SMC Redefines Tomorrow with New Academic Programs

Homeless Service Work

FORGING THE FUTURE

Introducing SMC's latest innovative programs

Spend just a few minutes with the students in Santa Monica College's new biotechnology program and you're instantly struck by two things. First is the palpable excitement among the students—not just for the lab work they're performing at the moment, but also for their futures in the field.

"I want to go into virology," shares Britney Musa, one of the students. The 23-year-old Los Angeles resident explains what they're currently exploring in class: virus-like particles that are created in the lab and can deliver lifesaving—and possibly life-changing—solutions. Britney notes how this innovation

addresses healthcare challenges where disease-carrying cells disarm the body's natural immune system.

"I always thought that these cells were almost impossible to fight against because they evolve rapidly," she adds. "But this makes me hopeful that we can find new ways to help people."

Another student, Mario Medrano, talks candidly about how the loss of his aunt to cancer set him on the path to being an oncology nurse. But that changed last fall when he learned that SMC was launching a new program in biotechnology, a field Mario had been interested in, but never felt he had access to.

"I discovered a new possibility," Mario says of the program, which is helping him dream big. He plans on launching his own biotechnology startup someday, and maybe even help develop a cure for cancer. "Not just some cancers," he adds, "but a treatment that could work for all."

The other thing you can't help but notice about the class is who's in it. Unlike many advanced STEM classes, SMC's inaugural biotechnology class is remarkably diverse: approximately 30 percent are Black/African American, 25 percent are Latinx, and 25 percent of the students are over age 30.

Those figures are a promising sign of things to come for biotechnology, a field still working to increase diversity in its numbers. Black and Latinx professionals remain underrepresented at every level of the industry compared to their representation in society, as reported recently. And even though women now comprise almost half of employees in the biotechnology field, Black and Latinx women still report significant challenges due to gender and race.

SMC's Future Oriented Approach to New Careers

Finding one's passion—that one job that's perfect for you, the kind that makes you want to jump out of bed in the morning—can feel like a massive undertaking. But what happens when you do find the field of your dreams, only it's one where you feel like you don't belong?

Those are the sorts of tough questions that SMC helps students answer, using a future-oriented approach to identifying the most promising new careers. And, just as importantly, mapping out the best path to take to get there.

“That's our North Star,” says Dr. Patricia Ramos, SMC's dean of Academic Affairs, who oversees the Office of Workforce and Economic Development. “We want to be certain that students are well-prepared for jobs based on demand and need. So we invest in new program development where it makes sense—in areas where our students will be successful and thrive when they complete a program here at SMC.”

“Every program is unique,” adds Jason Beardsley, SMC vice president of Academic Affairs. “But the common factor for program success is our faculty. They lead the way in developing curriculum for the programs that meet the needs of our students and workforce demands in a given sector.”

He and Dr. Ramos, along with the rest of the Office of Workforce and Economic Development, are making it a priority to collaborate with department chairs, faculty members, and even community partners to get the ball rolling in building out academic programs for potential new careers. The Office acts as a thought partner, offering guidance, research, and support to faculty members seeking

to develop a new curriculum or program. This partnership pays off with the creation of fresh, innovative academic programs that focus not just on preparing students for the careers of the future, but also making them easier to reach.

“It's about creating new opportunities,” notes Steven Sedky, SMC's interim associate dean for Career Education, “especially for SMC students who are the first in their family to go to college or who come from under-resourced communities. So when we develop new programs, we build in the supports and resources students need to thrive in a given field.”

Aquaculture and the Blue Economy

Innovation also happens not just inside labs, but also out in the field—or, technically, the waters. The ever-expanding “blue economy”—which focuses on the sustainable use of ocean resources for economic growth, improved livelihoods, and jobs—has tremendous potential to impact future generations, with breakthroughs in areas

like renewable energy, fisheries, and marine biotechnology. Experts estimate the global blue economy's value to double to \$3 trillion over the next decade.

That growth is creating an increased demand for skilled workers in a range of fields, from living resources to tourism and recreation. Just ask Dr. Alexandra Tower, who served until recently as chair of the SMC Life Sciences Department.

"I recently went to an industry conference," Dr. Tower recalls, "and many of the people there were talking about how great the industry is. But they also talked about how they've been at it since the 1970s. Now they're ready to entrust their work to the next generation."

"That's why we need people now," adds Dr. Garen Baghdasarian, the current Life Sciences Department chair. "And we're going to need even more people in the future."

"This is a two-level certificate program designed to be as broad as possible so students could choose their own path based on what they love," observes Ferris Kavar, SMC Sustainability Manager. "Certain elements such as entrepreneurship, engineering, or hands-on work underwater—all are part of what we have envisioned."

In addition to preparing students for this rapidly growing industry, Dr. Tower also hopes the new program will spark greater interest among students historically underrepresented in aquaculture—a field that may seem daunting and alien to many.

"For so many of us, the ocean might as well be another world," she muses. "So that's what we're hoping to accomplish with this program: Make a career in aquaculture less like a dream of another world and more of a reality."

Careers to Improve Our Communities

The careers of the future aren't just in STEM fields. In fact, some of the most important and meaningful work is happening outside on the streets, where workers serving the homeless offer support, resources, and hope to unhoused individuals.

Slated to launch this fall, SMC's Homeless Service Work Certificate Program is designed to prepare students for an entry-level position in the homeless service field. The coursework incorporates an overview of housing policies, as well as an analysis of health equity in the field and best practices in connecting clients to—and helping them navigate

APPLYING FOR ADMISSION

Continuing students do **NOT** have to reapply for admission. If you have never attended Santa Monica College (**new student**), or have been away for two or more consecutive semesters (**returning student**), you must first:

- File an application for admission online (go to smc.edu/apply, click on “New Students,” then click on “Apply to SMC” to get started);
- At least four weeks before the start of the session, **arrange for transcripts** of previous college work (or high school work, if no college work was completed) **to be sent directly to the Admissions Office**. Copies issued to a student (even if in a sealed envelope) will NOT be accepted.

You will be emailed an admission letter. Please review it for information on resident status for tuition/fee purposes, any outstanding admission issues, orientation, placement, education planning/counseling, and enrollment.

All regularly admitted first-time SMC students are required to complete the math and English placement process (or the ESL placement process), complete the online college orientation, and prepare an education plan (see smc.edu/myedplan for details). Once done, you will be able to enroll for classes through Corsair Connect at smc.edu/cc on the date and time of your enrollment.

International Students

Santa Monica College defines an “international student” as a student attending the College while in F-1 or F-2 visa status. The international student application is available online (go to smc.edu/iapp). ENGLISH, ESL, AND MATH PLACEMENT

Assembly Bill 1705 requires California Community Colleges to help students enroll in and complete transfer-level coursework in English or ESL and math, which is within one year for English and math, and within three years if the student starts with ESL. You will be placed in **English (or ESL)** and **math** based on either your prior work or a guided self-placement, depending on when and where you completed your prior work.

If you have graduated from a United States high school or earned a GED® in the United States:

- You will be placed using multiple measures that include your high school GPA, courses, and grades reported on your CCCApply admission application.
- **You may check your placement once you have activated your Corsair Connect account at smc.edu/cc.** Just log in, click the “Placement” badge (under the “Success Steps” card), and review your placement. If you do not see courses listed, your SMC admission application is missing some necessary information. Follow the instructions on the screen, enter the information requested. Once done, you will see your placement.

If you did not graduate from a United States high school or did not receive their GED® in the United States, or graduated high school in another country:

- You will be placed using “guided self-placement,” a set of online tools that help evaluate how prepared you are with the skills you are expected to have before starting a particular math, English, or credit ESL class. To be guided to the best class for your needs, it is important that you read everything presented to you carefully, and that you answer honestly.
- To access the guided self-placement tools, log on to Corsair Connect at smc.edu/cc. Then click the “Placement” badge (under the “Success Steps” card) and follow the instructions on the screen.

Plan on completing your English and math placements together. You may take each guided self-placement only one time.

Please note: The math self-placement presents six (6) options based on your academic and career path (major) or the course you are interested in taking. If you are not sure which option to choose, check with a counselor. You may take any of the math guided self-placements only one time.

About Your English, ESL, and Math Placements

For English, depending on your placement, you will start in one of two ways: (a) directly in English 1, a transfer-level course; or (b) directly in English 1 paired with English 28, a supporting course. In some instances, you may also be encouraged to take another reading or grammar supporting course. See page 51 for the English Course Sequence.

Some students may need to be placed in selected ESL courses. Depending on your placement, you will start with one of the following courses: ESL 10G and ESL 10W, ESL 11A, ESL 19A, ESL 19B, or English 1. ESL 19A, ESL 19B, and English 1 are CSU/UC transferable courses. See page 51 for the English Course Sequence and page 57 for the ESL Course Sequence.

For math, depending on your placement, you will start in one of two ways: (a) directly in a transfer-level math course, or (b) directly in a transfer-level math course paired with one supporting course. According to AB 1705, students may not be required to repeat courses they completed in high school with a C- or higher grade. If your English or math placement in Corsair Connect places you into a class you already completed, please meet with a counselor to discuss your case. A counselor may issue you a waiver and place you into the appropriate course for your program of study. See page 77 for the Mathematics Course Sequence.

Assembly Bill 1805 permits students to view annual placement statistics for English, ESL, and mathematics. These are available at smc.edu/successcenter.

Other Placement Services

Santa Monica College will continue to offer limited assessment services for the Chemistry 10 challenge exam and math proficiency for graduation. You must have already applied for SMC admission, and must present a valid government-issued photo identification (e.g., driver license, passport, military ID). Test preparation materials are available online at smc.edu/successcenter.

The Success & Engagement Center (formerly the Assessment Center) is located in Student Services Center S145. The Center offers limited testing services on a walk-in, first-arrival basis. Please check our website (smc.edu/successcenter) or call 310-434-8040 for up-to-date information on office and testing hours.

Is Placement Required?

Completing the placement process in English or ESL and in math is **mandatory** if you are:

- A first-time college student enrolling in more than six units during your first semester at SMC; or
- A continuing student who has not completed the placement process; or
- Enrolling in an English, ESL, or math course for the first time (even if not a first-time college student); or
- Enrolling in courses with required English or math preparation (prerequisites).

Based upon your placement results, you will receive an English, ESL, or math placement recommendation.

Placement Exemptions & Placement and Prerequisite Waivers

You may be exempt from the placement requirement and may also be granted placement and prerequisite waivers — as well as credit — for selected English, ESL, math, and chemistry courses under specific circumstances. Please see our webpage (smc.edu/waivers) for an overview, then consult with a counselor in General Counseling & Transfer Services for details.

Please note: Although you may be exempt from the placement process, you still must successfully complete — or receive waivers for — any prerequisite courses that are required for classes in English (or ESL), math, Anatomy 1, Biology 21/22/23, Chemistry 11/12/21/22/24, Film 31/32/33/34, Microbiology 1, Nursing 17, Physics 7/9/22/23/24, and Physiology 3 (among other courses). For further information, please consult with a counselor in General Counseling & Transfer Services.

ABOUT YOUR TRANSFER UNITS

Many students use Santa Monica College as the freshman and sophomore years of a four-year college plan. SMC is a leader in transferring students to their junior year at four-year colleges and universities, including the UC and CSU systems. Each of these institutions has a list of courses that must be completed to:

- satisfy general education requirements,
- satisfy lower-division pre-major requirements, and
- satisfy elective requirements.

How credit for an SMC course transfers to your future school depends on how that school will accept the course, and how clearly defined your transfer goal is.

You can look up transfer information yourself (go to assist.org for details), but you will find it much easier to talk to a counselor in the Counseling Department. To schedule an appointment with a counselor, please call 310-434-4210.

STUDENT-ATHLETES PLEASE NOTE: *If you plan to transfer with an athletic scholarship*, please see an athletic counselor for a list of requirements and to arrange for continuous counseling while enrolled at SMC.

ACCESSIBILITY ADVISORY

SMC will relocate classes to accommodate individual students with specific disability-related access needs. To initiate this process, please contact the Center for Students with Disabilities at 310-434-4265 (voice) or 310-434-4272 (fax).

The path of travel from the public bus stops on Centinela to the Bundy and Airport Arts campuses is a steep grade that may be inaccessible for some with mobility limitations. However, the Sunset Ride — an accessible public bus line — which transfers from Big Blue Bus Line #14, stops inside the Bundy Campus.

In addition, the following rooms have access restrictions: Art building: Accessible restrooms require an access key; go to the Center for Students with Disabilities (Student Services Center S155) or call 310-434-4265.

Access keys are required for elevators when classes are not in session in the Business, Art, and Student Activities buildings, as well as for the Gym basement elevator.

Enrollment starts in late April.

Fall classes begin Monday, Aug 26, 2024.

night before the first class meeting. If the class is full, you will need an Instructor Authorization Code.

Please note: If a class is closed and the term has not started, please keep trying, as the class will re-open if space becomes available. Join the open seat class notification list or the wait list (see relevant sections below). For more information about the enrollment process, please see smc.edu/enroll.

ENROLLMENT BY WEB

You may enroll by web on or after the enrollment date and time listed for you. You can enroll from any computer in the Admissions Office lobby. You may also enroll from home if you have Internet access.

1. Go to smc.edu/cc
2. Enter your username and your password
3. Follow the instructions provided.

To confirm that the classes you selected have been added, click on “Student Records” under Home & Profile in the menu on the left, then click “View Enrollment Transaction Receipt.” If the receipt is correct, print out a copy. **You must have this printout to contest any discrepancies.**

For payment information, see the PAYMENT POLICY section.

ABOUT PRIORITY ENROLLMENT

You are STRONGLY encouraged to enroll as close to your assigned date and time as possible, since students who come after you in priority will quickly fill the classes you need if you wait too long.

State and local regulations, combined with other factors, determine the order in which your enrollment date and time are assigned. It is important complete the SMC placement process, online orientation, and education plan requirements as soon as possible — especially if you are pursuing a degree, certificate, or transfer, or you are a first-time college student — because the sooner you do so, the sooner you will receive your enrollment appointment.

LOSS OF ENROLLMENT PRIORITY

You may lose your priority enrollment status if you do not complete SMC’s online orientation (see smc.edu/orientation), placement process (go to smc.edu/cc and click the “Placement” tab), or an abbreviated education plan if you are a new or first-time-in-college student, or a comprehensive education plan if you are a student who will have either earned 15 degree-applicable units by the end of the term or will have completed a third semester (whichever comes first; see the information at smc.edu/myedplan). You will also lose priority enrollment if you are on academic or progress probation for two consecutive semesters/terms, or you accumulate excessive units, or you are found responsible for violating provisions of the SMC Rules for Student Conduct, such as holding or selling seats in a class. For more information, please refer to smc.edu/admissions (click on “Policies and Procedures Index” under the Policies section).

OPEN SEAT NOTIFICATION

If you wish to take a course, but the section you want is already closed, you may sign up for an Open Seat Notification list up to two weeks before the term starts. You will receive a notification if a seat becomes available. A notification does NOT mean you are enrolled in the course. When you receive a

notification, it is YOUR responsibility to go to Corsair Connect at smc.edu/cc and enroll in the class. You may also unsubscribe from the Open Seat Notification list up to two weeks before the term starts. Notification lists expire two weeks prior to the start of the term (always on a Monday at 12:01 a.m.).

WAITLISTS

You may be given the opportunity to join a waitlist for a class section, starting two weeks before the term begins (always on a Monday at 12:01 a.m.). You will be able to track your status on the waitlist through Corsair Connect at smc.edu/cc. The waitlist is provided to faculty, who can add students to the class if there are seats available once the class starts. If you are on a waitlist, you will receive a notice by email if a seat has become available, and may enroll in the course on a first-come, first-served basis. Please visit smc.edu/enroll for more details about the waitlist process.

SMC STUDENT I.D. CARD

You may obtain one SMC student I.D. card FREE of charge through the Cashier’s Office. Instructions on how to request your I.D. are available at smc.edu/cashier. If you lose your card, a replacement card may be purchased at the Cashier’s Office for \$20. Your SMC student I.D. provides a convenient way to check out materials from the SMC library and access the campus tutoring labs and learning resource centers, as well as purchase discount tickets for selected student events or activities.

SMC STUDENT EMAIL

Santa Monica College uses Google Gmail to provide each SMC student with a FREE email address. Go to smc.edu/google for more information. CHECK YOUR GMAIL ACCOUNT OFTEN, as this is where SMC will send all official communication from the College to you. SMC email addresses may be restricted at the College’s discretion at any time.

NOTE: Your @student.smc.edu email address is NOT permanent, and will be disabled after a period of nonenrollment. DO NOT link or associate your SMC student email address with personal and non-SMC related services, including Facebook, Twitter, Instagram, etc., as well as your bank account(s) and ATM and credit cards. Also, DO NOT use your SMC student email address for purchased apps/services.

You may opt out of paying the Student Representation fee through Corsair Connect (Fees & Payments tab).

Some classes require additional fees for materials and supplies. Consult the class listings in this schedule to determine whether any such fees are required. Please note that these fees are NOT refundable.

ON-CAMPUS AND SATELLITE CAMPUS VIRTUAL PARKING PERMITS

A virtual on-campus parking permit does NOT guarantee you a parking space. What a virtual parking permit does is entitle you to use on-campus student parking areas on a space-available, first-arrival basis. NOTE: Your virtual parking permit is for ON-CAMPUS PARKING ONLY — it is NOT a residential (street) parking permit.

For parking at **SMC's main campus, SMC Performing Arts Center (PAC), or the SMC Center for Media and Design (CMD)**, you MUST purchase a virtual parking permit for \$50 for the fall semester. The permit price includes the City of Santa Monica 10% parking facilities tax. The virtual parking permit provides access to parking lots at ALL SMC campuses.

You may purchase virtual parking permits online through Corsair Connect at smc.edu/cc. If you have been awarded a California College Promise Grant for the academic year, you may purchase a virtual parking permit for \$18 (which includes the City of Santa Monica 10% parking facilities tax) at the Cashier's Office.

Parking at **SMC Airport Arts, Bundy, and Malibu campuses** is FREE, but REQUIRES A VIRTUAL PARKING PERMIT. You may request virtual parking permits online through Corsair Connect at smc.edu/cc.

PLEASE NOTE: Student virtual parking permits are NOT valid for faculty/staff parking areas.

Accessible Parking: The display of a DMV accessible placard AND registration for an SMC virtual parking permit entitles you to park in any accessible, student, or staff parking space.

An important caution: Car alarms are disruptive to other students and our neighbors. Cars with activated alarms in the SMC parking areas will be TOWED IMMEDIATELY at YOUR expense.

BIG BLUE BUS (BBB) AND METRO TAP CARDS

As an SMC student, you can ride ANY Big Blue Bus or Metro bus or train ANY time — at NO EXTRA COST! — if you are currently enrolled and have paid the Student Benefits fee. Visit smc.edu/transportation for details on how to get your TAP card.

WITHDRAWAL REFUND SCHEDULE

See "Academic Policies" on page 128 for information on withdrawal refunds. Withdrawal refund deadlines

appear next to each enrolled class listed in your Corsair Connect account.

Work Study funds and the California College Promise Grant (CCPG) are available for the fall semester (go to smc.edu/financialaid for details). Please note: The California College Promise Grant and SMC Promise Program do NOT cover upper-division coursework fees.

You can pay your fees by using a MasterCard, Visa, Discover, or American Express credit card at the same site where you enroll. For other payment options, see the "How to Pay" information.

Please see smc.edu/fees for payment deadline dates and other related information. It is YOUR responsibility to drop any courses you do not wish to continue. If you do not drop the courses by the refund deadline — even if you never went to class — you will be responsible for paying the fees and will not be able to enroll in future terms until all fees are paid. A hold will also be placed on your records, which prevents you from receiving enrollment verification, diplomas, etc. See smc.edu/fees for the latest details.**

Accounting

General accountants examine financial records of municipal, county, state, and federal agencies for compliance with laws. They record transactions, such as receivable, payable, payroll, property into a general ledger. Corporate accountants set up and design accounting/bookkeeping systems and procedures, risk management programs, tax law and finance methods, record financial transactions, and analyze and evaluate financial records for businesses. Their duties include interpreting financial information and preparing reports for business executives and government regulatory agencies. Advancement includes senior accountant, controller, treasurer, and chief financial officer positions.

Some of the courses listed in this section are accompanied by Supplemental Instruction. Supplemental Instruction (SI) is an academic assistance program that utilizes free peer-assisted weekly study sessions to help students learn the most difficult course content. For more information, please see the SI website at smc.edu/si.

Art History

Art History is the study of art created in the past by individuals from various cultures and parts of the world. It is the study of the historical development of art as social and intellectual phenomenon, the analysis of works of art and art conservation. Students study specific periods, cultures, styles and themes. The art historian seeks to interpret and understand works of art of many types, ranging from the monumental to small scale, by learning about artists' lives and their societies. Students are prepared for a wide range of professional careers — in museums, galleries, auction houses or publishing, including antique dealer, art appraiser, art dealer, art restorer and museum curator.

Astronomy

Astronomers and astrophysicists study the contents of our universe, including planets, stars, galaxies, and even the universe in its entirety. They are essentially physicists who specialize in using the fundamental laws of nature and the techniques of mathematics to understand our place in the cosmos. Astronomers design and build telescopes and other scientific instruments to collect data from astronomical objects. They then apply the techniques of scientific data reduction and analysis to extract the information from the data collected. While many astronomers and astrophysicists end up in academia, their unique skills are in great demand in many other fields including, aerospace, engineering, computer science, software development, information technology, financial services, education, and public outreach.

Biological Sciences

Coursework and study in the biological sciences provides a foundation for future employment in many of the fastest growing and emerging STEM (Science, Technology, Engineering and Math) fields today. Students of biology are at the front lines of many of the most critical questions our society is facing in the 21st century and beyond, including addressing climate change, the biodiversity crisis, resource management and population growth, emerging/infectious diseases and public health. Students of biology become lab technicians, nurses, genetic counselors, physicians, environmental scientists, landscape architects, state and national park rangers, researchers in agriculture, pharmaceuticals and biotechnology, teachers and college professors. Logic and critical thinking skills developed as a student of biology are applicable to nearly every field and every discipline and provide a foundation for making informed personal, business and public policy decisions. Students must be present for the first session of biological science classes to be assured of admission to limited laboratory spaces. Students who wish to enroll in a Life Sciences course must demonstrate that they have met the prerequisites for the course prior to enrollment. Continuing students must complete prerequisite courses with a C or better. If currently enrolled in a prerequisite course at SMC at the time of enrollment, students will be admitted to subsequent courses based upon midterm placement results, but will be dropped if the prerequisite course is not completed with a C or better. Students who have successfully completed one or more prerequisite courses (earning a grade of C- or better in both the lecture and lab courses and an average of C (2.0) or better overall) at another institution may be able to verify having met the prerequisites by submitting a transcript and course description and course syllabus for the prerequisite courses.

ANATMY 1, GENERAL HUMAN ANATOMY **4 UNITS**
 Transfer: UC, CSU
C-ID: BIOL 110B.
IGETC AREA 5B (Biological Sciences, + LAB)

• Prerequisite: ENGL 1.

This course is an intensive study of the gross and microscopic structure of the human body including the four major types of tissue and their subgroups, and the following organ systems: integumentary, skeletal, muscular, circulatory, respiratory, digestive, urinary, reproductive, endocrine, nervous, and sensory. Functions of the organ systems are included at the introductory level to prepare students for a course in Human Physiology. Laboratory assignments develop the skills of observation, investigation, identification, discovery and dissection. The use of actual specimens, including cat dissection and observation of a human cadaver, is emphasized to assure that students learn the relative structure, functions, textures and variations in tissues not incorporated in models. Supplemental materials such as models, photographs, charts, videotapes, and digitized images are also provided. This course is required for students preparing for many Allied Health professions including, but not limited to, Nursing, Respiratory Therapy, Physical Therapy, Physical Education and Kinesiology Training, and Physician's Assistant and is a prerequisite for Human Physiology 3.

Communication Studies

Communication Studies offers students courses that combine theory and application in many areas of the discipline. These courses encourage our students to apply conceptual material to daily interactions in a variety of communication contexts. In addition, our discipline provides a wide range of course offerings in the Communication Studies major. Oral Communication focuses on the skills and knowledge needed for creating effective and appropriate public communication skills. Courses include public speaking, oral interpretation of literature, persuasion, group communication, argumentation, and competitive speech and debate. Students completing courses in oral communication gain practical skills in researching, developing and presenting ideas and arguments in a variety of contexts preparing them for upper division, workplace, and personal presentations. Communication Theory focuses on human communication theory, especially as it relates to the interpersonal and/or group levels of communication. Courses in this area include interpersonal, group communication, intercultural communication, gender and communication, communication theory and research methodologies. Students completing courses in the communication theory area learn theoretical knowledge to prepare them for transfer into communication studies programs at the university and practical communication skills to improve their own interpersonal effectiveness.

ESL – English as a Second Language

English for Second Language Speakers courses are designed specifically for students whose first language is not English. SMC offers three different ESL programs: 1) Credit ESL courses focus on academic skills needed for success in college (reading textbooks, listening and notetaking, writing papers with citations, speaking in class in small groups, and making presentations). Faculty assist students in the development of grammar, vocabulary, paraphrasing, and summarizing skills within the context of themes or academic content. ESL 19A and 19B are CSU and UC transferable (up to 8 units). 2) Noncredit ESL courses focus on college and career readiness and developing the skills needed for life and work in the US. Noncredit ESL courses are free to students, except those studying on an F-1 visa. These courses do not carry any academic credit. 3) Intensive ESL (offered through SMC's Community Services Program in conjunction with International Education) offers multi-skills courses to prepare international students for entry to Santa Monica College. Student work is graded, but courses in the Intensive ESL Program do not receive academic credit. These courses are offered for a fee.

For the following classes, placement is required to determine class placement. See smc.edu/successcenter. Most sections of ESL classes require access to a computer and the Internet.

 IGETC AREA 4 (Social & Behavioral Sciences)

- Satisfies Global Citizenship

This course will focus on the theory and application of psychological principles as they relate to the causes of, and potential solutions to, current global environmental problems. Modern ecological issues (such as global climate change, habitat-loss, etc.) have their historical origin in human behavior; this class will focus both on relevant causal behaviors, and on the mental mechanisms that give rise to such behavior. An evolutionary perspective will be employed to identify the pathways by which the clash of a “universal human nature” and the modern environment results in an “evolutionary mismatch.” Evolutionary models such as the “tragedy of the commons” will be elucidated with relevant and real world examples. In addition, the course will explore potential avenues to effectively reshape human kind’s social, technological and economic relationship with its environment. As such, a systems approach will be taken that considers the human as a part of,

as well as an influence on, ecosystems. Cutting edge research will be integrated from different domains of psychology (cognitive, social, developmental and evolutionary, etc.) as well as related fields (genetics, behavioral economics, game-theory, anthropology, etc.) to comprehensively study the human-environment interaction.

Ethnic Studies

Ethnic Studies is the interdisciplinary critical and comparative study of race and ethnicity, focusing on the experiences of African American, Native American/Indigenous, Asian American/Pacific Islander, and Chicana/o/x/Latina/o/x populations. Ethnic Studies provides an intersectional and critical lens for studying racial, ethnic, gender and class identities, and for interrogating structural racism, power, knowledge, and racialization in culture, politics, economy, and law. Drawing from the intellectual traditions of BIPOC (Black, Indigenous, People of Color) communities, students of Ethnic Studies attain an understanding of the historical legacies and contemporary manifestations of racism, discrimination, inequity, and movements for social justice. Through culturally responsive pedagogy, students of Ethnic Studies gain cultural competency and are exposed to perspectives and methods informed by a deep commitment to social justice, cross-cultural collaboration, liberation from systems of oppression, and social and institutional transformation.

Ethnic Studies is the critical and interdisciplinary study of race, ethnicity, and indigeneity with a focus on the experiences and perspectives of Native Americans, African Americans, Asian Americans, Latina/o/x Americans, and other people of color within and beyond the United States. This course explores key theories, scholarly works, and ideas that have formed the basis of the broad multidisciplinary field of Ethnic Studies. Various perspectives are examined to discover the ways in which race and racism have been, and continue to be, powerful social, cultural and political forces, and their connections to other axes of stratification including gender, class, sexuality and legal status. This course examines the effects of institutional racism, coloniality, marginalization, socio-economic and political discrimination, and ethnocentrism on American ethnic and racial groups.

Geographic Information Systems

GIS is a computer system for capturing, storing, managing, analyzing and visualizing geospatial information related to locations on Earth's surface. We use GIS to combine various geospatial information in a digital environment to answer the questions "what is there?" and "why there?". GIS has been widely used in our daily life, government agencies, as well as organizations of sizes in almost every industry. There is a growing interest in and awareness of the economic and strategic values of GIS.

SMC is offering on-ground, online, hybrid, and HyFlex classes for fall 2024. Geography

Geography is the science of studying human and physical attributes on the surface of the Earth. These attributes may be marks of human occupation, properties of some natural environment, or both. Geographers ask the questions "Where" and "Why there", with an interest in describing and explaining the various ways in which people have made Earth their home at scales ranging from the local to the global. Geography is an integrative discipline whose interests in space and place and whose perspectives from both environmental and social sciences foster a greater understanding of the interrelationships between the human and physical worlds. The use of Geo-Spatial Technologies, including Geographic Information Science (GIS), Remote Sensing (RS), and Global Positioning Systems (GPS), are now widely used in the visualization, measurement and analysis of Earth's physical features and human societies, as well as the interaction between them.

Geology is an interdisciplinary science that integrates the principles of mathematics, physics, chemistry, biology, and the social sciences to explore and understand the Earth. Geology asks and answers questions about the Earth, including its origins, composition, structure, and past and present activity and the impact of these factors on society. As a science with pragmatic applications it is also applied to locate resources and assess their abundance, to mitigate geologic hazards, and to provide critical information about Earth's changing climate and the impact of these changes on our ecosystems. A degree in geology can translate to a number of important and highly valued academic and professional positions, including but not limited to, Earth scientist (e.g. geologist, seismologist, volcanologist, oceanographer, soil scientist, hydrologist, etc.), environmental consultant, environmental lawyer, remediation specialist, climate scientist, and teacher.

Interaction Design

Interaction Design (IXD) is an innovative new baccalaureate degree program that blends the fields of design, user experience, and technology to create user-friendly interfaces with the platforms people use every day, such as smart appliances, mobile devices, and the web. Interaction designers ensure that products are appealing, effective, and intuitive for users. In this program, students will develop proficiency in the skills necessary to enter this well-paid and exciting field. The following courses are upper division courses that are part of Santa Monica College's Bachelor of Science degree program in Interaction Design. Enrollment is limited to admitted program participants. For more information, please see ixd.smc.edu. Transferability of these courses will be determined on a case-by-case basis by the transfer institution.

 With the prevalence of the computer in contemporary culture, Interaction Design has emerged as a practice that determines how people engage with technology. This course examines the specific field of Interaction Design; its history, human-centered design principles, and screen-based interaction patterns. Students learn how to design the behavior of interactive digital interfaces and gain an understanding of how design decisions impact a user's experience and the overall success of a product. Students analyze historical examples, contemporary user interfaces, and their own designs. Students also learn how to design, justify, and articulate using human-centered design principles and screen-based interaction patterns.

Upon successful completion of our Media Studies courses, each student should leave as a media literate individual — a more aware, critical audience member with a well-developed sense of mass media's role in society. There is a wide range of employment possibilities for students trained in Media Studies, including positions in public relations, business, sales, public and personnel relations, and advertising. Our Media Production courses provide hands-on training in the areas of Television, Radio and Internet Broadcasting, including broadcast news, sports, promotional videos, podcasting, short form

PSYCH 40, ENVIRONMENTAL PSYCHOLOGY 3 UNITS

Transfer: UC, CSU

IGETC AREA 4 (Social & Behavioral Sciences)

• *Satisfies Global Citizenship*

This course will focus on the theory and application of psychological principles as they relate to the causes of, and potential solutions to, current global environmental problems. Modern ecological issues (such as global climate change, habitat-loss, etc.) have their historical origin in human behavior; this class will focus both on relevant causal behaviors, and on the mental mechanisms that give rise to such behavior. An evolutionary perspective will be employed to identify the pathways by which the clash of a "universal human nature" and the modern environment results in an "evolutionary mismatch." Evolutionary models such as the "tragedy of the commons" will be elucidated with relevant and real world examples. In addition, the course will explore potential avenues to effectively reshape human kind's social, technological and economic relationship with its environment. As such, a systems approach will be taken that considers the human as a part of,

as well as an influence on, ecosystems. Cutting edge research will be integrated from different domains of psychology (cognitive, social, developmental and evolutionary, etc.) as well as related fields (genetics, behavioral economics, game-theory, anthropology, etc.) to comprehensively study the human-environment interaction.

Urban Studies

Urban Studies is an interdisciplinary investigation of our dynamic world of cities and their suburbs. From points of view ranging from the local to the global, students in this field examine cities as complex social groupings of people and institutions, as well as cultural landscapes of buildings, pathways, and public and private spaces. Urban Studies is concerned with what cities are and have been, as well as with ever-changing ideas about what cities could and should be. Urban Studies prepares students for careers in fields such as urban planning, architecture, public policy, and real-estate development, and it informs discussions of issues such as housing, transportation, urban renewal, segregation, sustainability, and suburban sprawl.

URBAN 8, INTRODUCTION TO URBAN STUDIES 3 UNITS
Transfer: UC, CSU
IGETC AREA 4 (Social and Behavioral Sciences)

This course introduces students to the multi-disciplinary study of urban society and space. Cities are examined both as complex social-economic groupings of people, and as material landscapes of buildings, pathways, and public and private spaces. Attention is paid to what cities are and have been (the evolving urban experience of the past and present) as well as to ever-changing ideas about what cities should be (urban planning and design for the future). While the overall perspective of the course is global, its primary focus is on the cities of North America and, in particular, the Los Angeles metropolitan area. This emphasis is evident both in the classroom and in field trips or other assignments that ask students to apply classroom ideas to our local urban setting.

Women's, Gender, and Sexuality Studies

Women's, Gender, and Sexuality Studies is an interdisciplinary field of inquiry analyzing structures of power, especially as they are grounded in gender, race, sexuality, ethnicity, nationality, ability, and other sources of inequalities. The students who enroll in these courses gain the opportunity to understand how social forces, organized around the central concept of gender, shape both themselves as individuals and the world around them. Students have the opportunity to attain a fuller understanding of human behavior, culture, and society made possible by investigating women's lives, as well as the lives of other marginalized groups, and acquaint themselves with the experience of subordinate genders of various economic, ethnic, and racial backgrounds.

Employing feminist theories and feminist analysis, this course examines the relationship between women, gender, sexuality and popular culture. Students will examine historical and contemporary images and roles of women in popular culture (including print, film, television, music, advertising, and consumerism) and situate these images and roles within changing socio-historical, political, and economic contexts. The intersection of gender, race, class, and sexual orientation is examined throughout the course and the relationship between popular culture and feminist movements is emphasized.

STEM/MÁS Program

Maximizing Achievement in STEM (MÁS) is an academic support program designed to assist students interested in pursuing Science, Technology, Engineering, or Mathematics (STEM) majors/careers. The MÁS program helps participants successfully complete their studies at SMC, transfer to ANY baccalaureate program, and/or enter the STEM workforce.

STEM/MÁS-designated classes are intended to assist SRI participants in identifying sections that will fulfill program requirements (i.e. Supplemental Instruction) and connect them with STEM/MÁS program faculty.

STEM/MÁS sections do not require any additional coursework or special add codes. Sections are open to ALL SMC students who meet the existing course prerequisites. For more information, visit smc.edu/stem.

The following sections are part of the STEM/MÁS program and enrollment is temporarily limited to program participants.

Adelante Program/ Latino Center

The Latino Center Adelante Program is a success-oriented program focusing on academic achievement, transfer, cultural awareness, and personal growth. Adelante classes are offered each semester and emphasize verbal, written, and critical thinking skills essential to college success. The classes accentuate the Latino experience within the context of a course's subject, and most classes offer credits that are transferable to the UC and CSU systems.

Students who join Adelante:

- Receive priority for enrolling in Adelante classes;
- Participate in classes with a large Latino enrollment;
- Join a network of Latino students and faculty;
- Become eligible for specially designated Latino Center scholarships; and
- Take classes with professors who have a special interest in promoting Latino student success.

The Adelante Program helps participants stay on track as they work toward meeting their education goals. The support network offered by Adelante includes one-on-one bilingual counseling, peer mentoring, and the opportunity to develop supportive relationships with students, faculty, and staff.

For more information about the Adelante Program, please contact counselor Maria Martinez, or visit the Latino Center, located in Student Services Center S201. You may also visit the Latino Center webpage (smc.edu/latino).

Santa Monica College provides access to its services, classes, and programs without regard to race, religious creed, color, national origin, ancestry, handicap, or gender. All students are eligible to apply for special programs. Please see program coordinator or attend orientation for additional information.

Black Collegians Umoja Community

The Santa Monica College Black Collegians Umoja Community is an academic-transfer program that promotes academic excellence and guides students through the transfer process. Students are assisted in examining their options for transfer and in completing an education plan that will lead to transfer to the institution of their choice.

Hundreds of SMC Black Collegians have transferred to four-year colleges and universities since the program started in 1990. Our transfer students are currently attending or have graduated from institutions such as Spelman College, Howard University, CSU Long Beach, USC, Stanford University, UCLA, and UC Berkeley.

Some of the special benefits that students receive from the Black Collegians Umoja Community include a personal counselor who will support and guide students throughout their stay at SMC; a special "College Success" course that will help students strengthen skills to enhance academic success; innovative academic and personal growth forums; a mentor who will advise and direct; access to a network of supportive peers, teachers and staff members; and scholastic recognition and monetary awards.

If you feel you can benefit from the opportunities offered by the Black Collegians Umoja Community, please apply in Counseling & Transfer Services or the African American Collegian Centers in Student Services Center S201. For more information, contact Counselor Sherri Bradford at 310-434-3635.

Study Abroad

Studying abroad is an enriching, life-changing experience! There is no substitute for the experience of living in another culture and learning — first-hand — how others think, live, and work.

Santa Monica College offers faculty-led Study Abroad programs designed to take students to another country and immerse them in an exciting and engaging learning program. Each program gives students the opportunity to earn SMC credit as they expand their own intercultural awareness and foster a more global experience. Students who successfully complete a minimum of three (3) semester units while attending a Study Abroad program will fulfill SMC's Global Citizenship graduation requirement for the Associate degree.

For program information, please visit the IEC's Study Abroad website (smc.edu/studyabroad).

Promo Pathway Program

Promo Pathway is an innovative partnership between Santa Monica College and the industry trade organization PromaxBDA, formed to increase diversity in the entertainment promotions workforce. The program provides students with the knowledge, skills, and professional relationships necessary for entry-level employment in the Digital Media Industry. Students prepare for careers as writers/producers/editors of on-air promotions, commercial advertisements, and public service announcements; and also for employment in related areas, including social media marketing, media strategy and planning, public relations, publicity, advertising, and interactive media marketing. Students can complete both a Certificate of Achievement and an Associate degree in Entertainment Marketing/Promotion Production. For more information, visit the Promo Pathway website at smc.edu/promo or call 310-434-4182.

Internship Program

An internship is an off-campus or on-campus work experience that is designed to enhance student learning in the classroom. Through internships, students achieve “Learning Objectives” designed to help expand career options, learn about the ‘work culture,’ and develop new job skills.

Students interested in becoming interns can go to smc.edu/internship to find out how to get involved in SMC’s Internship Program, and to smc.edu/hiresmc to find out about the many kinds of internships that are available.

To be eligible for an internship class, a student must be a ‘continuing student’ at Santa Monica College. A continuing student is one who attended SMC the previous fall or spring semester and completed at least 6 units. For example, a fall semester or summer session intern is required to have attended SMC the previous spring semester and completed at least 6 units. A spring semester intern is required to have attended SMC the previous fall semester and completed at least 6 units.

To enroll in an internship, students are required to attend a one-hour **Internship Orientation** meeting at the beginning of the semester. Visit our website (smc.edu/internship) or call the Career Services Center for the orientation meeting schedule.

Students earn college credit based on the number of internship hours worked. Each unit of college credit requires **60 hours of unpaid** (volunteer), or **75 hours of paid** work per semester. The General Internship classes are listed in this schedule of classes under Counseling and Testing. The classes are Counseling 90A, B, C, and D, and range from 1 to 4 units of credit. **General Internships** need not be related to the student’s education or career goals.

F-1 students must see the immigration coordinator at the International Educational Center before enrolling in an internship.

Several departments at SMC also offer **Specific Internships** that are related to a student’s major or career goal. These internships combine on-the-job learning experiences with college curriculum, and are for students who are beginning, changing, or advancing in a career, or who are moving ahead in a major. Students can call the Career Services Center at 310-434-4337 to find out which departments offer internships.

SMC’s Career Services Center hosts internship events throughout the year, offering students the opportunity to meet potential employers and ask questions about the internships being offered. Visit our website (smc.edu/internship) to find out when the next Internship Fair will be held.

For further information or for help in finding an internship, call the Career Services Center at 310-434-4337, or visit our website (smc.edu/internship).

Financial Assistance

FINANCIAL AID OFFICE

smc.edu/financialaid

Student Services Center S133 310-434-4343

The Financial Aid Office at Santa Monica College strongly encourages students to apply for financial aid by going to studentaid.gov/fafsa-app and completing the Free Application for Federal Student Aid (FAFSA). Students who have been ineligible to receive financial aid in the past should re-apply each year and are encouraged to come in and ask about other resources that may be available to them.

The Financial Aid Office provides several important student services, including:

- Providing information regarding the types of financial aid available;
- Helping collect and complete all necessary financial aid forms and documents; and
- Providing guidance on student loans and debt management.

The Financial Aid Office annually provides more than \$45 million in federal, state, and other assistance to SMC students. The major aid programs at SMC are:

- **Pell Grants** — Federally funded grants of up to \$11,092 per year to eligible undergraduate students;
- **Federal Supplemental Educational Opportunity Grant (FSEOG)** — A Federal grant given to the College for disbursement to eligible students (average Santa Monica College student award is up to \$100 per semester until these funds are completely expended);
- **Cal Grant B** — State-funded award for eligible students from disadvantaged backgrounds or low-income families who have exceptionally high financial need, to provide them assistance with enrollment fees, living expenses, books, supplies, and transportation (the average Santa Monica College student award is \$1,656 per year; *both FAFSA applicants and California Dream applicants may qualify*);
- **Cal Grant C** — State-funded award for eligible students from low- and middle-income backgrounds enrolled in vocational training programs, to provide them assistance with training costs such as tools, books, and equipment (average Santa Monica College student award is \$547 per year; *both FAFSA applicants and California Dream applicants may qualify*);
- **Student Success Completion Grant (SSCG)** — State-funded grant awarded to full-time students and full-time Cal Grant B or C recipients, to provide an additional \$2,596 to students enrolled in 12-14 units per semester, or up to \$8,000 to students enrolled in 15 or more units per semester;
- **California College Promise Grant** — State-funded grant that covers certain enrollment fees for eligible students;
- **Santa Monica College Promise** — Free enrollment and fee waivers for students who graduate from a California high school or complete a high school equivalency test (e.g., GED® or HSET or CCP) and enroll at SMC as first-year, full-time students (see smc.edu/freetuition for details);
- **Federal Work-Study (FWS) funds** — Federally funded program that provides wages to eligible students for both on-campus and off-campus employment;

- **Stafford Loans (subsidized and unsubsidized)** — Federally administered, low-interest loans to eligible students; and
- **Parent Loans for Undergraduate Students (PLUS Loans)** — Federally administered, low-interest loans to parents of students who are considered dependent according to federal regulations.

Students can apply for federal financial aid and the California College Promise Grant directly through the SMC Financial Aid website (smc.edu/financialaid), where they will find useful links to federal and state agencies.

To be eligible to receive most forms of financial aid, a student must show documented “financial need” as determined by the FAFSA. However, there are a number of other specific federal requirements that must also be met. To be eligible for federal financial aid, you must:

- Be a US citizen, a permanent resident, or an eligible non-citizen (if you do not understand these terms, ask the Financial Aid Office to explain them to you);
- Have a valid Social Security number;
- Have a high school diploma or GED;
- Be enrolled in an eligible program at SMC;
- Make satisfactory academic progress in your coursework;
- Have complied with US Selective Service requirements (male students only);
- Have not been convicted of the possession and/or sale of illegal drugs; and
- Not be in default on a student loan or owe a refund on any state or federal grant you may have received in the past.

Please note: AB540 students can also apply for Cal Grants and California College Promise Grants by completing a California Dream Act application. To receive a Cal Grant, AB540 students need to be enrolled in an eligible program, have a high school diploma/GED, and meet satisfactory academic progress. In addition, male AB540 students are required to comply with US Selective Service requirements.

Santa Monica College has partnered with BankMobile to process financial aid disbursements. See smc.edu/bankmobile for more details.

The Financial Aid Office is open Monday and Thursday 8:30 a.m.-4:30 p.m., Tuesday and Wednesday 8:30 a.m.-6 p.m., and Friday 8 a.m.-12 noon. **Q-less online phone system hours are Monday and Thursday from 10 a.m. to 3 p.m., Tuesday and Wednesday from 10 a.m. to 5 p.m., and Friday from 9 a.m. to 12 p.m.** Hours are subject to change without notice.

SCHOLARSHIP OFFICE

Scholarships are available to incoming high school students (ask your high school counselors about these scholarships), students continuing at SMC, and students transferring from SMC to a four-year college or university. Awards are offered for a wide range of achievements and student activities, and many do not include financial need in their requirements.

The Scholarship Office:

- Provides a single-application procedure for consideration for more than 500 scholarships available through the program;
- Distributes more than \$450,000 in scholarship funds from the Santa Monica College Foundation (an endowment fund that provides proceeds for about 500 different scholarships), service clubs and local organizations, private individuals, and other organizations, foundations, and corporations;

- Provides informational workshops and application forms for a variety of non-campus-based scholarship sources; and
- Provides support services to get and fill out applications and to collect any required documents.

Scholarships vary from \$250 to \$2,000 per year, and are awarded as a check issued directly to the student.

MATRICULATION

SMC has a planned education process called “matriculation,” which helps you match your interests, abilities, needs, and goals with the College’s courses, programs, and services. The matriculation process includes orientation, placement, and educational planning/counseling to design a program of courses that meets your education goals.

To find out how the matriculation process can benefit you, please see the annual SMC catalog (available online at smc.edu/catalog).

PROGRAM CHANGES

Enrollment in classes is done online through Corsair Connect at smc.edu/cc. Beginning the day of the second class meeting, you will need an Instructor Authorization Code to add courses, even if space is available.

ATTENDANCE AND WITHDRAWALS FROM CLASSES

Regular attendance and participation are obligations assumed by every student at the time of enrollment.

A STUDENT ENROLLED IN ANY CLASS AT SMC MUST ATTEND — OR (IF AN ONLINE CLASS) ACTIVELY PARTICIPATE IN — ALL SESSIONS OF THE CLASS THAT MEET DURING THE FIRST WEEK OF THE CLASS OR RISK BEING DROPPED FROM THE CLASS BY THE INSTRUCTOR. INSTRUCTORS MAY ALSO WITHDRAW YOU LATER FOR EXCESSIVE ABSENCES OR NONPARTICIPATION (IF ENROLLED IN AN ONLINE CLASS).

You may withdraw from classes online through Corsair Connect at smc.edu/cc. It is the **YOUR responsibility to withdraw from a class** by the course-specific deadline — informing the instructor is NOT sufficient notice. Failure to withdraw (officially drop) from a class could result in a grade of F (0.0), and owed fees.

The Admissions Office is not responsible for incomplete online transactions. Please confirm your transactions (including withdrawals), then print and review your revised schedule. You must have this proof to contest any discrepancies.

- **Specific deadlines to request a refund, avoid a W, or receive a guaranteed W are listed in your Corsair Connect account. Add reminders to your calendar.**
- **Late withdrawals with extenuating circumstance:** After the guaranteed “W” deadline has passed, you may request withdrawal from a class by submitting a Special Consideration Petition ONLY if there are extenuating circumstances (such as verified cases of an accident, illness, or other circumstances beyond your control) which make the withdrawal necessary. It may take several weeks to review your request, and there is no guarantee it will be approved. If your request is approved, you will receive a W, and units earned in the class will be included in “enrolled units” on your SMC transcript. PLEASE NOTE: If you have not withdrawn by this deadline, you will receive a

grade of A (4.0), B (3.0), C (2.0), D (1.0), F (0.0), P (Pass), or NP (No Pass) from the instructor. If you do not qualify for late withdrawal or you cease to attend the class, you may receive a grade of F (0.0). The instructor will be asked for feedback on your petition.

NOTE: The instructor issuing an F (0.0) to you may be asked by the Financial Aid Office to verify if the F was the result of ‘nonattendance.’ Nonattendance means your last attendance date — or, if enrolled in an online or hybrid class, the last date of your substantive participation — was prior to the 60% point of completion of the course. Poor performance means you participated after the 60% point in the course and earned an F. Nonattendance may be grounds for return of financial aid funds.

- **If you have completed a course** — including taking the final exam or submitting final projects — you are **not** eligible for a late withdrawal. If you are contesting a grade for a completed course, you should meet with the instructor. See “Grade Appeals – Contesting a Grade,” below, for details.

Requests to withdraw AFTER the class and term has ended must be submitted no later than the deadlines below (without exception) by completing a Petition for Special Consideration available at smc.edu/forms.

- **Excused withdrawals:** You may withdraw from a course due to extenuating or extraordinary circumstances before the 75% point of the class. You will be asked on Corsair Connect if the drop is due to extenuating circumstances. In such cases, the EW will be granted automatically. If you withdraw after the 75% point and through the last day of instruction for the class, you must submit an Excused Withdrawal Petition to the Admissions and Records Office. The EW will not be counted in (1) progress probation and dismissal calculations, and (2) will not count against the permitted number of withdrawals or enrollment attempts in a given course. As a result, if you have an Excused Withdrawal (EW), you may repeat the course(s) from which you have withdrawn. Enrollment, tuition, Health Services, SMC student I.D., A.S. Resource, and Student Representation fees will not be refunded.

Deadlines to Request Removal of Ws and Refund of Fees

- All requests must be submitted within two (2) calendar years after the last day of the term when you took the class. To initiate your request, you must file a Special Consideration Petition, available at smc.edu/forms.

A complete explanation of how withdrawal deadlines are determined is available online (see smc.edu/AdminRegulations) and in the annual SMC catalog (online at smc.edu/catalog).

PLEASE NOTE: Short-term and open-ended courses have their own deadlines (go to smc.edu/datesdeadlines for details, and review your Corsair Connect class schedule for specific dates).

GRADE APPEALS – CONTESTING A GRADE

- **Informal Resolution:** Students questioning a final grade received in a class must always contact the instructor and department chair to discuss their concerns. If the instructor or chairperson is not responsive, your next step is to contact the College Ombudsperson. The Ombudsperson acts as a source of information, assistance, and referral; encourages informal conciliation between students and instructors; and seeks to resolve the grading dispute informally. If the grade dispute is not resolved to your satisfaction, the Ombudsperson will advise you on how to request a formal grade appeal.

- **Formal Grade Appeal Reasons:** According to State law, a formal grade appeal can only be pursued in cases where the final grade was issued because of instructor fraud, bad faith, incompetency, or a mistake. Before filing a formal grade appeal petition with the Dean of Enrollment Services, a student must first discuss the situation with the College Ombudsperson. The student bears the burden of proof in substantiating their allegation. Instructors are expected to cooperate with the Ombudsperson.

- **Grade Appeal Deadline:** A student who wishes to appeal a grade must file a formal grade appeal petition no later than October 30 for spring semester grades, November 30 for summer session grades, April 30 for fall semester grades, and May 30 for winter session grades. However, students must meet with the College Ombudsperson at least 15 days before the deadline to discuss the grade appeal procedure and attempt to resolve the grade dispute informally.

- **Continuing a Grade Appeal:** After discussing a grade appeal with the College Ombudsperson, if there is no informal resolution satisfactory to the student and the student wishes to continue the appeal, the Ombudsperson will outline the procedure to be followed. The grade appeal petition must include a statement describing how the grade that was awarded was the result of instructor mistake, bad faith, incompetency, or fraud; no other reason is recognized. The Dean of Enrollment Services, who supervises the grade appeal process, may stop a grade appeal when there is no evidence of instructor mistake, fraud, incompetence, or bad faith. Unsubstantiated claims will be dismissed. Students and faculty are expected to provide a true and accurate account of the grade dispute. The Grade Appeal Committee may initiate disciplinary proceedings when in its judgment the information presented to the Committee was deemed to be fraudulent or fabricated. See smc.edu/ombuds for further information. The grade appeal process is lengthy and can frequently take from 4-8 months to resolve.

To schedule an appointment with the Ombudsperson, please send email to ombuds@smc.edu or call 310-434-3986.

See smc.edu/grade-appeals to find out more about the formal grade appeal process.

ENROLLMENT OVERLAP AND TIME CONFLICTS

As a general rule, students cannot enroll in courses that meet at the same or overlapping times. Under some circumstances, however, the College may permit enrollment in limited overlapping schedules. Exceptions may be considered by petition. For specific requirements and restrictions for overlapping schedules, see the annual SMC catalog (available online at smc.edu/catalog). Students may submit a Time Conflict Approval form for consideration. The form is available at smc.edu/forms.

RELIGIOUS OBSERVANCE AND OTHER ACCOMMODATIONS

Observance of religious holidays may have an impact on a student's scheduled assignments, tests, or examinations. California State Education Code section 76121 states that an instructor must make a reasonable attempt to accommodate a student without penalty when there is a conflict between a student's religious creed and a scheduled assignment, test, or examination. Affected students should submit a written request to the instructor during the first two weeks of the academic term, or as soon as possible after a particular assignment, test, or examination date is announced by the instructor.

In matters of absence due to other personal necessity such as jury duty or court appearances, accommodation will be at the discretion of the instructor, subject to verification.

UNIT LOAD LIMIT

Students who are in good standing may take up to sixteen (16) units during the fall or spring semester, and eight (8) units during the summer or winter session. Please consult a counselor for details.

PROBATION AND DISMISSAL STUDENT POLICIES

Santa Monica College students are expected to take responsibility for meeting the SMC Student Success Standards of "Academic Achievement" (maintaining a cumulative GPA of 2.0 or better in all classes taken at Santa Monica College) and "Timely Progress" (not exceeding the allowed percentage of I, W, and NP notations). Failure to meet these standards can lead to:

- Academic probation or progress probation, either one of which will limit how many units you may enroll in, which cannot exceed a maximum of 9 units in a spring or winter session, or 5 units in a winter or summer session;
- Academic dismissal; or
- Progress dismissal.

Both academic and progress dismissal will result in a limit of up to six (6) units maximum during the spring and fall semesters — and up to three (3) units maximum in the winter and summer sessions — if you are reinstated. If you have been dismissed from SMC more than once, you will be asked to take a break from attending SMC for up to a maximum of one year.

If there is ANY possibility that you may be placed on academic or progress probation or be dismissed, you should IMMEDIATELY make arrangements to discuss your situation with a counselor. For details, please visit the SMC Counseling website at smc.edu/counseling and click on the "Dismissal and Probation Policies" link in the menu on the left-hand side of the page, or see a counselor. Additional information on academic and progress probation, academic and progress dismissal, and requirements for reinstatement is also available in the annual SMC catalog (available online at smc.edu/catalog).

PLEASE NOTE: Students who are dismissed for academic and/or progress reasons due to summer 2024 grades will be dropped AUTOMATICALLY from all previously enrolled fall 2024 classes.

CALIFORNIA COLLEGE PROMISE GRANT (CCPG) SATISFACTORY ACADEMIC PROGRESS REQUIREMENT

The State of California requires California College Promise Grant recipients to meet certain minimum academic standards. Please note:

- To remain CCPG-eligible, students must maintain at least a 2.0 GPA and a course completion rate of at least 50%.
- Students who fail to meet the GPA and/or completion rate standards will be placed on CCPG Probation.
- Students on CCPG Probation have one major term (fall or spring semester) to raise their GPA and/or completion rate.
- Students who fail to raise their GPA and/or completion rate up to the minimum standards may become ineligible for a CCPG for the next fall or spring semester unless they (a) have already enrolled in the next fall or spring semester; or (b) have not yet completed 12 units.

For more information about the new CCPG Satisfactory Academic Progress Requirement, including how to appeal the loss of CCPG eligibility, please go to the SMC Financial Aid webpage.

ACADEMIC ADJUSTMENTS AND INFORMATION TECHNOLOGY FOR STUDENTS WITH DISABILITIES

SMC complies with State and Federal law with regard to modifying academic policies and procedures and information technology as needed to ensure that they do not discriminate, or have the effect of discriminating on the basis of disability, against qualified applicants or students with disabilities. For details on adjustments and the procedure for requesting them, please contact the Center for Students with Disabilities by calling 310-434-4265.

PREREQUISITES AND COREQUISITES CHALLENGES

Students who have not completed prerequisite or corequisite courses at Santa Monica College or other colleges may challenge the requirement under certain circumstances by submitting a Prerequisite Challenge Petition to the appropriate academic department. The student bears the initial burden of proof to show that grounds exist for the challenge. Please see the annual SMC catalog (available online at smc.edu/catalog) for a detailed description of the challenge process.

PASS/NO PASS

Students who wish to take courses on a pass/no pass (P/NP) basis must apply for each course through Corsair Connect. Click on the "Classes & Enrollment" tab, and select "P/NP Grading" option before the class-specific deadline. The decision to take a course on a P/NP basis is irrevocable after the deadline has passed. Students are strongly encouraged to seek the advice of a counselor before making a decision to enroll in a class on a P/NP basis. See smc.edu/admissions and click on "Enrollment & Grading Policy Updates" for the latest details.

AUDITING CLASSES

Santa Monica College does not permit auditing of classes. All students attending credit or noncredit classes at Santa Monica College must be officially enrolled through SMC's Admissions Office. Older adults attending free, noncredit classes on topics of interest to seniors must be enrolled through the SMC Emeritus program. Students attending fee-based not-for-credit classes to explore personal interests or gain professional certification must be enrolled through the SMC Community Education office. Students attending free English as a Second Language (ESL) and other noncredit adult education classes must be enrolled through SMC's Noncredit (Adult Education) Initiatives/Programs.

COURSE REPEATS

California Code of Regulations Title 5 limits the number of times a student may repeat a course in the California Community College system. These regulations also require all current and prior course enrollments, repetitions, and withdrawals in a student's enrollment record to be counted toward the maximum limit.

If you would like — or need — to repeat a course in which you have previously earned an unsatisfactory grade or a W, you may re-enroll ONE TIME without the need to request permission from a counselor. After that, you MUST talk to one of SMC's academic counselors. Check the Santa Monica College catalog (available online at smc.edu/catalog) for details.

GRADUATION REQUIREMENTS

The Associate degrees (AA, AS, AA-T, AS-T) are granted upon completion of sixty (60) degree-applicable units (general education, area of study, and electives) with a cumulative grade point average of C (2.0) or higher, and a minimum of twelve (12) units in residence must be completed at Santa Monica College. The Certificate of Achievement, Certificate of Completion, and Certificate of Competency are granted upon successful completion of required coursework.

To receive your degree or certificate, you must file a Petition for Graduation with the Admissions Office. A link to the form is available at smc.edu/forms, where the form can be filled out and submitted online. Deadlines for filing:

- Spring — Start of spring semester through April 15
- Summer — Start of summer session through July 31
- Fall — Start of fall semester through December 2

STUDENT PRIVACY RIGHTS NOTICE

The Family Educational Rights and Privacy Act (FERPA) gives students certain rights with respect to their education records. For a full explanation of FERPA and its implications for college students, please see the SMC catalog (available online at smc.edu/catalog) or contact the Admissions Office. What appears below is ONLY a brief summary.

A student's FERPA rights include:

1. The right to inspect and review the student's education records within 45 days of the day the College receives a request for access. California law requires that records be provided within 15 working days.
2. The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.
3. The right to provide written consent before the College discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent, such as for 'directory' information.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:
Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901
Students may block release of Directory Information to non-SMC third parties by placing a "Directory Information" hold on their Corsair Connect account ("View/Edit Profile" tab).

POLICY ON FEES

ATTENTION: Payment Policy

- ALL fees for fall semester courses you enroll in must be paid no later than the fee payment deadline of 7 p.m. on Wednesday, July 31, 2024. Failure to pay your fees by this date will result in your classes being dropped. Fee postponement is not available. Please see the Financial Aid Office to discuss options you might have.
- Starting Thursday, August 1, 2024, you must pay for any new class you add before midnight of the day you add the class, or you will be dropped for nonpayment.
- Enrollment fees will NOT be refunded if a course is dropped after the refund deadline for the course.

- If you do not drop a course by the refund deadline, you will be responsible for paying the fees — even if you did not go to class.
- See smc.edu/fees for the latest details.

Enrollment Fee

This is a state-mandated student enrollment fee of \$46 per unit, and is subject to change without notice.

Student Benefits Fee, Associated Students Resource Fee, and Student Representation Fee

This is an optional fee of \$34.50 that includes the fee of \$22.50, which funds activities such as the LiveSafe app, technology initiatives and programs, and transportation initiatives, including the Big Blue Bus "Any Line, Any Time" initiative; the Associated Students Resource fee of \$10, which funds services and activities for the entire Santa Monica College student body; and the Student Representation fee of \$2, which helps fund student activities and representatives who may present ideas to local and state government bodies.

The Student Benefits fee, Associated Students Resource fee, and Student Representation fee are optional. You may opt out of paying the Student Benefits fee and Associated Students Resource fee through Corsair Connect (Fees & Payment tab) prior to the *earliest* Refund Deadline for a class you are enrolled in during the term.

Health Services Fee

This is a mandatory fee of \$26 during the fall and spring semesters (\$22 during winter and summer sessions) that provides a variety of health services. You are exempt from paying the Health Services fee if you:

- Enroll exclusively in noncredit or not-for-credit courses, or
- Declare in a personally signed statement that you depend exclusively on prayer for healing in accordance with the teachings of a bona fide religious sect (documentation of such an affiliation is required). You may submit this declaration and documentation online to Admissions and Records through a Special Consideration Petition available at smc.edu/forms.

Nonresident Tuition Fee

The mandatory tuition fee for students classified as nonresidents (including students who are citizens of a foreign country and hold only temporary resident status in the United States) is \$398 per semester unit (plus \$46 enrollment fee, for a total of \$444 per semester unit), or \$374 per semester unit (plus \$46 enrollment fee, for a total of \$420 per semester unit) for students who qualify for an Assembly Bill 947 exemption. See the residency requirements at smc.edu/residency or contact the residence clerk in the Admissions Office for AB 947 exemption details. Please see the Fees webpage at smc.edu/fees for details. Please note: All nonresident tuition fees are subject to change without notice.

Upper-Division Coursework Fee

The mandatory upper-division coursework fee for students pursuing the Bachelor of Science degree in Interaction Design is \$84 per graded unit. This fee is IN ADDITION TO the \$46 per unit enrollment fee, for a total of \$130 per graded unit for students classified as residents. Students classified as nonresidents must pay the mandatory upper-division coursework fee of \$84 per graded unit IN ADDITION TO the \$46 enrollment fee AND the \$398 tuition fee, for a total of \$528 per graded unit. Students who qualify for an Assembly Bill 947 exemption must

pay the mandatory upper-division coursework fee of \$84 per graded unit IN ADDITION TO the \$46 enrollment fee AND the \$374 tuition fee, for a total of \$504 per graded unit.

Materials and Supplies Fees

Some classes require additional fees for materials and supplies. Consult the class listings in the Schedule of Classes to determine whether any such fees are required. Fees for materials and supplies are not refundable.

On-Campus Virtual Parking Permit Fee

The on-campus virtual parking permit fee is required ONLY if you wish to use the on-campus parking facilities at SMC's main campus, SMC Performing Arts Center, or the Center for Media and Design. Parking is FREE at other SMC satellite campuses, BUT requires a virtual parking permit (see smc.edu/transportation for details). Regular virtual parking permits — which can be purchased online through Corsair Connect at smc.edu/cc — are \$50 for the fall or spring semester and \$25 for the winter or summer session. The permit prices **include** the City of Santa Monica 10% parking facilities tax. Funds from this the virtual parking permit are used to maintain and improve SMC's parking facilities.

Students who qualify for a California College Promise Grant (CCPG) because they or their family currently receive benefits under Temporary Aid to Needy Families (TANF/CalWORKs), or SSI/SSP (Supplemental Security Income), or General Assistance/General Relief are eligible to purchase an on-campus virtual parking permit at a reduced rate of \$18 for the fall or spring semester and \$10 for the winter or summer session. The permit prices **include** the City of Santa Monica 10% parking facilities tax.

Returned Payments and Outstanding Balances

Returned checks and rejected credit card payments are subject to a fee of up to \$25 and are taken care of at the Auxiliary Services Office, located at 1738 Pearl St. An administrative hold will be placed on your records until the matter is resolved. If you leave SMC owing a balance and do not pay it, you will be responsible for all collection costs and/or attorney's fees. This debt may also be reported to all three major credit bureaus.

WITHDRAWAL REFUND SCHEDULE

If you are eligible for a refund, it will be processed approximately 45 days after the start of the term. Please allow an additional 2-6 weeks for the refund to reach you. If a fee is owed for classes in the next term, the refund will be automatically applied to those fees.

Santa Monica College has partnered with BankMobile to process refunds. See smc.edu/bankmobile for more details.

Enrollment Fee

No refunds of enrollment fees are available to you if you withdraw from fall semester classes after the published refund deadline for enrolled classes. Refund deadlines for enrolled classes can be found in your Corsair Connect account next to your enrolled classes. If you withdraw prior to the deadline date, you will receive a 100% refund of enrollment fees (minus a processing charge of \$10). See smc.edu/fees for more information on withdrawal refund deadlines.

Nonresident Tuition

If you withdraw from fall semester classes at Santa Monica College before the published refund deadlines for the classes in which you are

enrolled, you will receive a 100% tuition refund, minus any relevant processing fees.

Student Benefits, A.S. Resource, Representation, and Health Fees

If you withdraw from fall semester classes at Santa Monica College before your term's published refund deadline, you will receive a 100% refund for the Student Benefits fee, the A.S. Resource fee, the Student Representation fee, and the Health Services fee.

STUDENT RIGHT-TO-KNOW AND CAMPUS SECURITY

To comply with the Jeanne Clery Disclosure of Campus Security and Campus Crime Statistics Act (Public Law 101-542), Santa Monica College makes available the completion and transfer rates of first-time, full-time students seeking certificates, degrees, or transfer, as well as statistical information about the types and number of crimes on campus. The College provides this data to inform all current and prospective students — as “consumers” of higher education — on how well Santa Monica College compares with other postsecondary institutions.

Completion and Transfer Rates

The completion and transfer rates presented here are derived from the most current data available at the time this schedule of classes went to press.

Completion rates are calculated by tracking a cohort (group) of first-time students seeking a certificate, degree, or transfer. For the cohort of first-time freshmen entering SMC in fall 2015, 31.91% earned a certificate or degree, transferred to a four-year institution, and/or became transfer-prepared (earned 60 or more transferable units with a GPA of 2.0 or higher) within three years of beginning coursework at SMC.

Transfer rates are calculated by tracking a cohort (group) of first-time students intending to transfer to a four-year institution. For the cohort of first-time freshmen entering SMC in fall 2015, 17.15% transferred to a four-year institution within three years of beginning coursework at SMC.

Crime Statistics for the College Community

Campus crime statistics are compiled and reported according to the guidelines specified in the Clery Act (20 USC 1092F), as defined under the FBI Uniform Crime Reporting procedures. SMC's crime statistics are available online at the US Department of Education website (ope.ed.gov/security) and at the SMC Campus Police website (smc.edu/police). Campus crime statistics — along with safety and crime prevention information — can also be found at many locations at SMC, and are available upon request. Contact the SMC Campus Police Office (310-434-4608) for details.

COLLEGE CONDUCT

Santa Monica College has an Honor Code, Code of Academic Conduct, and Rules for Student Conduct, and may discipline students in accordance with code provisions.

Check the annual Santa Monica College catalog (available online at smc.edu/catalog) for additional information.

Student Conduct Code

Students enrolled in the College have an obligation to conduct themselves in a manner compatible with the College's function as an educational institution. A complete copy of the “Rules for

Student Conduct” (SMC AR 4410) is available online (see smc.edu/AdminRegulations).

STUDENT COMPLAINTS

Students with complaints, grievances, and personal concerns about Santa Monica College or any of its policies are encouraged to discuss them with the College Ombudsperson. The Ombudsperson provides support and encouragement to students, and attempts to present options and solutions. Complaints are handled confidentially on a case-by-case basis.

Students with complaints about a grade should discuss this with the Ombudsperson in time to meet the deadline to file a formal appeal. The deadlines are:

- October 15 for spring semester grades,
- November 15 for summer session grades,
- April 15 for fall semester grades, and
- May 15 for winter session grades.

For more information, contact the Ombudsperson, or visit the Ombudsperson's webpage (smc.edu/ombuds).

SELECTIVE SERVICE NOTICE TO MALE STUDENTS

Federal law requires men age 18-25 to be registered with the Selective Service System (SSS) if they are US citizens or immigrant aliens (international students who hold valid student visas are exempt from this requirement). Men must be registered before they can receive federal or state financial aid (including loans and grants) for their education. Registration forms are available online at sss.gov and at any post office.

Residency

RESIDENCY

The following is a summary of Santa Monica College's residency rules and their exceptions. For more detailed information, please go to smc.edu/residency.

- Each person applying for admission to, or enrolled in, a California Community College is classified for tuition purposes as either a “resident” or a “nonresident” of the State of California.
- A “resident” is defined as a citizen of the United States or a person who holds a status that allows him or her to establish residency in the United States for a minimum of one year and one day, who has proof of physical presence in the State of California for one year and one day PRIOR TO the start of the semester for which California residency is being claimed, and who presents evidence of intention to make California his or her permanent home. Dates on any documentary evidence should correspond to dates of physical presence in California.
- A “nonresident” is a person who does not meet the residency requirements of the State of California or who is a citizen of a foreign country and holds only temporary status in the U.S.
- A student classified as a resident will be admitted to the College and exempt from paying nonresident tuition. Enrollment fees (\$46 per unit; subject to change) still apply.
- A student classified as a nonresident is required to pay a tuition fee of \$331 or \$307 (with AB 947 exemption) per semester unit in addition to enrollment fees of \$46 per unit (subject to change).
- A nonresident continuing student between the ages of 19 and 23 (inclusive) requesting reclassification to resident status must submit

a petition for change of residency status (Reclassification Form, obtained from the residence clerk in the Admissions Office), show proof of financial independence, provide documents that show the student was not claimed as a dependent for income tax purposes by parents in the past year, and present evidence of intent to establish California as his or her place of residence. Please see the Residency website at smc.edu/residency for helpful tips on establishing California residency.

RESIDENCE OF AN ADULT

A student who is 19 years of age or older and who has lived in California continuously for the last two years shall be presumed to have the intent to make California his or her home.

A student under 19 years of age shall be presumed to have the intent to make California his or her home if both the student and his or her parent(s) have lived in California continuously for the last two years.

A student who is 19 years of age or older applying for admission who has less than two years, but more than one year, of residence in California should be prepared to show proof of residence. Examples of evidence that aid the College admissions officer in identifying intent include, but are not limited to, the following documents:

- California Form 540 and Federal Form 1040 tax returns evidencing California residency/address (with acceptable dates);
- Paycheck stub OR letter of employment verification on company letterhead (signed by a manager of the personnel department);
- California bank account (checking or savings account statements showing charges in the State of California throughout the period while applying for residency determination);
- Marriage license or divorce decree issued in California (with acceptable dates);
- License or certificate issued by the State (with acceptable issue and expiration dates);
- California utility bill (one ONLY of the following: DWP, gas, telephone, cable, or other utility);
- California State aid or social welfare;
- Vehicle registration and/or vehicle insurance (California company);
- California-based health insurance OR Medi-Cal ID (with relevant dates noted);
- Military discharge papers (DD214) OR Leave and Earnings statement indicating California as State of Record;
- California property taxes (in student's name ONLY);
- Union membership in a California local; and
- California public library membership (verified by letter or printout with letterhead or branch stamp).

Documents are subject to verification, and the Admissions and Records Office reserves the right to ask for more documents when making a residency determination. Dates on documents must correspond with physical presence of one year and one day. Bring documentation to the Admissions Office. Restrictions apply. Please visit smc.edu/residency for further details.

RESIDENCE OF A MINOR

Unmarried minors (those younger than 18 years of age) are, by law, incapable of establishing their own residences, notwithstanding their physical presence within California. Admissions will use the following guidelines for determining a minor's residence:

- A minor's residence is the residence of the parent or legal guardian with whom the minor is living;

- If the minor is not living with a parent or legal guardian, then the residence of the parent or legal guardian with whom the minor last lived will be the residence of the minor.

When the residence of a minor student is derived from the parent or legal guardian, the durational requirement (one year in California) must be met by the parent or guardian, but is not required of the student.

A minor whose parents are not living and who does not have a legal guardian may establish his or her own residence.

EXCEPTIONS

Exceptions to the above guidelines will be made under certain circumstances as prescribed by California law and outlined in Administrative Regulation 4110 Residency Determination. See smc.edu/AdminRegulations for details.

VACA EXCEPTION (VACA H.R. 3230)

According to the Veterans Access, Choice, and Accountability Act (VACA H.R. 3230), a “covered individual” is defined as:

1. A veteran who lives in the state in which the institution of higher learning is located (regardless of his/her formal state of residence) and enrolls at the institution after a period of active-duty service of 90 days or more.
2. An individual who is entitled to rehabilitation under 38 U.S.C. 3102(a).
3. A spouse or child entitled to transferred education benefits who lives in the state in which the institution of higher learning is located (regardless of his/her formal state of residence) and enrolls in the school within 3 years of the transferor's discharge from a period of active-duty service of 90 days or more.
4. A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (provides Post-9/11 GI Bill benefits to the children and surviving spouses of service members who died in the line of duty while on active duty) who lives in the state in which the institution of higher learning is located (regardless of his/her formal state of residence) and enrolls in the school within three years of the Service member's death in the line of duty following a period of active duty service of 90 days or more.
5. A student who initially qualifies under the applicable requirements above will maintain “covered individual” status as long as he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the institution, even if the student enrolls in multiple programs, and shall continue to be exempt from paying nonresident tuition and other fees.

CALIFORNIA NONRESIDENT TUITION EXEMPTION

Any student, other than one with United States Citizenship and Immigration Services (USCIS) **nonimmigrant** visa status (see exception below for students who have been granted T or U visa status), who meets all of the following requirements, shall be exempt from paying nonresident tuition (this exemption is often referred to “AB 540” after the Assembly Bill which enacted the exemption)

- A student is exempt from paying nonresident tuition if the student meets *all* of the following four requirements:
 1. The student must have:
 - three (3) years of attendance at a California high school, or

- three (3) or more years of high school coursework and three (3) years of attendance in California elementary schools, California secondary schools, or a combination of California elementary and secondary schools, or
 - attended or attained credits at a combination of a California high school, California adult school, and/or California Community College for the equivalent of three (3) years or more, and
2. The student must have:
- graduated from a California high school or attained the equivalent prior to the start of the term (for example, passing the GED or HiSET or CPP), or
 - completed an Associate degree from a California Community College, or
 - completed the minimum requirements at a California Community College for transfer to the California State University or the University of California, and
3. The student must register as an entering student at, or current enrollment at, an accredited institution of higher education in California, and
4. The student must file an affidavit with the college stating that if the student is a non-citizen without current or valid immigration status, the student has filed an application to legalize immigration status, or will file an application as soon as the student is eligible to do so.
- Students who are nonimmigrants who are victims of trafficking, domestic violence, and other serious crimes who have been granted T or U visa status, under Title 8 of the United States Code, sections 1101(a)(15)(T) or (U) are eligible for this exemption.
 - Students who are nonimmigrants, other than those with T or U visa status as noted above, [for example, those who hold F (student) visas, B (visitor) visas, etc.] are not eligible for this exemption.
 - A year's equivalence at a California Community College is a minimum of 24 semester units of credit or 36 quarter units of credit. For noncredit courses, a year's attendance is a minimum of 420 hours, 210 hours for a semester, and 140 hours a quarter.
 - The accumulation of credit and/or noncredit in any academic year will be calculated in reference to a year's equivalence. Partial completion in an academic year is allowed. (Example: 12 units of credit courses in an academic year is equal to a semester for purposes of determining eligibility.)
 - Attendance in credit courses at a California Community College toward the attendance requirements shall not exceed two years of full-time attendance.
 - The student must file an exemption request including a signed affidavit with the college that indicates the student has met all applicable conditions described above. Student information obtained in this process is strictly confidential unless disclosure is required under law.
 - Students eligible for this exemption who are transferring to another California public college or university must submit a new request (and documentation if required) to each college under consideration.
 - Nonresident students meeting the criteria will be exempted from the payment of nonresident tuition, but they will *not* be classified as California residents. They continue to be "nonresidents."
 - The California Dream Act extends Cal Grant A and B Entitlement awards, Cal Grant C awards, the California Promise Grant, and institutional financial aid to students who meet these

criteria as well as the applicable criteria for eligibility for specific types of financial aid.

- AB540 does not provide federal student financial aid eligibility for undocumented students. These students remain ineligible for federal financial aid.

Forging the Future

through—the many different systems. Students will also gain practical experience through an internship that teams them with frontline workers, and a capstone project where they can hone their new skills while learning how to plan a career path of their own.

The program is the brainchild of Celina Alvarez, executive director of Housing Works of California, and Vanessa Rios, a senior advisor for workforce development at the Los Angeles Homeless Services Authority (LAHSA). Although they've been planting the seeds for a program like this for almost a decade, they're quick to note that the curriculum they've developed is a shared labor of love.

"We were the vessels," notes Rios. "We opened the discussion to frontline workers and others working in the field and asked them: What essential competencies are needed? What kind of education do frontline workers need to thrive? So it really came from those people doing the work."

"And there's definitely a need for intensive support and training for those entering this field," says Alvarez. "This line of work is challenging. The human suffering that frontline workers witness happens far too often." To address this, the new program features counselors who will mentor and support SMC students during their internships.

What Alvarez and Rios have accomplished is a game-changer for the field. Until now, no college has offered an education program focusing specifically on homeless services. People with degrees who work in the field usually come from social services or psychology—disciplines that, while relevant to homeless services, don't fully prepare students for the realities and rigors of the work.

"We have people who come in with a lot of heart and a lot of passion," Alvarez observes. "But they don't know how to do this work. And so, because they're doing what they think is the right thing to do, they could wind up causing a lot of harm."

"It was essential to tap into other sectors," Rios adds. "Or, in this case, the community college system, to leverage classroom instruction and assist in training individuals before they're deployed into the field. The other thing we needed was to develop a specialized training program with its own unique curriculum."

"Frontline workers are committed to helping people experiencing homelessness and they want to do more," Alvarez explains. "That's why this program is an opportunity to get the training and education to support career advancement."

Enrollment in the Homeless Service Work Program will initially be limited this fall to a small group of students recruited earlier this year. But that, Dr. Ramos notes, will likely change in the near future.

Biotechnology and Inclusivity

Occupying the sweet spot among technology, engineering, and biology, biotech has become one of the most exciting frontiers for discovery and innovation today, with groundbreaking advances in areas like drug and vaccine development, biodefense, personalized medicine, and conservation and sustainability. With a wide array of career opportunities, competitive salaries, and the chance to collaborate with the best and brightest minds, biotech offers a unique blend of challenge and reward.

Biotech, like other STEM-centric fields, suffers from a lack of diversity. According to a 2022 report from the Biotechnology Innovation Organization (BIO) – Measuring Diversity in the

“
Aquaculture offers food sustainability and an improved environment.
Biotechnology offers new pathways to health. **Homeless Service Work** careers improve our communities.”

Biotech Industry: Tracking Progress in Small and Large Companies – African Americans represent only six percent of the biotech and biopharma workforce, while Asian employees make up 21 percent, Hispanic/Latinx employees are seven percent, and Native American employees represent less than one percent.

"I would see all of these diversity initiatives trying to get more inclusivity in STEM and the life science industry," recalls Dr. Andria Denmon, SMC biology professor and a faculty lead for the Biotechnology Program. "But I always felt like, when I looked around, I didn't see a lot of people who looked like me. Or if they were in a STEM program, they didn't stay for very long. And that always bothered me."

Keck Foundation Grants \$1 Million to SMC

So when the W.M. Keck Foundation awarded SMC a \$1 million grant to create an equity-centered biotechnology program, Dr. Denmon, along with colleague Dr. Thomas Chen, eagerly seized on the opportunity. At the top of their priority list was the creation of a clear pathway to the biotech field, with an emphasis on supporting students from underserved communities. That meant offering a high-quality, immersive learning experience, while also reducing any challenges students might encounter when taking on an internship.

Today, that vision is a reality. The new biotech program offers students two stackable certificate options. The first consists of five introductory courses and an internship leading to immediate entry-level lab tech employment opportunities, while the second features advanced courses covering cell culture and immunoassay methods, microbiology fundamentals, and nano-biotechnology. For students interested in pursuing an Associate degree in Biotechnology, additional courses focusing on quality control and quality assurance issues will be required.

All of this, notes Dr. Denmon, would not have been possible without the involvement of the Keck Foundation, the National Science Foundation, and other generous funders. Thanks to their support, the new biotechnology program was able to secure advanced equipment and supplies, as well as fund student stipends and personnel expenses. Meanwhile, other key partners, such as Santa Monica-based Kite Pharma and biotech giant Amgen, have proven essential in ensuring students get hands-on experience.

"One of our priorities is establishing the infrastructure for internships and part-time jobs for our first-year cohorts," says Dr. Chen. "We anticipate being able to place students in the company they choose by next summer. This paves the way toward potential employment after the students receive their certificates."

Kite Pharma Offers Student Internships

Dr. Denmon is most excited about how the program is already breaking down barriers for historically underrepresented students. She notes that one of her biology students was recently tapped for a Kite Pharma internship—a first for any community college student.

"Traditionally, the company only picks students from a bachelor's program," she states. "But because of the relationship that we developed with them, they created an internship specifically for SMC students."

She grins. That internship was so successful that "this time, they'll have two paid internships available for our students."

Fieldwork and Internships at Heal the Bay Aquarium

A sense of urgency is what led Dr. Tower, Dr. Baghdasarian, and SMC Sustainability Manager Ferris Kavar to create SMC's new Aquaculture Program. Launched last spring, the program features a curriculum developed in partnership with AltaSea, a hub for scientific innovation and collaboration in the blue economy. Courses in the program cover marine biology, seawater chemistry, aquaculture system design, and hatchery techniques, and the program includes internships. To foster more employment opportunities for students, the program also features hands-on fieldwork, lab experience, and internships at the Heal the Bay Aquarium.

Translating Passion to Careers

These three programs are just the latest in SMC's new offerings. In the last few years, the College has launched several focused certificate and degree programs, including e-sports and administration of justice. Faculty and staff are already looking to the future, with a number of new programs that focus on real estate, cloud computing, data science, and cybersecurity. Additionally, a new barbering certificate program will be available to students starting this fall. All this work, Dr. Sedky says, is about finding the best career pathways for students—the occupations that speak to their interests or passions, the ones where there is room to grow and advance.

He adds that none of this would have been possible without people like Denmon, Tower, Alvarez, and all the others who had the vision and determination to make these new programs a reality.

"There's just a certain type of brilliance," Dr. Sedky notes, a hint of admiration in his voice. "They put all this hard work into developing these new programs that change the lives and trajectories of our students and create so many amazing opportunities."

FINANCIAL AID:

Useful Steps and Information

MAINTAINING PERSPECTIVE

Although the “financial aid process” may sometimes seem complicated — don’t give up. The best way to approach the process is to look at it this way: A student who received funding for the 2022-2023 academic year spent an average of about 6 hours gathering information, making photocopies, filling out forms, making more photocopies, and standing in line waiting to use the computer in order to apply for financial aid. However, since the average financial aid award was approximately \$1,500, this would translate into (at least) \$250 for each hour of effort.

FINANCIAL AID LANGUAGE

As you make your way through the financial aid process, you’ll find that certain acronyms and abbreviations are used regularly. Here’s a list of some you’ll probably encounter:

FAFSA — Free Application for Federal Student Aid. This is the application form that students must complete to apply for financial aid. The information submitted on the FAFSA is processed through the Federal Processing Center and financial aid eligibility information is provided directly to the college. The college then determines a student’s eligibility for financial aid, how much and what types of aid the student is eligible to receive, and how much the student is expected to contribute towards his or her education.

EFC — Expected Family Contribution. The amount of money that the student (and parent, when applicable) is expected to contribute toward covering the costs of the student’s education.

SAR — Student Aid Report. The form students receive, after their FAFSA has been processed, which notifies them of their eligibility status for financial aid.

FSEOG — Federal Supplemental Educational Opportunity Grant (see the box labeled “Types of Financial Aid Available” for information).

FWS — Federal Work-Study (see the box labeled “Types of Financial Aid Available” for information).

PLUS — Parent Loans for Undergraduate Students (see the box labeled “Types of Financial Aid Available” for information).

CCPG — A term that used to refer to the California College Promise Grants (see the box labeled “Types of Financial Aid Available” for information).

SSCG — Student Success Completion Grant (see the box labeled “Types of Financial Aid Available” for information).

Before You Begin

SMC offers a variety of *scholarships* and *financial aid* if you need financial assistance to help you attain your educational goals. However, you need to understand the difference between what is considered a scholarship and what is considered financial aid:

Scholarships come from private donors, foundations, and other non-government sources. Scholarships may or may not require you to have financial need to be eligible — and a surprising number of them don’t!

Financial aid comes from federal and state government sources and usually requires you to have demonstrated “financial need” (as well as meet a number of other requirements) to be eligible.

Visit the Scholarship Office to find out more about scholarships. There are more than 300 different types of scholarships available that you might qualify for — too many to list and describe here, but stop by the Scholarship Office as soon as possible. **In addition, don’t forget to look up additional scholarships at smc.edu/scholarships**

To find out more about financial aid, take a few minutes to read the information below...

If You Need Help

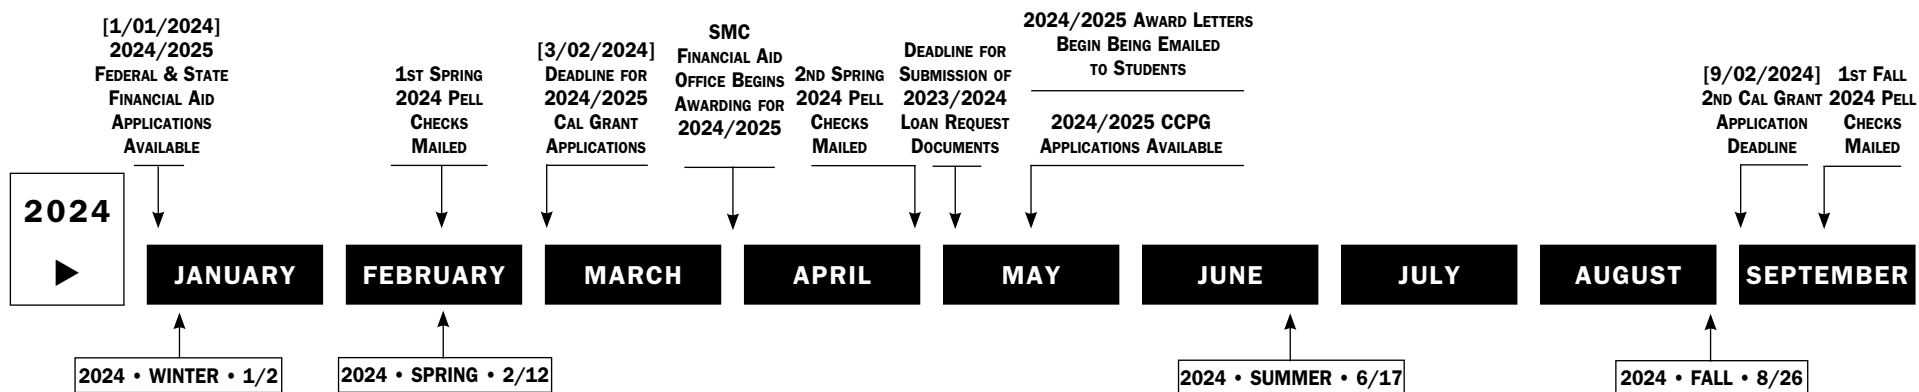

Determining what kind and how much financial aid you might be eligible to receive is often considered a complex process with a lot of variables. However, the process is not impossible to understand and certain application and award calculation procedures have recently been simplified a great deal.

Still, if things seem confusing to you, don’t panic! **At SMC, the Financial Aid Office will help you** apply for federal and state grants, work-study funds, and other financial assistance.

In order to be eligible for most types of financial aid, you must have “financial need” as determined by the federal government. You also need to commit some of your time and effort to working with the Financial Aid Office and **START THE FINANCIAL AID APPLICATION PROCESS AS EARLY AS POSSIBLE**. January is the best time to begin applying for the following academic year (see the timeline below for specific dates and deadlines).

The Financial Aid Office can assist you with your individual situation, answer your questions, sort out information, and help you to apply for financial aid funds.

DEADLINES

TIMELINE FOR APPLICATIONS

Here's How To Apply

When you apply for Federal Financial Aid, you will need to provide information about your personal financial situation. This information is used to determine whether your financial needs meet the requirements for eligibility for financial aid.

STEP 1:

In order to apply for the various types of Federal Financial Aid:

- You (and your parents or spouse, if applicable) need to complete the Free Application for Federal Student Aid (FAFSA) online at studentaid.gov/fafsa-app (be sure to apply for a PIN number BEFORE you submit your FAFSA).
- Be sure to use the IRS Data Retrieval Tool to transfer your financial information from your taxes to your application and also be sure to list the six digit Title IV school code for SMC 001265 – on your FAFSA.

NOTE: To apply for a Cal Grant for use at California colleges in the 2024-2025 award year, you must submit a 2024-2025 FAFSA AND a Cal Grant Grade Point Average (GPA) Verification Form. For "priority consideration," you need to submit both by May 2, 2024. The Cal Grant GPA Verification Form needs to be completed by the high school or college you most recently attended.

STEP 2:

After you have submitted your FAFSA:

- You will receive a Student Aid Report (SAR) in the mail, unless you provided an e-mail address. If you provided an e-mail address, you will receive an acknowledgement by e-mail and be referred back to the FAFSA website, where you can print out your SAR information.
- Check to make sure that all of the information listed on your SAR is correct. Pay particular attention to all comments listed on the SAR and any information in bold print or marked "assumed."
- If you need to make corrections to the SAR, inform the Financial Aid Office. Most corrections can be made electronically by SMC.

Students whose FAFSA information was rejected by the Federal Processing Center will receive a letter informing them that

they need to contact the Financial Aid Office immediately in order to correct and re-submit their information.

- Your Student Aid Report (SAR) will tell you if you are ELIGIBLE to receive a Federal Pell Grant. If you do not qualify for a Pell Grant, don't give up! You may still be eligible for other types of financial assistance, including federal work-study and scholarships.

STEP 3:

After the Financial Aid Office receives an electronic version of your FAFSA information from the Federal Processor, you will receive an email from Santa Monica College. This email will direct you to the Financial Aid Portal within Corsair Connect. In the Financial Aid Portal you can see what documents you need to submit or what actions you need to complete.

Students selected for verification will need to submit specific documents to "verify" certain information (such as income, number in household or number in college) listed on the FAFSA. As such, you may be requested to submit copies of federal tax returns and verification of untaxed income, assets, or number in household or college.

- Some students may have to submit proof of Selective Service Registration or Eligible Non-Citizen Status to the Financial Aid Office.
- After you have completed all of the required forms and have gathered together all of the requested additional documentation, you may either mail the documents or bring them to the Financial Aid Office.
- All of the documents should be returned within 15 working days from the day you received the written request.

STEP 4:

After the Financial Aid Office has received and reviewed all of your paperwork, if you are eligible for federal or state aid, you will be sent a:

"Financial Aid Award Notification Email" which will provide you with your estimated financial aid award package. Be advised that the financial aid award amounts listed in the Financial Aid Award Notification Letter are based on full-time enrollment of 12 units or more for both the fall and spring semesters.

STEP 5:

In addition to the FAFSA, if you are a California resident, be sure to complete and submit a California College Promise Grants (CCPG; formerly Board of Governors Fee Waivers) in order to determine if you are eligible to have certain enrollment fees waived. Eligibility is based on specific income criteria. You can download the CCPG application form from the Financial Aid Office's website at smc.edu/financialaid

NOTE: AB540 student can apply for Cal Grants and California College Promise Grants (CCPG; formerly Board of Governors Fee Waivers) by

completing the California Dream Application at the following: dream.csac.ca.gov

Information regarding the California Dream Act can be found at the SMC Financial Aid webpage: smc.edu/financialaid

Be sure to follow all instructions CAREFULLY. Remember, when applying for financial aid, you are dealing with several government entities. If something doesn't make sense to you, or if you think your information may be unclear, go to the Financial Aid Office and ask the staff to explain it to you. Ask questions until you are sure you understand.
