CONSENT AGENDA: ACADEMIC AFFAIRS

RECOMMENDATION NO. 3 NEW COURSES AND DEGREES, FALL 2021
Requested Action: Approval/Ratification
Requested by: Curriculum Committee
Approved by: Bradley Lane, Vice-President, Academic Affairs

New Courses
ART 53A Introduction to Wheel Throwing
Students learn various forming techniques, with an emphasis on wheel throwing and the production of functional pottery forms. This course covers beginning problems of centering, throwing and shaping various functional and non-functional pottery. Students will be introduced to the process of glazing and basic firing techniques. Surface design techniques, such as stamping, carving, slip and oxide decoration, wax resist and glaze application methods are covered.

The Graphic Design faculty are working with their industry advisory board and the SMC Curriculum Committee to update the program to a more modern curriculum – to better reflect the current requirements for the employment in the design industry, and with a more intentional bridge to the IxD program. The new program proposal is forthcoming while the new and substantially changed courses have been approved and are described or listed below.

DESIGN 21, Design Methods
This course supplies students with a toolbox of techniques to build visual problem-solving and communication skills. Students will explore different methodologies used to kick-start the creative process: how to formulate design problems, establish constraints, ideate, and prototype solutions. A variety of different techniques are explored that designers use to conceptualize and visualize their ideas and present them in different mediums. Concepts covered include sketching, brainstorming, visual research, Interviewing, field research, moodboards, brand books, co-designing, mind mapping, and concept presentations.

DESIGN 31, Interactive Advertising
In this project-based course, students will apply graphic design skills to interactive advertising and social media platforms. Using appropriate tools, frameworks, and technologies, students will create interactive campaigns to promote, engage, and drive user behaviors as well as identify and apply various methods for measuring a project’s success. Students will use a hands-on approach to campaign creation through social media advertising, marketing strategies, and performance indicators to tell the story of a business or user—and the goals they want to achieve.

DESIGN 32, Communication Design
The class prepares students to participate in a visual communication campaign delivered across various media. The coursework focuses on the application of a consistent visual language to different platforms preserving branding and messaging cohesion. Supplied with a design brief for a single large campaign students will practice conceptualization, prototyping, pre-production and content delivery within the constraints of working towards a set goal and target audience.
DESIGN 41, Industry Project
This course focuses on an industry-sponsored project driven by a real-world brief. As a capstone class, students will build on the knowledge and skills they acquired in earlier course work. Students in this course will work independently or in small teams to research, prototype, and present design concepts in collaboration with the industry partner.

DESIGN 42, Information Design
Design and presentation of information is integral to all human cultures — from pictographs to alphabet to complex data visualizations. This course presents students with the opportunity to explore visual expressions of data and information, wayfinding systems and information-based narratives. Students will learn to create visual systems, data visualizations in print and on the Web, and effective and engaging presentations.

Funding will help determine the impact on student learning and engagement in STEM. In addition to monitoring course performance and equity gaps, we will use pre/post course surveys to measure students interest and confidence in science, science identity and impact on career aspirations. We will also measure students perceived learning gains in the areas relevant to the process of scientific inquiry, such as how knowledge is built from experimental evidence.

Title of Grant: Strong Workforce Program – Local Share Round 5: Fiscal year 2021-2022
Granting Agency: California Community Colleges Chancellor’s Office
Augmentation Amount: $122,569 (Amended Allocation $1,225,686)
Matching Funds: Not applicable
Performance Period: July 1, 2021 – June 30, 2023
Summary: The Local share of the Strong Workforce Program funds require colleges to increase the quantity of career technical education (CTE) enrollments, courses, completions, job placements, and wage gains while working to improve the quality of CTE.

In consideration of the economic conditions that resulted from the Covid-19 Pandemic which directly impacted the SWP formula factors – unemployment rate, CTE FTES, and job openings - the Chancellor’s Office has elected to calculate both the 2021-22 Base Allocation and 17% Incentive Funding using the same data factors as fiscal year 2020-21. These funds will be used in program investments to target and support outcomes that increase the annual number of students who earn degrees, credentials, certificates or specified skill sets to prepare them for an in-demand job; increase the number of students transferring annually to a UC or CSU; increase the average number of units accumulated by students earning associates degrees; increase the percentage of CTE students who report being employed in their field of study; and reduce equity gaps across all of the above measures through faster improvements among traditionally underrepresented student groups, with the goal of narrowing achievement gaps.

The current system of the Los Angeles County Office of Education requires Board approvals each month for budget adjustments. Only the net amount of the transfers in or out of the object codes is shown. In addition to the budget adjustments, transfers result from requests by managers to adjust budgets to meet changing needs during the course of the year.
