

# eConvenings

## California Community College Racial Equity Leadership Alliance

Year 2

# USC Race and Equity Center

This professional learning series is for full-time and part-time employees at Alliance member institutions. Each month, nationally renowned equity experts will offer a highly-engaging live session via Zoom on a different racial equity topic. Useful tools and practical strategies will be provided in every synchronous three-hour experience. Every campus can send up to 10 employees to each session – it could be the same 10 people, or a different set each month. While there is no cost, advance registration is required for each individual session. For information on how to register, please connect with your college contact for the alliance.
