                  Lisa Rose, Task Force Assistant

III. **Orientation Workshop**

Superintendent/President Chui L. Tsang welcomed the members stating that there are two purposes of the strategic planning process (1) to work together as a college, and (2) to develop a process to make major recommendations.

- Facilitator Bill Reckmeyer presented the basics of the strategic planning process and outlined the plan for spring 2007. The process is aggressive but workable. The initial strategic planning process will take three to five years. The focus should be proactive, not reactive, and should be on areas that need attention in the form of time and resources.

- The process will start immediately with the development of a survey to be distributed college-wide. It will be developed incorporating important issues identified at two previous flex days and will solicit other important issues. The survey will be distributed on flex day and sent via college-wide email with responses due March 19th. The Task force will synthesize, summarize and cluster the responses and distribute college-wide Survey #2 for input. The third phase will be a college-wide forum.
Members of the Task Force were encouraged to get the word out and promote participation.

It was suggested that a sub-group be assigned with reviewing the mission statement.
