How to Establish California Residency at Santa Monica College for Tuition Purposes

A Presentation By:

Michael Dammer
Senior Enrollment Services Specialist

Jose G. Hernandez
Admissions & Records Supervisor
What is Residency?

- When you apply to any California Community College, the school is required to classify you as either **Resident**, or a **Nonresident**.
- Your residency classification is based on a variety of a factors such as your address, educational history, citizenship status, and how long you have lived in California.
- Your residency status determines the price you pay per unit:
  - Fall 2022 Nonresident Tuition Rate: $316 per unit**
  - Fall 2022 CA Resident Tuition Rate: $46 per unit
- **Plus additional surcharge, totals to $386/unit**
I have been admitted as a nonresident, can that be changed?

- Yes! Students are able to have their residency status adjusted up until the start of the semester they are attending.
- To initiate a review of your residency status, you will need to submit a completed Residency Questionnaire.
- Once you have completed the questionnaire you will be asked to upload and attach documentation to support that you have resided in California for more than one year prior to the start of the semester.

For Example: A student that moved to California in July of 2021 could qualify for California residency as soon as the Fall 2022 semester.
Residency Questionnaire

- If you have been admitted or attending as a Nonresident student and wish to adjust your status, you will want to start by completing our Residency Classification Questionnaire.

- You can find the Residency Classification Questionnaire online at www.smc.edu/Forms - click ‘Student Forms’ and select the Residency Questionnaire, you will be required to log in to your SMC network account to access the form.

- The Questionnaire will ask you several questions regarding where you have lived, worked, voted, filed taxes, attended college, as well as your citizenship status and financial dependence with out of state parents or guardians.

- Once you have completed the Questionnaire, you will be required to upload various documents that show how long you’ve been in the state of California.
Required Documentation

Simply attending college in California DOES NOT satisfy residency requirements!

- To establish California Residency for tuition purposes the student must provide a minimum of three documents to the Admissions and Records Office, with one from each category - Physical Presence, Intent, and Financial Independence.

- The documents from each category must be dated at least one year and one day from the start of the semester you are seeking to become a resident.

Example:

Fall 2022 begins: **August 29th, 2022**

Fall 2022 documents must be dated on or before: **August 28th, 2021**

- Don’t put it off! Taking the initiative to establishing residency when you first move to California could save you thousands of dollars down the road.
Acceptable Documents

- Remember: You need to provide a minimum of three separate sets of documents, with one from each area.

- Although a single document may satisfy multiple areas, it only counts towards one. You are required to provide three separate documents.

Ex: California Tax returns can be used to meet any of the three areas, but you would still be required to provide two additional documents.

Financial Independence

- The State of California has laid out very specific definitions of what they determine to be Financial Independence. Failure to meet the requirements will result in a denial of your Residency Questionnaire.

- Tax Dependency: Being claimed on Federal or State taxes by a parent or guardian that resides outside of the state of California will result in an automatic nonresident determination. Speak to your parents now so that they are aware of this and do not claim you on future tax filings.

- Financial Contributions: Receiving $750 or more from an out of state parent or guardian is considered financial dependence and will result in an automatic nonresident determination.
Citizenship Status Requirements

- You do NOT need to be a US citizen to establish California Residency
- Permanent residents, people seeking asylum or refugee status, DACA recipients, as well as a variety of immigrant visas are eligible to establish California Residency
- You will be asked to fill in your citizenship status information on the Residency Classification Questionnaire and to attach copies of the appliable citizenship documents along with your Proofs of California Residency
- If your immigration case is under review, please provide a clear photo or scan of your passport (entry stamps and Visas), along with any filing paperwork, so our Specialists can fully review your eligibility. As always, the more information we have the easier it is for us to determine your eligibility.
Timelines and Deadlines

- Santa Monica College is proudly home to thousands of out of state students, which means that we receive a lot of students seeking to reclassify their residency status.

- Given the amount of information each student is required to submit, the review period for Residency Classification Questionnaires is up to 14 business days.

- Submit your documents as early as possible to avoid delays in processing, especially as the semester payment deadline approaches! SMC does not allow for fee postponements. If your tuition rate isn’t adjusted before the payment deadline you may have to pay the nonresident tuition cost and wait to be refunded the difference in 6-8 weeks, if approved.

- Residency Classification Questionnaires must be submitted before the start of the semester to be considered. Failure to submit it on time will result in being responsible for any nonresident fees owed that semester.
Submitting Documents

- Santa Monica College recently transitioned over to a new web based forms system called “Dynamic Forms”, which allows students to submit and track a variety of student forms through an easy to manage website.
- Visit www.smc.edu/forms to access the forms, you will be required to sign in to your SMC network account before accessing the form.
- We require a clear photo or scan of all documents, if you do not provide clear copies you will be asked to resubmit the information.
- If you do not have access to a scanner, most smart phones have the capability to scan documents, either through native features or a third party app.
- **Fall 2022 Priority Deadline: July 27, 2022**
Admissions and Records is happy to provide further assistance with this process should you have any questions down the road.

Our Residency website has all requirements listed, visit www.smc.edu/Residency for full policy breakdowns.

You can email specific questions regarding your case to Residency@smc.edu - be sure to use your student email account so our staff know they are communicating with the student directly.

To talk to a live Admissions and Records representative you can add yourself to the QLess call list found at www.smc.edu/Admissions.
