, Advanced 3D Level Design (3)
Entertainment Technology 42, Principles of Game Development (3)
Entertainment Technology 44, Game Design/Play Mechanics (3)
Entertainment Technology 49, Game Development Project (4)
Visual Development (16 units)
This program provides a comprehensive understanding of the visual development process used in the entertainment industry. Emphasis is placed on form, composition, color, value, and lighting. Students learn to design professional-quality characters and worlds for a variety of entertainment projects using art styles that range from realistic to stylized.

Program Learning Outcomes: Upon completion of the program, students will demonstrate a comprehensive understanding of the visual development process used in the entertainment industry by developing an effective design portfolio for entry-level employment.

Required Courses:
- Entertainment Technology 21A, Character Design (3)
- Entertainment Technology 21B, Environment Design (3)
- Entertainment Technology 21C, Prop and Vehicle Design (3)
- Entertainment Technology 30, Animation Project (4)
- Entertainment Technology 38, Digital Imaging for Design 2 (3)

Environmental Studies and Environmental Science

The Environmental Studies Program is an interdisciplinary and multidisciplinary course of study that presents a broad overview of ecological issues from a variety of perspectives. The coursework examines the interplay between natural and social systems, and the ideological foundations of humankind’s attitudes and behaviors with respect to their ever-changing environments. This program is designed to prepare students to research, analyze, and propose solutions to the myriad environmental challenges facing the world today.

The Environmental Science Program is an interdisciplinary and multidisciplinary course of study that presents an overview of ecological issues from a scientific perspective. With a broad foundation across the natural sciences, the coursework examines the interrelated nature of environmental and social systems. This program is designed to equip students with the skills and tools to successfully use the scientific method while studying and solving environmental problems.

The Environmental Studies and Environmental Science degrees correlate with some of the lower division courses required to transfer into Environmental Studies or Environmental Science Programs (or related disciplines) at several four-year institutions. The Environmental Studies Certificate of Achievement demonstrates completion of all required coursework in the Environmental Studies area of emphasis. The Environmental Science Certificate of Achievement demonstrates completion of all required coursework in the Environmental Science area of emphasis.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

### Program Learning Outcomes:

Upon completion of the program, students will demonstrate through oral and written work a familiarity with both governmental and non-governmental efforts focused on environmental issues and be prepared to pursue further study in an Environmental Studies program (or related field of study) at the baccalaureate level. In addition, students will be proficient in the research, analytical, and communication skills necessary to present a critical analysis of the interplay between natural and social systems, the attitudes and behaviors that impact and affect the environment, and proposed solutions to the myriad environmental challenges facing the world today.
Majors and Areas of Emphasis

GROUP B:

Required Geology and/or Physics Courses; select 1 of the following courses: (4 units)

Environmental Studies 14, US Environmental History (3) (same as History 14)
Environmental Studies 20, Environmental Ethics (3) (same as Philosophy 20)
Environmental Studies 22, Environmental Politics and Policies (3) (same as Political Science 22)
Environmental Studies 32, Global Environmental History (3) (same as History 32)
Environmental Studies 40, Environmental Psychology (3) (same as Psychology 40)

Additional general education and graduation requirements for the Associate degree from Santa Monica College are listed in the Academics section of this catalog, as well as online (go to www.smc.edu/articulation).

CERTIFICATES OF ACHIEVEMENT

At least 50% of the required units for a Certificate of Achievement must be completed at Santa Monica College. Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement. Students who successfully complete the Environmental Studies or Environmental Science Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

Environmental Studies (24 units)

A Certificate of Achievement in Environmental Studies is granted upon completion of 24 required units listed on the Environmental Studies Associate degree.

Students who successfully complete the Environmental Studies Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

Environmental Science (39 units)

Program Learning Outcomes: Upon completion of the program, students will demonstrate through oral and written work knowledge of the physical, biological, and social sciences required to effectively address current environmental issues, and be prepared to pursue further study in an Environmental Science program (or related field of study) at the baccalaureate level. In addition students will be proficient in the research, analytical, and communication skills necessary to present a critical analysis of the interplay between natural and social systems, the attitudes and behaviors that impact and affect the environment, and proposed solutions to the myriad environmental challenges facing the world today.

Environmental Science (39 units)

A Certificate of Achievement in Environmental Science is granted upon completion of 39 required units listed on the Environmental Science Associate degree.

Students who successfully complete the Environmental Science Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

Ethnic Studies

Programs in Ethnic Studies are designed to help students study different cultures and societies of the world. These programs include the study of the history, politics, religion, languages, and culture of different areas. The aim of Ethnic Studies programs is to broaden the awareness and understanding of one or more ethnic groups and their contribution to American culture. Ethnic Studies programs are usually interdisciplinary: The historical, cultural, social, political, economic, psychological, and literary patterns and contributions of ethnic groups are studied.
For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

**ASSOCIATE DEGREE – 60 UNITS**

**Fashion Design and Merchandising**

**FASHION DESIGN**

Fashion design students develop skills in design communication, including preliminary sketching, technical flat sketching, illustration, and usage of Adobe Photoshop, Illustrator and CAD software. Skills in draping, pattern drafting from draping and body measurements, and basic sewing skills to advanced construction are developed in order to create sample garments for production and sales.

**FASHION MERCHANDISING**

Fashion merchandisers select, purchase, promote, and sell clothing and accessories. They study fashion trends and
visit manufacturers and merchandise markets. They work as part of a team and consult with managers and buyers, advise the advertising and display departments, and organize and coordinate promotional activities such as fashion shows. They may advance to become buyers and purchasing agents, sales representatives, and managers. Clothes designers create new apparel and accessory designs. They may sketch the garment, cut the pattern, select the fabric and materials, and in some cases construct the sample garment. They may arrange for the showing of a line at sales meetings or fashion shows.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

### Geography – Associate in Arts for Transfer (AA-T) to CSU

The Associate in Arts in Geography for Transfer (AA-T) involves the understanding of the environment around us and interpretation of the patterns found across the Earth's surface. The course of study allows flexibility in course selection while providing a solid background in human, physical, and regional aspects of the discipline. The degree includes GIS, focusing on the use of geocomputation and digital technology to assess spatial and environmental problems and provide solutions. Throughout the degree, students will acquire and develop knowledge and skills that will equip them to be informed, engaged, and productive global citizens, capable of leading humanity toward a more sustainable and adaptable future.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

The Associate in Arts in Geography for Transfer degree is designed to prepare students for transfer into the CSU system to complete a baccalaureate degree in Geography or a similar major. Upon completion of this degree, students will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. Students who have completed the Associate in Arts for Transfer in Geography will have satisfied the lower division requirements for transfer into Geography or similar major for many campuses in the California State University system. This degree complies with the Student Transfer Achievement Reform Act (California Education Code 66746).

Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. **If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AA-T in Geography.**

### ASSOCIATE DEGREE IN GEOGRAPHY FOR TRANSFER TO CSU

The Associate in Arts for Transfer (AA-T) in Geography is designed to facilitate transfer admission to a CSU campus in Geography or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).
- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

CATALOG RIGHTS

Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

Geography (18 units)

Program Learning Outcomes: Upon completion of the program, students will demonstrate cartographic literacy, including map interpretation and, using spatial analysis skills, analyze, recognize, and evaluate spatial distributions on all scales from local to global, to become better global citizens. Students will also demonstrate the ability to identify spatial patterns and relationships between systems and cycles that affect life and shape landscapes.

Required Core Courses: (6 units)
- Geography 1, Introduction to the Natural Environment (3)
- Geography 5, Physical Geography with Lab (4)
- Geography 2, Introduction to Human Geography (3)

GROUP A: Select 2 courses from the following: (6 units)
- Geography 3, Weather and Climate (3)
- Geography 11, World Geography: Introduction to Global Studies (3) (same as Global Studies 11)
- Geography 14, Geography of California (3)
- Geography 20, Introduction to Geographic Information Systems (3) (same as GIS 20)

GROUP B: Select 2 courses from Group B or any course from Group A not already used above: (6 units)
- Anthropology 1, Physical Anthropology (3)
- Anthropology 5, Physical Anthropology with Lab (4)

TRANSFER

Upon completion of the Santa Monica College AA-T in Geography, the student will be eligible for priority admission consideration to the majors at the following CSU campuses:

Geology

Geologists study the origin, history, composition, and structure of the earth, both for scientific knowledge and for practical purposes such as locating oil, minerals, and other raw materials; and for compiling architectural safety reports, maps, and diagrams. They use knowledge of chemistry, physics, math, and biology, to analyze the data and specimens. Some possible career choices are found in the environmental consulting industry, pollution remediation, public policy and environmental law. Career titles include meteorologist, oceanographer, seismologist, soil scientist, structural geologist and teacher.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

Global Studies

Global Studies is a multi- and interdisciplinary program designed to increase knowledge and understanding of the processes of globalization and their impacts on societies, cultures, and environments around the world. The Global Studies program provides the student with a knowledge of critical issues that affect their lives and community, as well as the affairs of other cultures, societies, and nations. An understanding of the world’s social, political, economic, and natural systems and their increasing interdependence, along with an appreciation of the diversity of human culture, will supply the student with a strong background for working in a global economy, for living in a multicultural society, and for making intelligent decisions as global citizens.

The goal of the program is to prepare students for further work in international studies and work affairs through the study of other cultures, world history, political and economic systems, world geography and environment, cross-cultural communication and conflict resolution, and modern languages. The Global Studies program is designed to encourage students to become “global thinkers.” They learn how to relate their knowledge of a particular part of the world to the larger trends and issues that affect all societies: the transnational interactions of peoples, cultures, economies, and politics; the globalizing processes of the communication media; technological and environmental changes; law and human rights; the sometimes violent political, ethnic and religious responses to what is perceived as cultural and economic homogenization on a global scale; and the search for a just, sustainable and peaceful world.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

ASSOCIATE DEGREE – 60 UNITS

The Associate degree involves satisfactory completion of a minimum of 60 semester units with a C average or higher including the required units in the area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.

At least 50% of the area of emphasis (major) units must be completed at Santa Monica College.

Each course in the area of emphasis (major) must be completed with a grade of C or higher.

Global Studies (23 units)

Program Learning Outcome: Upon completion of the program, students will possess an increased understanding of the world’s social, political, economic and natural systems and their increasing interdependence, as well as an appreciation of the diversity of human culture, which in turn will enable them to better work in the global economy, live in a multicultural society, and make intelligent decision as
global citizens. Through the subject matter and activities presented in each course in the Global Studies program, students will be able to:

1. Analyze major global challenges from a multi- and interdisciplinary perspective;
2. Identify varying worldviews on the same issues, events, and occurrences;
3. Differentiate multiple perspectives on globalization and their effects on decision-making and behavior (and the individual, community, and national levels);
4. Explain how/why the environmental well-being of the world demands personal and collective responsibility at both the local and global levels;
5. Describe core civic/citizenship values which generate socially responsible behavior at both local and global levels;
6. Explain the interconnectedness of global decisions and events; and
7. Analyze the interdependence among people, groups, societies, governments, and nations in finding solutions to current global problems and conflicts.

Students’ ability to analyze, synthesize and evaluate current world events, conditions and issues will be assessed through quizzes and exams, participation in discussions and activities, and term papers and/or projects.

Graphic Design (40 units)

A Certificate of Achievement in Graphic Design is granted upon completion of 40 units listed under the Graphic Design Associate degree.

Students who successfully complete the Graphic Design Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

DEPARTMENT CERTIFICATE

At least 50% of the required units for a Department Certificate must be completed at Santa Monica College. Students must receive a grade of C or higher in each course to successfully complete a Department Certificate.

User Experience Design (17 units)

The User Experience Design Department Certificate provides a thorough study of user experience design and interaction design. Focusing on designing for the user, research, user experience design, interface design, prototyping, and user-testing, students will learn the methodologies and tools for UX and to design and prototype
for multiple platforms. A Department Certificate in User Experience Design will prepare the students for entry-level positions such as User Experience Designer, Interface Designer, Interactive Designer, Mobile App Designer and Web Designer.

Program Learning Outcomes: Upon completion of the program, students will demonstrate the ability to research, utilize best practices for user experience design, user-test, and apply these tests to the iterative prototyping process. Students will be able to analyze user needs and stakeholder requirements to research, design, prototype, and conduct effective user-testing. Additionally, students will have the skills to effectively communicate with a client and collaborate as a team member.

Required Courses:
- Graphic Design 61, User Experience Design (3)
- Graphic Design 62, User Experience Design 2 (3)
- Graphic Design 65, Web Design 1 (2)
- Graphic Design 66, Web Design 2 (3)

- Graphic Design 67, Web Design 3 (3)
- or
- Graphic Design 76, Mobile Design 2 (3)

Web Design (17 units)
The Web Design Department Certificate provides a thorough study of the design and production of websites at an advanced level. Focusing on design process, user experience, and visual design, students will learn how to design and develop commercial-quality websites.

A Department Certificate in Web Design will prepare the students for entry-level positions such as Web Designer, Web Developer, User Experience Designer, Interface Designer, and Interactive Designer.

Program Learning Outcomes: Upon completion of the program, students will demonstrate the ability to follow a design process that includes research, design, and the production of a commercial-quality website. Students will analyze user needs and client requirements to design and produce a website that communicates and works well on a range of screen sizes. Additionally, the students will have the skills to effectively communicate with a client and collaborate as a team member.

Required Courses:
- CIS 54, Web Development and Scripting I (3)
- Graphic Design 61, User Experience Design (3)
- Graphic Design 64, Digital Imaging for Design I (3)
- Graphic Design 65, Web Design 1 (2)
- Graphic Design 66, Web Design 2 (3) (formerly Entertainment Technology 16)
- Graphic Design 67, Web Design 3 (3)

History
Historians study, assess, and interpret the past to determine what happened and why. They examine court documents, diaries, letters, and newspaper accounts; they conduct research, write, teach, evaluate and make recommendations. Schools, universities, libraries, museums, government offices, and private enterprise are some of the job settings for history majors. Some related career titles include archivist, biographer, congressional aide, Foreign Service officer, FBI/CIA agent, lobbyist, and genealogist agent.

History – Associate in Arts for Transfer (AA-T) to CSU

Upon successful completion of the Santa Monica College AA-T in History, the student will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. This coursework will satisfy most of the lower-division History requirements at many institutions at both the University of California and the California State University State University systems. This degree is intended for students who are interested in the theory of History and are planning on transferring to a four-year university and majoring in History.

Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AA-T in History.

ASSOCIATE DEGREE IN HISTORY FOR TRANSFER TO CSU

The Associate in Arts for Transfer (AA-T) in History is designed to facilitate transfer admission to a CSU campus in History or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

• Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).

• Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).

• Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.

• Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

Interaction Design (IxD)

BACHELOR OF SCIENCE DEGREE

Selected to participate in the pilot California Community College Baccalaureate degree program, Santa Monica College now offers courses that meet the requirements for its new Bachelor of Science (BS) degree in the field of Interaction Design.

Interaction Design blends the fields of design and technology, with a focus on ensuring that products are appealing, effective, and intuitive for their users. Interaction designers work closely with programmers to create smart objects and systems that optimize the user experience. There is strong demand for more interaction designers in today’s high technology industries. This degree will provide students with the skills necessary to enter this well paying and exciting field.

Lower division courses (years 1 and 2) for the degree are currently offered as the requirements for Associate Degree in Graphic Design major with the user experience concentration. Upper division courses (years 3 and 4) will be offered starting Fall 2016.

Students interested in the Bachelor of Science degree in Interaction Design should visit www.smcixd.org for more information and to sign up for email updates about the program.

Interior Architectural Design

Interior Architectural Design is a Santa Monica College award-winning program in the Design Technology Department. Students focus on (1) professional career development, (2) academic transfer, (3) an Associate degree, and/or (4) personal and professional skills useful in the local and international Architecture and Design Industry. The program applies artistic and functional principles and techniques to the professional planning, designing, and furnishing of residential and commercial interior spaces. The program also includes the processes and techniques of designing living, working, and leisure indoor environments as integral components of a building system. The program includes instruction in design, drafting, careers, color coordination, surface materials and textiles, sketching, computer aided design, historical and contemporary furniture and housing, interior lighting, business principles, interior codes, digital rendering, model building, green design, universal design, on-site internships with local trade businesses, and applications to office, hotel, restaurant, and housing design. There are also specialized courses for Set Design and Advanced CAD. Designer careers include homes, kitchens/baths, offices and other retail uses, space planning, remodeling, specifying, sketching, management, staging for real estate sales, consulting, lighting, retail sales, preservation, health care, green design, and accessible, universal design.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

Journalism – Associate in Arts for Transfer (AA-T) to CSU

The Associate in Arts in Journalism for Transfer (AA-T) involves the methods and techniques for gathering, processing, and delivering news, and prepares students to be professional print and multimedia journalists. Included is instruction in news writing and editing, reporting and multimedia story production, professional standards and ethics, and journalism history and research. Careers in this field include book editor, copywriter, film critic, foreign correspondent, freelance writer, online editor, multimedia story producer, journalist, magazine editor, news anchor, newspaper editor, publicist, sportswriter, and technical writer.

Upon completion of the Associate in Arts in Journalism for Transfer (AA-T), students will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. Completion of the degree indicates that the student will have satisfied the lower division requirements for transfer into journalism or similar majors for many campuses in the California State University system.

Major requirements for transfer change frequently. Please access ASSIST at www.assist.org for the most up-to-date requirements.
For the most up-to-date Associate degrees and Certificate of Achievement requirements, visit www.smc.edu/articulation.
Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AA-T in Journalism.

**ASSOCIATE DEGREE IN JOURNALISM FOR TRANSFER TO CSU**

CERTIFICATE OF ACHIEVEMENT

At least 50% of the required units for a Certificate of Achievement must be completed at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement.

Major requirements for transfer change frequently. Please access ASSIST at www.assist.org for the most up-to-date requirements.

For the most up-to-date Associate degrees and Certificate of Achievement requirements, visit www.smc.edu/articulation.
Athletic Coaching (24 units)
A Certificate of Achievement is granted upon completion of the required units listed under the Athletic Coaching Associate degree.

Students who successfully complete the Athletic Coaching Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

Kinesiology – Associate in Arts for Transfer (AA-T) to CSU

The Associate in Arts in Kinesiology for Transfer (AA-T) involves the study of human development, anatomy, physiology, mechanics, and motor learning. Within each subdiscipline, students study stressors—both positive and negative—that govern human performance. In addition, discussions focus on exercise, nutrition, and techniques used to achieve health and wellness. Students develop and integrate the concepts and principles from each subdiscipline to understand the complexity of the human body.

Upon completion of the Associate in Arts in Kinesiology for Transfer (AA-T), students will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. Students who have completed the Associate in Arts for Transfer in Kinesiology will have satisfied the lower division requirements for transfer into Kinesiology or a similar major for many campuses in the California State University system.

Completion of this degree will likely give you priority admission consideration in the majors at the CSU's listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AA-T in Kinesiology.

ASSOCIATE DEGREE IN KINESIOLOGY FOR TRANSFER TO CSU

The Associate in Arts for Transfer (AA-T) in Kinesiology is designed to facilitate transfer admission to a CSU campus in Kinesiology or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements
An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 165 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).
- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

Catalog Rights
Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

Kinesiology (21 units)

Program Learning Outcomes: Upon completion of the program, students will demonstrate skills in anatomy, physiology, kinesiology, and motor learning, as well as an appreciation of the complexity of the human body as it relates to exercise, nutrition, and techniques used to achieve health and wellness.

### Mathematics

Mathematicians use symbolic languages to set up and analyze relationships among quantities and qualities of things, events, and places. Pure mathematicians develop the theories to further the science of mathematics. Possible careers include actuary, computer engineer, cryptographer, satellite communications expert, robotics programmer, statistician and teacher.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

#### TRANSFER

Students planning to transfer to a four-year college should complete the lower-division major requirements and the general education pattern for the appropriate transfer institution. Santa Monica College has articulation agreements for this major with the following UC, CSU, and private institutions. Santa Monica College has articulation agreements for this major (see www.smc.edu/articulation for exact requirements) with the following private and out-of-state institutions:

Loyola Marymount University
B.S. Mathematics

General education requirements for the University of California, California State University and other local universities are listed in the Academics section of this catalog, as well as online (go to www.smc.edu/articulation).

Mathematics – Associate in Science for Transfer (AS-T) to CSU

Upon successful completion of the Santa Monica College’s AS-T in Mathematics, the student will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. This coursework will satisfy most of the lower-division Mathematics requirements at many institutions at both the University of California and the California State University systems. This degree is intended for students who are interested in the theory of Mathematics and are planning to transfer to a four-year university and majoring in Mathematics, Physics, Engineering, or Computer Science.

Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AS-T in Mathematics.

ASSOCIATE DEGREE IN MATHEMATICS FOR TRANSFER TO CSU

The Associate in Science for Transfer (AS-T) in Mathematics is designed to facilitate transfer admission to a CSU campus in Mathematics or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 § 55063).
- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.
CATALOG RIGHTS
Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

Mathematics (21 units)
Program Learning Outcomes: Upon completion of the program, students will demonstrate an appreciation and understanding of mathematics in order to develop creative and logical solutions to various abstract and practical problems. Furthermore, given a mathematical situation, the student will be able to critically analyze it, determine an appropriate strategy to address it, and implement the strategy to find the solution.

Required Courses: (18 units)

DEPARTMENT CERTIFICATES

At least 50% of the required units for a Department Certificate must be completed at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete a Department Certificate.

African and Middle Eastern Studies (16 units)

The African and Middle Eastern Studies Department Certificate prepares students for work with Arabic, Hebrew, Persian, Turkish, French, Spanish and/or Portuguese-speaking populations from Africa and the Middle East in the US and abroad. There are four possible areas of emphasis: liberal arts, international business, health sciences, and dance. This certificate is designed to complement an Associate Degree or Certificate of Achievement. Students will analyze and examine the countries and cultures of Africa and the Middle East.

Program Learning Outcomes: Upon completion of the program, students will demonstrate coherent and comprehensive analyses of the cultural and linguistic diversity of Africa and the Middle East and the differences and commonalities in their world views and systems.

PLEASE NOTE: Students must petition the Modern Languages and Cultures department to obtain a Department Certificate in African and Middle Eastern Studies.

Music

Musicians play, arrange, conduct, and compose musical compositions. Most musicians specialize in either popular or classical music, and are either solo artists or a member of a musical group. Composers create and write compositions expressing ideas of feelings in musical form. Performers are often also composers, or lyricists who write the words to songs and work closely with the composer. In addition to performing many musicians teach instrumental music.

The music curriculum provides educational opportunities designed to meet the needs of students who wish to explore as well as increase their knowledge, performance skills and appreciation of music. This is fulfilled through a program inclusive of applied and group music instruction, history, vocal and instrumental ensembles and theory.

Music History is the study of the historical evolution of music as a social and intellectual phenomenon which includes the development of musical instruments and techniques and the analysis and criticism of musical literature. Students study music around the world during different eras including the roots of the music and the political events that inspired them. Careers include musicologists and music teachers.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

Nursing – RN

This program prepares students to meet the standards of the California Board of Registered Nursing. The program is approved by the California Board of Registered Nursing and accredited by the Accreditation Commission of Education in Nursing, Inc. Upon completion of the program, graduates receive an Associate in Science degree and are eligible to take the National Council Licensure Examination (NCLEX) to become a Registered Nurse. Students are encouraged to follow a transfer curriculum course of study that will enable transfer to BSN programs.

In order to pursue this LVN-to-ADN Career Ladder Program, a student must have a valid California LVN license, IV Certification, and one year of experience in direct patient care within the past two years.

Students seeking admission to the Nursing program MUST meet the following criteria:
- A cumulative grade point average of 2.7 for all college coursework;
- An overall grade point average of 2.7 for the Human Anatomy, Human Physiology, and Microbiology prerequisite courses, taken in the last 5 years, with no grade less than C for each course, and no more than one repetition/withdrawal in the group of courses;
- College-level English composition class (minimum 3 semester units) with a grade no less than C;
- Be in good standing at Santa Monica College (not on academic or lack-of-progress probation);
- Meet the minimum physical qualifications & essential functions (more information at www.smc.edu/nursingmajorpreparation.htm);
- Must have negative criminal background check;
- Must take and achieve the required score on an Admission Assessment; and
- Must have a valid Social Security Number or a valid Individual Tax Identification Number.

Please visit the Nursing website (www.smc.edu/nursing) for additional application and admission information.

Students planning to transfer to a four-year college should complete the lower-division major requirements and the general education pattern for the appropriate transfer institution. **Office Technology**

*Formerly Office Information Systems*

Office workers are responsible for a variety of administrative and clerical duties necessary to run and maintain organizations efficiently. They use a variety of software, produce correspondence, maintain databases, manage projects, as well as organize meetings, manage records, and schedule appointments. Office workers find employment in a variety of settings, such as corporations, government agencies, schools, and hospitals. Some related job titles include office assistant, administrative assistant, executive assistant, and data entry/clerical.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

**ASSOCIATE DEGREE – 60 UNITS**

The suggested program assumes no previous instruction in Office Technology courses. Beginning courses may be waived if students have sufficient skills to be eligible for the advanced courses.

The Associate degree involves satisfactory completion of a minimum of 60 semester units with a C average or higher including the required units in the area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.

At least 50% of the area of emphasis (major) units must be completed at Santa Monica College.

Each course in the area of emphasis (major) must be completed with a grade of C or higher.

**General Office (27 units)**

This program provides training in common skills used in the business office: keyboarding, computer applications, English, accounting, and business communications. General office workers obtain employment in many environments: corporate settings, government facilities, schools, and hospitals. Related job titles include administrative assistant, executive assistant, executive secretary, office assistant, and secretary. After gaining some work experience or specialized skills, many workers transfer to jobs with higher pay or greater advancement potential.

**Program Learning Outcomes:** Using skills in Microsoft Office software, keyboarding, and English language principles, the student will create and revise commonly used business documents. Given transaction data, the student will perform basic bookkeeping/accounting tasks, such as classifying, recording, and preparing financial documents.

**Required Courses: (24 units)**

- Accounting 1, Introduction to Financial Accounting (5)

  or

- Accounting 21, Business Bookkeeping (3)

**Legal Administrative Assistant (27 units)**

Legal administrative assistants perform the administrative tasks in a law office, such as answering the telephone, managing files, preparing law office correspondence and legal documents, and maintaining the calendar. Legal administrative assistants are in great demand. Qualified legal administrative assistants who have strong skills can find lucrative opportunities with law firms and corporate legal departments, government agencies, and a variety of business and industries—such as banks, insurance companies, investment firms, and real estate companies. This program prepares students to pursue employment as a legal administrative assistant. Training is provided in legal terminology, law office procedures, legal research, computer technology, machine transcription and document preparation, keyboarding, and written and verbal communication.

**Program Learning Outcomes:** Upon completion of the program, using transcription equipment, word processing software, and legal terminology skills, students will prepare legal documents that represent correct format, spelling, punctuation, capitalization, and number usage. Applying knowledge of law office procedures, students will demonstrate skills in workplace telecommunications, office and court calendaring, billing procedures, and filing systems.

**Required Courses: (24 units)**

- Business 5, Business Law (3)
- CIS 4, Introduction to Computers, Business Applications (3)
- CIS 30, Microsoft Excel (3) *(formerly CIS 31)*
- CIS 37, Microsoft Word (3)
- CIS 39, MS Outlook – Comprehensive Course (3)

Medical Administrative Assistant (33 units)

This program prepares students for employment in a medical environment. Students develop skills and knowledge to perform a variety of duties to aid in the efficient workflow and operations of a medical related facility. Coursework indicates medical terminology, computer technology, medical law and ethics, and “front office” tasks — such as patient scheduling, reception, coding and billing, transcription, and records management.

Program Learning Outcomes: Upon completion of the program, using knowledge of front office tasks, students will use appropriate procedures related to reception, telephone communications, and records management. Applying computer technology skills, medical terminology skills, and language skills, students will prepare correspondence, produce medical transcripts, and perform tasks related to patient coding and billing.

Medical Coding and Billing Specialist (36 units)

Medical Coding and Billing Specialists are primarily responsible for submitting documentation of patient medical care to insurance companies. Duties include billing insurance companies and patients; collecting payment for services; and documenting tests, treatments, and procedures, using correct medical terminology—referred to as “coding.” This program provides the training that is required to perform these duties.

Program Learning Outcomes: Upon completion of this program, applying knowledge of diagnostic and procedural codes, students will review patients’ medical records and assign appropriate codes for reimbursement and billing purposes. Using a computerized patient billing system, students will enter patient and case information, process transactions and claims, create statements, and produce reports.

to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

DEPARTMENT CERTIFICATES

At least 50% of the required units for a Department Certificate must be completed at Santa Monica College. Students must receive a grade of C or higher in each course to successfully complete a Department Certificate.

Clerical/Data Entry (12 units)

Organizations need to process a rapidly growing amount of information. Data entry workers help ensure the efficient handling of information processing. Duties include inputting data into computers and performing editing, proofreading, and clerical tasks. This certificate program provides training in the essential skills to carry out these tasks. Job opportunities exist in part-time, full-time, and work-at-home positions. Data entry workers are known by various job titles, such as data entry clerk, data entry operator, data entry specialist, and clerk. Data entry jobs frequently serve as stepping stones to higher paying positions with increased responsibilities.

Program Learning Outcomes: Using source materials, the student will use Microsoft Word, Excel, Access, and PowerPoint software to input data. Applying knowledge of grammar, punctuation, vocabulary, and spelling principles, the student will proofread and correct data input.

Medical Records Clerk/Receptionist (15 units)

Employment of medical records technicians is expected to increase by 18 percent through 2016—faster than the average for all occupations, according to the U.S. Department of Labor. The Medical Records Clerk/Receptionist certificate is ideal for students who want to learn the basic skills needed to become employed in a healthcare setting. This certificate prepares students for entry-level records management/receptionists' positions in hospitals, nursing homes, physician offices, and service agencies. Coursework includes training in storing, retrieving, and maintaining medical records; front desk procedures; medical vocabulary; computer technology; keyboarding; and written and verbal communications. With experience and additional education, medical records clerk/receptionists may advance to senior clerks, registered health information technicians (RHITs) registered health information administrators (RHIs), consultants, and educators.

Program Learning Outcomes: Upon completion of this program, using knowledge of recordkeeping systems, students will organize and retrieve patient records using alphabetic, numeric, and color-coded systems. Applying knowledge of front desk procedures, students will demonstrate knowledge of appropriate telephone skills and face-to-face communications.

Required Courses: (11 units)

Medical Transcription (15 units)

This program prepares students to listen to dictated recordings made by physicians and other healthcare professionals and transcribe them into medical reports, correspondences, and other administrative material. Medical transcription is a particularly flexible career that easily lends itself to many different work styles. Medical transcriptionists work in hospitals, physicians’ offices, transcription service offices, clinics, laboratories, and at home. According to the US Department of Labor, employment of medical transcriptionists is projected to grow 21-35 per
Programs in philosophy are designed to develop the reasoning skills needed to understand and evaluate beliefs about man, society, reality, knowledge, truth, values, etc. Skills in thinking and problem solving, research, writing, criticism, and analysis are emphasized. Philosophy programs provide a background for fields such as law, theology, journalism, business, or public service. Some students earn graduate degrees to become college philosophy teachers.

Political Science –  
Associate in Arts for  
Transfer (AA-T) to CSU

The Associate in Arts in Political Science for Transfer (AA-T)  
introduces students to the major fields of study in Political  
Science. The program includes the study of American  
Politics (principles, institutions, and policies). Depending  
on the student’s chosen course of study, the program  
may also include Comparative Politics (institutional  
structures, processes, and political cultures), International  
Relations (structure and operation of the international  
system), and/or Political Philosophy (ideas about human  
nature, power, justice, and the state).

Upon completion of the Associate in Arts in Political  
Science for Transfer (AA-T), students will have a strong  
academic foundation in the field and be prepared for  
upper division baccalaureate study. Completion of the
degree indicates that the student will have satisfied the lower division requirements for transfer into political science or similar majors for many campuses in the California State University system.

Completion of this degree will likely give you priority admission consideration in the majors at the CSU's listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transferring to a UC, private, or out of state university, please consult a counselor before applying to transfer, as transfer requirements might be different than those required for the AA-T in Political Science.

**ASSOCIATE DEGREE IN POLITICAL SCIENCE FOR TRANSFER TO CSU**

The Associate in Arts for Transfer (AA-T) in Political Science is designed to facilitate transfer admission to a CSU campus in Political Science or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution's transfer requirements.

**Associate Degree for Transfer Requirements**

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).
- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/courses may require a higher GPA. Please consult with a counselor for details.

**CATALOG RIGHTS**

Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student's continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

**Political Science (18 units)**

Program Learning Outcomes: Upon completion of the program, students will demonstrate, through written and oral academic work, an understanding of the principles, structure, and processes of the American political system, as well as, depending on the student’s area of focus, an understanding of the institutional structures and processes of other countries, the structure and operation of international relations, and philosophic ideas about human nature, power, justice, and the state.

**Psychology**

Psychologists study the behavior of individuals and groups and try to help people achieve satisfactory personal adjustment. They work with individuals, couples, families or groups. Some engage in teaching or research, while others work with people doing testing, counseling, or treatment in clinics, schools, and industries. Some additional career titles include developmental psychologist, industrial/organizational psychologist, mental health coordinator, and community services worker.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

**TRANSFER**

Students planning to transfer to a four-year college should complete the lower-division major requirements and the general education pattern for the appropriate transfer institution. Santa Monica College has articulation agreements for this major with the following UC, CSU, and private institutions. Exact major requirements for these and other UC and CSU campuses can be found online at www.assist.org. Articulation agreements with private institutions can be found online at www.smc.edu/articulation.

Public Policy

The Associate degree and Certificate of Achievement in Public Policy consist of an interdisciplinary and multidisciplinary course of study that presents an overview of the development and implementation of important public policies affecting the lives of local, regional, and state residents. This program is designed to equip students with the skill and tools to successfully engage in civic debate and to critically evaluate and analyze the development and implementation of substantive public policies, while providing an opportunity to work with governmental and non-governmental organizations and agencies in a direct way.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

ASSOCIATE DEGREE – 60 UNITS

The Associate degree involves satisfactory completion of a minimum of 60 semester units with a C average or higher including the required units in the area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.

At least 50% of the area of emphasis (major) units must be completed at Santa Monica College.

Each course in the area of emphasis (major) must be completed with a grade of C or higher.

Public Policy (20 units)

Program Learning Outcomes: Upon completion of the program, students will demonstrate coherent and comprehensive analyses of the public policies affecting the lives of local, regional, and state citizens, and will be equipped with the skills and resources necessary for participation in civic life, including critical evaluation and analysis of policy options, policy development, and effective implementation strategies.

Additional graduation requirements for the Associate degree from Santa Monica College are listed in the Academics section of this catalog, as well as online (go to www.smc.edu/articulation).

CERTIFICATE OF ACHIEVEMENT
The Public Policy Certificate of Achievement correlates with some of the lower division courses required to transfer into Public Policy, Public Administration, or Political Science programs at several four-year institutions, as well as a broad education for transfer in related disciplines.

At least 50% of the required units for a Certificate of Achievement must be completed at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement.

Public Policy (20 units)
A Certificate of Achievement is granted in Public Policy upon completion of the 20 required units listed under Public Policy Associate degree.

Students who successfully complete the Public Policy Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

Recycling and Resource Management
Recycling and Resource Management is among the largest and most rapidly growing industries in America. As more cities and businesses develop sustainability and zero waste policies, the need increases for personnel who can properly manage resource use and recycling. The Recycling and Resource Management curriculum emphasizes an interdisciplinary approach, exploring recycling and resource management from a variety of perspectives and in a variety of settings. Core curriculum will provide students with an in-depth study of waste diversion and resource management, emphasizing cultural, community, and business applications. Courses cover governmental and organizational policies, practices, and procedures in waste and resource management, including best management practices and successful community and educational zero waste programs.

ASSOCIATE DEGREE – 60 UNITS
The Associate degree involves satisfactory completion of a minimum of 60 semester units with a C average or higher including the required units in the area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.

Psychology 40, Environmental Psychology (3) (same as Environmental Studies 40)

CERTIFICATE OF ACHIEVEMENT
The program requirements for Certificates of Achievement in Recycling and Resource Management are designed to provide students with the skills and knowledge necessary to obtain desirable employment or advancement in the field of recycling and resource management. The program is also designed to provide students with a comprehensive perspective on the role that recycling and waste diversion play in solving global economic and environmental issues.
At least 50% of the required units for a Certificate of Achievement must be completed at Santa Monica College.
Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement.

Recycling and Resource Management (18 units)
A Certificate of Achievement in Recycling and Resource Management is granted upon completion of the 18 required units listed under the Recycling and Resource Management Associate degree.
Students who successfully complete the Recycling and Resource Management Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

DEPARTMENT CERTIFICATE
At least 50% of the required units for a Department Certificate must be completed at Santa Monica College.
Students must receive a grade of C or higher in each course to successfully complete the Department Certificate.

Recycling and Zero Waste (12 units)
A Department Certificate in Recycling and Zero Waste will be granted upon successful completion of the courses listed below.

Program Learning Outcomes: Upon completion of the program, students will demonstrate the ability to plan, implement, and oversee waste management programs aimed at implementing Zero Waste principles and sustainability practices for individuals, businesses, and the communities. Additionally, students will demonstrate the ability to write proposals and policy using correct terminology, principles, and California legislation and regulations regarding waste, recycling, sustainable resource management, and Zero Waste systems.

RM 4, Resource Management and Zero Waste for Business (3)

Note: Golden West College and Irvine Valley College also offer a certificate in this area of study. The courses will be accepted at each institution in the manner shown on the chart below:

Respiratory Therapy
The program is a partnership between Santa Monica College (SMC) and East Los Angeles College (ELAC). Graduates earn an Associate degree in Respiratory Therapy. The program allows the graduate to take the Therapist Multiple-Choice Examination (TMC) and, by achieving a high cut score on the TMC, become eligible for the Clinical Simulation Exam (CSE); passing both exams awards the graduate the Registered Respiration Therapy (RRT) credential. The RRT credential is required for licensure in the state of California.
All of the first-year courses are offered on the SMC campus (except Respiratory Therapy 2 and 21, offered at the ELAC campus).

It is recommended that students who select Respiratory Therapy as their major make an appointment with the RT Faculty Advisor in the Santa Monica College Health Science Department. Applications for the Respiratory Therapy Program can be obtained online (go to www.smc.edu/respiratorytherapy) and from the Health Science Department at SMC’s Bundy Campus. Additional program information and/or an appointment may be made with the Respiratory Therapy faculty by calling (310) 434-3463.
Clinical training occurs in some of the most respected medical facilities in the United States (e.g., UCLA Medical Center and USC University Medical Center). Applicants must have a negative criminal background check and pass a drug screening procedure to participate in any clinical courses. A typical sequence of courses is demonstrated below.

ASSOCIATE DEGREE – 77-79 UNITS
The Associate degree involves satisfactory completion of a minimum of 77-79 semester units with a C average or higher including the required units in the area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.
At least 50% of the area of emphasis (major) units must be completed at Santa Monica College and East Los Angeles College.
Each course in the area of emphasis (major) must be completed with a grade of C or higher.

Respiratory Therapy
Program Learning Outcomes: Students who complete the Respiratory Therapy program will accurately initiate, con-
duct, and modify prescribed therapeutic procedures using clinical data. Graduates will participate in developing and evaluating respiratory care plans, and monitor and record patient response to the care, both in clinical settings and emergency situations.

Prerequisites for application to the program are (33-35 units): Anatomy 1, Physiology 3, Chemistry 10, Microbiology 1, Communication Studies 11 (formerly Speech 1) or 35 (formerly Speech 5) or 37 (formerly Speech 7), English 1, Math 18 or 20, RT 1, RT 2 (offered only at ELAC). Physiology 3 and Microbiology 1 must be completed within 7 years at the time of admission into the RT program.

Sociology

Sociologists study the behavior of humans in groups—families, communities, industrial organizations, and institutions such as schools, hospitals, and social service agencies.
They are concerned with social phenomena, such as social stratification, deviant behavior, effects of mass media, urban organization, educational systems, and mental health. They may specialize in a number of areas, such as organizational behavior, social change, social work, criminology, demography, statistics, research methodology, small groups, the family, race relations, gerontology, urban sociology, medical sociology, sex roles and society, rural sociology, or social theory.

CERTIFICATE OF ACHIEVEMENT

At least 50% of the required units for a Certificate of Achievement must be completed at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement.

Solar Photovoltaic Installation (19 units)

A Certificate of Achievement in Solar Photovoltaic Installation is granted upon completion of 19 required units listed on the Solar Photovoltaic Installation Associate degree.

Students who successfully complete the Solar Photovoltaic Installation Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

DEPARTMENT CERTIFICATE

At least 50% of the required units for a Department Certificate must be completed at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete a Department Certificate.

This Departmental Certificate program offers courses in Solar Photovoltaic System Installation. The required coursework is intended to prepare students for career positions in the home energy services sector, including sizing, design, sales, and installation of solar electric systems, as well as efficiency improvements necessary to reduce and manage power demand and energy consumption. The program provides a foundation for further study and passing of the North American Board of Certified Energy Practitioners (NABCEP) Entry Level Certificate of Knowledge examination in solar power, as well as the foundation for further study and passing of the Home Energy Rating System (HERS) test. The Solar Photovoltaic Installation Department Certificate is designed to prepare students in a strong base of energy education leading to other careers related to Net Zero Energy homes, green buildings and homes, or for design- and/or sales-related positions in and related to the solar power industry.

Program Learning Outcomes: Upon completion of the program, students will be able to define basic terminology, including solar radiation, solar irradiance, solar insolation, solar constant, solstice, equinox, solar altitude angle, solar azimuth angle, and solar incidence angle. Students will be prepared to distinguish between PV cells, modules, panels, and arrays; to identify local and state energy efficiency requirements and incentives for new and existing buildings; and to recommend measures for reducing energy consumption. Students will have the skills to determine a building’s Energy Utilization Index (EUI) and recommend and quantify energy efficiency measures to reduce the building’s EUI. Students will also be able to identify green building design intents and imperatives for achieving quantifiable measures of sustainability, as well as identify safety and health issues related to energy systems, including HVAC, lighting, and renewable energy systems.

Required Core Courses: (12 units)
- Photovoltaic 1, Introduction to Solar Energy Systems (3)
- Photovoltaic 2, Intermediate Photovoltaic Systems Installation (3)
- Energy 1, Introduction to Energy Efficiency (3)
- Energy 2, Energy Efficiency 2: Residential Building Science (3)

Spanish – Associate in Arts for Transfer (AA-T) to CSU

The Associate in Arts in Spanish for Transfer (AA-T) prepares students to interact with the Spanish-speaking world by providing them with a foundation in the language, history, arts, culture, and literatures of the different countries that comprise it. As students complete this program, they acquire knowledge and skills that are applicable to diverse areas of study in the liberal arts, as well as preparation for various professions that provide services or products for Spanish-speakers.

Upon completion of the Associate in Arts in Spanish for Transfer (AA-T), students will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. Completion of the degree indicates that the student will have satisfied the lower division requirements for transfer into Spanish or similar majors for many campuses in the California State University system.

Completion of this degree will likely give you priority admission consideration in the majors at the CSU's listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transferring to a UC, private, or out of state university, please consult a counselor before applying to transfer, as transfer requirements might be different than those required for the AA-T in Spanish.

ASSOCIATE DEGREE IN SPANISH FOR TRANSFER TO CSU

The Associate in Arts for Transfer (AA-T) in Spanish is designed to facilitate transfer admission to a CSU campus in Spanish or a similar major. Students considering transfer to a UC, private, or out of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course
was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).

- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

**CATALOG RIGHTS**

Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s **continuous** enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

**Spanish (18 units)**

**Program Learning Outcomes:** Upon completion of the program, students will demonstrate the ability to speak, understand, read, and write the Spanish language. As evidenced by written and oral communication, students will demonstrate a general understanding of the diverse cultures of Spanish-speaking countries, as well as Spanish and Latin American civilizations from ancient times to the modern era. In addition, students will demonstrate critical thinking abilities by examining issues that pertain to the diverse manifestations of Spanish language and culture throughout the world.

**Required Core Courses:** (15 units)

- Spanish 2, Elementary Spanish II (5)

## Technical Theatre

**See Theatre**

## Theatre

The Technical Theatre Program provides rigorous academic instruction, hands-on practical training, and experimental learning in several areas of technical theatre production. Through coursework as well as practical work on theatrical productions, students are trained in Stagecraft, State Lighting, Stage Sound, Scenic and Prop Construction, Stage Management, Stage Costuming, and Stage Make-Up. Students will work with advanced technology and materials in the use of intelligent lighting systems, audio equipment, video projection equipment, stage machinery, set construction, scenic painting, and costume construction and design. Internship, mentorships, and entry level job opportunities in the industry are made available to candidates who meet and exceed expectations.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

### ASSOCIATE DEGREE – 60 UNITS

The Associate degree involves satisfactory completion of a minimum of 60 semester units with a C average or higher including the required units in the area of emphasis (articulated below), fulfillment of the Global Citizenship requirement, and fulfillment of all Santa Monica College general education requirements, CSU GE, or IGETC.

At least 50% of the area of emphasis (major) units must be completed at Santa Monica College.

Each course in the area of emphasis (major) must be completed with a grade of C or higher.

### Technical Theatre (19 units)

**Program Learning Outcomes:** Upon completion of the program, students will be able to evaluate and appreciate a theatrical performance by recognizing the inherent components that go into creating theatre, including the research involved, the collaboration among designers and directors, the rehearsal process, and the technical skills involved in making a play come to life. In addition,
students will hone design and technical skills leading to performance in the capacity of at least one of the following: Stage Manager, Set/Light/Sound/Costume/Make-Up Designer, Stage Technician.

**Required Introduction/History courses: Select 3 units from the following:**
- Theatre Arts 2, Introduction to the Theatre (3)
- Theatre Arts 5, History of World Theatre (3)

**Required Stagecraft Course:**
- Theatre Arts 20, Stagecraft (3)

**Required Production Workshop courses: Select 3 units from the following:**
- Theatre Arts 18A, Technical Theatre Production Workshop (1)
- Theatre Arts 18B, Technical Theatre Production Workshop (2)
- Theatre Arts 18C, Technical Theatre Production Workshop (3)

**Elective Courses: Select at least 10 units from the following:**
- Theatre Arts 21, Scenic Painting Techniques (3)
- Theatre Arts 22, Stage Lighting (3)
- Theatre Arts 25, Introduction to Theatrical Sound (3)
- Theatre Arts 26, Introduction to Stage Costuming (3)
- Theatre Arts 28A, Beginning Stage Make-up (1)
- Theatre Arts 28B, 3D and Theatrical Styles Make-up (1)
- Theatre Arts 31, Introduction to Stage Management (3)
- Theatre Arts 32, Scenic Design (2)

**CERTIFICATES OF ACHIEVEMENT**

At least 50% of the required units for a Certificate of Achievement must be completed at Santa Monica College.

Students must receive a grade of C or higher in each course to successfully complete a Certificate of Achievement.

Students who successfully complete the Technical Theatre Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

**Technical Theatre (19 units)**

A Certificate of Achievement in Technical Theatre is granted upon completion of 19 required units listed on the Technical Theatre Associate degree.

Students who successfully complete the Technical Theatre Certificate of Achievement may elect to receive an Associate degree by satisfying additional general education requirements listed on the Associate degree.

Theatre

The program provides instruction and training in the field of Theatre Arts. A comprehensive curriculum in areas of Acting, Voice, Movement, Theatrical Styles, Theatre History, Production and Technical Theatre prepares students for university transfer and future careers. The program seeks to empower students at all levels to hone their performance, technical or critical/analytical skills through active and rigorous engagement in their areas of study. The program makes effort to instill a sense of responsibility in students and a desire for excellence in their craft.

The department’s curriculum focuses on providing education and experience towards mounting theatrical productions. Performance related classes one skill enabling the actor to audition and perform with confidence. Technical Theatre classes provide students with the knowledge and skills to tackle various aspects of technical theatre. Department productions are student cast and run by student crews.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.

**TRANSFER**

Theatre Arts – Associate in Arts for Transfer (AA-T) to CSU

Upon successful completion of the Santa Monica College AA-T in Theatre Arts, the student will have a strong academic foundation in the field and be prepared for upper division baccalaureate study. This coursework will satisfy most of the lower-division Theatre Arts requirements at many institutions at the California State University system. This degree is intended for students who are interested in the theory of Theatre Arts and are planning on transferring to a four year university and majoring in Theatre Arts. This degree complies with The Student Transfer Achievement Reform Act (Senate Bill 1440).

Completion of this degree will likely give you priority admission consideration in the majors at the CSU campuses listed below. In addition, you will need to complete no more than 60 semester/90 quarter CSU units of coursework after transfer to complete your degree. If you are considering transfer to a UC, private, or out-of-state university, please consult a counselor before applying to transfer, as that institution’s transfer requirements might be different from those required for the AA-T in Theatre Arts.

ASSOCIATE DEGREE IN THEATRE ARTS FOR TRANSFER TO CSU

The Associate in Arts for Transfer (AA-T) in Theatre Arts is designed to facilitate transfer admission to a CSU campus in Theatre Arts or a similar major. Students considering transfer to a UC, private, or out-of-state school should consult a counselor regarding that institution’s transfer requirements.

Associate Degree for Transfer Requirements

An Associate Degree for Transfer is granted upon successful completion of a program of study with a minimum of 60 CSU-transferable semester units, including:

- Completion of the area of emphasis with a grade of C or higher in each course, or with a P if the course was taken on a Pass/No Pass basis, and the P is equal to a C or higher (Title 5 §55063).
- Certified completion of either CSU GE Breadth or IGETC. (Please note: Students transferring to CSU must complete IGETC Area 1C; see www.smc.edu/articulation or visit the Transfer/Counseling Center for more information).
- Completion of a minimum of 12 semester units of degree-applicable coursework at Santa Monica College.
- Maintaining a minimum grade point average (GPA) of at least 2.0 (C) in all CSU-transferable coursework. Note that while a minimum GPA of 2.0 (C) is required for admission, some majors/campuses may require a higher GPA. Please consult with a counselor for details.

CATALOG RIGHTS

Catalog rights dictate that a student may satisfy the requirements of a degree or certificate by completing the general education and major/area of emphasis requirements in effect at any time of the student’s continuous enrollment. Continuous enrollment is defined as enrollment in consecutive Fall and Spring semesters until completion.

CSU GE CERTIFICATE OF ACHIEVEMENT
To receive a CSU GE Certificate of Achievement, at least 50% of the units must be completed at any, or any combination of, California Community College(s). A minimum grade of C (2.0 on a 4.0 scale) is required for all other areas of the CSU GE pattern. The minimum overall GPA on the CSU GE pattern must be a C (2.0 on a 4.0 scale), and complete certification is required to receive a CSU GE Certificate of Achievement.

Students must meet all certification eligibility requirements to qualify for the Certificate of Achievement.

IGETC CERTIFICATE OF ACHIEVEMENT
To receive an IGETC Certificate of Achievement, at least 50% of the units must be completed at any, or any combination of, California Community College(s). A minimum grade of C (2.0 on a 4.0 scale) is required for each course applied to the IGETC Certificate of Achievement, and complete certification is required to receive an IGETC Certificate of Achievement.

Students must meet all certification eligibility requirements to qualify for the Certificate of Achievement.

Transfer Studies
The Transfer Studies Associate degree is available to students who enrolled at SMC in Spring 2008 or earlier and who have maintained continuous enrollment. (See page 56 for definition of continuous enrollment.) For Transfer Studies Associate degree requirements, please see the 2007-08 SMC catalog.

Women’s Studies
The Women’s Studies area of emphasis studies the history, sociology and politics of women in society. The area of emphasis examines the oppression of women throughout history, and also the ways in which women have taken power over their lives. Students will better understand the impact of women and gender on various cultures at various times and evaluate changing social patterns and the effects of institutions and cultural assumptions. The Women’s Studies area of emphasis can lead to a variety of careers including a community organizer, political lobbyist and political strategist. This degree may also prepare the student for further study at the baccalaureate level.

For additional career possibilities, visit the Career Services Center on the main campus to utilize computerized career information systems and other valuable career resources.
