

## **Fellowship Project Report**

This report summarizes my fellowship project and activities conducted. As established in the fellowship proposal approved by the Sabbaticals, Fellowships, and Awards committee, the report includes two forms of documentation, both included as separate attachments:

1. Documented curriculum revisions: A completed syllabus for a Creative Writing course detailing a Literary Citizenship component.

2. Creative project: A completed manuscript of short stories, currently titled *Defects*.

\*\*\* This second item should not be published on the committee's website, as it is a creative work I plan to publish with a literary press.

Attachments: Creative Writing syllabus

Manuscript of *Defects*
