## Language Lab Credit Information

Students are not required to track Language Lab hours to earn Lab Credit.

Consult with your professor for guidance about lab usage and assignments.

Credit in the Language Lab is earned by completing valid lab activities (see below). To earn credit, complete sessions lasting between 20 to 60 minutes each day.

Sessions shorter than 20 minutes or longer than 60 minutes (*the daily maximum*) won't count towards credit. A session is a single continuous period of work; leaving during a session will end the current session.
